ARTICLE 2

EDUCATION EXCELLENCE

Section 1. [121A.201] MTSS AND COLLABORATIVE MINNESOTA PARTNERSHIPS TO ADVANCE STUDENT SUCCESS (COMPASS).

Beginning July 1, 2023, all Minnesota school districts and charter schools must be offered training and support in implementing MTSS through the Department of Education COMPASS team and the Department of Education's regional partners, the Minnesota service cooperatives. COMPASS is the state school improvement model providing a statewide system through which all districts and schools may receive support in the areas of literacy, math, social-emotional learning, and mental health within the MTSS framework. The MTSS framework is the state's systemic, continuous school improvement framework for ensuring positive social, emotional, behavioral, developmental, and academic outcomes for every student. MTSS provides access to layered tiers of culturally and linguistically responsive, evidence-based practices. The MTSS framework relies on the understanding and belief that every student can learn and thrive, and it engages an anti-bias and socially just approach to examining policies and practices and ensuring equitable distribution of resources and opportunity. The MTSS systemic framework requires:

1. a district-wide infrastructure consisting of effective leaders, collective efficacy among staff, positive school climate, linked teams, and professional learning that supports continuous improvement;

2. authentic engagement with families and communities to develop reciprocal relationships and build new opportunities for students together;

3. multilayered tiers of culturally and linguistically responsive instruction and support that allows every student the support they need to reach meaningful and rigorous learning standards. Tiers of support include core (Tier 1), supplemental (Tier 2), and intensive (Tier 3) instruction levels;

4. valid and reliable assessment tools and processes to assess student and system performance and inform necessary changes; and

5. a data-based decision-making approach in which problems are precisely defined and analyzed, solutions address root causes, and implementation is monitored to ensure success.

The data-based problem-solving component of the MTSS framework consists of three major subcomponents: accessible and integrated data, decision-making process, and system performance.

Sec. 4. Minnesota Statutes 2022, section 120B.12, is amended to read:

120B.12 READING PROFICIENTLY NO LATER THAN THE END OF GRADE 3 READ ACT GOAL AND INTERVENTIONS.
Subdivision 1. Literacy goal. (a) The legislature seeks to have every child reading at
or above grade level no later than the end of grade 3, every year, beginning in kindergarten,
including English multilingual learners, and that teachers provide comprehensive,
scientifically based instruction to students receiving special education services. School leaders and
educators must provide evidence-based reading instruction consistent with section 122A.06,
subdivision 4, through a focus on student mastery of the foundational reading skills of
phonemic awareness, phonics, and fluency, as well as the development of oral language,
vocabulary, and reading comprehension skills. Students must receive evidence-based
instruction that is proven to effectively teach children to read, consistent with sections
120B.12 to 120B.124.
(b) To meet this goal, each school district must provide teachers and instructional support staff with responsibility for teaching reading with training on evidence-based reading instruction that is approved by the Department of Education and CAREI. By 2025, a district must provide the training to intervention teachers working with students in kindergarten through grade 12, special education teachers, curriculum directors, instructional support staff that provide reading instruction, and any staff that selects literacy instructional materials for a district. By 2027, a district must provide the training to all classroom teachers of students in a prekindergarten program, and in kindergarten through grade 3. The commissioner may grant a district an extension to the deadlines in this paragraph.

(c) Districts are strongly encouraged to adopt a MTSS framework. The framework should include a process for monitoring student progress, evaluating program fidelity, and analyzing student outcomes and needs in order to design and implement ongoing evidenced-based instruction and interventions.

Subd. 2. Identification; report. (a) Each school district must identify before the end of Twice a year, each school district must screen every student enrolled in kindergarten, grade 1, and grade 2 all students who are not reading at grade level, and grade 3 using a screening tool approved by the Department of Education. Students identified as not reading at grade level by the end of kindergarten, grade 1, and grade 2, and grade 3, including multilingual learners and students receiving special education services, must be universally screened, in a locally determined manner for mastery of foundational reading skills, including phonemic awareness, phonics, decoding, fluency, oral language, and for characteristics of dyslexia as measured by a screening tool approved by the Department of Education. The screening for characteristics of dyslexia may be integrated with universal screening for mastery of foundational skills and oral language. A district must submit data on student performance in kindergarten, grade 1, grade 2, and grade 3 on foundational reading skills, including phonemic awareness, phonics, decoding, fluency, and oral language to the Department of Education in the annual local literacy plan.

(b) Students in grade 3 or higher who demonstrate a reading difficulty to a classroom teacher grades 4 and above, including multilingual learners and students receiving special education services, who are not demonstrating mastery of foundational reading skills, including phonemic awareness, phonics, decoding, fluency, and oral language, must be screened, in a locally determined manner, using a screening tool approved by the Department of Education for characteristics of dyslexia, unless a different reason for the reading difficulty has been identified, and continue to receive evidence-based instruction, interventions, and progress monitoring until the students achieve grade-level proficiency.
Reading assessments screeners in English, and in the predominant languages of district students where practicable, must identify and evaluate students' areas of academic need related to literacy. The district also must monitor the progress and provide reading instruction appropriate to the specific needs of English multilingual learners. The district must use a locally adopted, developmentally appropriate, and culturally responsive assessment screener and annually report summary assessment screener results to the commissioner by July 1.

The district also must annually report to the commissioner by July 1 include in its literacy plan under subdivision 4a, a summary of the district's efforts to screen and identify, and provide interventions to students who demonstrate characteristics of dyslexia using as measured by a screening tools such as those recommended by the department's dyslexia specialist tool approved by the Department of Education. Districts are strongly encouraged to use the MTSS framework. With respect to students screened or identified under paragraph (a), the report must include:

1. a summary of the district's efforts to screen for dyslexia;
2. the number of students universally screened for that reporting year; and
3. the number of students demonstrating characteristics of dyslexia for that year; and

A student must be provided with alternate instruction and interventions under section 125A.56, subdivision 1.

Subd. 2a. Parent notification and involvement. Schools, at least annually, must give the parent of each student who is not reading at or above grade level timely information about:

1. the student's reading proficiency as measured by a locally adopted assessment screener approved by the Department of Education;
2. reading-related services currently being provided to the student and the student's progress; and
3. strategies for parents to use at home in helping their student succeed in becoming grade-level proficient in reading in English and in their native language.

A district may not use this section to deny a student's right to a special education evaluation.
Subd. 3. Intervention. (a) For each student identified under subdivision 2, the district shall provide reading intervention to accelerate student growth and reach the goal of reading at or above grade level by the end of the current grade and school year. A district is encouraged to provide reading intervention through a MTSS framework. If a student does not read at or above grade level by the end of grade 3 the current school year, the district must continue to provide reading intervention until the student reads at grade level. District intervention methods shall encourage family engagement and, where possible, collaboration with appropriate school and community programs. Intervention methods that specialize in evidence-based instructional practices and measure mastery of foundational reading skills, including phonemic awareness, phonics, decoding, fluency, and oral language. Intervention may include, but are not limited to, requiring student attendance in summer school, intensified reading instruction that may require that the student be removed from the regular classroom for part of the school day, extended-day programs, or programs that strengthen students' cultural connections.

(b) A school district or charter school is strongly encouraged to provide a personal learning plan for a student who is unable to demonstrate grade-level proficiency, as measured by the statewide reading assessment in grade 3 or a screener identified by the Department of Education under section 120B.123. The district or charter school must determine the format of the personal learning plan in collaboration with the student's educators and other appropriate professionals. The school must develop the learning plan in consultation with the student's parent or guardian. The personal learning plan must include targeted instruction and ongoing progress monitoring of the student's progress, and address knowledge gaps and skill deficiencies through strategies such as specific exercises and practices during and outside of the regular school day, group interventions, periodic assessments or screeners, and reasonable timelines. The personal learning plan may include grade retention, if it is in the student's best interest; a student may not be retained solely due to delays in literacy or not demonstrating grade-level proficiency. A school must maintain and regularly update and modify the personal learning plan until the student reads at grade level. This paragraph does not apply to a student under an individualized education program.

Subd. 4. Staff development. (a) A district must provide training that is evidence-based to teachers and instructional staff in accordance with subdivision 1, paragraph (b). The training must include teaching in the areas of phonemic awareness, phonics, vocabulary development, reading fluency, reading comprehension, and culturally and linguistically responsive pedagogy.
Each district shall use the data under subdivision 2 to identify the staff development needs so that:

1. elementary teachers are able to implement comprehensive, scientifically based reading and oral language explicit, systematic, evidence-based instruction on foundational reading skills in the five reading areas of phonemic awareness, phonics, fluency, vocabulary, and comprehension as defined in section 122A.06, subdivision 4, 120B.121 and other literacy-related areas including writing until the student achieves grade-level reading and writing proficiency;

2. elementary teachers have sufficient training to provide comprehensive, scientifically based reading school students with evidence-based reading and oral language instruction that meets students' developmental, linguistic, and literacy needs using the intervention methods or programs selected by the district for the identified students;

3. licensed teachers employed by the district have regular opportunities to improve reading and writing instruction;

4. licensed teachers recognize students' diverse needs in cross-cultural settings and are able to serve the oral language and linguistic needs of students who are English multilingual learners by maximizing strengths in their native languages in order to cultivate students' English language development, including oral academic language development, and build academic literacy; and

5. licensed teachers are well trained in culturally responsive pedagogy that enables students to master content, develop skills to access content, and build relationships.

