Board of Electricity

Power Limited technician position

Dear Governor Dayton;

Please consider my application to the State board of Electricity for the Power Limited Technician vacancy. I have served two terms and would like to serve a third term. I am presently the Chairperson of the Board, elected in October. I am employed by LVC Companies since December 26th of 1985. I hold the position of Executive Vice President.

I spend many hours per week on the education aspect of Power limited industry teaching at apprentice training facilities and engagements with the electrical industry. This industry has been a fantastic career for myself and I feel I need to give back to the industry.

By staying current with my State license and as a NICET Level IV I have learned the effect of code changes for the industry and feel I have input that keeps the industry current.

There is a huge concern of safety in the electrical industry and I spend many hours training workers in the proper installation practices for electrical installation.

Again, I feel I am an asset to the industry and please consider my application for a third term on the Board of Electricity.

Thank You;

Daniel Westberg
