Dear Appointing Authority Representative;

**RECEIVED**

APR 19 2017

President of the Senate

Governor  
11/10/2016

I have served as the Public Member of the Board of High Pressure Piping Systems since 2013 and I would be honored to be appointed for a 3rd term beginning in January 2017.

As a Public Member I view my role as an important addition to the industry expertise of my board colleagues because I am there to represent the opinions and perspectives of the average taxpayer. My goal is to assure that the board is considering the physical safety of the public and employees in all decision-making and that the rules adopted are appropriate to a well functioning license and permitting

system. Although my professional experience is in the Healthcare field, I have been an active member of my Saint Paul community and have been actively involved with residential and commercial development projects, zoning and public works projects and advocacy on behalf of my community. I believe this experience enhances my ability to serve in the role of the Public Member.

I have been honored to participate in the review and updating of the Minnesota High Pressure Piping codes and have learned a great deal about how the update and approval process works and serves the people of Minnesota. In addition to my work with the full board, I participated in a small group to review a specific set of codes and recommend updates to the full board. Most recently, the board reviewed a request for a variance, which required detailed discussions of the applicable code, as well as a consideration of the policy and precedent that would be set by granting the variance. Although the board did not grant the requested variance it was a valuable learning opportunity for me as the Public Member of the board.

I have been honored to be a member of the Board of High Pressure Piping Systems, and have consistently been impressed that my board colleagues and the Department of Labor and Industry staff share my concerns for safety and effectiveness of Minnesota High Pressure Piping Systems. I believe that what I have learned in my first two terms on the board will serve me well in a 3rd term. I respectfully request to serve an additional term as the Public Member on the Board of High Pressure Piping Systems.

**Resume or other information helpful to the appointing authority::**

Marit A. Brock, SPHR, CMPE

74 Garfield Street " Saint Paul, MN 55102 " Res: 651.343.3840 " Cell: 612.290.9332

maritbrock@gmail.com

**Summary**

My greatest strength is to create the environment where success happens naturally. My ability to connect the right resources with the strategy at hand has allowed me to achieve great results for my employer, the non-profit organizations I serve, and my community.

Adept in team leadership, culture change, infrastructure development, and performance management in order to identify and implement strategic and operational priorities.
