Reports the same back with the recommendation that the bill be amended as follows:

Delete everything after the enacting clause and insert:

"Section 1. **MINNESOTA YOUNG READERS CLUB PROGRAM FOR LITERACY SUPPORT.**

Subdivision 1. **Program established; grantee.** (a) The Minnesota Young Readers Club program is established to provide culturally and linguistically appropriate books and literacy materials to prekindergarten and kindergarten students who are reading below grade level. The program supports early literacy development by building home libraries in alignment with the Read Well by Third Grade initiative and the Read Act.

(b) The commissioner must award one grant to a community-based nonprofit organization with physical locations in the seven-county metropolitan area, that provides child care and youth services, and has broad partnerships with local schools and other nonprofits to administer the program. The grant recipient may partner with similar community-based nonprofit organizations that are located outside the seven-county metropolitan area.

Subd. 2. **Student eligibility criteria.** The Minnesota Young Readers Club program is designed to improve reading proficiency and engagement for prekindergarten and kindergarten students identified as reading below grade level. A student is eligible to participate in the program if:

(1) the student is enrolled in either prekindergarten or kindergarten and is identified through universal screening as not meeting grade-level literacy benchmarks; or

(2) the student is enrolled in either prekindergarten or kindergarten and has received a recommendation to participate in the program from a teacher, reading specialist, or intervention team member.

Subd. 3. Student participation and enrollment strategy. (a) The Minnesota Young Readers Club program is available to all students eligible under subdivision 2. Schools are encouraged to implement the following strategies to ensure that the program is effectively integrated as a supportive tool within existing literacy interventions:

(1) a teacher may recommend and refer students and families to the Minnesota Young Readers Club program as an additional resource to support at-home reading, alongside other critical interventions;

(2) a counselor or reading specialist may include information about the program to families during parent meetings or at other times, framing the Minnesota Young Readers Club program as a supplementary tool for building a home library and enhancing literacy support; and

(3) a student's school may include program enrollment information with progress reports or literacy assessments, offering parents an opportunity to enroll their children in the program for additional home-based literacy support.

(b) School literacy teams may present the Minnesota Young Readers Club program as one of several tools available to support literacy development for students reading below grade level.

(c) The grant recipient must include in their grant application a plan for providing engagement, promotion, and outreach to eligible families to raise awareness of the program, emphasizing the value of building a home library to support literacy development.

Subd. 4. Book selection. In consultation with the Department of Education, the grant recipient must ensure that the books selected for distribution:

(1) align to reading levels;

(2) are selected to match the reading levels of striving readers, ensuring that students receive materials that are accessible and engaging while promoting gradual literacy improvement; and

(3) reflect the cultural diversity of Minnesota's student population and are age-appropriate, promoting both engagement and inclusivity.

Subd. 5. Monthly book distribution and family support. (a) The grant recipient must ensure that the books are distributed in an efficient and timely manner, whether by direct mail or through delivery at the student's school or at community locations operated in partnership with the grant recipient. The grant recipient must purchase books and literacy materials and ensure that they are mailed directly to a student's home or delivered directly to a student at school at least once per month throughout the school year. Each delivery of materials must consist of at least one culturally relevant

and age-appropriate book aligned to the reading levels of the student. The delivery method must minimize delays and ensure consistency in delivery of the books to students.

(b) Family support materials must accompany each mailing and must offer guidance on creating and using home libraries effectively. To the extent practicable, the family support materials must be culturally adapted and translated into the home languages of the family and must include tips on shared reading practices and storytelling. The Minnesota Young Readers Club program must emphasize culturally responsive family engagement and must offer practical resources to support children's literacy through the use of home libraries. Materials must be accessible and designed to reflect the cultural and linguistic backgrounds of participating families.