(c) A district must provide staff in early childhood programs sufficient training to provide children in early childhood programs with explicit, systematic instruction in phonological and phonemic awareness; oral language, including listening comprehension; vocabulary; and letter-sound correspondence.

Subd. 4a. Local literacy plan. (a) Consistent with this section, a school district must adopt a local literacy plan to have every child reading at or above grade level no later than the end of kindergarten through grade 3, including English learners, multilingual learners and students receiving special education services, demonstrate mastery of foundational literacy skills and read proficiently, at or above grade level, at every grade. The plan must be updated by August 1 each year. The plan must be consistent with section 122A.06, subdivision 4 the Read Act, and include the following:
(1) a process to assess students' level of reading proficiency and data to support the effectiveness of an assessment used to screen and identify a student's level of reading proficiency; the screeners used, by school site and grade level, under section 120B.123;

(2) a process to notify and involve parents;

(3) a description of how schools in the district will determine the proper targeted reading instruction that is evidence-based and includes an intervention strategy for a student and the process for intensifying or modifying the reading strategy in order to obtain measurable reading progress;

(4) evidence-based intervention methods for students who are not reading at or above grade level and progress monitoring to provide information on the effectiveness of the intervention; and

(5) identification of staff development needs, including a program to meet those needs;

(6) the literacy curriculum used by school site and grade level;

(7) a statement of whether the district has adopted a MTSS framework; and

(8) student data using the measures of foundational literacy skills and mastery identified by the Department of Education and CAREI.

(b) The district must post its literacy plan on the official school district website and submit it to the commissioner of education using the template developed by the commissioner of education once it is available.

(c) By March 1, 2024, the commissioner of education must develop a streamlined template for local literacy plans that meets the requirements of this subdivision and requires all reading instruction and teacher training in reading instruction to be evidence-based. The template must require a district to report information using the student categories required in the commissioner report under paragraph (d). The template must focus district resources on improving students' foundational reading skills while reducing paperwork requirements for teachers.

(d) Starting December 1, 2025, the commissioner of education must submit a report to the legislative committees with jurisdiction over prekindergarten through grade 12 education summarizing the local literacy plans submitted to the commissioner. The summary must include the following information:

The commissioner shall also make available examples of nationally recognized and research-based evidence-based instructional methods or programs to districts to provide comprehensive, scientifically based evidence-based reading instruction and intervention under this section.

Sec. 5. [120B.121] READ ACT DEFINITIONS.

Subdivision 1. Read Act. For purposes of sections 120B.12 to 120B.124, the following terms have the meanings given.

Subd. 4. Evidence-based. "Evidence-based" means the instruction or item described is based on reliable, trustworthy, and valid evidence and has demonstrated a record of success in increasing students' reading competency in the areas of phonemic awareness, phonics, vocabulary development, reading fluency, and reading comprehension. Evidence-based literacy instruction is explicit, systematic, evidence-based reading instruction that includes the acquisition of language, phonological and phonemic awareness, phonics and decoding, spelling, fluency, vocabulary, oral language, and comprehension that can be differentiated to meet the needs of individual students. Evidence-based instruction does not include the three-cueing system, as defined in subdivision 17.

Subd. 5. Fluency. "Fluency" means the ability of students to read text accurately, automatically, and with proper expression.

Subd. 6. Foundational reading skills. "Foundational reading skills" includes phonological and phonemic awareness, phonics and decoding, and fluency. Footer: Article 3 Sec. 5.
reading skills appropriate to each grade level must be mastered in kindergarten, grade 1, grade 2, and grade 3. Struggling readers in grade 4 and above who do not demonstrate mastery of grade-level foundational reading skills must continue to receive explicit, systematic instruction to reach mastery.

Subd. 7. Literacy specialist. "Literacy specialist" means a person licensed by the Professional Educator Licensing and Standards Board as a teacher of reading, a special education teacher, or a kindergarten through grade 6 teacher, who has completed professional development approved by the Department of Education in structured literacy.

Subd. 8. Literacy lead. "Literacy lead" means a literacy specialist with expertise in working with educators as adult learners. A district literacy lead must support the district's implementation of the Read Act; provide school-based coaching; support the implementation of structured literacy, interventions, curriculum delivery, and teacher training; assist with the development of personal learning plans; and train paraprofessionals and other support staff to support classroom literacy instruction. A literacy lead may be employed by one district, jointly by two or more districts, or may provide services to districts through a partnership with the Regional Centers of Excellence or another district.

Subd. 9. MTSS. "Multitiered system of support" or "MTSS" means a systemic, continuous improvement framework for ensuring positive social, emotional, behavioral, developmental, and academic outcomes for every student. The MTSS framework provides access to layered tiers of culturally and linguistically responsive, evidence-based practices and relies on the understanding and belief that every student can learn and thrive. Through a MTSS at the core (Tier 1), supplemental (Tier 2), and intensive (Tier 3) levels, educators provide high quality, evidence-based instruction and intervention that is matched to a student's needs; progress is monitored to inform instruction and set goals; and data is used for educational decision making.

Subd. 11. Phonemic awareness. "Phonemic awareness" means the ability to notice, think about, and manipulate individual sounds in spoken syllables and words.

Subd. 12. Phonics instruction. "Phonics instruction" means the explicit, systematic, and direct instruction of the relationships between letters and the sounds they represent and the application of this knowledge in reading and spelling.
Subd. 13. **Progress monitoring.** "Progress monitoring" means using data collected to inform whether interventions are working. Progress monitoring involves ongoing monitoring of progress that quantifies rates of improvement and informs instructional practice and the development of individualized programs using state-approved screening that is reliable and valid for the intended purpose.

Subd. 14. **Reading comprehension.** "Reading comprehension" means a function of word recognition skills, which includes phonemic awareness and language comprehension skills.

Subd. 15. **Structured literacy.** "Structured literacy" means an approach to reading instruction in which teachers carefully structure important literacy skills, concepts, and the sequence of instruction to facilitate children's literacy learning and progress. Structured literacy is characterized by the provision of systematic, explicit, sequential, and diagnostic instruction in phonemic awareness, phonics, fluency, vocabulary and oral language development, and reading comprehension.

Subd. 16. **Three-cueing system.** "Three-cueing system," also known as "meaning structure visual (MSV)," means a method that teaches students to use meaning, structure and syntax, and visual cues when attempting to read an unknown word.

Subd. 17. **Vocabulary development.** "Vocabulary development" means the process of acquiring new words. A robust vocabulary improves all areas of communication: listening, speaking, reading, and writing. Vocabulary growth is directly related to school achievement and is a strong predictor for reading success.

Sec. 6. Minnesota Statutes 2022, section 120B.122, subdivision 1, is amended to read:

Subdivision 1. **Purpose.** The department must employ a dyslexia specialist to provide technical assistance for dyslexia and related disorders and to serve as the primary source of information and support for schools in addressing the needs of students with dyslexia and related disorders. The dyslexia specialist shall also act to increase professional awareness and instructional competencies to meet the educational needs of students with dyslexia or identified with risk characteristics associated with dyslexia and shall develop implementation guidance and make recommendations to the commissioner consistent with section 122A.06, subdivision 4 sections 120B.12 to 120B.124, to be used to assist general education teachers and special education teachers to recognize educational needs and to improve literacy outcomes for students with dyslexia or identified with risk characteristics associated with dyslexia, including recommendations related to increasing the availability of online and asynchronous professional development programs and materials.

Subd. 3. Curriculum. A district must use evidence-based curriculum at each grade level that is designed around teaching the foundational reading skills of phonemic awareness, phonics, vocabulary development, reading fluency, and reading comprehension.

Subd. 4. MTSS Framework. A district is encouraged to use a data-based decision-making process within the MTSS framework to determine the evidence-based core reading instruction and Tier 2 or Tier 3 intervention required to meet a student's identified needs.

Subd. 5. Professional development. (a) A district must provide training that is evidence-based to all reading intervention teachers and literacy specialists by July 1, 2025; and by June 15, 2027, to other teachers in the district, prioritizing elementary school classroom teachers, teachers that work with students with disabilities, English learners, and students who qualify for the graduation incentives program under section 124D.68. The commissioner of education may grant the district an extension to the deadlines in this paragraph.

