47.27 ~~December 1, 2019,~~ All entry areas for farmed Cervidae enclosure areas must have two  
47.28 redundant gates, which must be maintained to prevent the escape of animals through an  
47.29 open gate. If a fence deficiency allows entry or exit by farmed or wild Cervidae, the owner  
47.30 must immediately repair the deficiency. All other deficiencies must be repaired within a  
47.31 reasonable time, as determined by the Board of Animal Health, not to exceed ~~45~~ 14 days.  
47.32 If a fence deficiency is detected during an inspection, the facility must be reinspected at  
47.33 least once in the subsequent three months. The farmed Cervidae owner must pay a

48.1 reinspection fee equal to one-half the applicable annual inspection fee under subdivision  
48.2 7a for each reinspection related to a fence violation. If the facility experiences more than  
48.3 one escape incident in any six-month period or fails to correct a deficiency found during  
48.4 an inspection, the board may revoke the facility's registration and order the owner to remove  
48.5 or destroy the animals as directed by the board. If the board revokes a facility's registration,  
48.6 the commissioner of natural resources may seize and destroy animals at the facility.

48.12 of this subdivision may be seized and destroyed by the commissioner of natural resources.

48.13 (b) A person whose registration is revoked by the board is ineligible for future registration  
48.14 under this section unless the board determines that the person has undertaken measures that  
48.15 make future escapes extremely unlikely.

48.16 (c) The board must not allow new registrations under this section for possessing  
48.17 white-tailed deer. A valid registration may be sold or transferred only once under this  
48.18 paragraph. Before the board approves a sale or transfer under this paragraph, the board must

49.5 has been completed or, if an indemnification application is not submitted, within a reasonable  
49.6 time determined by the board in consultation with the commissioner of natural resources  
49.7 30 days;

69.10 (a) It is the purpose of sections 103F.505 to 103F.531 to restore certain marginal  
69.11 agricultural land and protect environmentally sensitive areas to:

69.12 (1) enhance soil and water quality;

69.13 (2) minimize damage to flood-prone areas;

69.14 (3) sequester carbon, ~~and~~;

69.15 (4) support native plant, fish, and wildlife habitats; and

69.16 (5) establish perennial vegetation.

69.17 (b) It is state policy to encourage ~~the~~:

69.18 (1) restoration of wetlands and riparian lands ~~and promote the retirement~~;

69.19 (2) restoration and protection of marginal, highly erodible land, particularly land adjacent  
69.20 to public waters, drainage systems, wetlands, and locally designated priority waters; and

69.21 (3) protection of environmentally sensitive areas, including wellhead protection areas,  
69.22 grasslands, peatlands, shorelands, and forest lands in priority areas.

69.23 Sec. 39. Minnesota Statutes 2022, section 103F.511, is amended by adding a subdivision  
69.24 to read:

69.25 Subd. 5a. **Grasslands.** "Grasslands" means landscapes that are or were formerly  
69.26 dominated by grasses, that have a low percentage of trees and shrubs, and that provide  
69.27 economic and ecosystem services such as grazing, wildlife habitat, carbon sequestration,  
69.28 and water filtration and retention.

70.1 **Sec. 40. [103F.519] REINVEST IN MINNESOTA WORKING LANDS PROGRAM.**

70.2 Subdivision 1. **Establishment.** The board may establish and administer a reinvest in  
70.3 Minnesota working lands program that is in addition to the program established under  
70.4 section 103F.515. Selecting land for the program must be based on the land's potential for:

70.5 (1) protecting or improving water quality;

70.6 (2) reducing erosion;

70.7 (3) improving soil health;

70.8 (4) reducing chemical inputs;

70.9 (5) improving carbon storage; and

70.10 (6) increasing biodiversity and habitat for fish, wildlife, and native plants.

70.11 Subd. 2. **Applicability.** Section 103F.515 applies to this section except as otherwise  
70.12 provided in subdivisions 1, 3, and 4.

70.13 Subd. 3. **Nature of property rights acquired.** Notwithstanding section 103F.515,  
70.14 subdivision 4, paragraph (a), the board may authorize haying and livestock grazing, perennial  
70.15 or winter annual cover crop production, forest management, or other activities that the board  
70.16 determines are consistent with section 103F.505 or appropriation conditions or criteria.

70.17 Subd. 4. **Payments for easements.** The board must establish payment rates for acquiring  
70.18 easements and for related practices. The board must consider market factors as well as  
70.19 easement terms, including length and allowable uses, when establishing rates.

70.20 **Sec. 41. [103G.216] REPORTING FISH KILLS IN PUBLIC WATERS.**

70.21 Subdivision 1. **Definition.** For the purposes of this section and section 103G.2165, "fish  
70.22 kill" means an incident resulting in the death of 25 or more fish within one linear mile of a  
70.23 flowing water or 25 or more fish within a square mile of a non-flowing water.

70.24 Subd. 2. **Reporting requirement.** A state or county staff person or official who learns  
70.25 of a fish kill in public waters must report the location of the fish kill to the Minnesota State  
70.26 Duty Officer within one hour of being notified of a fish kill or within four hours of first  
70.27 observing the fish kill. The Minnesota State Duty Officer must alert the Departments of  
70.28 Agriculture, Health, and Natural Resources and the Pollution Control Agency of the location  
70.29 of the fish kill within one hour of being notified of the fish kill. When a fish kill is reported,  
70.30 it shall be posted to the Environmental Quality Board (EQB) Monitor in the next scheduled  
70.31 posting.

- 71.1       Sec. 42. **[103G.2165] DEVELOPMENT OF FISH KILL RESPONSE PROTOCOL.**
- 71.2           Subdivision 1. Development of protocol. By June 30, 2024, the commissioners of  
71.3 agriculture, health, and natural resources and the commissioner of the Pollution Control  
71.4 Agency must update the fish kills response guidance by developing a protocol. The protocol  
71.5 must consist of steps that state agencies responding to a report of a fish kill under section  
71.6 103G.216 must take to ascertain cause of or contributing factors to the fish kill based on  
71.7 scientific data and information gathered through investigation as well as a communication  
71.8 plan to inform the public of potential hazards. The protocol must address:
- 71.9           (1) how to approach sampling for aquatic life in most fish kill situations;
- 71.10          (2) the types of locations from which samples described in clause (1) should be taken;
- 71.11          (3) the types of locations where water samples should be taken from the body of water  
71.12 in which the fish kill occurred, as well as tributary streams and private wells with landowner  
71.13 consent should also be sampled;
- 71.14          (4) the types of locations from which soil and groundwater samples should be taken to  
71.15 ascertain whether contaminants traveled overland or underground to reach the body of water  
71.16 in which the fish kill occurred;
- 71.17          (5) where other sampling should occur to determine the presence of contaminants that  
71.18 may have contributed to the fish kill;
- 71.19          (6) developing a comprehensive list of contaminants, including degradation products,  
71.20 for which the materials sampled in clauses (3) to (5) should be tested;
- 71.21          (7) the appropriate concentration limits to be used in testing samples for the presence  
71.22 of contaminants, allowing for the possibility that the fish kill may have resulted from the  
71.23 interaction of two or more contaminants present at concentrations below the level associated  
71.24 with toxic effects resulting from exposure to each individual chemical;
- 71.25          (8) proper handling, storage, and treatment necessary to preserve the integrity of the  
71.26 samples described in this subdivision to maximize the information the samples can yield  
71.27 regarding the cause of the fish kill;
- 71.28          (9) the organs and other parts of the fish and other aquatic creatures that should be  
71.29 analyzed to maximize the information the samples can yield regarding the cause of the fish  
71.30 kill;

72.1 (10) identify a rapid response team of interagency staff or an independent contractor  
72.2 with the necessary data collection equipment that can travel to the site of the fish kill to  
72.3 collect samples within 24 to 48 hours of the incident;

72.4 (11) a communications plan with a health risk assessment to notify potentially impacted  
72.5 downstream users of the surface water of the potential hazards, and those in the vicinity  
72.6 whose public or private water supply, including surface or groundwater, may be impacted;  
72.7 and

72.8 (12) the proposed content and timing for investigation reports filed following fish kills.  
72.9 Investigation reports should identify the probable causes and include recommendations to  
72.10 prevent similar incidents in the future.

