RE: Clean Water Council Business Member Application

Honorable Governor Dayton and Application Review Committee,

I am writing to express my interest in serving the State of Minnesota on the Clean Water Council as a Business Member. While I have been fortunate to work on water related projects across the U.S., the bulk of my experience is in Minnesota. I was born in New Hope, raised in Hampton, received my college education at the University of MN, and have worked my entire career in Minnesota. You can be assured that I will have the best interests of this state in mind if I am fortunate to be selected for this position.

Over my career I have worked as a Hydrologist with the MN Department of Natural Resources, then becoming an environmental consultant, and now working directly for industry. I have experienced the multiple facets of managing water resources, but more importantly, I have obtained the experience of a myriad of solutions to water resource issues. It is my sincere hope that I can put this knowledge and experience to work for my home state.

Please except the attached resume for consideration of the fore mentioned position and please contact me with any questions or requests for additional information.

Sincerely,

Douglas S. Losee

Doug Losee, V.P. Environmental Affairs
Unimin Corporation