Subd. 6. **Program evaluation metrics; reporting.** (a) The grant recipient must collect and analyze data on program participation, family engagement, and student reading outcomes. The evaluation metrics must include at least the following:

- (1) the frequency and quality of reading activities at home;
- (2) the impact of culturally relevant books on student interest in reading;
- (3) feedback from families and educators on the program's effectiveness;
- (4) demographic information on the number of students and families served by the program;
- (5) data on family engagement and home library usage; and
- (6) the reported impact on literacy development.

(b) The grant recipient must prepare and submit an annual report to the chairs and ranking minority members of the legislative committees with jurisdiction over education in accordance with Minnesota Statutes, section 3.195. The report must summarize the information required in paragraph (a) and make recommendations for future improvements or expansion of the Minnesota Young Readers Club program.

Subd. 7. **Public-private partnerships and community engagement.** (a) The grant recipient may form strategic partnerships with private entities, local businesses, libraries, and literacy organizations to support the Minnesota Young Readers Club program and strengthen community and business alliances.

(b) The Department of Education and the grant recipient may work with schools to promote and host community literacy events that celebrate literacy, engage families, and promote cultural diversity.

(c) The Department of Education and the grant recipient may provide supplementary resources and support to enrich the program and strengthen home literacy environments.

(c) A contractor on a public contract for a public improvement must pay all remaining retainage to its subcontractors no later than ten days after receiving payment of retainage from the public contracting agency, unless there is a dispute about the work under a subcontract. If there is a dispute about the work under a subcontract, the contractor must pay out retainage to any subcontractor whose work is not involved in the dispute, and must provide a written statement detailing the amount and reason for the withholding to the affected subcontractor.

(d) Upon written request of a subcontractor, the public contracting agency shall notify the subcontractor of a progress payment, retainage payment, or final payment made to the contractor.

(e) After substantial completion, a public contracting agency may withhold no more than:

(1) 250 percent of the cost to correct or complete work known at the time of substantial completion; and

(2) one percent of the value of the contract or \$500, whichever is greater, pending completion and submission of all final paperwork by the contractor or subcontractor. For purposes of this subdivision, "final paperwork" means documents required to fulfill contractual obligations, including, but not limited to, operation manuals, payroll documents for projects subject to prevailing wage requirements, and the withholding exemption certificate required by section 270C.66.

If the public contracting agency withholds payment under this paragraph, the public contracting agency must promptly provide a written statement detailing the amount and basis of withholding to the contractor. The public contracting agency and contractor must provide a copy of this statement to any subcontractor that requests it. Any amounts withheld under clause (1) must be paid within 60 days after completion of the work. Any amounts withheld under clause (2) must be paid within 60 days after submission of all final paperwork.

(f) As used in this subdivision, "substantial completion" shall be determined as provided in section 541.051, subdivision 1, paragraph (a). For construction, reconstruction, or improvement of streets and highways, including bridges, substantial completion means the date when construction-related traffic devices and ongoing inspections are no longer required.

(g) Withholding retainage for warranty work is prohibited. This provision does not waive any rights for warranty claims.

(h) For a project funded with federal or state aid, the public contracting agency is not required to pay that portion of the contract funded by federal or state aid until the federal or state aid payments have been received.

(i) Nothing in this section requires payment for a portion of a contract that is not complete or for which an invoice has not been submitted.

(j) When an invoice is required, prohibiting or delaying submittal of the invoice is contrary to public policy and is void and unenforceable. A contract provision waiving the right to submit an invoice is void and unenforceable.

Sec. 3. Minnesota Statutes 2024, section 337.10, subdivision 4, is amended to read:

Subd. 4. Progress payments and retainages. (a) Unless the building and construction contract provides otherwise, the owner or other persons making payments under the contract must make progress payments monthly as the work progresses. Payments shall be based upon estimates of work completed as approved by the owner or the owner's agent. A progress payment shall not be considered acceptance or approval of any work or waiver of any defects therein.

(b) Retainage on a building and construction contract may not exceed five percent. An owner or owner's agent may reduce the amount of retainage and may eliminate retainage on any monthly contract payment if, in the owner's opinion, the work is progressing satisfactorily. If the owner reduces the amount of retainage, the contractor must reduce retainage for any subcontractors at the same rate. Nothing in this subdivision is intended to require that retainage be withheld in any building or construction contract.