72.11 Subd. 2. **Review of protocol.** The Departments of Agriculture, Health, and Natural  
72.12 Resources and the Pollution Control Agency must post the draft protocol to their websites  
72.13 for a 60-day period for public review and comment. The Departments of Agriculture, Health,  
72.14 and Natural Resources and the Pollution Control Agency shall hold one or more public  
72.15 informational meetings on the draft protocol. The Departments of Agriculture, Health, and  
72.16 Natural Resources and the Pollution Control Agency must consider comments submitted  
72.17 during the public comment period before posting the final protocol to their websites.

72.18 Subd. 3. **Implementation.** Once the protocol has been published, the relevant state  
72.19 agencies shall follow the protocol and shall maintain data related to each fish kill response  
72.20 documenting the extent to which the protocol was followed and any reasons why it was not.  
72.21 Once the protocol is in effect, investigation reports for fish kills shall be posted to the EQB  
72.22 Monitor.

72.23 Subd. 4. **Updating protocol.** The updated protocol must be reviewed by the  
72.24 commissioners of agriculture, health, and natural resources, and the commissioner of the  
72.25 Pollution Control Agency at least every five years according to the procedures in this section.

72.26 Sec. 43. Minnesota Statutes 2022, section 115.01, is amended by adding a subdivision to  
72.27 read:

72.28 Subd. 8a. **Microplastics.** "Microplastics" means particles of plastic less than 500  
72.29 micrometers in size.

73.1 Sec. 44. Minnesota Statutes 2022, section 115.01, is amended by adding a subdivision to  
73.2 read:

73.3 Subd. 8b. **Nanoplastics.** "Nanoplastics" means plastic particles with a size less than or  
73.4 equal to 100 nanometers in size.

73.5 Sec. 45. Minnesota Statutes 2022, section 115.01, is amended by adding a subdivision to  
73.6 read:

73.7 Subd. 10a. **Plastic.** "Plastic" means a synthetic material made from linking monomers  
73.8 through a chemical reaction to create a polymer chain that can be molded or extruded at  
73.9 high heat into various solid forms that retain their defined shapes during their life cycle and  
73.10 after disposal. Plastic does not mean natural polymers that have not been chemically  
73.11 modified.

73.12 Sec. 46. Minnesota Statutes 2022, section 115.03, subdivision 1, is amended to read:

73.13 Subdivision 1. **Generally.** (a) The ~~agency commissioner~~ is hereby given and charged  
73.14 with the following powers and duties:

73.15 ~~(a)~~ (1) to administer and enforce all laws relating to the pollution of any of the waters  
73.16 of the state;

73.17 ~~(b)~~ (2) to investigate the extent, character, and effect of the pollution of the waters of  
73.18 this state and to gather data and information necessary or desirable in the administration or  
73.19 enforcement of pollution laws, and to make such classification of the waters of the state as  
73.20 it may deem advisable;

73.21 ~~(c)~~ (3) to establish and alter such reasonable pollution standards for any waters of the  
73.22 state in relation to the public use to which they are or may be put as it shall deem necessary  
73.23 for the purposes of this chapter and, with respect to the pollution of waters of the state,  
73.24 chapter 116;

73.25 ~~(d)~~ (4) to encourage waste treatment, including advanced waste treatment, instead of  
73.26 stream low-flow augmentation for dilution purposes to control and prevent pollution;

73.27 ~~(e)~~ (5) to adopt, issue, reissue, modify, deny, or revoke, enter into or enforce reasonable  
73.28 orders, permits, variances, standards, rules, schedules of compliance, and stipulation  
73.29 agreements, under such conditions as it may prescribe, in order to prevent, control or abate  
73.30 water pollution, or for the installation or operation of disposal systems or parts thereof, or  
73.31 for other equipment and facilities:

74.1 ~~(1)~~ (i) requiring the discontinuance of the discharge of sewage, industrial waste or other  
74.2 wastes into any waters of the state resulting in pollution in excess of the applicable pollution  
74.3 standard established under this chapter;

74.4 ~~(2)~~ (ii) prohibiting or directing the abatement of any discharge of sewage, industrial  
74.5 waste, or other wastes, into any waters of the state or the deposit thereof or the discharge  
74.6 into any municipal disposal system where the same is likely to get into any waters of the  
74.7 state in violation of this chapter and, with respect to the pollution of waters of the state,  
74.8 chapter 116, or standards or rules promulgated or permits issued pursuant thereto, and  
74.9 specifying the schedule of compliance within which such prohibition or abatement must be  
74.10 accomplished;

74.11 ~~(3)~~ (iii) prohibiting the storage of any liquid or solid substance or other pollutant in a  
74.12 manner which does not reasonably assure proper retention against entry into any waters of  
74.13 the state that would be likely to pollute any waters of the state;

74.14 ~~(4)~~ (iv) requiring the construction, installation, maintenance, and operation by any person  
74.15 of any disposal system or any part thereof, or other equipment and facilities, or the  
74.16 reconstruction, alteration, or enlargement of its existing disposal system or any part thereof,  
74.17 or the adoption of other remedial measures to prevent, control or abate any discharge or  
74.18 deposit of sewage, industrial waste or other wastes by any person;

74.19 ~~(5)~~ (v) establishing, and from time to time revising, standards of performance for new  
74.20 sources taking into consideration, among other things, classes, types, sizes, and categories  
74.21 of sources, processes, pollution control technology, cost of achieving such effluent reduction,  
74.22 and any nonwater quality environmental impact and energy requirements. Said standards  
74.23 of performance for new sources shall encompass those standards for the control of the  
74.24 discharge of pollutants which reflect the greatest degree of effluent reduction which the  
74.25 agency determines to be achievable through application of the best available demonstrated  
74.26 control technology, processes, operating methods, or other alternatives, including, where  
74.27 practicable, a standard permitting no discharge of pollutants. New sources shall encompass  
74.28 buildings, structures, facilities, or installations from which there is or may be the discharge  
74.29 of pollutants, the construction of which is commenced after the publication by the agency  
74.30 of proposed rules prescribing a standard of performance which will be applicable to such  
74.31 source. Notwithstanding any other provision of the law of this state, any point source the  
74.32 construction of which is commenced after May 20, 1973, and which is so constructed as to  
74.33 meet all applicable standards of performance for new sources shall, consistent with and  
74.34 subject to the provisions of section 306(d) of the Amendments of 1972 to the Federal Water  
74.35 Pollution Control Act, not be subject to any more stringent standard of performance for new

75.1 sources during a ten-year period beginning on the date of completion of such construction  
75.2 or during the period of depreciation or amortization of such facility for the purposes of  
75.3 section 167 or 169, or both, of the Federal Internal Revenue Code of 1954, whichever period  
75.4 ends first. Construction shall encompass any placement, assembly, or installation of facilities  
75.5 or equipment, including contractual obligations to purchase such facilities or equipment, at  
75.6 the premises where such equipment will be used, including preparation work at such  
75.7 premises;

75.8 ~~(6)~~ (vi) establishing and revising pretreatment standards to prevent or abate the discharge  
75.9 of any pollutant into any publicly owned disposal system, which pollutant interferes with,  
75.10 passes through, or otherwise is incompatible with such disposal system;

75.11 ~~(7)~~ (vii) requiring the owner or operator of any disposal system or any point source to  
75.12 establish and maintain such records, make such reports, install, use, and maintain such  
75.13 monitoring equipment or methods, including where appropriate biological monitoring  
75.14 methods, sample such effluents in accordance with such methods, at such locations, at such  
75.15 intervals, and in such a manner as the agency shall prescribe, and providing such other  
75.16 information as the agency may reasonably require;

