President of the Senate

I am a L.U. 455 Steamfitter St Paul, MN. I carry all of my master licenses for the city of St. Paul and my MN HPP Masters for the state, I am also working on getting my PLT(Power Limited Tech) license which requires 3 years of field experience before you can get the license. As of now I am a little over a year away from that accomplishment. I am a welding teacher for my local union and I am a member of our examining board.

## EXPERIENCE

05/2013 – 07/2019

UNION STEAMFITTER, PIONEER POWER INC.

I started in Pioneer's fabrication shop for welding then moved to different sites as a jobber type fitter. Places included FHR, NTE, 3M (St Paul & Cottage Grove), and many more. Skills needed for this company included welding, threading, victaulic, piping layout, and blueprint reading.

07/1019 – 08/2021

HVACR TECH/JOBBER, ALLIANCE MECHANICAL

During my employment I took on a lot of responsibility for this contractor which included bidding jobs, troubleshooting for rooftops, chillers, pulling wire and landing points for DDC systems, converting pneumatic systems to digital, install of cascading boiler systems and all the appurtenances that are incorporated.

## EDUCATION

MAY 2005

HIGH SCHOOL DIPLOMA, HENRY SIBLEY

I was very interested in math and science, also loved sports and was a tri-athlete playing football, baseball, wrestling.

MAY 2013

STEAMFITTER CERTIFICATE, ST PAUL COLLEGE

I did very well throughout the 6 years of schooling needed to become a journeyman steamfitter. I was top of my class along with a few others that applied themselves.

## SKILLS

- I am reliable and understand the piping systems and the appurtenances in the systems.
- Willing to learn and admit when I am in the wrong or made a mistake.
- Dependable and on time.
- Being respectful to all, treat others how you want to be treated.
- Welding (TIG, wire, stick)

## ACTIVITIES

Before I started my career as a union steam fitter I wanted to be a construction diver so I went to New Jersey and started my schooling. I graduated top of my class at Divers Academy International in Erial, New Jersey. After that I met my wife and started a family and found myself as a Piledriver working for Carl Bolander & Sons and was an apprentice for L.U. 1847 for approximately 4 years and worked on the Northrup auditorium, the new Stillwater bridge and many more. I come from a family of steamfitters and felt this was the best career choice for me. I am a father of 4 awesome kids and husband to an amazing woman, I love hunting and fishing and teaching my children as well as the students I have in my classes.