(b) The training must prepare teachers to provide:

(1) elementary school students with explicit, systematic instruction in the five reading areas of phonemic awareness, phonics, fluency, vocabulary, and comprehension as defined in section 120B.121 and other literacy-related areas, including writing and oral language, until the student achieves grade-level reading and writing proficiency; and

(c) The training must include teaching in the areas of phonemic awareness, phonics, vocabulary development, reading fluency, reading comprehension, and culturally and linguistically responsive pedagogy.
Subd. 6. **Literacy lead.** (a) By August 30, 2025, a district must employ or contract with a literacy lead, or be actively supporting a designated literacy specialist through the process of becoming a literacy lead. A board may satisfy the requirements of this subdivision by contracting with another school board or cooperative unit under section 123A.24 for the services of a literacy lead by August 30, 2025. A district may use Read Act funding to pay for training, substitute teachers to allow teachers time to attend trainings, and incentives for teachers that complete the training.

department and CAREI must review the request for reconsideration, consult with the Read

Act Implementation Advisory Council regarding the request, and approve or deny the request

within 60 days.

Subd. 3. Support. The department and CAREI must support district efforts to implement

the Read Act by:

(1) issuing guidance for teachers on implementing curriculum that is evidence-based,

or focused on structured literacy;

Subd. 4. Description. The grant program must provide funding that supports collaborative efforts that close opportunity gaps by:

1. ensuring school environments and curriculum validate, affirm, embrace, and integrate cultural and community strengths of students, families, and employees from all racial and ethnic backgrounds; and

2. addressing institutional racism with equitable school policies, structures, practices, and curricular offerings, consistent with the requirements for long-term plans under section 124D.861, subdivision 2, paragraph (c).

The test items must assess the candidates' knowledge, skill, and ability in comprehensive, scientifically based reading instruction under section 122A.06, subdivision 4, knowledge and understanding of the foundations of reading development, development of reading comprehension and reading assessment and instruction, and the ability to integrate that knowledge and understanding into instruction strategies under section 122A.06, subdivision 4.
(d) The requirement to pass a board-adopted reading, writing, and mathematics skills examination does not apply to nonnative English speakers, as verified by qualified Minnesota school district personnel or Minnesota higher education faculty, who, after meeting the content and pedagogy requirements under this subdivision, apply for a teaching license to provide direct instruction in their native language or world language instruction under section 120B.022, subdivision 1.

(c) All testing centers in the state must provide monthly opportunities for untimed content and pedagogy examinations. These opportunities must be advertised on the test registration website. The board must require the exam vendor to provide other equitable opportunities to pass exams, including: (1) waiving testing fees for test takers who qualify for federal grants; (2) providing free, multiple, full-length practice tests for each exam and free, comprehensive study guides on the test registration website; (3) making content and pedagogy exams available in languages other than English for teachers seeking licensure to teach in language immersion programs; and (4) providing free, detailed exam results analysis by test objective to assist candidates who do not pass an exam in identifying areas for improvement. Any candidate who has not passed a required exam after two attempts must be allowed to retake the exam, including new versions of the exam, without being charged an additional fee.

Sec. 5. Minnesota Statutes 2022, section 122A.40, subdivision 3, is amended to read:

The initial employment of the teacher in the district must be by written contract, signed by the teacher and by the chair and clerk. All subsequent employment of the teacher in the district must be by written contract, signed by the teacher and by the chair and clerk, except where there is a master agreement covering the employment of the teacher. A teacher shall not be required to reside within the employing district as a condition to teaching employment or continued teaching employment.

(b) A school district must annually report to the Professional Educator Licensing and Standards Board: (1) all new teacher hires and terminations, including layoffs, by race and
ethnicity; and (2) the reasons for all teacher resignations and requested leaves of absence.

The report must not include data that would personally identify individuals.

Sec. 6. Minnesota Statutes 2022, section 122A.40, subdivision 5, is amended to read:

(a) The first three consecutive years of a teacher's first teaching experience in Minnesota in a single district is deemed to be a probationary period of employment, and, the probationary period in each district in which the teacher is thereafter employed shall be one year. The school board must adopt a plan for written evaluation of teachers during the probationary period that is consistent with subdivision 8. Evaluation must occur at least three times periodically throughout each school year for a teacher performing services during that school year; the first evaluation must occur within the first 90 days of teaching service. Days devoted to parent-teacher conferences, teachers' workshops, and other staff development opportunities and days on which a teacher is absent from school must not be included in determining the number of school days on which a teacher performs services. Except as otherwise provided in paragraph (b), during the probationary period any annual contract with any teacher may or may not be renewed as the school board shall see fit. However, the board must give any such teacher whose contract it declines to renew for the following school year written notice to that effect before July 1. If the teacher requests reasons for any nonrenewal of a teaching contract, the board must give the teacher its reason in writing, including a statement that appropriate supervision was furnished describing the nature and the extent of such supervision furnished the teacher during the employment by the board, within ten days after receiving such request. The school board may, after a hearing held upon due notice, discharge a teacher during the probationary period for cause, effective immediately, under section 122A.44.

(b) A board must discharge a probationary teacher, effective immediately, upon receipt of notice under section 122A.20, subdivision 1, paragraph (b), that the teacher's license has been revoked due to a conviction for child abuse or sexual abuse.

(c) A probationary teacher whose first three years of consecutive employment are interrupted for active military service and who promptly resumes teaching consistent with federal reemployment timelines for uniformed service personnel under United States Code, title 38, section 4312(e), is considered to have a consecutive teaching experience for purposes of paragraph (a).

(d) A probationary teacher whose first three years of consecutive employment are interrupted for maternity, paternity, or medical leave and who resumes teaching within 12 months of when the leave began is considered to have a consecutive teaching experience.
for purposes of paragraph (a) if the probationary teacher completes a combined total of
three years of teaching service immediately before and after the leave.

(e) A probationary teacher must complete at least 120 days of teaching service each year
during the probationary period. Days devoted to parent-teacher conferences, teachers'
workshops, and other staff development opportunities and days on which a teacher is absent
from school do not count as days of teaching service under this paragraph.

(f) Notwithstanding any law to the contrary, a teacher who has taught for three
consecutive years in a single school district or charter school in Minnesota or another state
must serve a probationary period no longer than one year in a Minnesota school district.

schools in cities of the first class during the first three years of consecutive employment
shall be deemed to be in a probationary period of employment during which period any
annual contract with any teacher may, or may not, be renewed as the school board, after
consulting with the peer review committee charged with evaluating the probationary teachers
under subdivision 3, shall see fit. The school site management team or the school board if
there is no school site management team, shall adopt a plan for a written evaluation of
teachers during the probationary period according to subdivisions 3 and 5. Evaluation by
the peer review committee charged with evaluating probationary teachers under subdivision
3 shall occur at least three times periodically throughout each school year for a teacher
performing services during that school year; the first evaluation must occur within the first
90 days of teaching service. Days devoted to parent-teacher conferences, teachers' workshops,
and other staff development opportunities and days on which a teacher is absent from school
shall not be included in determining the number of school days on which a teacher performs
services. The school board may, during such probationary period, discharge or demote a
teacher for any of the causes as specified in this code. A written statement of the cause of
such discharge or demotion shall be given to the teacher by the school board at least 30
days before such removal or demotion shall become effective, and the teacher so notified
shall have no right of appeal therefrom.

(b) A probationary teacher whose first three years of consecutive employment are
interrupted for active military service and who promptly resumes teaching consistent with
federal reemployment timelines for uniformed service personnel under United States Code,
title 38, section 4312(e), is considered to have a consecutive teaching experience for purposes of paragraph (a).

(c) A probationary teacher whose first three years of consecutive employment are interrupted for maternity, paternity, or medical leave and who resumes teaching within 12 months of when the leave began is considered to have a consecutive teaching experience for purposes of paragraph (a) if the probationary teacher completes a combined total of three years of teaching service immediately before and after the leave.

A school district must annually report to the Professional Educator Licensing and Standards Board: (1) all new teacher hires and terminations, including layoffs, by race and ethnicity; and (2) the reasons for all teacher resignations and requested leaves of absence. The report must not include data that would personally identify individuals.

Sec. 9. Minnesota Statutes 2022, section 122A.415, subdivision 4, is amended to read:

Subd. 4. Basic alternative teacher compensation aid. (a) The basic alternative teacher compensation aid for a school with a plan approved under section 122A.414, subdivision 2b, equals 65 percent of the alternative teacher compensation revenue under subdivision 1. The basic alternative teacher compensation aid for a charter school with a plan approved under section 122A.414, subdivisions 2a and 2b, equals $260 times the number of pupils enrolled in the school on October 1 of the previous year, or on October 1 of the current year for a charter school in the first year of operation, times the ratio of the sum of the alternative teacher compensation aid and alternative teacher compensation levy for all participating schools to the total number of pupils in all schools.

(b) Notwithstanding paragraph (a) and subdivision 1, the state total basic alternative teacher compensation aid entitlement must not exceed $75,840,000 for fiscal year 2016 and $88,118,000 for fiscal year 2017; $88,466,000 for fiscal year 2023; $88,466,000 for fiscal year 2025; $88,244,000 for fiscal year 2026; and $87,940,000 for fiscal year 2027 and later. The commissioner must limit the amount of alternative teacher compensation aid approved under this section so as not to exceed these limits by not approving new participants or by prorating the aid among participating districts, intermediate school districts, school sites, and charter schools. The commissioner may also reallocate a portion of the allowable aid for the biennium from the second year to the first year to meet the needs of approved participants.