75.17 ~~(8)~~ (viii) notwithstanding any other provision of this chapter, and with respect to the  
75.18 pollution of waters of the state, chapter 116, requiring the achievement of more stringent  
75.19 limitations than otherwise imposed by effluent limitations in order to meet any applicable  
75.20 water quality standard by establishing new effluent limitations, based upon section 115.01,  
75.21 subdivision 13, clause (b), including alternative effluent control strategies for any point  
75.22 source or group of point sources to insure the integrity of water quality classifications,  
75.23 whenever the agency determines that discharges of pollutants from such point source or  
75.24 sources, with the application of effluent limitations required to comply with any standard  
75.25 of best available technology, would interfere with the attainment or maintenance of the  
75.26 water quality classification in a specific portion of the waters of the state. Prior to  
75.27 establishment of any such effluent limitation, the agency shall hold a public hearing to  
75.28 determine the relationship of the economic and social costs of achieving such limitation or  
75.29 limitations, including any economic or social dislocation in the affected community or  
75.30 communities, to the social and economic benefits to be obtained and to determine whether  
75.31 or not such effluent limitation can be implemented with available technology or other  
75.32 alternative control strategies. If a person affected by such limitation demonstrates at such  
75.33 hearing that, whether or not such technology or other alternative control strategies are  
75.34 available, there is no reasonable relationship between the economic and social costs and

76.1 the benefits to be obtained, such limitation shall not become effective and shall be adjusted  
76.2 as it applies to such person;

76.3 ~~(9)~~ (ix) modifying, in its discretion, any requirement or limitation based upon best  
76.4 available technology with respect to any point source for which a permit application is filed  
76.5 after July 1, 1977, upon a showing by the owner or operator of such point source satisfactory  
76.6 to the agency that such modified requirements will represent the maximum use of technology  
76.7 within the economic capability of the owner or operator and will result in reasonable further  
76.8 progress toward the elimination of the discharge of pollutants; and

76.9 ~~(10)~~ (x) requiring that applicants for wastewater discharge permits evaluate in their  
76.10 applications the potential reuses of the discharged wastewater;

76.11 ~~(f)~~ (6) to require to be submitted and to approve plans and specifications for disposal  
76.12 systems or point sources, or any part thereof and to inspect the construction thereof for  
76.13 compliance with the approved plans and specifications thereof;

76.14 ~~(g)~~ (7) to prescribe and alter rules, not inconsistent with law, for the conduct of the  
76.15 agency and other matters within the scope of the powers granted to and imposed upon it by  
76.16 this chapter and, with respect to pollution of waters of the state, in chapter 116, provided  
76.17 that every rule affecting any other department or agency of the state or any person other  
76.18 than a member or employee of the agency shall be filed with the secretary of state;

76.19 ~~(h)~~ (8) to conduct such investigations, issue such notices, public and otherwise, and hold  
76.20 such hearings as are necessary or which it may deem advisable for the discharge of its duties  
76.21 under this chapter and, with respect to the pollution of waters of the state, under chapter  
76.22 116, including, but not limited to, the issuance of permits, and to authorize any member,  
76.23 employee, or agent appointed by it to conduct such investigations or, issue such notices and  
76.24 hold such hearings;

76.25 ~~(i)~~ (9) for the purpose of water pollution control planning by the state and pursuant to  
76.26 the Federal Water Pollution Control Act, as amended, to establish and revise planning areas,  
76.27 adopt plans and programs and continuing planning processes, including, but not limited to,  
76.28 basin plans and areawide waste treatment management plans, and to provide for the  
76.29 implementation of any such plans by means of, including, but not limited to, standards, plan  
76.30 elements, procedures for revision, intergovernmental cooperation, residual treatment process  
76.31 waste controls, and needs inventory and ranking for construction of disposal systems;

76.32 ~~(j)~~ (10) to train water pollution control personnel; and charge ~~such~~ training fees ~~therefor~~  
76.33 as are necessary to cover the agency's costs. All such fees received ~~shall~~ must be paid into  
76.34 the state treasury and credited to the Pollution Control Agency training account;

77.1 (11) to provide chloride reduction training and charge training fees as necessary to cover  
77.2 the agency's costs not to exceed \$350. All training fees received must be paid into the state  
77.3 treasury and credited to the Pollution Control Agency training account;

77.4 ~~(12)~~ (12) to impose as additional conditions in permits to publicly owned disposal systems  
77.5 appropriate measures to insure compliance by industrial and other users with any pretreatment  
77.6 standard, including, but not limited to, those related to toxic pollutants, and any system of  
77.7 user charges ratably as is hereby required under state law or said Federal Water Pollution  
77.8 Control Act, as amended, or any regulations or guidelines promulgated thereunder;

77.9 ~~(13)~~ (13) to set a period not to exceed five years for the duration of any national pollutant  
77.10 discharge elimination system permit or not to exceed ten years for any permit issued as a  
77.11 state disposal system permit only;

77.12 ~~(14)~~ (14) to require each governmental subdivision identified as a permittee for a  
77.13 wastewater treatment works to evaluate in every odd-numbered year the condition of its  
77.14 existing system and identify future capital improvements that will be needed to attain or  
77.15 maintain compliance with a national pollutant discharge elimination system or state disposal  
77.16 system permit; and

77.17 ~~(15)~~ (15) to train subsurface sewage treatment system personnel, including persons who  
77.18 design, construct, install, inspect, service, and operate subsurface sewage treatment systems,  
77.19 and charge fees as necessary to pay the agency's costs. All fees received must be paid into  
77.20 the state treasury and credited to the agency's training account. Money in the account is  
77.21 appropriated to the agency to pay expenses related to training.

77.22 (b) The information required in paragraph (a), clause ~~(14)~~ (14), must be submitted in  
77.23 every odd-numbered year to the commissioner on a form provided by the commissioner.  
77.24 The commissioner shall provide technical assistance if requested by the governmental  
77.25 subdivision.

77.26 (c) The powers and duties given the agency in this subdivision also apply to permits  
77.27 issued under chapter 114C.

77.28 Sec. 47. Minnesota Statutes 2022, section 115A.1415, is amended to read:

77.29 **115A.1415 ARCHITECTURAL PAINT; PRODUCT STEWARDSHIP PROGRAM;**  
77.30 **STEWARDSHIP PLAN.**

77.31 Subdivision 1. **Definitions.** For purposes of this section, the following terms have the  
77.32 meanings given:

78.1 (1) "architectural paint" means interior and exterior architectural coatings sold in  
78.2 containers of five gallons or less. Architectural paint does not include industrial coatings,  
78.3 original equipment coatings, or specialty coatings;

78.4 (2) "brand" means a name, symbol, word, or mark that identifies architectural paint,  
78.5 rather than its components, and attributes the paint to the owner or licensee of the brand as  
78.6 the producer;

78.7 (3) "discarded paint" means architectural paint that is no longer used for its manufactured  
78.8 purpose;

78.9 (4) "producer" means a person that:

78.10 (i) has legal ownership of the brand, brand name, or cobrand of architectural paint sold  
78.11 in the state;

78.12 (ii) imports architectural paint branded by a producer that meets item (i) when the  
78.13 producer has no physical presence in the United States;

78.14 (iii) if items (i) and (ii) do not apply, makes unbranded architectural paint that is sold in  
78.15 the state; or

78.16 (iv) sells architectural paint at wholesale or retail, does not have legal ownership of the  
78.17 brand, and elects to fulfill the responsibilities of the producer for the architectural paint by  
78.18 certifying that election in writing to the commissioner;

78.19 (5) "recycling" means the process of collecting and preparing recyclable materials and  
78.20 reusing the materials in their original form or using them in manufacturing processes that  
78.21 do not cause the destruction of recyclable materials in a manner that precludes further use;

78.22 (6) "retailer" means any person who offers architectural paint for sale at retail in the  
78.23 state;

78.24 (7) "reuse" means donating or selling collected architectural paint back into the market  
78.25 for its original intended use, when the architectural paint retains its original purpose and  
78.26 performance characteristics;

78.27 (8) "sale" or "sell" means transfer of title of architectural paint for consideration, including  
78.28 a remote sale conducted through a sales outlet, catalog, website, or similar electronic means.  
78.29 Sale or sell includes a lease through which architectural paint is provided to a consumer by  
78.30 a producer, wholesaler, or retailer;

78.31 (9) "stewardship assessment" means the amount added to the purchase price of  
78.32 architectural paint sold in the state ~~that is necessary to cover the cost of collecting,~~

79.1 ~~transporting, and processing postconsumer architectural paint by the producer or stewardship~~  
 79.2 ~~organization pursuant to a product stewardship program~~ to implement a product stewardship  
 79.3 program according to an approved stewardship plan;

79.4 (10) "stewardship organization" means an organization appointed by one or more  
 79.5 producers to act as an agent on behalf of the producer to design, submit, and administer a  
 79.6 product stewardship program under this section; and

79.7 (11) "stewardship plan" means a detailed plan describing the manner in which a product  
 79.8 stewardship program under subdivision 2 will be implemented.

