CAMILLE McARDLE, DVM

6451 177th Street North, Hugo MN 55038 – Cell: 612-743-7329 – camillemca@earthlink.net

Regulatory Veterinarian, administrator, and writer experienced in management, program development and policy making in both the private and public sectors. Proven ability to successfully analyze problems, develop and simplify procedures, and find innovative solutions. Able to translate complex concepts into formats designed to maximize understanding and acceptance by the recipient. Especially skilled at building effective, productive working relationships with internal and external stakeholders in a variety of settings. A self-starter with a strong work ethic and an impressive track record of team-building, advocacy, and leadership.

RECEIVED

JUL 28 2023

SELECTED ACCOMPLISHMENTS

Policy analysis and development:

- Service as a Minnesota Racing Commissioner. Worked with agency and legislative staff to develop and revise statutes and administrative rules in order to promote and protect the integrity of the horse racing industry. Analyzed industry trends, stakeholder input and regulatory mandates to achieve equitable yet effective policy. Provided industry information to legislative oversight committees.

President of the Senate

Program Implementation:

- Selected to rehabilitate a struggling educational program as Dean of Veterinary Technology for a network of colleges. Completely revised all regulatory systems to meet current requirements. Rewrote USDA animal use protocols. Collaborated with agency officials to ensure DEA compliance. Formulated new curriculum in accordance with programmatic accreditation standards. Dramatically improved outcomes metrics, including an increase of over 30 percentage points in certification exam passing rates in three years, to a point exceeding the national average.
- Instrumental in the start-up of horse racing in Minnesota (1985). Networked with state agencies and educational institutions to implement workable systems for quality assurance and proficiency in drug testing. Coordinated compliance by licensees and involved staff members with all applicable federal and state regulations. Developed relationships with interest groups to facilitate communications. Generated a standard operating procedures manual for sample chain of custody and designed a racing injuries tracking system, both now in use in multiple states.

Research administration:

- Directed equine research fund generated through pari-mutuel racing (over \$ 1,000,000). Implemented a review board utilizing expertise from multiple veterinary colleges. Designed a proposal review system to specifically address scientific merit, cost-effectiveness, and animal usage issues. Successfully negotiated changes in legislation ensuring interim and final results dissemination back to the funding source. The use of these funds stimulated the granting of several million dollars in follow-up funding from external sources to researchers at the University of Minnesota.

Communication:

- Interacted extensively with advisory committees and a variety of private and public agencies on various educational issues, to define processes and negotiate potential solutions. Formulated agendas and managed meetings with multiple remote participants. Collected and analyzed data to gauge effectiveness and worked with stakeholders to revise plans as needed.
- Published a variety of articles on veterinary subjects for lay readership.
- Taught veterinary physiology to adult college students of diverse backgrounds.
- Participated in numerous public meetings involving horse racing issues.
- Provided client education to animal owners while in private practice, to facilitate a basic understanding of health issues and possible treatment choices.

PROFESSIONAL BACKGROUND

1993 to Present:

Commissioner, Minnesota Racing Commission. **Chair** since June 2021.

Develop policy governing live horse racing, card-room operations and simulcasting. Review applications for racing officials, veterinarians & technical staff. Select primary & secondary racing toxicology laboratories. Interact with Attorney General's Office on legal matters. Review and make recommendations on equine research grant applications. Have served as Interim Commission Chair, Chair of the Racing Rules Committee, and as a member of the Drug Testing Standards & Practices Committee and Model Rules Committee for Association of Racing Commissioners International.

2015 to 2021:

Shelter Medical Director, Minneapolis Animal Care & Control, Minneapolis, MN.

Develop policies and procedures for veterinary care of animals in municipal shelter, including setting up surgical capabilities for sterilization. Work with staff on community outreach to improve health and safety of city animals. Testify at hearings. Hire and train personnel. Monitor in-shelter regulatory matters. Work with other organizations to optimize placements for appropriate animals.

2008 to 2014:

Dean of Veterinary Technology/Regulatory Specialist, Globe Education Network, Woodbury, MN.

Administration of Veterinary Technology program for multiple campuses in five states, representing over 1500 students. Evaluate curriculum effectiveness. Mentor and motivate faculty. Address compliance with federal (Animal Welfare Act, Drug Enforcement Administration, Occupational Health and Safety Administration), and state (radiation safety, hazardous materials) regulations. Manage American Veterinary Medical Association accreditation compliance for 21 separate entities. Review all purchases and invoices for the program.

2007 to 2008:

Resident Veterinarian, Veterinary Technology Program, Minnesota School of Business, Blaine, MN.

Handled animal acquisition, usage and care to ensure compliance with USDA requirements. Coordinated procedures and treatments among the various classes. Monitored use and documentation of controlled substances as required by the DEA. Advised other faculty and staff on instructional and program matters.

1993 to 2006:

Associate veterinarian in companion-animal practice in the northwest Minneapolis suburbs.

1993:

Consultant, Minnesota Board of Animal Health, St. Paul, MN.

Operated as temporary consultant on inter-agency loan. Rewrote rules on swine pseudorabies to reflect current technology in monitoring systems. Devised informational publications for pork producers to advise them of changes.

1985 to 1993:

Chief Commission Veterinarian, Minnesota Racing Commission.

Key member of a 5-person team charged with setting up pari-mutuel horse racing in the state, including rules promulgation, acting as liaison with other state/private agencies, developing procedures manuals & written information for participants, setting up drug-testing protocols, maintaining communications with the public and the press, etc. Administered equine research funds generated through pari-mutuel racing. Managed seasonal staff of 25-32 (veterinarians, technicians and clericals). Served on Racing Regulatory Committee for American Association of Equine Practitioners. Testified before legislative committees and groups on various aspects of horse racing and drug testing as needed to support MRC legislative initiatives and budget requests.

1983 to 1985:

State Veterinarian, Florida Division of Pari-Mutuel Wagering.

Provided on-track oversight of animal health and post-race drug testing. Worked with architects to design new testing facility. Testified at hearings and in administrative court.

Re: Open Positions, Minnesota Racing Commission

To: The Honorable Tim Walz, Governor
75 Rev Dr. Martin Luther King Jr. Blvd.
St. Paul, MN 55155

President of the Senate

Dear Governor Walz:

I am today submitting my application for re-appointment as a member of the Minnesota Racing Commission (MRC).

As of June I will have served as a Commissioner for thirty years, the last two years as Chair. I came to Minnesota in 1985 to assist with the onset of pari-mutuel racing, working as part of the MRC staff until my initial appointment to the Commission in 1993. I have actually been involved in horse racing in several states for over 50 years in total.

With this background I have a deep understanding of the industry as well as the historical knowledge of MRC activities over the years. I also bring to the Commission a network of strong relationships with various stakeholders and hold their trust.

I believe that my long term involvement with the MRC and my position as Chair have created a sense of security and stability within both the Commission and the racing industry here in Minnesota.

We are in the very early stages of a federal takeover of certain aspects of racing under the umbrella of the Horseracing Integrity and Safety Act (HISA). While I believe that uniform standards across the country are well overdue I also know that change is never easy. Minnesota's racing rules and systems helped serve as a model for many of HISA's regulations but we are still looking at several years of difficulty working through the myriad of details that will be involved

For these reasons I strongly believe that my reappointment as a Commissioner and as Chair would be in the best interests of the MRC and the horse racing industry in this state. I appreciate your consideration.

Very sincerely,

Dr. Camille McArdle