(c) Basic alternative teacher compensation aid for an intermediate district or other cooperative unit equals $3,000 times the number of licensed teachers employed by the intermediate district or cooperative unit on October 1 of the previous school year.

Sec. 10. Minnesota Statutes 2022, section 122A.59, is amended to read:

122A.59 COME TEACH IN MINNESOTA HIRING BONUSES.

Subdivision 1. Purpose. This section establishes a program to support districts and schools recruiting and offering hiring bonuses for licensed teachers who are American Indian or a person of color from another state or country in order to meet staffing needs in shortage areas in economic development regions in Minnesota.

Subd. 2. Eligibility. A district or school must verify that the hiring bonus is given to teachers licensed in persons from another state or country who:

(1) immediately qualify for a Tier 3 or Tier 4 Minnesota license;

(2) have moved to the economic development region in Minnesota where they were hired; and

(3) belong to a racial or ethnic group that is underrepresented among teachers compared to students in the district or school under section 120B.35, subdivision 3, paragraph (b), clause (2).

Subd. 3. Bonus amount. A district or school may offer a signing hiring and retention bonus of a minimum of $2,500 and a maximum of $8,000 to a teacher who meets the eligibility requirements. A teacher who meets the eligibility requirements and...
meets a licensure shortage area in the economic development region of the state where the
school is located may be offered a **signing** hiring bonus of a minimum of $4,000 $5,000
and a maximum of $8,000 $10,000. A teacher must be paid half of the bonus when starting
employment and half after completing four years of service in the hiring district or school
if the teacher has demonstrated teaching effectiveness and is not on a professional
improvement plan under section 122A.40, subdivision 8, paragraph (b) or (13),
or section 122A.41, subdivision 5, paragraph (b), clause (12) or (13), or is not being
considered for termination for a reason listed in section 122A.40, subdivision 9, including
a teacher hired by a school district located in a city of the first class. A teacher who does
not complete their first school year upon receiving a hiring bonus must repay the hiring
bonus. A teacher must have a Tier 3 or Tier 4 Minnesota teaching license to qualify for the
second half of the bonus. A district must prorate the second half of the bonus if the eligible
teacher is nonrenewed due to reasons not having to do with teaching effectiveness or
misconduct.

Subd. 4. **Administration.** (a) The commissioner must establish a process for districts
or schools to seek reimbursement for hiring bonuses given to teachers in shortage areas
moving to and working in Minnesota schools experiencing specific shortages. The
commissioner must provide guidance for districts to seek repayment of a hiring bonus from
a teacher who does not complete the first year of employment. The department may conduct
a pilot program with a small number of teachers during the 2022-2023 biennium to establish
feasibility. The department must submit a report by December 1, 2022, to the chairs and
ranking minority members of the legislative committees with jurisdiction over kindergarten
through grade 12 education detailing the effectiveness of the program and recommendations
for improvement in future years.

(b) The commissioner may award participating districts and schools additional funds to
administer the program, including out-of-state recruiting efforts and retention activities.
The commissioner may allow participating districts and schools to reserve up to five percent
of Come Teach in Minnesota funding to administer the program, including for out-of-state
recruiting efforts and retention activities.

Subd. 5. **Come Teach in Minnesota Hiring Bonus program account.** (a) An account
is established in the special revenue fund known as the "Come Teach in Minnesota Hiring
Bonus program account."

(b) Funds appropriated for the Come Teach in Minnesota Hiring Bonus program under
this section must be transferred to the Come Teach in Minnesota Hiring Bonus program
account in the special revenue fund.
(c) Money in the account is annually appropriated to the commissioner for hiring bonuses under this section. Any returned funds are available to be regranted.

(d) Up to $35,000 annually is appropriated to the commissioner for costs associated with developing and administering the program under this section.

EFFECTIVE DATE. The amendment to subdivision 2 is effective retroactively from July 1, 2022. The amendments to subdivisions 1, 3, and 4 are effective the day following final enactment.

Sec. 11. [122A.631] SUPPORTING HERITAGE LANGUAGE AND CULTURE TEACHERS.

Subdivision 1. Purpose. The purpose of this section is to increase the number of heritage language and culture teachers in Minnesota.

Subd. 2. Definitions. "Heritage language and culture teachers" means teachers with a connection to a community's language and culture who use this connection to support students as they learn academic content or the language and culture of that particular community.

Subd. 3. Eligibility. Applicants for the heritage language and culture licensure pathway program must:

(1) hold a current license issued by the Professional Educator Licensing and Standards Board or meet the criteria for licensure in 122A.181; and

(2) seek initial, dual, or additional licensure in a heritage language.

Subd. 4. Heritage language and culture teacher licensure pathway program. (a) The Professional Educator Licensing and Standards Board shall develop a program to support initial and additional licensure for heritage language and culture teachers. The program must include:

(1) a yearlong mentorship program;

(2) monthly meetings where applicants receive guidance on completing the portfolio process from a portfolio liaison, dedicated specifically to facilitating this program;

(3) a stipend to cover substitute teachers when meetings take place during the school day;

(4) a waiver for all portfolio and licensure testing fees; and

(5) a portfolio review committee created by the board.
(b) For applicants seeking an initial license in a world language and culture, the applicant must demonstrate meeting the standards of effective practice in Minnesota Rules, part 8710.2000 and content-specific pedagogical standards in Minnesota Rules, part 8710.4950, through the portfolio process.

(c) For applicants seeking a dual license, the applicant must demonstrate meeting the standards of effective practice in Minnesota Rules, part 8710.2000, content-specific pedagogical standards in Minnesota Rules, part 8710.4950, and all standards for the chosen dual license through the portfolio process.

(d) For applicants seeking an additional license in a world language and culture, the applicant must demonstrate meeting the content-specific pedagogical standards in Minnesota Rules, part 8710.4950.

Subd. 5. Heritage language and culture educators seeking a world language license. Heritage language and culture teachers seeking a world language and culture license pursuant to Minnesota Rules, part 8710.4950, who demonstrate proficiency through one of the following may use this proficiency to evidence meeting the required content-specific world language and culture standards, which do not include content-specific pedagogical standards, for licensure in their heritage language:

(1) passing a board-adopted assessment;

(2) holding a certificate to serve as a translator or interpreter; or

(3) completing an undergraduate or postbaccalaureate degree from an accredited university where the majority of coursework was taught via the non-English instructional language.

Sec. 12. Minnesota Statutes 2022, section 122A.635, is amended to read:

**122A.635 COLLABORATIVE URBAN AND GREATER MINNESOTA EDUCATORS OF COLOR GRANT PROGRAM.**

Subdivision 1. Establishment. The Professional Educator Licensing and Standards Board must award competitive grants to increase the number of teacher candidates who are of color or who are American Indian, complete teacher preparation programs, and meet the requirements for a Tier 3 license under section 122A.183. Eligibility for a grant under this section is limited to public or private higher education institutions that offer a teacher preparation program approved by the Professional Educator Licensing and Standards Board.
Subd. 2. Competitive grants. (a) The Professional Educator Licensing and Standards Board must award competitive grants to a variety of higher education institution types under this section. The board must require an applicant institution to submit a plan describing how it would use grant funds to increase the number of teachers who are of color or who are American Indian, and must award grants based on the following criteria, listed in descending order of priority:

(1) the number of teacher candidates being supported in the program who are of color or who are American Indian;

(2) program outcomes, including graduation or program completion rates, and licensure recommendation rates, and placement rates for candidates who are of color or who are American Indian compared to all candidates enrolled in a teacher preparation program at the institution and, for each outcome measure, the number of those teacher candidates who are of color or who are American Indian; and

(3) the percent of racially and ethnically diverse teacher candidates enrolled in the institution compared to:

(i) the total percent of students of color and American Indian students enrolled at the institution, regardless of major; and

(ii) the percent of underrepresented racially and ethnically diverse teachers in the economic development region of the state where the institution is located and where a shortage of diverse teachers exists, as reported under section 122A.091, subdivision 5.

(2) the extent to which an institution's plan is clear in describing how the institution would use grant funds for implementing explicit research-based practices to provide programmatic support to teacher candidates who are of color or who are American Indian.

