Subd. 5. **Notification.** (a) If a hospital or health system charges a facility fee utilizing a CPT evaluation and management code or assessment and management code for outpatient services provided at a provider-based clinic where a professional fee is also expected to be charged, the hospital or health system must provide the patient with a written notice that includes the following information:

(1) that the provider-based clinic is part of a hospital or health system and that the hospital or health system charges a facility fee that is in addition to and separate from the professional fee charged by the provider;

(2) the amount of the patient's potential financial liability, including any facility fee likely to be charged, and, where professional medical services are provided by an affiliated provider, any professional fee likely to be charged, or, if the exact type and extent of the professional medical services needed are not known or the terms of a patient's health insurance coverage are not known with reasonable certainty, an estimate of the patient's financial liability based on typical or average charges for visits to the provider-based clinic, including the facility fee;

(3) a statement that the patient's actual financial liability will depend on the professional medical services actually provided to the patient;

(4) an explanation that the patient may incur financial liability that is greater than the patient would incur if the professional medical services were not provided by a provider-based clinic;

(5) a telephone number the patient may call for additional information regarding the patient's potential financial liability, including an estimate of the facility fee likely to be charged based on the scheduled professional medical services; and

(6) that a patient covered by a health insurance policy should contact the health insurer for additional information regarding the hospital's or health system's charges and fees, including the patient's potential financial liability, if any, for the charges and fees.

(b) If a hospital or health system charges a facility fee without utilizing a CPT evaluation and management code for outpatient services provided at a provider-based clinic, the hospital or health system must provide the patient with a written notice that includes the following information:

(1) that the provider-based clinic is part of a hospital or health system and that the hospital or health system charges a facility fee that may be in addition to and separate from the professional fee charged by a provider;

(2) a statement that the patient's actual financial liability will depend on the professional medical services actually provided to the patient;

(3) an explanation that the patient may incur financial liability that is greater than the patient would incur if the provider-based clinic was not hospital-based;

(4) a telephone number the patient may call for additional information regarding the patient's potential financial liability, including an estimate of the facility fee likely to be charged based on the scheduled professional medical services; and

(5) that a patient covered by a health insurance policy should contact the health insurer for additional information regarding the hospital's or health system's charges and fees, including the patient's potential financial liability, if any, for the charges and fees.

(c) Each initial billing statement that includes a facility fee must:

(1) clearly identify the fee as a facility fee that is billed in addition to, or separately from, any professional fee billed by the provider;

(2) provide the corresponding Medicare facility fee reimbursement rate for the same service as a comparison or, if there is no corresponding Medicare facility fee for the service:

(i) the approximate amount Medicare would have paid the hospital for the facility fee on the billing statement; or

(ii) the percentage of the hospital's charges that Medicare would have paid the hospital for the facility fee;

(3) include a statement that the facility fee is intended to cover the hospital's or health system's operational expenses;

(4) inform the patient that the patient's financial liability may have been less if the services had been provided at a facility not owned or operated by the hospital or health system; and

(5) include written notice of the patient's right to request a reduction in the facility fee or any other portion of the bill and a telephone number that the patient may use to request such a reduction without regard to whether the patient qualifies for, or is likely to be granted, any reduction.

No later than October 15, 2025, and annually thereafter, each hospital, health system, and provider-based clinic must submit to the commissioner of health a sample of a billing statement issued by the hospital, health system, or provider-based clinic that complies with the provisions of

this paragraph and which represents the format of billing statements received by patients. The billing statement must not contain patient identifying information.

(d) The written notices described in paragraphs (a) to (c) and (g) to (i) must be in plain language and in a form that may be reasonably understood by a patient who does not possess special knowledge regarding hospital or health system facility fee charges. On and after October 1, 2025, the notices must include tag lines in at least the top 15 languages spoken in Minnesota indicating that the notice is available in each of those top 15 languages. The 15 languages must be either the languages in the list published by the Department of Health and Human Services in connection with section 1557 of the Patient Protection and Affordable Care Act, P.L. 111-148, or, as determined by the hospital or health system, the top 15 languages in the geographic area of the provider-based clinic.

(e) For nonemergency care, if a patient's appointment is scheduled to occur ten or more days after the appointment is made, such written notice must be sent to the patient by first class mail, encrypted electronic mail, or a secure patient Internet portal not more than three days after the appointment is made. If an appointment is scheduled to occur less than ten days after the appointment is made or if the patient arrives without an appointment, such notice must be hand-delivered to the patient when the patient arrives at the provider-based clinic. For emergency care, such written notice must be provided to the patient as soon as practicable after the patient is stabilized in accordance with the federal Emergency Medical Treatment and Active Labor Act, United States Code, title 42, section 1395dd, as amended from time to time, or is determined not to have an emergency medical condition and before the patient leaves the provider-based clinic. If the patient is unconscious, under great duress, or for any other reason unable to read the notice and understand and act on the patient's rights, the notice must be provided to the patient's representative as soon as practicable.

