7 November 2017

Office of the Minnesota Secretary of State

Re: Minnesota State Board of Electricity
Open Position-Contractor/Master Electrician

To Whom It May Concern:

I am making application to be considered for the open position of Master Electrician/Contractor on the Minnesota State Board of Electricity. I have been involved in the electrical construction industry since 1979 when I began as a helper electrician. I have been employed at Hunt Electric for 32 years and have been a Master Electrician for 30 years.

I have a diverse educational background with a BA in History, a two year technical degree in electrical construction and a MBA. All of my education was completed at Minnesota schools.

My work experience has included work in every segment of the electrical industry and I have extensive experience in Health Care Facilities, High Rise Office and Condominiums, Industrial Facilities and Solar Energy Generation Facilities. Hunt Electric is the largest contractor in the state and we have offices in Bloomington, Duluth, Rochester, and Virginia. We provide service across the entire state as well as in other US Markets.

I have served on many different boards—some related to the construction industry, but also many others that focus on developing our local communities and serving those in need.

While I'm sure there are many qualified candidates, I do feel that my education, industry experience, and experience serving on many diverse boards would make me a valuable contributor to the Minnesota State Board of Electricity.

If there are any questions regarding my application or qualifications, please contact me directly. Thank you for your consideration.

Sincerely

Michael Hanson

MICHAEL HANSON | mhanson@huntelec.com
PRESIDENT | HUNT ELECTRIC CORPORATION