79.9 Subd. 2. **Product stewardship program.** For architectural paint sold in the state,  
 79.10 producers must, individually or through a stewardship organization, implement and finance  
 79.11 a statewide product stewardship program that manages the architectural paint by reducing  
 79.12 the paint's waste generation, promoting its reuse and recycling, and providing for negotiation  
 79.13 and execution of agreements to collect, transport, and process the architectural paint for  
 79.14 end-of-life recycling and reuse.

79.15 Subd. 3. **Participation required to sell.** (a) ~~On and after July 1, 2014, or three months~~  
 79.16 ~~after program plan approval, whichever is sooner,~~ No producer, wholesaler, or retailer may  
 79.17 sell or offer for sale in the state architectural paint unless the paint's producer participates  
 79.18 in an approved stewardship plan, either individually or through a stewardship organization.

79.19 (b) Each producer must operate a product stewardship program approved by the ~~agency~~  
 79.20 commissioner or enter into an agreement with a stewardship organization to operate, on the  
 79.21 producer's behalf, a product stewardship program approved by the ~~agency~~ commissioner.

79.22 Subd. 4. **Stewardship plan required.** (a) ~~On or before March 1, 2014, and~~ Before  
 79.23 offering architectural paint for sale in the state, a producer must submit a stewardship plan  
 79.24 to the ~~agency~~ commissioner and receive approval of the plan or must submit documentation  
 79.25 to the ~~agency~~ commissioner that demonstrates the producer has entered into an agreement  
 79.26 with a stewardship organization to be an active participant in an approved product  
 79.27 stewardship program as described in subdivision 2. A stewardship plan must include all  
 79.28 elements required under subdivision 5.

79.29 (b) ~~An~~ A proposed amendment to the plan, if determined necessary by the commissioner,

80.3 review and approval or rejection.

80.4 Subd. 5. **Plan content.** A stewardship plan must contain:

80.5 (1) certification that the product stewardship program will accept all discarded paint  
80.6 regardless of which producer produced the architectural paint and its individual components;

80.7 (2) contact information for the individual and the entity submitting the stewardship plan,  
80.8 a list of all producers participating in the product stewardship program, and the brands  
80.9 covered by the product stewardship program;

80.10 (3) a description of the methods by which the discarded paint will be collected in all  
80.11 areas in the state without relying on end-of-life fees, including an explanation of how the  
80.12 collection system will be convenient and adequate to serve the needs of small businesses  
80.13 and residents in both urban and rural areas on an ongoing basis and a discussion of how the  
80.14 existing household hazardous waste infrastructure will be considered when selecting  
80.15 collection sites;

80.16 (4) a description of how the adequacy of the collection program will be monitored and  
80.17 maintained;

80.18 (5) the names and locations of collectors, transporters, and recyclers that will manage  
80.19 discarded paint;

80.20 (6) a description of how the discarded paint and the paint's components will be safely  
80.21 and securely transported, tracked, and handled from collection through final recycling and  
80.22 processing;

80.23 (7) a description of the method that will be used to reuse, deconstruct, or recycle the  
80.24 discarded paint to ensure that the paint's components, to the extent feasible, are transformed  
80.25 or remanufactured into finished products for use;

80.26 (8) a description of the promotion and outreach activities that will be used to encourage  
80.27 participation in the collection and recycling programs and how the activities' effectiveness  
80.28 will be evaluated and the program modified, if necessary;

80.29 (9) the proposed stewardship assessment. ~~The producer or stewardship organization~~  
80.30 ~~shall propose a uniform stewardship assessment for any architectural paint sold in the state.~~  
80.31 ~~The proposed stewardship assessment shall be reviewed by an independent auditor to ensure~~  
80.32 ~~that the assessment does not exceed the costs of the product stewardship program and the~~

81.1 ~~independent auditor shall recommend an amount for the stewardship assessment. The agency~~  
81.2 ~~must approve the stewardship assessment~~ established according to subdivision 5a;

81.3 (10) evidence of adequate insurance and financial assurance that may be required for  
81.4 collection, handling, and disposal operations;

81.5 (11) five-year performance goals, including an estimate of the percentage of discarded  
81.6 paint that will be collected, reused, and recycled during each of the first five years of the  
81.7 stewardship plan. The performance goals must include a specific goal for the amount of  
81.8 discarded paint that will be collected and recycled and reused during each year of the plan.  
81.9 The performance goals must be based on:

81.10 (i) the most recent collection data available for the state;

81.11 (ii) the estimated amount of architectural paint disposed of annually;

81.12 (iii) the weight of the architectural paint that is expected to be available for collection

81.15 The stewardship plan must state the methodology used to determine these goals; and

81.16 (12) a discussion of the status of end markets for collected architectural paint and what,  
81.17 if any, additional end markets are needed to improve the functioning of the program.

81.18 Subd. 5a. Stewardship assessment. The producer or stewardship organization must  
81.19 propose a uniform stewardship assessment for any architectural paint sold in the state that  
81.20 covers but does not exceed the costs of developing the stewardship plan, operating and  
81.21 administering the program in accordance with the stewardship plan and the requirements  
81.22 of this section, and maintaining a financial reserve. A stewardship organization or producer  
81.23 must not maintain a financial reserve in excess of 75 percent of the organization's annual  
81.24 operating expenses. The producer or stewardship organization must retain an independent  
81.25 auditor to review the proposed stewardship assessment to ensure that the assessment meets  
81.26 the requirements of this section. The independent auditor must recommend an amount for  
81.27 the stewardship assessment. If the financial reserve exceeds 75 percent of the producer or  
81.28 stewardship organization's annual operating expenses, the producer or stewardship  
81.29 organization must submit a proposed plan amendment according to subdivision 4, paragraph  
81.30 (c), to comply with this subdivision. The commissioner must review and approve or reject  
81.31 the stewardship assessment according to subdivision 7.

82.2 development of the plan or plan amendment.

82.3 Subd. 7. **Agency Commissioner review and approval.** (a) Within 90 days after receipt  
82.4 of receiving a proposed stewardship plan, the ~~agency shall~~ commissioner must determine  
82.5 whether the plan complies with ~~subdivision 4~~ this section. If the ~~agency commissioner~~  
82.6 approves a plan, the ~~agency shall~~ commissioner must notify the applicant of the plan approval  
82.7 in writing. If the ~~agency commissioner~~ rejects a plan, the ~~agency shall~~ commissioner must  
82.8 notify the applicant in writing of the reasons for rejecting the plan.

82.9 (b) An applicant whose plan is rejected by the ~~agency commissioner~~ must submit a  
82.10 revised stewardship plan to the ~~agency commissioner~~ within 60 days after receiving notice  
82.11 of rejection. A stewardship organization may submit a revised stewardship plan to the  
82.12 commissioner on not more than two consecutive occasions. If, after the second consecutive  
82.13 submission, the commissioner determines that the revised stewardship plan still does not  
82.14 meet the requirements of this section, the commissioner must modify the stewardship plan  
82.15 as necessary to meet the requirements of this section and approve the stewardship plan.

82.16 ~~(b)~~ (c) Any proposed ~~changes~~ amendment to a stewardship plan must be reviewed and

82.23 collection, transport, and processing of architectural paint under this section is immune from  
82.24 liability for the conduct under state laws relating to antitrust, restraint of trade, unfair trade  
82.25 practices, and other regulation of trade or commerce only to the extent that the conduct is  
82.26 necessary to plan and implement the producer's or organization's chosen organized collection  
82.27 or recycling system.