(c) The owner or the owner's agent must release all retainage no later than 60 days after substantial completion subject to the terms of this subdivision. For purposes of this subdivision, "substantial completion" shall be determined as provided in section 541.051, subdivision 1, paragraph (a).

(d) A contractor must pay all remaining retainage to its subcontractors no later than ten days after receiving payment of retainage, unless there is a dispute about the work under a subcontract, in which case the contractor must pay out retainage to any party whose work is not involved in the dispute. If there is a dispute about the work under a subcontract, the contractor must pay out retainage

to any subcontractor whose work is not involved in the dispute, and must provide a written statement detailing the amount and reason for the withholding to the affected subcontractor.

(e) After substantial completion, an owner or owner's agent may withhold no more than:

(1) 250 percent of the cost to correct or complete work known at the time of substantial completion; and

(2) one percent of the value of the contract or \$500, whichever is greater, pending completion and submission of all final paperwork by the contractor or subcontractor. For purposes of this subdivision, "final paperwork" means documents required to fulfill contractual obligations, including, but not limited to, operation manuals, payroll documents for projects subject to prevailing wage requirements, and the withholding exemption certificate required by section 270C.66.

If the owner or the owner's agent withholds payment under this paragraph, the owner or the owner's agent must promptly provide a written statement detailing the amount and basis of withholding to the contractor. The owner or the owner's agent and the contractor must provide a copy of this statement to any subcontractor that requests it. Any amounts withheld under clause (1) must be paid within 60 days after completion of the work. Any amounts withheld under clause (2) must be paid within 60 days after submission of all final paperwork.

(f) Withholding retainage for warranty work is prohibited. This provision does not waive any rights for warranty claims.

(g) This subdivision does not apply to a public agency as defined in section 15.71, subdivision 3.

(h) This subdivision does not apply to contracts for professional services as defined in sections 326.02 to 326.15.

(i) Nothing in this section requires payment for a portion of a contract that is not complete or for which an invoice has not been submitted. When an invoice is required, prohibiting or delaying submittal of the invoice is contrary to public policy and is void and unenforceable. A contract provision waiving the right to submit an invoice is void and unenforceable."

Subdivision 1. Required coverage. All health plans must cover:

(1) cervical cancer screening tests, including all cervical cancer screening tests recommended in the American Cancer Society Guideline for Cervical Cancer Screening at the time the medical service is performed; and

(2) additional diagnostic services after a cervical cancer screening test, if a health care provider determines the additional services are medically necessary based on the test's result. Additional diagnostic services under this clause include follow-up examinations used to evaluate an abnormality seen or suspected from a cervical cancer screening, regardless of whether different samples from the prior cervical cancer screening are used or the follow-up examination is performed on a different date than the cervical cancer screening. Follow-up examinations include, but are not limited to, human papillomavirus examinations with typing, cytology, dual stain, or colposcopy with biopsy.

Subd. 2. Cost-sharing requirements. A health plan must not impose any cost-sharing requirement on the coverage under this section including but not limited to the following requirements:

(1) deductible;

(2) co-payment; or

(3) coinsurance.

Subd. 3. **Review and referral limitations.** A health plan must not impose any review or referral limitation on the coverage under this section including but not limited to the following limitations:

Subd. 6. **Reimbursement.** (a) The commissioner of commerce must reimburse health plan companies for coverage under this section, as required by Code of Federal Regulations, title 45, section 155.170. Reimbursement is available only for coverage that would not have been provided by the health plan without the requirements of this section. Treatments, services, supplies, and equipment covered by the health plan as of January 1, 2026, are ineligible for payments under this subdivision by the commissioner of commerce.

(b) Health plan companies must report to the commissioner of commerce quantified costs attributable to the additional benefit under this section in a format developed by the commissioner. A health plan's coverage as of January 1, 2026, must be used by the health plan company as the basis for determining whether coverage would not have been provided by the health plan for purposes of this subdivision.

