

## Conference Committee on S.F. 2809/H.F. 3273 – Metropolitan Council Reform Bill

### Overview of Differences

S.F. 2809 and H.F. 3273 differ in three ways:

1. **Membership.** The differences affect the allocation of county commissioners for purposes of staggering terms.
  - The Senate has 29 members, including a mayoral appointee from Minneapolis and St. Paul.
  - The House has 28 members, not including mayoral appointees but instead adding a second Hennepin County commissioner (one from Minneapolis and one outside).
2. **Compensation.** The Senate provides for compensation that is in addition to compensation paid by local governments; the House does not.
3. **TAC.** The Senate requires a technical advisory committee on transportation matters; the House does not.

### Staff Recommendation

Nonpartisan Senate and House staff recommend conforming changes to section 1 of both bills, which is currently in conflict with other provisions of both bills.