82.28 Subd. 10. **Producer responsibilities.** (a) On and after the date of implementation of a  
82.29 product stewardship program according to this section, a producer of architectural paint  
82.30 must add the stewardship assessment, as established under subdivision 5, ~~clause (9)~~ 5a, to  
82.31 the cost of architectural paint sold to retailers and distributors in the state by the producer.

82.32 (b) Producers of architectural paint or the stewardship organization ~~shall~~ must provide  
82.33 consumers with educational materials regarding the stewardship assessment and product  
82.34 stewardship program. The materials must include, but are not limited to, information

83.1 regarding available end-of-life management options for architectural paint offered through

83.6 ~~program plan approval, whichever is sooner,~~ No architectural paint may be sold in the state  
83.7 unless the paint's producer is participating in an approved stewardship plan.

83.8 (b) On and after the implementation date of a product stewardship program according  
83.9 to this section, each retailer or distributor, as applicable, must ensure that the full amount  
83.10 of the stewardship assessment added to the cost of architectural paint by producers under  
83.11 subdivision 10 is included in the purchase price of all architectural paint sold in the state.

83.12 (c) Any retailer may participate, on a voluntary basis, as a designated collection point  
83.13 pursuant to a product stewardship program under this section and in accordance with  
83.14 applicable law.

83.15 (d) No retailer or distributor shall be found to be in violation of this subdivision if, on  
83.16 the date the architectural paint was ordered from the producer or its agent, the producer was  
83.17 listed as compliant on the agency's website according to subdivision 14.

83.18 Subd. 12. **Stewardship reports.** ~~Beginning October 1, 2015,~~ By April 1 each year,  
83.19 producers of architectural paint sold in the state must individually or through a stewardship

83.25 comparison to the performance goals and recycling rates established in the stewardship  
83.26 plan;

83.27 (3) the amount of unwanted architectural paint collected in the state by method of  
83.28 disposition, including reuse, recycling, and other methods of processing;

83.29 (4) samples of educational materials provided to consumers and an evaluation of the  
83.30 effectiveness of the materials and the methods used to disseminate the materials; and

83.31 (5) an independent financial audit.

84.1 Subd. 13. **Data classification.** Trade secret and sales information, as defined under  
84.2 section 13.37, submitted to the agency commissioner under this section are private or  
84.3 nonpublic data under section 13.37.

84.4 Subd. 14. **Agency Commissioner responsibilities.** The ~~agency shall~~ commissioner must  
84.5 provide, on ~~its~~ the agency's website, a list of all compliant producers and brands participating  
84.6 in stewardship plans that the agency commissioner has approved and a list of all producers  
84.7 and brands the agency commissioner has identified as noncompliant with this section.

84.8 Subd. 15. **Local government responsibilities.** (a) A city, county, or other public agency  
84.9 may choose to participate voluntarily in a product stewardship program.

84.10 (b) Cities, counties, and other public agencies are encouraged to work with producers  
84.11 and stewardship organizations to assist in meeting product stewardship program reuse and  
84.12 recycling obligations, by providing education and outreach or using other strategies.

84.13 (c) A city, county, or other public agency that participates in a product stewardship  
84.14 program must report for the first year of the program to the agency commissioner using the  
84.15 reporting form provided by the agency commissioner on the cost savings as a result of  
84.16 participation and must describe how the savings were used.

84.17 Subd. 16. **Administrative fee.** (a) The stewardship organization or individual producer  
84.18 submitting a stewardship plan ~~shall~~ must pay an annual administrative fee to the

84.20 factors, including, but not limited to, the portion of architectural paint sold in the state by  
84.21 members of the organization compared to the total amount of architectural paint sold in the  
84.22 state by all organizations submitting a stewardship plan.

84.23 (b) ~~Prior to July 1, 2014, and Before July 1 annually thereafter~~ each year, the agency  
84.24 ~~shall~~ commissioner must identify the costs ~~it~~ the agency incurs under this section. The  
84.25 ~~agency shall~~ commissioner must set the fee at an amount that, when paid by every  
84.26 stewardship organization or individual producer that submits a stewardship plan, is adequate  
84.27 to reimburse the agency's full costs of administering this section. The total amount of annual  
84.28 fees collected under this subdivision must not exceed the amount necessary to reimburse  
84.29 costs incurred by the agency to administer this section.

84.30 (c) A stewardship organization or individual producer subject to this subdivision must  
84.31 pay the agency's commissioner's administrative fee under paragraph (a) on or before July

85.12 **PROGRAM.**

85.13 (a) There is established a program to encourage and assist cities, counties, solid waste  
85.14 management districts, and sanitary districts in the development and implementation of solid  
85.15 waste management projects and to transfer the knowledge and experience gained from such  
85.16 projects to other communities in the state.

85.17 (b) The program must be administered to encourage local communities to develop  
85.18 feasible and prudent alternatives to disposal, including:

85.19 (1) waste reduction;

85.20 (2) reuse;

85.21 (3) recycling;

85.22 (4) composting source-separated compostable materials or yard waste;

85.30 commissioner shall give special consideration to areas where natural geologic and soil  
85.31 conditions are especially unsuitable for land disposal of solid waste; areas where the capacity

86.1 of existing solid waste disposal facilities is determined by the commissioner to be less than  
86.2 five years; and projects serving more than one local government unit.

86.3 Sec. 49. Minnesota Statutes 2022, section 115A.51, is amended to read:

86.11 sources of solid waste and of markets for recovered resources or the availability of materials  
86.12 for waste reduction or reuse, together with any proposed federal, state, or local financial  
86.13 assistance, will be sufficient to pay all costs over the projected life of the project;

86.14 (4) that the applicant has evaluated the feasible and prudent alternatives to disposal,  
86.15 including using existing solid waste management facilities and facilities conducting waste  
86.16 reduction or reuse with reasonably available capacity sufficient to accomplish the goals of  
86.17 the proposed project, and has compared and evaluated the costs of the alternatives, including  
86.18 capital and operating costs, and the effects of the alternatives on the cost to generators;

86.19 (5) that the applicant has identified:

86.20 (i) waste management objectives in applicable county and regional solid waste  
86.21 management plans consistent with section 115A.46, subdivision 2, paragraphs (e) and (f),  
86.22 or 473.149, subdivision 1; and

86.23 (ii) other solid waste management facilities and facilities conducting waste reduction or  
86.24 reuse identified in the county and regional plans; ~~and~~

86.25 (6) that the applicant has conducted a comparative analysis of the project against existing  
86.26 public and private solid waste management facilities and facilities conducting waste reduction  
86.27 or reuse, including an analysis of potential displacement of those facilities, to determine  
86.28 whether the project is the most appropriate alternative to achieve the identified waste  
86.29 management objectives that considers:

87.1 (ii) consistency with the state's solid waste hierarchy and section 115A.46, subdivision  
87.2 2, paragraphs (e) and (f), or 473.149, subdivision 1; and

87.3 (iii) environmental standards related to public health, air, surface water, and groundwater;;

87.4 (7) that the applicant has evaluated the project's environmental impact on climate change,  
87.5 including greenhouse gas emissions; and

87.6 (8) that the applicant has reviewed the project's impact on overburdened areas, conducted  
87.7 stakeholder engagement, and assessed community input.

87.8 (b) The commissioner ~~may~~ must require completion of a comprehensive solid waste  
87.9 management plan conforming to the requirements of section 115A.46, before accepting an  
87.10 application. Within five days of filing an application with the agency, the applicant must  
87.11 submit a copy of the application to each solid waste management facility, including each

87.18 materials or yard waste, resource recovery, and waste processing and transfer stations serving  
87.19 such facilities is needed to reduce and manage properly the solid waste generated in the  
87.20 state and to conserve and protect the natural resources in the state and the health, safety,  
87.21 and welfare of its citizens; that opportunities to acquire, establish, and improve the facilities  
87.22 and transfer stations are not being fully realized by individual political subdivisions or by  
87.23 agreements among subdivisions; and that therefore it is necessary to provide capital assistance  
87.24 to stimulate and encourage the acquisition, establishment, and betterment improvement of  
87.25 the facilities and transfer stations.