Plans for grant funds may include:

(i) recruiting more racially and ethnically diverse candidates for admission to teacher preparation programs;

(ii) providing differentiated advising, mentoring, or other supportive community-building activities in addition to what the institution provides to all candidates enrolled in the institution;

(iii) providing academic tutoring or support to help teacher candidates pass required assessments; and

(iv) providing for program staffing expenses;
(3) an institution's plan to provide direct financial assistance as scholarships or stipends within the allowable dollar range determined by the board under subdivision 3, paragraph (b), to teacher candidates who are of color or who are American Indian;

(b) The board must give priority in awarding grants under this section to institutions that received grants under Laws 2017, First Special Session chapter 5, article 2, section 57, subdivision 27, and have demonstrated continuing success at recruiting, retaining, graduating, and inducting (4) whether the institution has previously received a competitive grant under this section and has demonstrated positive outcomes from the use of grant funds for efforts helping teacher candidates who are of color or who are American Indian to enroll in and successfully complete teacher preparation programs and be recommended for licensure;

(5) geographic diversity among the institutions. In order to expand the number of grant recipients throughout the state, whenever there is at least a 20 percent increase in the base appropriation for this grant program, the board must prioritize awarding grants to institutions outside of the Twin Cities metropolitan area. If the board awards a competitive grant based on the criteria in paragraph (a) to a program that has not previously received funding, the board must thereafter give priority to the program equivalent to other programs given priority under this paragraph, that have received grants and demonstrated positive outcomes; and

(6) the percentage of racially and ethnically diverse teacher candidates enrolled in the institution compared to:

(i) the aggregate percentage of students of color and American Indian students enrolled in the institution, regardless of major; and

(ii) the percentage of underrepresented racially and ethnically diverse teachers in the economic development region of the state where the institution is located and where a shortage of diverse teachers exists, as reported under section 122A.091, subdivision 5.

(b) The board must not penalize an applicant institution in the grant review process for using grant funds only to provide direct financial support to teacher candidates if that is the institution's priority and the institution uses other resources to provide programmatic support to candidates.

(c) The board must determine award amounts for development, maintenance and, or expansion of programs based only on the degree to which applicants meet the criteria in this subdivision, the number of candidates who are of color or who are American Indian supported by an applicant program, sustaining support for those candidates, and funds available.
(d) The board must determine grant awards in part by multiplying the number of teacher candidates to be provided direct financial assistance by the average amount the institution proposes per candidate that is within the allowable dollar range. After assessing an institution’s adherence to grant criteria and funds available, the board may grant an institution a lower average amount per candidate and the institution may decide to award less per candidate or provide financial assistance to fewer candidates within the allowable range. Additionally, an institution may use up to 25 percent of the awarded grant funds to provide programmatic support as described in paragraph (a), clause (3). If the board does not award an applicant institution’s full request, the board must allow the institution to modify how it uses grant funds to maximize program outcomes consistent with the requirements of this section.

Subd. 3. Grant program administration. (a) The Professional Educator Licensing and Standards Board may enter into an interagency agreement with the Office of Higher Education. The agreement may include a transfer of funds to the Office of Higher Education to help establish and administer the competitive grant process. The board must award grants to institutions located in various economic development regions throughout the state, but must not predetermine the number of institutions to be awarded grants under this section or set a limit for the amount that any one institution may receive as part of the competitive grant application process.

(b) The board must establish a standard allowable dollar range for the amount of direct financial assistance an applicant institution may provide to each candidate. To determine the range, the board may collect de-identified data from institutions that received a grant during the previous grant period and calculate the average scholarship amount awarded to all candidates across all institutions using the most recent fiscal year data available. The calculation may be used to determine a scholarship range that is no more than 25 percent than this amount and no less than half the average of this amount. The purpose of direct financial assistance is to assist candidates matriculating through completing licensure programs if they demonstrate financial need after considering other grants and scholarships provided.

(c) All grants must be awarded by August 15 of the fiscal year in which the grants are to be used except that, for initial competitive grants awarded for fiscal year 2020, grants must be awarded by September 15. An institution that receives a grant under this section may use the grant funds over a two- to four-year period to sustain support for teacher candidates at any stage from recruitment and program admission to graduation and licensure application.
Subd. 4. Report. (a) By January August 15 of each year, an institution awarded a grant under this section must prepare for the legislature and the board a detailed report regarding the expenditure of grant funds, including the amounts used to recruit, retain, and induct support teacher candidates of color or who are American Indian teacher candidates to complete programs and be recommended for licensure. The report must include:

(1) the total number of teacher candidates of color, disaggregated by race or ethnic group, who and American Indian teacher candidates who:

   (i) are enrolled in the institution;

   (ii) are supported by grant funds with direct financial assistance during the academic reporting year;

   (iii) are supported with other programmatic supports;

   (iv) are recruited to the institution, are and newly admitted to the a licensure program,

   are enrolled in the:

   (v) are enrolled in a licensure program;

   (vi) have completed a licensure program, have completed student teaching, have graduated, are licensed, and are newly employed as Minnesota teachers in their licensure field. A grant recipient must report; and

   (vii) were recommended for licensure in the field for which they were prepared;

(2) the total number of teacher candidates of color or who are American Indian teacher candidates at each stage from recruitment program admission to licensed teaching licensure recommendation as a percentage of total all candidates seeking the same licensure at the institution; and

(3) a brief narrative describing the successes and challenges of efforts proposed in the grant application to support candidates with grant funds, and lessons learned for future efforts.

(b) By November 1 of each year, the board must post a report on its website summarizing the activities and outcomes of grant recipients and results that promote sharing of effective practices and lessons learned among grant recipients.
Sec. 13. Minnesota Statutes 2022, section 122A.70, is amended to read:

(a) School districts must develop teacher mentoring programs for teachers new to the profession or district, including teaching residents, teachers of color, teachers who are American Indian, teachers in license shortage areas, teachers with special needs, or experienced teachers in need of peer coaching.

(b) Teacher mentoring programs must be included in or aligned with districts' teacher evaluation and peer review processes under sections 122A.40, subdivision 8, and 122A.41, subdivision 5. A district may use staff development revenue under section 122A.61, special grant programs established by the legislature, or another funding source to pay a stipend to a mentor who may be a current or former teacher who has taught at least three years and is not on an improvement plan. Other initiatives using such funds or funds available under sections 124D.861 and 124D.862 may include:

(1) additional stipends as incentives to mentors of color or who are American Indian;

Retention strategies may include providing financial incentives for teachers of color and teachers who are American Indian to work in the school or district for at least five years and placing American Indian educators in...
at sites with other American Indian educators and educators of color at sites with other educators of color to reduce isolation and increase opportunity for collegial support.

Subd. 2. Board grants. A school district, a group of school districts, a coalition of districts, teachers, and teacher education institutions, or a school or coalition of schools, or a coalition of teachers, or nonlicensed educators may apply for a program grant. A higher education institution or nonprofit organization may partner with a grant applicant but is not eligible as a sole applicant for grant funds. The Professional Educator Licensing and Standards Board, in consultation with the teacher mentoring task force, must approve or disapprove the applications. To the extent possible, the approved applications must reflect effective mentoring, professional development, and retention components, and be geographically distributed throughout the state. The Professional Educator Licensing and Standards Board must encourage the selected sites to consider the use of its assessment procedures.

Subd. 2a. Funded work. (a) Grant funds may be used for the following:

(1) additional stipends as incentives to mentors who are of color or who are American Indian;

may include providing financial incentives for teachers of color and teachers who are American Indian to work in the school or district for at least five years and placing American Indian educators at sites with other American Indian educators and educators of color at sites with other educators of color to reduce isolation and increase opportunity for collegial support.

Subd. 3. Criteria for selection. (a) At a minimum, applicants for grants under subdivision 2 must express commitment to:

Subd. 6. Report. By June September 30 of each year after receiving a grant, recipients must submit a report to the Professional Educator Licensing and Standards Board on program efforts that describes mentoring and induction activities and assesses the impact of these programs on teacher effectiveness and retention. (3) Desegregation transportation is transportation within and outside of the district during the regular school year of pupils to and from schools located outside their normal attendance areas under a plan for desegregation mandated by the commissioner or under court order.

(4) "Transportation services for pupils with disabilities" is:

(i) transportation of pupils with disabilities who cannot be transported on a regular school bus between home or a respite care facility and school;
(ii) necessary transportation of pupils with disabilities from home or from school to other buildings, including centers such as developmental achievement centers, hospitals, and treatment centers where special instruction or services required by sections 125A.03 to 125A.24, 125A.26 to 125A.48, and 125A.65 are provided, within or outside the district where services are provided;

(iii) necessary transportation for resident pupils with disabilities required by sections 125A.12, and 125A.26 to 125A.48;

(iv) board and lodging for pupils with disabilities in a district maintaining special classes;

(v) transportation from one educational facility to another within the district for resident pupils enrolled on a shared-time basis in educational programs, and necessary transportation required by sections 125A.18, and 125A.26 to 125A.48, for resident pupils with disabilities who are provided special instruction and services on a shared-time basis or if resident pupils are not transported, the costs of necessary travel between public and private schools or neutral instructional sites by essential personnel employed by the district's program for children with a disability;

(vi) transportation for resident pupils with disabilities to and from board and lodging facilities when the pupil is boarded and lodged for educational purposes;

(vii) transportation of pupils for a curricular field trip activity on a school bus equipped with a power lift when the power lift is required by a student's disability or section 504 plan; and

(viii) services described in clauses (i) to (vii), when provided for pupils with disabilities in conjunction with a summer instructional program that relates to the pupil's individualized education program or in conjunction with a learning year program established under section 124D.128.

