(952) 292-2152

May I introduce myself I am Daniel Westberg and I am applying for the open position on the State Board of Electricity. I have worked in this industry for the majority of my career, 26 years. I have seen the benefit of updating and renewing electrical codes. At age 31 I made a life changing decision and registered and attend Anoka Area Vocational Technical School and obtained a degree in Electronics. After achieving the degree in electronics I was employed by Low Voltage Contractors a Minnesota licensed Power Limited Contractor where I obtained my Minnesota Power Limited License PL 08602. Taking from my experiences as a field Power Limited Technician, and then moving into a management position I was able to broaden my prospective which allows me to make qualified code and safety decisions. I will add value to this board because I will bring my expertise in fire alarm systems, special integrated systems and networking. I feel this opportunity will allow me to expand my focus on bettering the electrical industry as a whole.

I feel the State Board of Electricity is an essential part of the electrical industry because it enables us to stay cutting edge in our electrical practices. The review of existing code is essential due to the continuous change in electrical technologies because it ensures the protection and safety of property and personal well being.

Thank you in advance for taking the time to review my application submission.

Sincerely,

Daniel Westberg