(c) The commissioner of commerce must evaluate submissions and make payments to health plan companies as provided in Code of Federal Regulations, title 45, section 155.170.

Subd. 7. **Appropriation.** Beginning in fiscal year 2028, an amount necessary to make payments to health plan companies to defray the cost of providing coverage under this section is annually appropriated from the general fund to the commissioner of commerce. (2) prenatal HIV risk assessment, education, counseling, and testing; and

(3) alcohol abuse assessment, education, and counseling on the effects of alcohol usage while pregnant. Preventive services available to a woman at risk of poor pregnancy outcome may differ in an amount, duration, or scope from those available to other individuals eligible for medical assistance.

(c) "Screening services" include, but are not limited to, blood lead tests.

(d) The commissioner shall encourage, at the time of the child and teen checkup or at an episodic care visit, the primary care health care provider to perform primary caries preventive services. Primary caries preventive services include, at a minimum:

(1) a general visual examination of the child's mouth without using probes or other dental equipment or taking radiographs;

(2) a risk assessment using the factors established by the American Academies of Pediatrics and Pediatric Dentistry; and

(3) the application of a fluoride varnish beginning at age one to those children assessed by the provider as being high risk in accordance with best practices as defined by the Department of Human Services. At each checkup, if primary caries preventive services are provided, the provider must provide to the child's parent or legal guardian: information on caries etiology and prevention; and information on the importance of finding a dental home for their child by the age of one. The provider must also advise the parent or legal guardian to contact the child's managed care plan or the Department of Human Services in order to secure a dental appointment with a dentist. Sec. 3. Minnesota Statutes 2024, section 256B.0625, is amended by adding a subdivision to read:

Subd. 14a. **Cervical cancer screening tests.** For the coverage of cervical cancer screening tests and additional diagnostic services after a test, pursuant to subdivision 14, medical assistance must meet the requirements that would otherwise apply to a health plan under section 62Q.505, except that medical assistance is not required to comply with any provision of section 62Q.505 if compliance with the provision would:

Subd. 13. **Drugs.** (a) Medical assistance covers drugs, ~~except for fertility drugs when specifically used to enhance fertility,~~ if prescribed by a licensed practitioner and dispensed by a licensed pharmacist, by a physician enrolled in the medical assistance program as a dispensing physician, or by a physician, a physician assistant, or an advanced practice registered nurse employed by or under contract with a community health board as defined in section 145A.02, subdivision 5, for the purposes of communicable disease control.

(b) The dispensed quantity of a prescription drug must not exceed a 34-day supply unless authorized by the commissioner or as provided in paragraph (h) or the drug appears on the 90-day

supply list published by the commissioner. The 90-day supply list shall be published by the commissioner on the department's website. The commissioner may add to, delete from, and otherwise modify the 90-day supply list after providing public notice and the opportunity for a 15-day public comment period. The 90-day supply list may include cost-effective generic drugs and shall not include controlled substances.

(c) For the purpose of this subdivision and subdivision 13d, an "active pharmaceutical ingredient" is defined as a substance that is represented for use in a drug and when used in the manufacturing, processing, or packaging of a drug becomes an active ingredient of the drug product. An "excipient" is defined as an inert substance used as a diluent or vehicle for a drug. The commissioner shall establish a list of active pharmaceutical ingredients and excipients which are included in the medical assistance formulary. Medical assistance covers selected active pharmaceutical ingredients and excipients used in compounded prescriptions when the compounded combination is specifically approved by the commissioner or when a commercially available product:

(1) is not a therapeutic option for the patient;

(2) does not exist in the same combination of active ingredients in the same strengths as the compounded prescription; and

(3) cannot be used in place of the active pharmaceutical ingredient in the compounded prescription.