For purposes of computing special education initial aid under section 125A.76, the cost of providing transportation for children with disabilities includes (A) the additional cost of transporting a student in a shelter care facility as defined in section 260C.007, subdivision 30, a student placed in a family foster home as defined in section 260C.007, subdivision 16b, a homeless student in another district to the school of origin, or a formerly homeless student from a permanent home in another district to the school of origin but only through the end of the academic year; and (B) depreciation on district-owned school buses purchased after July 1, 2005, and used primarily for transportation of pupils with disabilities, calculated according to paragraph (a), clauses (ii) and (iii). Depreciation costs included in the disabled transportation category must be excluded in calculating the actual expenditure per pupil.
transported in the regular and excess transportation categories according to paragraph (a).

For purposes of subitem (A), a school district may transport a child who does not have a school of origin to the same school attended by that child's sibling, if the siblings are homeless or in a shelter care facility.

(5) "Nonpublic nonregular transportation" is:

(i) transportation from one educational facility to another within the district for resident pupils enrolled on a shared-time basis in educational programs, excluding transportation for nonpublic pupils with disabilities under clause (4);

(ii) transportation within district boundaries between a nonpublic school and a public school or a neutral site for nonpublic school pupils who are provided pupil support services pursuant to section 123B.44; and

(iii) late transportation home from school or between schools within a district for nonpublic school pupils involved in after-school activities.

(c) "Mobile unit" means a vehicle or trailer designed to provide facilities for educational programs and services, including diagnostic testing, guidance and counseling services, and health services. A mobile unit located off nonpublic school premises is a neutral site as defined in section 123B.41, subdivision 13.

Sec. 5. Minnesota Statutes 2022, section 124D.128, subdivision 2, is amended to read:

Subd. 2. Commissioner designation. (a) A state-approved alternative program designated by the state must be a site. A state-approved alternative program must provide services to students who meet the criteria in section 124D.68 and who are enrolled in:

(1) a district that is served by the state-approved alternative program; or

(2) a charter school located within the geographic boundaries of a district that is served by the state-approved alternative program.

(b) To be designated, a state-approved alternative program must demonstrate to the commissioner that it will:

(1) provide a program of instruction that permits pupils to receive instruction throughout the entire year; and

(2) develop and maintain a separate record system that, for purposes of section 126C.05, permits identification of membership attributable to pupils participating in the program.

The record system and identification must ensure that the program will not have the effect of increasing the total average daily membership attributable to an individual pupil as a
result of a learning year program. The record system must include the date the pupil originally
enrolled in a learning year program, the pupil’s grade level, the date of each grade promotion,
the average daily membership generated in each grade level, the number of credits or
standards earned, and the number needed to graduate.

(c) A student who has not completed a school district's graduation requirements may
continue to enroll in courses the student must complete in order to graduate until the student
satisfies the district's graduation requirements or the student is 21 years old, whichever
comes first. A student with a disability as set forth in section 125A.02 may continue to
enroll in courses until the student graduates with a regular high school diploma or the student
is 22 years old, whichever comes first.

Sec. 6. Minnesota Statutes 2022, section 124D.68, subdivision 2, is amended to read:

Subd. 2. Eligible pupils. (a) A pupil under the age of 21 or who meets the requirements
of section 120A.20, subdivision 1, paragraph (c), is eligible to participate in the graduation
incentives program, if the pupil:

(1) performs substantially below the performance level for pupils of the same age in a
locally determined achievement test;

(2) is behind in satisfactorily completing coursework or obtaining credits for graduation;

(3) is pregnant or is a parent;

(4) has been assessed as having substance use disorder;

(5) has been excluded or expelled according to sections 121A.40 to 121A.56;

(6) has been referred by a school district for enrollment in an eligible program or a
program pursuant to section 124D.69;

(7) is a victim of physical or sexual abuse;

(8) has experienced mental health problems;

(9) has experienced homelessness sometime within six months before requesting a
transfer to an eligible program;

(10) speaks English as a second language or is an English learner;

(11) has withdrawn from school or has been chronically truant; or

(12) is being treated in a hospital in the seven-county metropolitan area for cancer or
other life threatening illness or is the sibling of an eligible pupil who is being currently
treated, and resides with the pupil's family at least 60 miles beyond the outside boundary of the seven-county metropolitan area.

(b) A pupil otherwise qualifying under paragraph (a) who is at least 21 years of age and not yet 22 years of age, and is an English learner with an interrupted formal education according to section 124D.59, subdivision 2a, or is a pupil with a disability as set forth in section 125A.02, is eligible to participate in the graduation incentives program under section 124D.68 and in concurrent enrollment courses offered under section 124D.09, subdivision 10, and is funded in the same manner as other pupils under this section.

Sec. 7. Minnesota Statutes 2022, section 125A.03, is amended to read:

125A.03 SPECIAL INSTRUCTION FOR CHILDREN WITH A DISABILITY.

(a) As defined in paragraph (b), every district must provide special instruction and services, either within the district or in another district, for all children with a disability, including providing required services under Code of Federal Regulations, title 34, section 300.121, paragraph (d), to those children suspended or expelled from school for more than ten school days in that school year, who are residents of the district and who are disabled as set forth in section 125A.02. For purposes of state and federal special education laws, the phrase "special instruction and services" in the state Education Code means a free and appropriate public education provided to an eligible child with disabilities. "Free appropriate public education" means special education and related services that:

(1) are provided at public expense, under public supervision and direction, and without charge;

(2) meet the standards of the state, including the requirements of the Individuals with Disabilities Education Act, Part B or C;

(3) include an appropriate preschool, elementary school, or secondary school education; and

(4) are provided to children ages three through 21 in conformity with an individualized education program that meets the requirements of the Individuals with Disabilities Education Act, subpart A, sections 300.320 to 300.324, and provided to infants and toddlers in conformity with an individualized family service plan that meets the requirements of the Individuals with Disabilities Education Act, subpart A, sections 303.300 to 303.346.

(b) Notwithstanding any age limits in laws to the contrary, special instruction and services must be provided from birth until July 1 after the child with a disability becomes 21 years old until the child with a disability becomes 22 years old but shall not extend beyond
secondary school or its equivalent, except as provided in section 124D.68, subdivision 2.

Local health, education, and social service agencies must refer children under age five who are known to need or suspected of needing special instruction and services to the school district. Districts with less than the minimum number of eligible children with a disability as determined by the commissioner must cooperate with other districts to maintain a full range of programs for education and services for children with a disability. This section does not alter the compulsory attendance requirements of section 120A.22.

(c) At the board's discretion, a school district that participates in a reciprocity agreement with a neighboring state under section 124D.041 may enroll and provide special instruction and services to a child from an adjoining state whose family resides at a Minnesota address as assigned by the United States Postal Service if the district has completed child identification procedures for that child to determine the child's eligibility for special education services, and the child has received developmental screening under sections 121A.16 to 121A.19.

Sec. 8. Minnesota Statutes 2022, section 125A.08, is amended to read:

125A.08 INDIVIDUALIZED EDUCATION PROGRAMS.

(a) At the beginning of each school year, each school district shall have in effect, for each child with a disability, an individualized education program.

(b) As defined in this section, every district must ensure the following:

(1) all students with disabilities are provided the special instruction and services which are appropriate to their needs. Where the individualized education program team has determined appropriate goals and objectives based on the student's needs, including the extent to which the student can be included in the least restrictive environment, and where there are essentially equivalent and effective instruction, related services, or assistive technology devices available to meet the student's needs, cost to the district may be among the factors considered by the team in choosing how to provide the appropriate services, instruction, or devices that are to be made part of the student's individualized education program. The individualized education program team shall consider and may authorize services covered by medical assistance according to section 256B.0625, subdivision 26.

Before a school district evaluation team makes a determination of other health disability under Minnesota Rules, part 3525.1335, subparts 1 and 2, item A, subitem (1), the evaluation team must seek written documentation of the student's medically diagnosed chronic or acute health condition signed by a licensed physician or a licensed health care provider acting within the scope of the provider's practice. The student's needs and the special education...
instruction and services to be provided must be agreed upon through the development of
an individualized education program. The program must address the student's need to develop
skills to live and work as independently as possible within the community. The individualized
education program team must consider positive behavioral interventions, strategies, and
supports that address behavior needs for children. During grade 9, the program must address
the student's needs for transition from secondary services to postsecondary education and
training, employment, community participation, recreation, and leisure and home living. In
developing the program, districts must inform parents of the full range of transitional goals
and related services that should be considered. The program must include a statement of
the needed transition services, including a statement of the interagency responsibilities or
linkages or both before secondary services are concluded. If the individualized education
program meets the plan components in section 120B.125, the individualized education
program satisfies the requirement and no additional transition plan is needed;

(2) children with a disability under age five and their families are provided special
instruction and services appropriate to the child's level of functioning and needs;

(3) children with a disability and their parents or guardians are guaranteed procedural
safeguards and the right to participate in decisions involving identification, assessment
including assistive technology assessment, and educational placement of children with a
disability;

(4) eligibility and needs of children with a disability are determined by an initial
evaluation or reevaluation, which may be completed using existing data under United States
Code, title 20, section 33, et seq.;

(5) to the maximum extent appropriate, children with a disability, including those in
public or private institutions or other care facilities, are educated with children who are not
disabled, and that special classes, separate schooling, or other removal of children with a
disability from the regular educational environment occurs only when and to the extent that
the nature or severity of the disability is such that education in regular classes with the use
of supplementary services cannot be achieved satisfactorily;

(6) in accordance with recognized professional standards, testing and evaluation materials,
and procedures used for the purposes of classification and placement of children with a
disability are selected and administered so as not to be racially or culturally discriminatory;

(7) the rights of the child are protected when the parents or guardians are not known or
not available, or the child is a ward of the state.

