The board, by way of agreement, may convey, or lease for a term of years not to exceed 30 years, real property under the board's control. Conveyances and leases may be made with or without monetary consideration. Conveyances by the board must be by quitclaim deed in a form approved by the attorney general. Agreements may be made following requests for proposal or by direct negotiation. The board may not use, either directly or indirectly, state appropriations or the credit of the state to pay or guarantee the payment of any debt for, or any costs related to, the construction of a facility acquired or constructed according to this paragraph. Sec. 16. Minnesota Statutes 2000, section 446A.072, subdivision 4, is amended to read:

Subd. 4. [FUNDING LEVEL.] (a) The authority shall provide supplemental assistance for essential project component costs as certified by the commissioner of the pollution control agency under section 116.182, subdivision 4.

(b) Except as provided in paragraph (c), a municipality may not receive more than \$4,000,000, or \$15,000 per existing connection, whichever is less, under this section unless specifically approved by law. If a project would be eligible for more than \$4,000,000 under paragraph (e), the authority shall include a description of the project and the financing plan in its report on needs in subdivision 11. The \$4,000,000, or \$15,000 per existing connection, whichever is less, limit in this paragraph does not apply to a municipality that borders the outstanding resource value water of Lake Superior.

(c) A sanitary district or multijurisdictional wastewater treatment district may receive an additional \$1,000,000 for each municipality participating up to a maximum grant of \$8,000,000, unless a higher amount is specifically approved by law. If a project would be eligible for more than \$8,000,000 under paragraph (e), the authority shall include a description of the project and the financing plan in its report on needs in subdivision 11.

(d) The authority shall provide supplemental assistance for up to one-half of the eligible grant funding level determined by the United States Department of Agriculture Rural Development funding for projects listed on the agency's project priority list, in priority order. In the case of

multijurisdictional projects when the United States Department of Agriculture Rural Development is unable to fully fund up to one-half of the eligible grant amount, the authority may provide up to an additional \$1,000,000 for each municipality participating up to the limits under paragraph (c) but not to exceed the maximum grant level determined by the United States Department of Agriculture Rural Development as needed to keep the project affordable. For municipalities that are not eligible for United States Department of Agriculture Rural Development funding for wastewater, the authority shall provide supplemental assistance for: (1) essential project component costs calculated by first determining the amount needed to reduce a municipality's annual residential sewer costs to 1.4 percent of the municipality's median household income or \$25 per month per household, whichever is greater, and then multiplying that amount by 80 percent to determine the actual award amount to supplement loans under section 446A.07; and (2) up to 50 percent of the incremental costs specifically identified by the agency as being attributable to more stringent wastewater standards required to protect outstanding resource value waters or outstanding international resource value waters.

(e) Notwithstanding paragraph (b), in the event that a municipality's monthly residential sewer service charges average above \$50, the authority will provide 90 percent of the grant amount needed to reduce the average monthly sewer service charge to \$50, provided the project is ranked in the top 50 percentile of the agency's intended use plan.

(f) The authority shall provide supplemental assistance to a municipality that would not otherwise qualify for supplemental assistance if:

(1) the municipality voluntarily accepts a sewer connection from another governmental unit to serve residential, industrial, or commercial developments that were completed before March 1, 1996, or are on lots whose plats were recorded before that date; and

(2) fees charged by the municipality for the connection must take into account state and federal grants used by the municipality for the construction of the treatment plant.

The amount of supplemental assistance under this paragraph must be sufficient to reduce debt service payments under section 446A.07 to an extent equivalent to a zero percent loan in an amount up to the other governmental unit's project costs necessary for connection. Eligibility for supplemental assistance under this paragraph ends three years after the agency certifies that the connection has met the operational performance standards established by the agency.

North Side Community Support Program, which may provide office space for state employees.

The grant in Laws 1998, chapter 404, section 23, subdivision 27, to the Red Lake tribal council must be used to construct an educational and training facility and an economic development facility on land assigned by the council on the Red Lake reservation.

Subd. 4. [ESTABLISHMENT OF ZONES BY COMMISSIONER.] On determining upon the basis of an engineering and traffic investigation that any speed set forth in this section is greater or less than is reasonable or safe under the conditions found to exist on any trunk highway or upon any part thereof, the commissioner may erect appropriate signs designating a reasonable and safe speed limit thereat, which speed limit shall be effective when such signs are erected. Any speeds in excess of such limits shall be prima facie evidence that the speed is not reasonable or prudent and that it is unlawful; except that any speed limit within any municipality shall be a maximum limit and any speed in excess thereof shall be unlawful. On determining upon that basis that a part of the trunk highway system outside a municipality should be a zone of maximum speed limit, the commissioner may establish that part as such a zone by erecting appropriate signs showing the beginning and end of the zone, designating a reasonable and safe speed therefor, which may be different than the speed set forth in this section, and that it is a zone of maximum speed limit. The speed so designated by the commissioner within any such zone shall be a maximum speed limit,

and speed in excess of such limit shall be unlawful. The commissioner may in the same manner from time to time alter the boundary of such a zone and the speed limit therein or eliminate such zone. The commissioner shall establish a maximum speed limit of the greater of 25 miles per hour, or 20 miles per hour below the posted limit, in a school zone, after a school board and local authority jointly request this action for a school zone within their jurisdictions.

Sec. 26. Minnesota Statutes 2000, section 169.14, subdivision 5a, is amended to read:

Subd. 5a. Such school speed limits shall be in effect when children are present, going to or leaving school during opening or closing hours or during school recess periods. The school speed limit shall not be lower than 15 miles per hour and shall not be more than 20 miles per hour below the established speed limit on an affected street or highway if the established speed limit is 40 miles per hour or greater.

(b) The school speed limit shall be effective upon the erection of appropriate signs designating the speed and indicating the beginning and end of the reduced speed zone. Any speed in excess of such posted school speed limit is unlawful. All such signs shall be erected by the local authorities on those streets and highways under their respective jurisdictions and by the commissioner of transportation on trunk highways.

(c) For the purpose of this subdivision, "school zone" means that section of a street or highway which abuts the grounds of a school where children have access to the street or highway from the school property or where an established school crossing is located provided the school advance sign prescribed by the manual on uniform traffic control devices adopted by the commissioner of transportation pursuant to section 169.06 is in place. All signs erected by local authorities to designate speed limits in school zones shall conform to the manual on uniform control devices.

(d) Notwithstanding section 609.0331 or 609.101 or other law to the contrary, a person who violates a speed limit established under this subdivision is assessed an additional surcharge equal to the amount of the fine imposed for the violation, but not less than \$25."