87.26 Sec. 51. Minnesota Statutes 2022, section 115A.54, subdivision 2, is amended to read:

87.31 solid waste without resource recovery are not eligible for assistance. Money appropriated  
87.32 for the purposes of the ~~demonstration~~ program may be distributed as grants or loans. An

 88.6 then appropriated to that agency and allocated by it to projects within the state, by any  
 88.7 person, or by the appropriation of proceeds of bonds or other funds of the recipient to a fund

 88.31 facility; and

89.1 (2) a project to substantially increase the recovery of materials or energy, substantially  
89.2 reduce the amount or toxicity of waste processing residuals, or expand the capacity of an  
89.3 existing resource recovery facility to meet the resource recovery needs of an expanded  
89.4 region if each county from which waste is or would be received has achieved a recycling  
89.5 rate in excess of the goals in section 115A.551, and is implementing aggressive waste  
89.6 reduction and household hazardous waste management programs.

89.7 (e) A waste reduction project or reuse project may receive grant assistance up to 75  
89.8 percent of the capital cost of the project or \$5,000,000, whichever is less, except that projects

89.15 will be located has a comprehensive solid waste management plan approved by the  
89.16 commissioner, and the solid waste management plan proposes the development of the  
89.17 resource recovery facility. If the proposed resource recovery facility is not in place and

89.27 ~~(g)~~ (i) In addition to the application requirements of section 115A.51, an application for  
89.28 a project serving eligible jurisdictions in only a single county must demonstrate that  
89.29 cooperation with jurisdictions in other counties to develop the project is not needed or not  
89.30 feasible. Each application must also demonstrate that the project is not financially prudent  
89.31 without the state assistance, because of the applicant's financial capacity and the problems  
89.32 inherent in the waste management situation in the area, particularly transportation distances  
89.33 and limited waste supply and markets for resources recovered.

90.1 ~~(h)~~ (j) For the purposes of this subdivision, a "project" means acquisition, establishment,  
 90.2 or improvement of a processing facility, that conducts waste reduction, reuse, recycling,

 90.5 and appurtenant facilities primarily serving the ~~processing~~ facility.

90.6 (k) The commissioner shall adopt rules for the program ~~by July 1, 1985.~~

90.7 ~~(i)~~ (l) Notwithstanding anything in this subdivision to the contrary, a project to construct  
 90.8 a new ~~mixed municipal~~ solid waste transfer station that has an enforceable commitment of  
 90.9 at least ten years, or of sufficient length to retire bonds sold for the facility, to serve an  
 90.10 existing resource recovery facility may receive grant assistance up to 75 percent of the  
 90.11 capital cost of the project if addition of the transfer station will increase substantially the  
 90.12 geographical area served by the resource recovery facility and the ability of the resource  
 90.13 recovery facility to operate more efficiently on a regional basis and the facility meets the  
 90.14 criteria in paragraph ~~(e)~~ (d), ~~the second~~ clause (2). A transfer station eligible for assistance  
 90.15 under this paragraph is not eligible for assistance under any other paragraph of this  
 90.16 subdivision.

90.17 Sec. 53. Minnesota Statutes 2022, section 115A.565, subdivision 1, is amended to read:

90.18 Subdivision 1. **Grant program established.** The commissioner must make competitive

 90.20 ~~or composting, increase~~ for waste reduction, reuse, recycling or, and composting, reduce  
 90.21 ~~the amount of recyclable materials entering disposal facilities, or reduce the costs associated~~  
 90.22 ~~with hauling waste by locating collection sites as close as possible to the site where the~~  
 90.23 ~~waste is generated~~ of source-separated compostable materials or yard waste. To be eligible  
 90.24 for grants under this section, a political subdivision or federally recognized Tribe must be  
 90.25 located outside the seven-county metropolitan area and a city must have a population of  
 90.26 less than 45,000.

 90.29 appropriations, grants must be made for projects that, in the commissioner's judgment,  
 90.30 provide the highest return in public benefits.

90.31 (b) To be eligible to receive a grant, a project must:

90.32 (1) be locally administered;

- 91.1 (2) have an educational component and measurable outcomes;
- 91.2 (3) request \$250,000 or less;
- 91.3 (4) demonstrate local direct and indirect matching support of at least a quarter amount
- 91.4 of the grant request; ~~and~~
- 91.5 (5) include at least one of the following elements:
- 91.6 ~~(i) transition to residential recycling through curbside or centrally located collection~~

- 91.15 (6) demonstrate that the project will reduce waste generation through waste reduction
- 91.16 or reuse or that the project will increase the amount of recyclable materials or
- 91.17 source-separated compostable materials diverted from a disposal facility.

91.18 **Sec. 55. [116.065] CUMULATIVE IMPACTS ANALYSIS; PERMIT DECISIONS**

91.19 **IN ENVIRONMENTAL JUSTICE AREAS.**

91.20 Subdivision 1. **Definitions.** (a) For the purposes of this section, the following terms have

91.21 the meanings given.

91.22 (b) "Commissioner" means the commissioner of the Minnesota Pollution Control Agency.

91.23 (c) "Cumulative impacts" means the impacts of aggregated levels of past and current

91.24 air, water, and land pollution in a defined geographic area to which current residents are

91.25 exposed.

91.26 (d) "Environmental justice" means:

91.27 (1) communities of color, Indigenous communities, and low-income communities have

91.28 a healthy environment and are treated fairly when environmental statutes, rules, and policies

91.29 are developed, adopted, implemented, and enforced; and

92.1 (2) in all decisions that have the potential to affect the environment of an environmental  
92.2 justice area or the public health of its residents, due consideration is given to the history of  
92.3 the area's and its residents' cumulative exposure to pollutants and to any current  
92.4 socioeconomic conditions that increase the physical sensitivity of those residents to additional  
92.5 exposure to pollutants.

92.6 (e) "Environmental justice area" means one or more census tracts in Minnesota:

92.7 (1) in which, based on the most recent data published by the United States Census Bureau:

92.8 (i) 40 percent or more of the population is nonwhite;

92.9 (ii) 35 percent or more of the households have an income at or below 200 percent of the  
92.10 federal poverty level; or

92.11 (iii) 40 percent or more of the population over the age of five have limited English  
92.12 proficiency; or

92.14 1151.

92.15 (f) "Environmental stressors" mean factors that may make residents of an environmental  
92.16 justice area particularly sensitive to exposure to pollutants. Environmental stressors include  
92.17 social and environmental factors, including but not limited to, poverty, substandard housing,  
92.18 food insecurity, elevated rates of disease, and poor access to health insurance and medical  
92.19 care.

92.20 Subd. 2. **Cumulative impacts analysis; when required.** (a) This subdivision applies  
92.21 to the following permit applications for the construction of a new facility or the expansion  
92.22 of an existing facility within the seven-county metropolitan area or within Indian country  
92.23 as defined by United States Code, title 18, section 1151:

92.24 (1) a major air permit, as defined in Minnesota Rules, part 7007.0200, subpart 2;

92.25 (2) a state air permit required under Minnesota Rules, part 7007.0250, subpart 6;

92.26 (3) an individual permit for a solid waste disposal facility proposing to receive or increase  
92.27 capacity by 100,000 cubic yards or more of waste annually; and

92.28 (4) a permit required for the treatment, storage, or disposal of hazardous waste.

92.29 (b) The owner or operator of a facility subject to paragraph (a), clause (1), must conduct  
92.30 a cumulative impacts analysis if the facility is located in or, as determined by the  
92.31 commissioner, may affect the environment or health of residents in, an environmental justice  
92.32 area, and:

93.1 (1) the proposed facility or expansion exceeds the benchmarks established in the  
93.2 rulemaking required under subdivision 5 requiring conduct of a cumulative impacts analysis;  
93.3 or

93.4 (2) a petition signed by at least 100 persons residing or owning property in the affected  
93.5 environmental justice area is submitted to the commissioner and supported by material  
93.6 evidence demonstrating, to the satisfaction of the commissioner, that a potential adverse  
93.7 cumulative impact on the environment or health of the residents of the environmental justice  
93.8 area may result if the permit is issued.