Article 5 Sec. 8.
(c) For all paraprofessionals employed to work in programs whose role in part is to provide direct support to students with disabilities, the school board in each district shall ensure that:

(1) before or beginning at the time of employment, each paraprofessional must develop sufficient knowledge and skills in emergency procedures, building orientation, roles and responsibilities, confidentiality, vulnerability, and reportability, among other things, to begin meeting the needs, especially disability-specific and behavioral needs, of the students with whom the paraprofessional works;

(2) before beginning work alone with an individual student with a disability, the assigned paraprofessional must be either given paid time, or time during the school day, to review a student's individualized education program or be briefed on the student's specific needs by appropriate staff;

(3) annual training opportunities are required to enable the paraprofessional to continue to further develop the knowledge and skills that are specific to the students with whom the paraprofessional works, including understanding disabilities, the unique and individual needs of each student according to the student's disability and how the disability affects the student's education and behavior, following lesson plans, and implementing follow-up instructional procedures and activities; and

(4) a minimum of 16 hours of paid orientation or professional development must be provided annually to all paraprofessionals, Title I aides, and other instructional support staff. Eight of the 16 hours must be completed before the first instructional day of the school year or within 30 days of hire. The orientation or professional development must be relevant to the employee's occupation and may include collaboration time with classroom teachers and planning for the school year. For paraprofessionals who provide direct support to students, at least 50 percent of the professional development or orientation must be dedicated to meeting the requirements of this section. Professional development for paraprofessionals may also address the requirements of section 120B.363, subdivision 3. A school administrator must provide an annual certification of compliance with this requirement to the commissioner. The annual certification must include the prior year expenses associated with the training provided under this clause; and

(5) a districtwide process obligates each paraprofessional to work under the ongoing direction of a licensed teacher and, where appropriate and possible, the supervision of a school nurse.
A school district may conduct a functional behavior assessment as defined in Minnesota Rules, part 3525.0210, subpart 22, as a stand-alone evaluation without conducting a comprehensive evaluation of the student in accordance with prior written notice provisions in section 125A.091, subdivision 3a. A parent or guardian may request that a school district conduct a comprehensive evaluation of the parent's or guardian's student.

Sec. 9. Minnesota Statutes 2022, section 125A.76, subdivision 2e, is amended to read:

Subd. 2e. Cross subsidy reduction aid. (a) A school district's annual cross subsidy reduction aid equals the school district's initial special education cross subsidy for the previous fiscal year times the cross subsidy aid factor for that fiscal year.

(b) The cross subsidy aid factor equals 2.6 percent for fiscal year 2020 and 6.43 percent for fiscal year 2021, 40 percent for fiscal year 2024, 47.3 percent for fiscal year 2025, and 60 percent for fiscal year 2026 and later.

EFFECTIVE DATE. This section is effective for revenue for fiscal year 2024 and later.

Sec. 10. [125A.81] SPECIAL EDUCATION SEPARATE SITES AND PROGRAMS AID.

Subdivision 1. Definition. For purposes of this section, "special education separate site and program" means a public separate day school facility attended by students with disabilities for 50 percent or more of their school day.

Subd. 2. Eligibility for special education separate sites and programs aid. An education cooperative under section 471.59, education district under section 123A.15, service cooperative under section 123A.21, or intermediate school district under section 136D.01 qualifies for additional state funding to special education separate sites and programs for every kindergarten through grade 12 child with a disability, as defined in section 125A.02, served in a special education separate site or program as defined in subdivision 1.

Subd. 3. Uses of special education separate sites and programs aid. Additional state funding to special education separate sites and programs under this section may be used for the same purposes as are permitted for state special education aid under section 125A.76.

Subd. 4. Special education separate sites and programs aid. For fiscal year 2024 and later, additional state funding to special education separate sites and programs equals $1,689 times the adjusted kindergarten through grade 12 pupil units served in special education separate sites and programs under subdivision 1.

EFFECTIVE DATE. This section is effective for revenue for fiscal year 2024 and later.
Sec. 11. Minnesota Statutes 2022, section 256B.0625, subdivision 26, is amended to read:

Subd. 26. Special education services. (a) Medical assistance covers evaluations necessary in making a determination for eligibility for individualized education program and individualized family service plan services and for medical services identified in a recipient's individualized education program and individualized family service plan and covered under the medical assistance state plan. Covered services include occupational therapy, physical therapy, speech-language therapy, clinical psychological services, nursing services, school psychological services, school social work services, personal care assistants serving as management aides, assistive technology devices, transportation services, health assessments, and other services covered under the medical assistance state plan. Mental health services eligible for medical assistance reimbursement must be provided or coordinated through a children's mental health collaborative where a collaborative exists if the child is included in the collaborative operational target population. The provision or coordination of services does not require that the individualized education program be developed by the collaborative.

The services may be provided by a Minnesota school district that is enrolled as a medical assistance provider or its subcontractor, and only if the services meet all the requirements otherwise applicable if the service had been provided by a provider other than a school district, in the following areas: medical necessity; physician's, advanced practice registered nurse's, or physician assistant's orders; documentation; personnel qualifications; and prior authorization requirements. The nonfederal share of costs for services provided under this subdivision is the responsibility of the local school district as provided in section 125A.74. Services listed in a child's individualized education program are eligible for medical assistance reimbursement only if those services meet criteria for federal financial participation under the Medicaid program.

(b) Approval of health-related services for inclusion in the individualized education program does not require prior authorization for purposes of reimbursement under this chapter. The commissioner may require physician, advanced practice registered nurse, or physician assistant review and approval of the plan not more than once annually or upon any modification of the individualized education program that reflects a change in health-related services.

(c) Services of a speech-language pathologist provided under this section are covered notwithstanding Minnesota Rules, part 9505.0390, subpart 1, item L, if the person:

(1) holds a masters degree in speech-language pathology;
(2) is licensed by the Professional Educator Licensing and Standards Board as an educational speech-language pathologist; and

(3) either has a certificate of clinical competence from the American Speech and Hearing Association, has completed the equivalent educational requirements and work experience necessary for the certificate or has completed the academic program and is acquiring supervised work experience to qualify for the certificate.

(d) Medical assistance coverage for medically necessary services provided under other subdivisions in this section may not be denied solely on the basis that the same or similar services are covered under this subdivision.

(e) The commissioner shall develop and implement package rates, bundled rates, or per diem rates for special education services under which separately covered services are grouped together and billed as a unit in order to reduce administrative complexity.

(f) The commissioner shall develop a cost-based payment structure for payment of these services. Only costs reported through the designated Minnesota Department of Education data systems in distinct service categories qualify for inclusion in the cost-based payment structure. The commissioner shall reimburse claims submitted based on an interim rate, and shall settle at a final rate once the department has determined it. The commissioner shall notify the school district of the final rate. The school district has 60 days to appeal the final rate. To appeal the final rate, the school district shall file a written appeal request to the commissioner within 60 days of the date the final rate determination was mailed. The appeal request shall specify (1) the disputed items and (2) the name and address of the person to contact regarding the appeal.

(g) Effective July 1, 2000, medical assistance services provided under an individualized education program or an individual family service plan by local school districts shall not count against medical assistance authorization thresholds for that child.

(h) Nursing services as defined in section 148.171, subdivision 15, and provided as an individualized education program health-related service, are eligible for medical assistance payment if they are otherwise a covered service under the medical assistance program. Medical assistance covers the administration of prescription medications by a licensed nurse who is employed by or under contract with a school district when the administration of medications is identified in the child's individualized education program. The simple administration of medications alone is not covered under medical assistance when administered by a provider other than a school district or when it is not identified in the child's individualized education program.
School social work services provided by a mental health professional, as defined in section 245I.04, subdivision 2, or mental health practitioner, as defined in section 245I.04, subdivision 4, under the supervision of a mental health professional, are eligible for medical assistance payment. A mental health practitioner performing school social work services under this section must provide services within the mental health practitioner's licensure scope of practice, if applicable, and within the mental health practitioner scope of practice under section 245I.04, subdivision 5.

Notwithstanding Minnesota Rules, part 9505.0371, a special education evaluation, individualized education program, or individual family service plan may be used to determine medical necessity and eligibility for school social work services under paragraph (i) instead of a diagnostic assessment if the special education evaluation, individualized education program, or individual family service plan includes a sign, symptom, or condition ICD-10-CM code for the student.

A school social worker or school providing mental health services under paragraph (i) is not required to be certified to provide children's therapeutic services and supports under section 256B.0943.