(d) Medical assistance covers the following over-the-counter drugs when prescribed by a licensed practitioner or by a licensed pharmacist who meets standards established by the commissioner, in consultation with the board of pharmacy: antacids, acetaminophen, family planning products, aspirin, insulin, products for the treatment of lice, vitamins for adults with documented vitamin deficiencies, vitamins for children under the age of seven and pregnant or nursing women, and any other over-the-counter drug identified by the commissioner, in consultation with the Formulary Committee, as necessary, appropriate, and cost-effective for the treatment of certain specified chronic diseases, conditions, or disorders, and this determination shall not be subject to the requirements of chapter 14. A pharmacist may prescribe over-the-counter medications as provided under this paragraph for purposes of receiving reimbursement under Medicaid. When prescribing over-the-counter drugs under this paragraph, licensed pharmacists must consult with the recipient to determine necessity, provide drug counseling, review drug therapy for potential adverse interactions, and make referrals as needed to other health care professionals.

(e) Effective January 1, 2006, medical assistance shall not cover drugs that are coverable under Medicare Part D as defined in the Medicare Prescription Drug, Improvement, and Modernization Act of 2003, Public Law 108-173, section 1860D-2(e), for individuals eligible for drug coverage as defined in the Medicare Prescription Drug, Improvement, and Modernization Act of 2003, Public Law 108-173, section 1860D-1(a)(3)(A). For these individuals, medical assistance may cover drugs from the drug classes listed in United States Code, title 42, section 1396r-8(d)(2), subject to this subdivision and subdivisions 13a to 13g, except that drugs listed in United States Code, title 42, section 1396r-8(d)(2)(E), shall not be covered.

(f) Medical assistance covers drugs acquired through the federal 340B Drug Pricing Program and dispensed by 340B covered entities and ambulatory pharmacies under common ownership of

the 340B covered entity. Medical assistance does not cover drugs acquired through the federal 340B Drug Pricing Program and dispensed by 340B contract pharmacies.

(g) Notwithstanding paragraph (a), medical assistance covers self-administered hormonal contraceptives prescribed and dispensed by a licensed pharmacist in accordance with section 151.37, subdivision 14; nicotine replacement medications prescribed and dispensed by a licensed pharmacist in accordance with section 151.37, subdivision 15; and opiate antagonists used for the treatment of an acute opiate overdose prescribed and dispensed by a licensed pharmacist in accordance with section 151.37, subdivision 16.

(h) Medical assistance coverage for a prescription contraceptive must provide a 12-month supply for any prescription contraceptive if a 12-month supply is prescribed by the prescribing health care provider. The prescribing health care provider must determine the appropriate duration for which to prescribe the prescription contraceptives, up to 12 months. For purposes of this paragraph, "prescription contraceptive" means any drug or device that requires a prescription and is approved by the Food and Drug Administration to prevent pregnancy. Prescription contraceptive does not include an emergency contraceptive drug approved to prevent pregnancy when administered after sexual contact. For purposes of this paragraph, "health plan" has the meaning provided in section 62Q.01, subdivision 3.

(i) Notwithstanding a removal of a drug from the drug formulary under subdivision 13d, except as provided in paragraphs (j) and (k), medical assistance covers a drug, with respect to an enrollee who was previously prescribed the drug during the calendar year when the drug was on the formulary, at the same level until January 1 of the calendar year following the year in which the commissioner removed the drug from the formulary.

(j) Paragraph (i) does not apply if the commissioner changes the drug formulary:

(1) for a drug that has been deemed unsafe by the United States Food and Drug Administration (FDA);

(2) for a drug that has been withdrawn by the FDA or the drug manufacturer; or

(3) when an independent source of research, clinical guidelines, or evidence-based standards has issued drug-specific warnings or recommended changes with respect to a drug's use for reasons related to previously unknown and imminent patient harm.

(k) Paragraph (i) does not apply when the commissioner removes a brand name drug from the formulary if the commissioner adds to the formulary a generic or multisource brand name drug rated as therapeutically equivalent according to the FDA Orange Book, or a biologic drug rated as interchangeable according to the FDA Purple Book, at the same or lower cost to the enrollee.