(f) Paragraphs (a) to (e) do not apply if a patient is insured by Medicare or the medical assistance program under chapter 256B or is receiving services under a workers' compensation plan established to provide medical services.

(g) A provider-based clinic must prominently display written notice in locations that are readily accessible to and visible by patients, including patient waiting or appointment check-in areas, stating the following:

(1) that the provider-based clinic is part of a hospital or health system;

(2) the name of the hospital or health system; and

(3) that if the provider-based clinic charges a facility fee, the patient may incur a financial liability greater than the patient would incur if the provider-based clinic was not hospital-based.

On and after October 1, 2025, such notices must include tag lines in at least the top 15 languages spoken in Minnesota indicating that the notice is available in each of those top 15 languages. The 15 languages must be either the languages in the list published by the Department of Health and Human Services in connection with section 1557 of the Patient Protection and Affordable Care Act, P.L. 111-148, or, as determined by the hospital or health system, the top 15 languages in the geographic area of the provider-based clinic. No later than October 1, 2025, and annually thereafter, each provider-based clinic must submit a copy of the written notice required by this paragraph to the commissioner of health.

(h) A provider-based clinic must identify itself to the public and payers as being hospital-based, including, at a minimum, by stating the name of the hospital or health system in its signage, marketing materials, websites, and stationery.

(i) A provider-based clinic must, when scheduling services for which a facility fee may be charged, inform the patient:

(1) that the provider-based clinic is part of a hospital or health system;

(2) of the name of the hospital or health system;

(3) that the hospital or health system may charge a facility fee in addition to and separate from the professional fee charged by the provider; and

(4) of the telephone number the patient may call for additional information regarding such patient's potential financial liability.

(5) the estimated amount or range of amounts the provider-based clinic may bill for a facility fee or an example of the average facility fee billed at the provider-based clinic for the most common services provided at the provider-based clinic; and

Subd. 6. **Standards and procedures for accepting donations of drugs and supplies and purchasing drugs from licensed wholesalers.** (a) Notwithstanding any other law or rule, a donor may donate drugs or medical supplies to the central repository or a local repository if the drug or supply meets the requirements of this section as determined by a pharmacist or practitioner who is employed by or under contract with the central repository or a local repository.

(b) A drug is eligible for donation under the medication repository program if the following requirements are met:

(1) the drug's expiration date is at least six months after the date the drug was donated. (2) the drug is in its original, sealed, unopened, tamper-evident packaging that includes the expiration date. Single-unit-dose drugs may be accepted if the single-unit-dose packaging is unopened;

(3) the drug or the packaging does not have any physical signs of tampering, misbranding, deterioration, compromised integrity, or adulteration;

(4) the drug does not require storage temperatures other than normal room temperature as specified by the manufacturer or United States Pharmacopoeia, unless the drug is being donated directly by its manufacturer, a wholesale drug distributor, or a pharmacy located in Minnesota; and

(5) the drug is not a controlled substance.

(c) A medical supply is eligible for donation under the medication repository program if the following requirements are met:

(1) the supply has no physical signs of tampering, misbranding, or alteration and there is no reason to believe it has been adulterated, tampered with, or misbranded;

(2) the supply is in its original, unopened, sealed packaging; and

(3) if the supply bears an expiration date, the date is at least six months later than the date the supply was donated. If the donated supply bears an expiration date that is less than six months from the date the supply was donated, the supply may be accepted and distributed if the supply is in high demand and can be dispensed for use by a patient before the supply's expiration date.

(d) The board shall develop the medication repository donor form and make it available on the board's website. Prior to the first donation from a new donor, a central repository or local repository shall verify and record the following information on the donor form:

(1) the donor's name, address, phone number, and license number, if applicable;

(2) that the donor will only make donations in accordance with the program;

(3) to the best of the donor's knowledge, only drugs or supplies that have been properly stored under appropriate temperature and humidity conditions will be donated; and

A drop box must not be used to deliver or accept donations.

(f) The central repository and local repository shall maintain a written or electronic inventory of all drugs and supplies donated to the repository upon acceptance of each drug or supply. For each drug, the inventory must include the drug's name, strength, quantity, manufacturer, expiration date, and the date the drug was donated. Whenever possible, the repository must use donated drugs to fill prescriptions.

Subd. 10. Distribution of donated drugs and supplies. (a) The central repository and local repositories may distribute drugs and supplies donated under the medication repository program to other participating repositories for use pursuant to this program.

If the service is provided by a team of contracted vendors, the team shall determine how to distribute the rate among its members. No reimbursement received by contracted vendors shall be returned to the county or tribe, except to reimburse the county or tribe for advance funding provided by the county or tribe to the vendor.