Covered mental health services provided by a school social worker under paragraph (i) include but are not limited to:

1. administering and reporting standardized measures;
2. care coordination;
3. children's mental health crisis assistance, planning, and response services;
4. children's mental health clinical care consultation;
5. dialectical behavioral therapy for adolescents;
6. direction of mental health behavioral aides;
7. family psychoeducation;
8. individual, family, and group psychotherapy;
9. mental health behavioral aide services;
10. skills training; and
11. treatment plan development and review.
EFFECTIVE DATE. This section is effective January 1, 2024, or upon federal approval, whichever is later. The commissioner shall notify the revisor of statutes when federal approval has been obtained.

### Intermediate districts and other cooperative units

Subd. 3. Upon approval through the adoption of a resolution by each member district school board of an intermediate district or other cooperative unit, or a joint powers district under section 471.59, and the approval of the commissioner of education, a school district may include in its authority under this section a proportionate share of the long-term maintenance costs of the intermediate district or cooperative unit, or joint powers district. The cooperative unit or joint powers district may issue bonds to finance the project costs or levy for the costs, using long-term maintenance revenue transferred from member districts to make debt service payments or pay project costs or, for leased facilities, pay the portion...
of lease costs attributable to the amortized cost of long-term facilities maintenance projects
completed by the landlord. Authority under this subdivision is in addition to the authority
for individual district projects under subdivision 1.

(b) The resolution adopted under paragraph (a) may specify which member districts will
share the project costs under this subdivision, except that debt service payments for bonds
issued by a cooperative unit or joint powers district to finance long-term maintenance project
costs must be the responsibility of all member districts.

EFFECTIVE DATE. This section is effective for revenue in fiscal year 2025 and later.

Sec. 2. Minnesota Statutes 2022, section 126C.40, subdivision 1, is amended to read:

Subdivision 1. To lease building or land. (a) When an independent or a special school
district or a group of independent or special school districts finds it economically
advantageous to rent or lease a building or land for any instructional purposes or for school
storage or furniture repair, and it determines that the operating capital revenue authorized
under section 126C.10, subdivision 13, is insufficient for this purpose, it may apply to the
commissioner for permission to make an additional capital expenditure levy for this purpose.
An application for permission to levy under this subdivision must contain financial
justification for the proposed levy, the terms and conditions of the proposed lease, and a
description of the space to be leased and its proposed use.

(b) The criteria for approval of applications to levy under this subdivision must include:
the reasonableness of the price, the appropriateness of the space to the proposed activity,
the feasibility of transporting pupils to the leased building or land, conformity of the lease
to the laws and rules of the state of Minnesota, and the appropriateness of the proposed
lease to the space needs and the financial condition of the district. The commissioner must
not authorize a levy under this subdivision in an amount greater than the cost to the district
of renting or leasing a building or land for approved purposes. The proceeds of this levy
must not be used for custodial or other maintenance services. A district may not levy under
this subdivision for the purpose of leasing or renting a district-owned building or site to
itself.

(c) For agreements finalized after July 1, 1997, a district may not levy under this
subdivision for the purpose of leasing: (1) a newly constructed building used primarily for
regular kindergarten, elementary, or secondary instruction; or (2) a newly constructed
building addition or additions used primarily for regular kindergarten, elementary, or
secondary instruction that contains more than 20 percent of the square footage of the
previously existing building.

Article 6 Sec. 2.
(d) Notwithstanding paragraph (b), a district may levy under this subdivision for the purpose of leasing or renting a district-owned building or site to itself only if the amount is needed by the district to make payments required by a lease purchase agreement, installment purchase agreement, or other deferred payments agreement authorized by law, and the levy meets the requirements of paragraph (c). A levy authorized for a district by the commissioner under this paragraph may be in the amount needed by the district to make payments required by a lease purchase agreement, installment purchase agreement, or other deferred payments agreement authorized by law, provided that any agreement include a provision giving the school districts the right to terminate the agreement annually without penalty.

(e) The total levy under this subdivision for a district for any year must not exceed $212 times the adjusted pupil units for the fiscal year to which the levy is attributable.

(f) For agreements for which a review and comment have been submitted to the Department of Education after April 1, 1998, the term "instructional purpose" as used in this subdivision excludes expenditures on stadiums.

(g) The commissioner of education may authorize a school district to exceed the limit in paragraph (e) if the school district petitions the commissioner for approval. The commissioner shall grant approval to a school district to exceed the limit in paragraph (e) for not more than five years if the district meets the following criteria:

2. the purpose of the increased levy is in the long-term public interest;
3. the purpose of the increased levy promotes colocation of government services; and

cost for instructional space that the district would otherwise lease. The commissioner must
deny this levy authority unless the district passes a resolution stating its intent to lease
instructional space under this section if the commissioner does not grant authority under
this paragraph. The resolution must also certify that the lease cost for administrative space
under this paragraph is no greater than the lease cost for the district's proposed instructional
lease.

(j) Notwithstanding paragraph (a), a district may levy under this subdivision for the
district's proportionate share of deferred maintenance expenditures for a district-owned

EARLY EDUCATION

Section 1. Minnesota Statutes 2022, section 119A.52, is amended to read:

119A.52 DISTRIBUTION OF APPROPRIATION.

(a) The commissioner of education must distribute money appropriated for that purpose to federally designated Head Start programs to expand services and to serve additional low-income children. Migrant and Indian reservation programs must be initially allocated money based on the programs' share of federal funds, which may include costs associated with program operations, infrastructure, or reconfiguration to serve children from birth to age five in center-based services. The distribution must occur in the following order: (1) 10.72 percent of the total Head Start appropriation must be initially allocated to federally designated Tribal Head Start programs; (2) the Tribal Head Start portion of the appropriation must be initially allocated to Tribal Head Start programs based on the programs' share of federal funds; and (3) migrant programs must be initially allocated funding based on the programs' share of federal funds. The remaining money must be initially allocated to the remaining local agencies based equally on the agencies' share of federal funds and on the proportion of eligible children in the agencies' service area who are not currently being served. A Head Start program must be funded at a per child rate equal to its contracted, federally funded base level at the start of the fiscal year. For all agencies without a federal Early Head Start rate, the state average federal cost per child for Early Head Start applies. In allocating funds under this paragraph, the commissioner of education must assure that each Head Start program in existence in 1993 is allocated no less funding in any fiscal year than was allocated to that program in fiscal year 1993. Before paying money to the programs, the commissioner must notify each program of its initial allocation and how the money must be used. Each program must present a plan under section 119A.535. For any program that cannot utilize its full allocation at the beginning of the fiscal year, the commissioner must reduce the allocation proportionately. Money available after the initial allocations are reduced must be redistributed to eligible programs.

(b) The commissioner must develop procedures to make payments to programs based upon the number of children reported to be enrolled during the required time period of program operations. Enrollment is defined by federal Head Start regulations. The procedures must include a reporting schedule, corrective action plan requirements, and financial consequences to be imposed on programs that do not meet full enrollment after the period of corrective action. Programs reporting chronic underenrollment, as defined by the commissioner, will have their subsequent program year allocation reduced proportionately.
Funds made available by prorating payments and allocations to programs with reported underenrollment will be made available to the extent funds exist to fully enrolled Head Start programs through a form and manner prescribed by the department.

(c) Programs with approved innovative initiatives that target services to high-risk populations, including homeless families and families living in homeless shelters and transitional housing, are exempt from the procedures in paragraph (b). This exemption does not apply to entire programs. The exemption applies only to approved innovative initiatives that target services to high-risk populations, including homeless families and families living in homeless shelters, transitional housing, and permanent supportive housing.

Sec. 2. Minnesota Statutes 2022, section 121A.19, is amended to read:

121A.19 DEVELOPMENTAL SCREENING AID.

Each school year, the state must pay a district for each child or student screened by the district according to the requirements of section 121A.17. The amount of state aid for each child or student screened shall be: (1) $75 for a child screened at age three; (2) $50 for a child screened at age four; (3) $40 for a child screened at age five or six prior to kindergarten; and (4) $30 for a student screened within 30 days after first enrolling in a public school kindergarten if the student has not previously been screened according to the requirements of section 121A.17. If this amount of aid is insufficient, the district may permanently transfer from the general fund an amount that, when added to the aid, is sufficient. Developmental screening aid shall not be paid for any student who is screened more than 30 days after the first day of attendance at a public school kindergarten, except if a student transfers to another public school kindergarten within 30 days after first enrolling in a Minnesota public school kindergarten program. In this case, if the student has not been screened, the district to which the student transfers may receive developmental screening aid for screening that student when the screening is performed within 30 days of the transfer date.

Sec. 3. Minnesota Statutes 2022, section 124D.151, subdivision 6, is amended to read:

Subd. 6. Participation limits. (a) Notwithstanding section 126C.05, subdivision 1, paragraph (d), the pupil units for a voluntary prekindergarten program for an eligible school district or charter school must not exceed 60 percent of the kindergarten pupil units for that school district or charter school under section 126C.05, subdivision 1, paragraph (e).

(b) In reviewing applications under subdivision 5, the commissioner must limit the total number of participants in the voluntary prekindergarten and school readiness plus programs.
