"Sec. 22. Minnesota Statutes 2024, section 256B.0913, subdivision 4, is amended to read:

Subd. 4. **Eligibility for funding for services for nonmedical assistance recipients.** (a) Funding for services under the alternative care program is available to persons who meet the following criteria:

(1) the person is a citizen of the United States or a United States national;

(2) the person has been determined by a community assessment under section 256B.0911 to be a person who would require the level of care provided in a nursing facility, as determined under section 256B.0911, subdivision 26, but for the provision of services under the alternative care program;

(3) the person is age 65 or older;

(4) the person would be eligible for medical assistance within 135 days of admission to a nursing facility;

(5) the person is not ineligible for the payment of long-term care services by the medical assistance program due to an asset transfer penalty under section 256B.0595 or equity interest in the home exceeding \$500,000 as stated in section 256B.056;

(6) the person needs long-term care services that are not funded through other state or federal funding, or other health insurance or other third-party insurance such as long-term care insurance. For purposes of this clause, short-term home health and nursing care insurance under section 62A.70 does not constitute health or other third-party insurance;

(7) except for individuals described in clause (8), the monthly cost of the alternative care services funded by the program for this person does not exceed 75 percent of the monthly limit described under section 256S.18. This monthly limit does not prohibit the alternative care client from payment for additional services, but in no case may the cost of additional services purchased under this section exceed the difference between the client's monthly service limit defined under section 256S.04, and the alternative care program monthly service limit defined in this paragraph. If care-related supplies and equipment or environmental modifications and adaptations are or will be purchased for an alternative care services recipient, the costs may be prorated on a monthly basis for up to 12 consecutive months beginning with the month of purchase. If the monthly cost of a recipient's other alternative care services exceeds the monthly limit established in this paragraph, the annual cost of the alternative care services shall be determined. In this event, the annual cost of alternative care services shall not exceed 12 times the monthly limit described in this paragraph;

(8) for individuals assigned a case mix classification A as described under section 256S.18, with (i) no dependencies in activities of daily living, or (ii) up to two dependencies in bathing, dressing, grooming, walking, and eating when the dependency score in eating is three or greater as determined by an assessment performed under section 256B.0911, the monthly cost of alternative care services funded by the program cannot exceed \$593 per month for all new participants enrolled in the program on or after July 1, 2011. This monthly limit shall be applied to all other participants who meet this criteria at reassessment. This monthly limit shall be increased annually as described in section 256S.18. This monthly limit does not prohibit the alternative care client from payment for additional services, but in no case may the cost of additional services purchased exceed the difference between the client's monthly service limit defined in this clause and the limit described in clause (7) for case mix classification A;

(9) the person is making timely payments of the assessed monthly fee. A person is ineligible if payment of the fee is over 60 days past due, unless the person agrees to:

- (i) the appointment of a representative payee;
 - (ii) automatic payment from a financial account;
 - (iii) the establishment of greater family involvement in the financial management of payments;
- or
- (iv) another method acceptable to the lead agency to ensure prompt fee payments; and

(10) for a person participating in consumer-directed community supports, the person's monthly service limit must be equal to the monthly service limits in clause (7), except that a person assigned a case mix classification L must receive the monthly service limit for case mix classification A.

(b) The lead agency may extend the client's eligibility as necessary while making arrangements to facilitate payment of past-due amounts and future premium payments. Following disenrollment due to nonpayment of a monthly fee, eligibility shall not be reinstated for a period of 30 days.

(c) Alternative care funding under this subdivision is not available for a person who is a medical assistance recipient or who would be eligible for medical assistance without a spenddown or waiver obligation. A person whose initial application for medical assistance and the elderly waiver program is being processed may be served under the alternative care program for a period up to 60 days. If the individual is found to be eligible for medical assistance, medical assistance must be billed for services payable under the federally approved elderly waiver plan and delivered from the date the individual was found eligible for the federally approved elderly waiver plan. Notwithstanding this provision, alternative care funds may not be used to pay for any service the cost of which: (i) is payable by medical assistance; (ii) is used by a recipient to meet a waiver obligation; or (iii) is used to pay a medical assistance income spenddown for a person who is eligible to participate in the federally approved elderly waiver program under the special income standard provision.

(d) Alternative care funding is not available for a person who resides in a licensed nursing home, certified boarding care home, hospital, or intermediate care facility, except for case management services which are provided in support of the discharge planning process for a nursing home resident or certified boarding care home resident to assist with a relocation process to a community-based setting.

(e) Alternative care funding is not available for a person whose income is greater than the maintenance needs allowance under section 256S.05, but equal to or less than 120 percent of the federal poverty guideline effective July 1 in the fiscal year for which alternative care eligibility is determined, who would be eligible for the elderly waiver with a waiver obligation."