(g) If the service is provided by a team which includes contracted vendors, tribal staff, and county or state staff, the costs for county or state staff participation in the team shall be included in the rate for county-provided services. In this case, the contracted vendor, the tribal agency, and the county may each receive separate payment for services provided by each entity in the same month. In order to prevent duplication of services, each entity must document, in the recipient's file, the need for team case management and a description of the roles of the team members.

(h) Notwithstanding section 256B.19, subdivision 1, the nonfederal share of costs for mental health case management shall be provided by the recipient's county of responsibility, as defined in sections 256G.01 to 256G.12, from sources other than federal funds or funds used to match other federal funds. If the service is provided by a tribal agency, the nonfederal share, if any, shall be provided by the recipient's tribe. When this service is paid by the state without a federal share through fee-for-service, 50 percent of the cost shall be provided by the recipient's county of responsibility.

(i) Notwithstanding any administrative rule to the contrary, prepaid medical assistance and MinnesotaCare include mental health case management. When the service is provided through prepaid capitation, the nonfederal share is paid by the state and the county pays no share.

(j) The commissioner may suspend, reduce, or terminate the reimbursement to a provider that does not meet the reporting or other requirements of this section. The county of responsibility, as defined in sections 256G.01 to 256G.12, or, if applicable, the tribal agency, is responsible for any federal disallowances. The county or tribe may share this responsibility with its contracted vendors.

(k) The commissioner shall set aside a portion of the federal funds earned for county expenditures under this section to repay the special revenue maximization account under section 256.01, subdivision 2, paragraph (n). The repayment is limited to:

- (1) the costs of developing and implementing this section; and
- (2) programming the information systems.

(l) Payments to counties and tribal agencies for case management expenditures under this section shall only be made from federal earnings from services provided under this section. When this service is paid by the state without a federal share through fee-for-service, 50 percent of the cost shall be provided by the state. Payments to county-contracted vendors shall include the federal earnings, the state share, and the county share.

(m) Case management services under this subdivision do not include therapy, treatment, legal, or outreach services.

(n) If the recipient is a resident of a nursing facility, intermediate care facility, or hospital, and the recipient's institutional care is paid by medical assistance, payment for case management services under this subdivision is limited to the lesser of:

- (1) the last 180 days of the recipient's residency in that facility and may not exceed more than six months in a calendar year; or
- (2) the limits and conditions which apply to federal Medicaid funding for this service.

(o) Payment for case management services under this subdivision shall not duplicate payments made under other program authorities for the same purpose.

(p) If the recipient is receiving care in a hospital, nursing facility, or residential setting licensed under chapter 245A or 245D that is staffed 24 hours a day, seven days a week, mental health targeted case management services must actively support identification of community alternatives for the recipient and discharge planning.

EFFECTIVE DATE. This section is effective upon federal approval. The commissioner of human services shall notify the revisor of statutes when federal approval is obtained.

The request for reconsideration must be made in writing and must be postmarked and sent to the commissioner within 20 calendar days after receipt of the correction order by the applicant or license holder or submitted in the provider licensing and reporting hub within 20 calendar days from the date the commissioner issued the order through the hub, and:

- (1) specify the parts of the correction order that are alleged to be in error;
- (2) explain why they are in error; and
- (3) include documentation to support the allegation of error.

(b) Upon implementation of the provider licensing and reporting hub, the provider must use the hub to request reconsideration. A request for reconsideration does not stay any provisions or requirements of the correction order. The commissioner's disposition of a request for reconsideration is final and not subject to appeal under chapter 14.

~~(b)~~ (c) This paragraph applies only to licensed family child care providers. A licensed family child care provider who requests reconsideration of a correction order under paragraph (a) may also request, on a form and in the manner prescribed by the commissioner, that the commissioner expedite the review if:

(1) the provider is challenging a violation and provides a description of how complying with the corrective action for that violation would require the substantial expenditure of funds or a significant change to their program; and

(2) describes what actions the provider will take in lieu of the corrective action ordered to ensure the health and safety of children in care pending the commissioner's review of the correction order.

(d) The commissioner must not publicly post the correction order for licensed child care centers or licensed family child care providers on the department's website until:

(1) after the 20-calendar-day period for requesting reconsideration; or

(2) if the applicant or license holder requested reconsideration, after the commissioner's disposition of a request for reconsideration is provided to the applicant or license holder.

The commissioner must not post any communication, including letters, from the commissioner to the center or provider.

(b) The commissioner must remove a summary document from the Licensing Information Lookup public website within ten days of the length of time that the document is required to be posted under Code of Federal Regulations, title 45, section 98.33.

If practicable, the commissioner must contract with the National Association for Regulatory Administration.

