St. Paul, Minnesota 55155

Re: Plumbing Board Licensed Professional Engineer Position

Dear Governor Dayton:

My name is Richard Becker, and I am applying for the Licensed Professional Engineer position on the Plumbing Board.

I have 16 years of experience in the plumbing industry. My experience covers most aspects of the plumbing industry. My initial experience was an apprentice. After completing my apprenticeship, I obtained both my Journeyman and Master Plumbers license in the State of Minnesota. Eventually I held Master Plumber licenses in Minnesota, Wisconsin and North Dakota, and also had my Master Plumber competency card in Minneapolis, and St. Paul. While working as a plumber I did both residential and commercial plumbing installations. My installation experience varies from single family homes to large commercial projects.

After working in the field installing plumbing, I transitioned to doing estimating and design for commercial plumbing systems. I created estimates for small single bathroom projects to million dollar commercial plumbing projects. Estimating plumbing projects has allowed me to understand the financial aspects of the plumbing industry.

After estimating plumbing for several years, I started working in the consulting engineering field. I have worked for Steen Engineering Inc. for the past four years as a Mechanical Engineer. At Steen Engineering I create construction documents for projects ranging from a single use bathroom to 400+ unit high-rise apartment buildings. While working at Steen, I have taken and passed the Professional Engineer Exam for both Mechanical and Electrical engineering. I am currently a licensed Professional Engineer in the State of Minnesota. My license number is 53700.

I work with the Minnesota Plumbing Code on a daily basis. I am extremely qualified in plumbing and should be appointed to the Licensed Professional Engineer position for the Plumbing Board. I have included my resume and copy of my Professional Engineers License.

Thank you for your time and consideration. I look forward to the opportunity to serve on the Plumbing Board.

Sincerely,

Richard Becker, PE, Associate
Steen Engineering, Inc.
