103.27 for readiness development projects funded under subdivision 4b, which, to the extent
103.28 practicable, must use the criteria specified in this paragraph.

103.29 ~~(d) The list of all projects evaluated must be made public and must include the score of~~
103.30 ~~each project.~~

~~(e) As part of the project selection process, the commissioner may divide funding to be separately available among projects within each classification under subdivision 3, and may apply separate or modified criteria among those projects falling within each classification.~~

(i) **Phase 4: Project ranking and selection.** On completion of project scoring under Phase 3, the commissioner must develop a ranked list of projects based on total score, and must select projects in rank order for funding under the program, subject to subdivisions 4a and 4b. The commissioner must specify the amounts and known or anticipated sources of funding for each selected project.

(j) **Phase 5: Public information.** The commissioner must publish information regarding the selection process on the department's website. The information must include:

(1) lists of all projects submitted for consideration and all projects recommended by the screening entities;

(2) the scores and ranking for each project; and

(3) an overview of each selected project, with amounts and sources of funding.

(k) **Phase 6: Readiness development.** For project selection under Phase 4, if all selected projects from prior project selection rounds under Phase 4 are funded, the commissioner must select additional projects from projects that received readiness development advancement funds under subdivision 4b. If a project received readiness development advancement funds and does not have sufficient sources of funding identified, the commissioner must re-score the projects as provided under Phase 3 and include the project in Phase 4 in the next selection round.

(b) "Applicable entity" means the commissioner with respect to a capacity expansion project for inclusion in the state transportation improvement program or a metropolitan planning organization with respect to a capacity expansion project for inclusion in the appropriate metropolitan transportation improvement program.

(c) "Assessment" means the capacity expansion impact assessment under this section.

(d) "Capacity expansion project" means a project for trunk highway construction or reconstruction that:

(1) is a major highway project, as defined in section 174.56, subdivision 1, paragraph (b); and

(2) adds highway traffic capacity or provides for grade separation at an intersection, excluding auxiliary lanes with a length of less than 2,500 feet.

(e) "Greenhouse gas emissions" includes those emissions described in section 216H.01, subdivision 2.

Subd. 2. **Project assessment.** (a) Prior to inclusion of a capacity expansion project in the state transportation improvement program or a metropolitan transportation improvement program, the applicable entity must perform a capacity expansion impact assessment of the project. 107.14 (2) the necessary funding sources are identified and sufficient amounts are committed;

107.15 (3) the mitigation is localized as provided in subdivision 5; and

107.16 (4) procedures are established to ensure that the mitigation action remains in substantially
107.17 the same form or a revised form that continues to meet the calculation under paragraph (b).

107.18 Subd. 5. **Impact mitigation; localization.** (a) A mitigation action under subdivision 4
107.19 must be localized in the following priority order:

107.20 (1) within or associated with at least one of the communities impacted by the capacity
107.21 expansion project;

107.22 (2) if there is not a reasonably feasible location under clause (1), in areas of persistent
107.23 poverty or historically disadvantaged communities, as measured and defined in federal law,

154.16 subdivision 3, paragraph (c).

154.17 (e) "Eligible retailer" means a person who has engaged in the business of retail sales of
154.18 new electric-assisted bicycles for at least six months prior to receiving the approval of the
154.19 commissioner under subdivision 5.

154.20 (f) "Qualifying accessories" means a bicycle helmet, lights, lock, luggage rack, basket,
154.21 bag or backpack, fenders, or reflective clothing.

154.22 Subd. 2. Rebate established. An eligible retailer that has been assigned a rebate certificate
154.23 by an eligible individual may apply to the commissioner for a rebate, as provided in this
154.24 section.

154.25 Subd. 3. Amount of rebate. (a) The amount of a rebate under this section equals the
154.26 lesser of:

154.27 (1) the applicable percentage, multiplied by the amount of eligible expenses paid by an
154.28 eligible individual; or

154.29 (2) \$1,500.

155.1 (b) The applicable percentage equals 75 percent, but is reduced by one percentage point
155.2 until the percentage equals 50 percent, for each \$4,000 of the eligible individual's adjusted
155.3 gross income in excess of:

155.4 (1) \$50,000 for a married taxpayer filing a joint return; and

155.5 (2) \$25,000 for all other filers.

155.6 (c) For the purposes of determining the applicable percentage under paragraph (b) and
155.7 subdivision 4, paragraph (a), the commissioner must use the eligible individual's adjusted
155.8 gross income for the taxable year ending in the calendar year prior to the year in which the
155.9 individual applied for a rebate certificate.