93.9 In making this determination, the commissioner may consider material evidence submitted  
93.10 by the owner or operator of the facility seeking the permit that issuance of the permit will  
93.11 not result in a potential adverse cumulative impact in the environmental justice area.

93.12 (c) The commissioner may require an owner or operator of a facility subject to paragraph  
93.13 (a) to conduct a cumulative impacts analysis for an owner or operator of a facility described  
93.14 in paragraph (a), clauses (1) to (4), that is seeking reissuance of a permit to conduct a  
93.15 cumulative impacts analysis if the commissioner has material evidence that demonstrates  
93.16 that a potential adverse cumulative impact on the environment or health of the residents of  
93.17 the environmental justice area may result if the permit is issued and:

93.18 (1) the facility is located within one mile of the boundary of an environmental justice  
93.19 area within the seven-county metropolitan area;

93.20 (2) the facility is located within one mile of Indian country, as defined in United States

93.22 (3) the proposed facility does not exceed the benchmarks established in the rulemaking  
93.23 required under subdivision 5 requiring conduct of a cumulative impacts analysis.

93.24 In making this determination, the commissioner may consider material evidence submitted  
93.25 by the owner or operator of the facility seeking the permit that issuance of the permit will  
93.26 not result in a potential adverse cumulative effect in the environmental justice area.

93.27 **Subd. 3. Cumulative impacts analysis; public meeting requirements.** (a) Any owner  
93.28 or operator required to conduct a cumulative impacts analysis under subdivision 2 must  
93.29 hold at least two public meetings in the affected environmental justice area before the  
93.30 commissioner issues or denies a permit. The first public meeting must be held before  
93.31 conducting a cumulative impacts analysis, and the second must be held after conducting  
93.32 the analysis.

93.33 (b) The owner or operator must:

94.1 (1) publish notice containing the date, time, and location of the public meetings, and a  
94.2 brief description of the permit or project in a newspaper of general circulation within the

94.13 interested party; and

94.14 (3) provide an electronic copy of all written comments and a transcript of oral comments  
94.15 to the agency within 30 days of the public meetings.

94.16 (e) If the permit applicant or permit holder is applying for more than one permit that  
94.17 may affect the same environmental justice area, the permit applicant or permit holder may  
94.18 request that the commissioner require that the facility hold two public meetings that address  
94.19 all of the permits sought. The commissioner may approve or deny the request.

94.20 (f) The commissioner may incorporate conditions in a permit for a facility located in or  
94.21 affecting an environmental justice area to hold multiple in-person, meetings with residents  
94.22 of the environmental justice area affected by the facility to share information and discuss  
94.23 community concerns.

94.24 Subd. 4. **Environmental justice area; permit decisions.** (a) In determining whether to  
94.25 issue or deny a permit, the commissioner must consider the testimony presented and  
94.26 comments submitted in public meetings held under subdivision 3. The permit may be issued  
94.27 no earlier than 30 days following the last public meeting.

94.28 (b) The commissioner must deny an application for a permit subject to this section for  
94.29 a facility in an environmental justice area if the commissioner finds that issuing the permit  
94.30 in combination with the environmental stressors present in the environmental justice area  
94.31 would contribute to adverse cumulative environmental stressors in the environmental justice  
94.32 area, unless:

95.1 (1) the commissioner enters into a community benefit agreement with the facility owner  
95.2 or operator, in consultation with community-based organizations representing the interests  
95.3 of residents of the environmental justice community; and

95.4 (2) there is a compelling public interest to issue the permit, as determined by the  
95.5 commissioner, based on criteria established in the rules required under subdivision 5.

95.6 (c) If the commissioner determines that a compelling public interest exists and the  
95.7 commissioner enters into a community benefit agreement with the facility owner or operator,  
95.8 the commissioner may grant a permit that imposes conditions on the construction and  
95.9 operation of the facility to protect public health and the environment.

95.10 (d) Issuance of a permit under this section must include a requirement that the facility  
95.11 provide information to the community describing the health risks that the facility poses.

95.12 (e) A community benefit agreement must be signed on or before the date a new permit  
95.13 or major permit amendment is issued in an environmental justice area.

95.21 (b) During the rulemaking process, the Pollution Control Agency shall engage in robust  
95.22 public engagement, including public meetings, and Tribal consultation.

95.23 (c) Rules developed under this section must:

95.24 (1) define conditions, criteria, or circumstances that qualify as a compelling public  
95.25 interest, which:

95.26 (i) must consider whether the economic benefit considered will directly or substantially  
95.27 benefit residents of the affected environmental justice area;

95.28 (ii) must include noneconomic considerations; and

95.29 (iii) must take into account public comments made at public meetings held under  
95.30 subdivision 3;

95.31 (2) establish benchmarks to assist the commissioner's determination regarding the need  
95.32 for a cumulative impacts analysis to be conducted;

100.27 **Subd. 4. Testing required and certificate of compliance.** (a) If the commissioner has  
100.28 reason to believe that a product contains intentionally added PFAS and the product is being  
100.29 offered for sale in the state, the commissioner may direct the manufacturer of the product  
100.30 to, within 30 days, provide the commissioner with testing results that demonstrate the amount  
100.31 of each of the PFAS, identified by its chemical abstracts service registry number, in the  
100.32 product, reported as an exact quantity determined using commercially available analytical  
100.33 methods or as falling within a range approved for reporting purposes by the commissioner.

101.1 (b) If testing demonstrates that the product does not contain intentionally added PFAS,  
101.2 the manufacturer must provide the commissioner a certificate attesting that the product does  
101.3 not contain intentionally added PFAS, including testing results and any other relevant  
101.4 information.

101.5 (c) If testing demonstrates that the product contains intentionally added PFAS, the

101.7 required under subdivision 2.

101.8 (d) A manufacturer must notify persons who sell or offer for sale a product prohibited

102.2 environment and natural resources if they contain intentionally added PFAS.

102.3 (c) Beginning January 1, 2032, a person may not sell, offer for sale, or distribute for sale  
102.4 in this state any product that contains intentionally added PFAS, unless the commissioner  
102.5 has determined by rule that the use of PFAS in the product is a currently unavoidable use.  
102.6 The commissioner may specify specific products or product categories for which the  
102.7 commissioner has determined the use of PFAS is a currently unavoidable use. The  
102.8 commissioner may not determine that the use of PFAS in a product is a currently unavoidable  
102.9 use if the product is listed in paragraph (a).

102.10 Subd. 6. **Fees.** The commissioner may establish by rule a fee payable by a manufacturer

110.30 (b) The report must include options for a system to collect, reuse, and recycle solar  
110.31 photovoltaic modules and installation components at end of life. Any system option included

111.1 in the report must be convenient and accessible throughout the state, recover 100 percent  
111.2 of discarded components, and maximize value and materials recovery. Any system option  
111.3 developed must include analysis of:

111.4 (1) the reuse and recycling values of solar photovoltaic modules, installation components,  
111.5 and recovered materials;

111.6 (2) system infrastructure and technology needs;

111.7 (3) how to maximize in-state employment and economic development;

111.8 (4) net costs for the program; and

111.9 (5) potential benefits and negative impacts of the plan on environmental justice and  
111.10 Tribal communities.

111.11 (c) The report must include a survey of solar photovoltaic modules and installation  
111.12 components that are currently coming out of service and those projected to come out of  
111.13 service in the future in Minnesota. The report must include a description of how solar  
111.14 photovoltaic modules and installation components are currently being managed at end of  
111.15 life and how they would likely be managed in the future without the proposed reuse and  
111.16 recycling system.

111.17 (d) After completing the report, the commissioner must convene a working group to  
111.18 advise on developing policy recommendations for a statewide system to manage solar  
111.19 photovoltaic modules and installation components. The working group must include, but  
111.20 is not limited to:

111.21 (1) the commissioners of commerce and employment and economic development or  
111.22 their designees;

111.23 (2) representatives of the solar industry and electric utilities;

111.24 (3) representatives of state, local, and Tribal governments; and

111.25 (4) other relevant stakeholders.