(b) The consultant must develop a proposal for updated family child care licensing standards and solicit input from stakeholders as described in paragraph (d). The proposed new standards must protect the health and safety of children in family child care programs and be child centered, family friendly, and fair to providers.

(c) The consultant must work with stakeholders and the Department of Children, Youth, and Families, as described in paragraph (d), to develop a proposal for a risk-based model for monitoring compliance with family child care licensing standards, grounded in national regulatory best practices. Violations in the new model must be weighted to reflect the potential risk they pose to children's health and safety, and licensing sanctions must be tied to the potential risk. ~~The proposed new model must protect the health and safety of children in family child care programs and be child-centered, family friendly, and fair to providers.~~

(d) The consultant ~~shall~~ must develop and implement a stakeholder engagement process that solicits input from parents, licensed family child care providers, county licensors, staff of the Department of ~~Human Services~~ Children, Youth, and Families, and experts in child development about licensing standards, tiers for violations of the standards based on the potential risk of harm that each violation poses, and licensing sanctions for each tier. The consultant and commissioner must engage with working groups of licensed family child care providers at least five times throughout the stakeholder engagement process, and include both daytime and evening engagement opportunities as needed.

(e) The consultant shall solicit input from parents, licensed family child care providers, county licensors, and staff of the Department of ~~Human Services~~ Children, Youth, and Families about which family child care providers should be eligible for abbreviated inspections that predict compliance with other licensing standards for licensed family child care providers using key indicators previously identified by an empirically based statistical methodology developed by the National Association for Regulatory Administration and the Research Institute for Key Indicators.

(f) No later than ~~February~~ December 1, 2024 2025, the commissioner ~~shall~~ must submit a report and proposed legislation required to implement the new licensing model and the new licensing standards to the chairs and ranking minority members of the legislative committees with jurisdiction over child care regulation. Throughout the drafting of the report and proposed legislation required under this paragraph, the commissioner must engage providers whose primary language is not English to have those providers review translated drafts of the report and written materials provided at engagement sessions to provide feedback on the draft standards. This engagement must occur within focus groups or meetings that are held at convenient times for the providers, including both daytime and evening sessions.

(g) The proposals developed under paragraphs (b) and (c); any presentations, summary documents, engagement invitations, surveys, and drafts of the report used in the stakeholder engagement process under paragraph (d) or when soliciting input under paragraph (e); and the report required under paragraph (f) must also be made available in Hmong, Somali, and Spanish.

(h) The updated family child care licensing standards proposed under paragraph (b) and the risk-based model for monitoring compliance with family child care licensing standards proposed under paragraph (c) must not be implemented any earlier than January 1, 2027."

(c) A law enforcement agency may deny a request to inspect portable recording system data under paragraph (b) if the agency determines that there is a compelling reason that inspection would interfere with an active investigation. If the agency denies access under this paragraph, the chief law enforcement officer must provide a prompt, written denial to the individual in paragraph (b) who requested the data with a short description of the compelling reason access was denied and must provide notice that relief may be sought from the district court pursuant to section 13.82, subdivision 7.

(d) When an individual dies as a result of a use of force by a peace officer, an involved officer's law enforcement agency shall release all portable recording system data, redacted no more than what is required by law, documenting the incident no later than 14 days after the incident, unless the chief law enforcement officer asserts in writing that the public classification would interfere with an ongoing investigation, in which case the data remain classified by section 13.82, subdivision 7.

(e) Notwithstanding section 13.82, subdivision 7, portable recording system data on a data subject who is an elected official and charged with a felony is public data 14 days after a criminal complaint is filed.

~~(e)~~ (f) A law enforcement agency may redact or withhold access to portions of data that are public under this subdivision if those portions of data are clearly offensive to common sensibilities.

~~(f)~~ (g) Section 13.04, subdivision 2, does not apply to collection of data classified by this subdivision.

~~(g)~~ (h) Any person may bring an action in the district court located in the county where portable recording system data are being maintained to authorize disclosure of data that are private or nonpublic under this section or to challenge a determination under paragraph ~~(e)~~ (f) to redact or withhold access to portions of data because the data are clearly offensive to common sensibilities. The person bringing the action must give notice of the action to the law enforcement agency and subjects of the data, if known. The law enforcement agency must give notice to other subjects of the data, if known, who did not receive the notice from the person bringing the action. The court may order that all or part of the data be released to the public or to the person bringing the action. In making this determination, the court shall consider whether the benefit to the person bringing the action or to the public outweighs any harm to the public, to the law enforcement agency, or to a subject of the data and, if the action is challenging a determination under paragraph ~~(e)~~ (f), whether the data are clearly offensive to common sensibilities. The data in dispute must be examined by the court in camera. This paragraph does not affect the right of a defendant in a criminal proceeding to obtain access to portable recording system data under the Rules of Criminal Procedure.