155.10 Subd. 4. Commissioner to issue rebate certificates. (a) To qualify for a rebate under
155.11 this section, an eligible individual must apply to the commissioner for a rebate certificate
155.12 in the manner specified by the commissioner prior to purchasing an electric-assisted bicycle.
155.13 As part of the application, the eligible individual must include proof of the individual's
155.14 adjusted gross income for the taxable year specified in subdivision 3, paragraph (c). The
155.15 commissioner must issue a rebate certificate to an eligible individual stating the issuance
155.16 date, the applicable percentage, and the maximum rebate for which the taxpayer is eligible.
155.17 For a married taxpayer filing a joint return, each spouse may apply to the commissioner
155.18 separately, and the commissioner must issue each spouse a separate rebate certificate.

155.19 (b) The commissioner of revenue may determine the date on which to open applications
155.20 for a rebate certificate, and applications must not be submitted before the date determined
155.21 by the commissioner. Beginning July 1, 2024, and July 1 of each subsequent calendar year
155.22 for which there is an allocation of rebate certificates, the commissioner must allocate rebate
155.23 certificates on a first-come, first-served basis. The commissioner must reserve 40 percent
155.24 of the certificates for a married taxpayer filing a joint return with an adjusted gross income
155.25 of less than \$78,000 or any other filer with an adjusted gross income of less than \$41,000.
155.26 Any portion of the reserved amount under this paragraph that is not allocated by September
155.27 30 is available for allocation to other rebate certificate applications beginning on October
155.28 1.

155.29 (c) The commissioner must not issue rebate certificates totaling more than \$2,000,000
155.30 in each of calendar years 2024 and 2025, except any amount authorized but not allocated
155.31 in any calendar year does not cancel and is added to the allocation for the next calendar
155.32 year. When calculating the amount of remaining allocations, the commissioner must assume
155.33 that each allocated but unclaimed certificate reduces the available allocations by \$1,500.

(d) A rebate certificate that is not assigned to a retailer expires two months after the date the certificate was issued and may not be assigned to a retailer after expiration. The amount of any expired rebate certificates is added to the available allocation under paragraph (c).

Subd. 5. **Certification of eligible retailers.** To be eligible to be assigned a rebate certificate under this section, an eligible retailer must apply to the commissioner of revenue to be certified as an eligible retailer in the manner specified by the commissioner. The application must include proof that the person applying has been actively involved in the business of retail sales of new electric-assisted bicycles for at least six months.

249.18 did not result in a completed authorized transaction.

249.19 (c) The commissioner must establish a process that allows an individual who was subject
249.20 to disciplinary action to appeal the action. If the commissioner imposes disciplinary action,
249.21 the commissioner must notify the individual in writing of the action, explain the reason for
249.22 the action, and explain how to appeal the action. The commissioner must transmit the
249.23 notification within five calendar days of the action.

249.24 (d) The commissioner must arrange for an independent biennial audit of the driver and

250.24 operation of a motor vehicle; and

250.26 determine the applicant's fitness to operate a motor vehicle safely upon the highways.

250.27 (b) Notwithstanding paragraph (a), the commissioner must not deny an application for

250.29 color perception or that the applicant has been diagnosed with diabetes mellitus. War veterans
250.30 operating motor vehicles especially equipped for disabled persons, if otherwise entitled to
250.31 a license, must be granted such license.

(c) ~~The commissioner shall make provision for giving the examinations under this subdivision either in the county where the applicant resides or at a place adjacent thereto reasonably convenient to the applicant.~~ The commissioner must ensure that an applicant may take an exam either in the county where the applicant resides or in an adjacent county at a reasonably convenient location. (b) If the commissioner determines that an applicant for a two-wheeled vehicle endorsement is 21 years of age or older and possesses a valid driver's license with a two-wheeled vehicle endorsement issued by another state or jurisdiction that requires a comparable examination to obtain an endorsement, the commissioner must waive the requirements with respect to the endorsement that the applicant pass a knowledge examination and demonstrate the ability to exercise ordinary and reasonable control in the operation of a motor vehicle.

(c) For purposes of this subdivision, "jurisdiction" includes, but is not limited to, both the active and reserve components of any branch or unit of the United States armed forces, and "valid driver's license" includes any driver's license that is recognized by that branch or unit as currently being valid, or as having been valid at the time of the applicant's separation or discharge from the military within a period of time deemed reasonable and fair by the commissioner, up to and including one year past the date of the applicant's separation or discharge.