111.26 (e) By January 15, 2025, the commissioner must submit the report and the policy  
111.27 recommendations developed under this section to the chairs and ranking minority members  
111.28 of the legislative committees and divisions with jurisdiction over environment and natural  
111.29 resources policy and finance and energy policy and finance.

112.1 **Sec. 66. STATUTORY AND RULE REVISIONS TO PREVENT FISH KILLS IN**  
112.2 **DRIFTLESS AREA.**

112.3 By January 15, 2024, the commissioners of agriculture, health, and natural resources  
112.4 and the commissioner of the Pollution Control Agency must make recommendations to the  
112.5 legislature for statutes and rules that should be amended to prevent fish kills within the  
112.6 boundaries of the Department of Natural Resources Paleozoic Plateau ecological section.

112.7 **Sec. 67. TEMPORARY EXEMPTION FOR TERMINALS AND OIL REFINERIES.**

112.8 Subdivision 1. **Temporary exemption.** Minnesota Statutes, section 325F.072, subdivision  
112.9 3, does not apply to the manufacture, sale, distribution, or use of class B firefighting foam  
112.10 for the purposes of use at a terminal or oil refinery until January 1, 2026.

112.11 Subd. 2. **Extension; waiver.** (a) A person who operates a terminal or oil refinery may  
112.12 apply to the state fire marshal for a waiver to extend the exemption under subdivision 1  
112.13 beyond January 1, 2026, as provided in this subdivision.

112.14 (b) The state fire marshal may grant a waiver to extend the exemption under subdivision  
112.15 1 for a specific use if the applicant provides all of the following:

112.16 (1) clear and convincing evidence that there is no commercially available replacement  
112.17 that does not contain intentionally added PFAS chemicals and that is capable of suppressing  
112.18 fire for that specific use;

112.19 (2) information on the amount of firefighting foam containing intentionally added PFAS  
112.20 chemicals stored, used, or released on-site on an annual basis;

112.21 (3) a detailed plan, with timelines, for the operator of the terminal or oil refinery to  
112.22 transition to firefighting foam that does not contain intentionally added PFAS chemicals  
112.23 for that specific use; and

112.24 (4) a plan for meeting the requirements under subdivision 3.

112.25 (c) The state fire marshal must ensure there is an opportunity for public comment during  
112.26 the waiver process. The state fire marshal must consider both information provided by the  
112.27 applicant and information provided through public comment when making a decision on  
112.28 whether to grant a waiver. The term of a waiver must not exceed two years. The state fire  
112.29 marshal must not grant a waiver for a specific use if any other terminal or oil refinery is  
112.30 known to have transitioned to commercially available class B firefighting foam that does  
112.31 not contain intentionally added PFAS chemicals for that specific use. All waivers must  
112.32 expire by January 1, 2028. A person that anticipates applying for a waiver for a terminal or

113.1 oil refinery must submit a notice of intent to the state fire marshal by January 1, 2025, in  
113.2 order to be considered for a waiver beyond January 1, 2026. The state fire marshal must  
113.3 notify the waiver applicant of a decision within six months of the waiver submission date.

113.4 (d) The state fire marshal must provide an applicant for a waiver under this subdivision  
113.5 an opportunity to:

113.6 (1) correct deficiencies when applying for a waiver; and

113.7 (2) provide evidence to dispute a determination that another terminal or oil refinery is  
113.8 known to have transitioned to commercially available class B firefighting foam that does  
113.9 not contain intentionally added PFAS chemicals for that specific use, including evidence  
113.10 that the specific use is different.

113.11 Subd. 3. Use requirements. (a) A person that uses class B firefighting foam containing  
113.12 intentionally added PFAS chemicals under this section must:

113.13 (1) implement tactics that have been demonstrated to prevent release directly to the  
113.14 environment, such as to unsealed ground, soakage pits, waterways, or uncontrolled drains;

113.15 (2) attempt to fully contain all firefighting foams with PFAS on-site using demonstrated  
113.16 practices designed to contain all PFAS releases;

113.17 (3) implement containment measures such as bunds and ponds that are controlled, are  
113.18 impervious to PFAS chemicals, and do not allow fire water, wastewater, runoff, and other  
113.19 wastes to be released to the environment, such as to soils, groundwater, waterways, or  
113.20 stormwater; and

113.21 (4) dispose of all fire water, wastewater, runoff, impacted soils, and other wastes in a  
113.22 way that prevents releases to the environment.

113.23 (b) A terminal or oil refinery that has received a waiver under this section may provide  
113.24 and use class B firefighting foam containing intentionally added PFAS chemicals in the  
113.25 form of mutual aid to another terminal or oil refinery at the request of authorities only if  
113.26 the other terminal or oil refinery also has a waiver.

113.27 **EFFECTIVE DATE.** This section is effective January 1, 2024.

113.28 **Sec. 68. TRANSFER OF DUTIES; FARMED WHITE-TAILED DEER.**

113.29 (a) Responsibility for administering and enforcing the statutes and rules listed in clauses  
113.30 (1) and (2) for farmed white-tailed deer are, except as provided in paragraph (c), transferred  
113.31 pursuant to Minnesota Statutes, section 15.039, from the Board of Animal Health to the  
113.32 commissioner of natural resources:

114.1 (1) Minnesota Statutes, sections 35.153 to 35.156; and

114.2 (2) Minnesota Rules, parts 1721.0370 to 1721.0420.

114.3 (b) The Board of Animal Health retains responsibility for administering and enforcing  
114.4 the statutes and rules listed in paragraph (a), clauses (1) and (2), for all other farmed Cervidae.

114.5 (c) Notwithstanding Minnesota Statutes, section 15.039, subdivision 7, the transfer of  
114.6 personnel will not take place. The commissioner of natural resources may contract with the  
114.7 Board of Animal Health for any veterinary services required to administer this program.

114.8 **EFFECTIVE DATE.** This section is effective July 1, 2025.

114.9 **Sec. 69. TURTLE SELLER'S LICENSES; TRANSFER AND RENEWAL.**

114.11 after the effective date of this section.

114.12 **EFFECTIVE DATE.** This section is effective January 1, 2024.

114.13 **Sec. 70. UPPER SIOUX AGENCY STATE PARK; LAND TRANSFER.**

114.14 (a) The commissioner of natural resources must convey for no consideration all  
114.15 state-owned land within the boundaries of Upper Sioux Agency State Park to the Upper  
114.16 Sioux Community. By September 15, 2023, the commissioner must identify all state-owned  
114.17 land within Upper Sioux Agency State Park and any funding restrictions or other legal  
114.18 barriers to conveying the land. Lands without restrictions or barriers to being conveyed  
114.19 must be conveyed to the Upper Sioux Community by December 1, 2023.

114.20 (b) By December 15, 2023, the commissioner must submit a report to the chairs and  
114.21 ranking minority members of the legislative committees with jurisdiction over environment  
114.22 and natural resources that identifies all barriers to conveying land within Upper Sioux  
114.23 Agency State Park and recommendations for addressing those barriers, including any  
114.24 legislation needed to eliminate those barriers.

114.25 **EFFECTIVE DATE.** This section is effective the day following final enactment.

114.26 **Sec. 71. WHITE BEAR LAKE AREA WATER-USE STAKEHOLDER GROUP.**

114.27 The commissioner of natural resources must convene a group of stakeholders to advise  
114.28 the commissioner and the legislature on options for ensuring communities in the White Bear  
114.29 Lake area have access to sufficient safe drinking water to allow for municipal growth while  
114.30 simultaneously ensuring the sustainability of surface and groundwater sources to supply

115.1 the needs of future generations. By March 1, 2024, the commissioner must report any  
115.2 recommendations of the stakeholder group to the chairs and ranking minority members of  
115.3 the house of representatives and senate committees and divisions with jurisdiction over the  
115.4 environment and natural resources.

115.5 **Sec. 72. REVISOR INSTRUCTION.**

115.6 The revisor of statutes must recodify the relevant sections in Minnesota Statutes, chapter  
115.7 35, and Minnesota Rules, chapter 1721, as necessary to conform with section 14. The revisor  
115.8 must also change the responsible agency, remove obsolete language, and make necessary  
115.9 cross-reference changes consistent with section 14 and the renumbering.
