"(b) The electronic registration system must be fully secure. The Web site shall maintain the confidentiality of all users and preserve the integrity of the data submitted. The secretary of state shall employ security measures to ensure the accuracy and integrity of voter registration applications submitted electronically pursuant to this section. All data sent and received through the system must be encrypted.

(c) The secretary of state must provide ongoing testing and monitoring to ensure continued security. The secretary of state must work with the chief information officer as defined in section 16E.01, subdivision 1, or another security expert to annually audit the security of the system. The audit must include a certification signed by the secretary of state and the chief information officer or other security expert that states that adequate security measures are in place and that the system is fully secure. The secretary of state must submit the audit to the legislative auditor and to the chairs

and ranking minority members of the committees in the senate and house of representatives with primary jurisdiction over elections by January 1 of each year, except that the first annual audit must be submitted by September 30, 2014, and no report is required for January 1, 2015. If the required security audit indicates that the system is not fully secure for any reason, the secretary of state shall immediately suspend operation of the electronic voter registration system. The secretary of state shall not allow the system to resume until a subsequent security audit determines that the system is fully secure.

(d) In developing the electronic voter registration system, the secretary of state must consult with the chief information officer or the chief's designee to ensure the site is secure.

(e) No individual shall use any device or program to intercept, capture, or otherwise obtain data submitted through the electronic voter registration system unless explicitly authorized by law. The secretary of state shall prominently place this statement on the electronic voter registration Web site."

All data sent and received through the system must be encrypted.

(c) The secretary of state must provide ongoing testing and monitoring to ensure continued security. The secretary of state must work with the chief information officer as defined in section 16E.01, subdivision 1, or another security expert to annually audit the security of the system. The audit must include a certification signed by the secretary of state and the chief information officer or other security expert that states that adequate security measures are in place and that the system is fully secure. The secretary of state must submit the audit to the legislative auditor and to the chairs and ranking minority members of the committees in the senate and house of representatives with primary jurisdiction over elections by January 1 of each year, except that the first annual audit must be submitted by September 30, 2014, and no report is required for January 1, 2015. If the required security audit indicates that the system is not fully secure for any reason, the secretary of state shall immediately suspend operation of the electronic absentee ballot application system. The secretary of state shall not allow the system to resume until a subsequent security audit determines that the system is fully secure.

(d) In developing the electronic absentee ballot application system, the secretary of state must consult with the chief information officer or the chief's designee to ensure the site is secure.

(e) No individual shall use any device or program to intercept, capture, or otherwise obtain data submitted through the electronic absentee ballot application system unless explicitly authorized by law. The secretary of state shall prominently place this statement on the electronic absentee ballot application Web site."

Subdivision 1. **Practice of dentistry.** A person licensed to practice dentistry under sections 150A.01 to 150A.14 shall be deemed to be practicing dentistry while participating in the administration of an influenza vaccination.

Subd. 2. **Qualified dentists.** (a) The influenza immunization shall be administered only to patients 19 years of age and older and only by licensed dentists who:

(1) have immediate access to emergency response equipment, including but not limited to oxygen administration equipment, epinephrine, and other allergic reaction response equipment; and

(2) are trained in or have successfully completed a program approved by the Minnesota Board of Dentistry, specifically for the administration of immunizations. The training or program must include:

(i) educational material on the disease of influenza and vaccination as prevention of the disease;

(ii) contraindications and precautions;

(iii) intramuscular administration;

(iv) communication of risk and benefits of influenza vaccination and legal requirements involved;

(v) reporting of adverse events;

(vi) documentation required by federal law; and

(vii) storage and handling of vaccines.

(b) Any dentist giving influenza vaccinations under this section shall comply with guidelines established by the federal Advisory Committee on Immunization Practices relating to vaccines and immunizations, which includes, but is not limited to, vaccine storage and handling, vaccine administration and documentation, and vaccine contraindications and precautions.

Subd. 3. **Coordination of care.** After a dentist qualified under subdivision 2 has administered an influenza vaccine to a patient, the dentist shall report the administration of the immunization to the Minnesota Immunization Information Connection or otherwise notify the patient's primary physician or clinic of the administration of the immunization.

EFFECTIVE DATE. This section is effective January 1, 2015, and applies to influenza immunizations performed on or after that date."

Senator Marty moved that the amendment made to H.F. No. 2834 by the Committee on Rules and Administration in the report adopted April 24, 2014, pursuant to Rule 45, be stricken. The motion prevailed. So the amendment was stricken.

Senator Marty moved to amend H.F. No. 2834 as follows:

Page 6, delete section 10 and insert:

"Sec. 10. Minnesota Statutes 2012, section 216B.241, is amended by adding a subdivision to read:

Subd. 5d. **On-bill repayment programs.** (a) For the purposes of this subdivision:

(1) "utility" means a public utility, municipal utility, or cooperative electric association that provides electric or natural gas service to retail customers; and

(2) "on-bill repayment program" means a program in which a utility collects on a customer's bill repayment of a loan to the customer by an eligible lender to finance the customer's investment in eligible energy conservation or renewable energy projects, and remits loan repayments to the lender.

(b) A utility may include as part of its conservation improvement plan an on-bill repayment program to enable a customer to finance eligible projects with installment loans originated by an eligible lender. An eligible project is one that is either an energy conservation improvement, or a project installed on the customer's site that uses an eligible renewable energy source as that term is defined in section 216B.2411, subdivision 2, paragraph (b), but does not include mixed municipal solid waste or refuse-derived fuel from mixed municipal solid waste. An eligible renewable energy source also includes solar thermal technology that collects the sun's radiant energy and uses that energy to heat or cool air or water, and meets the requirements of section 216C.25. To be an eligible lender, a lender must:

(1) have a federal or state charter and be eligible for federal deposit insurance;

(2) be a government entity, including an entity established under chapter 469, that has authority to provide financial assistance for energy efficiency and renewable energy projects;

(3) be a joint venture by utilities established under section 452.25; or

(4) be licensed, certified, or otherwise have its lending activities overseen by a state or federal government agency.

The commissioner must allow a utility broad discretion in designing and implementing an on-bill repayment program, provided that the program complies with this subdivision.

(c) A utility may establish an on-bill repayment program for all customer classes or for a specific customer class.

(d) A public utility that implements an on-bill repayment program under this subdivision must enter into a contract with one or more eligible lenders that complies with the requirements of this subdivision and contains provisions addressing capital commitments, loan origination, transfer of loans to the public utility for on-bill repayment, and acceptance of loans returned due to delinquency or default.

(e) A public utility's contract with a lender must require the lender to comply with all applicable federal and state laws, rules, and regulations related to lending practices and consumer protection; to conform to reasonable and prudent lending standards; and to provide businesses that sell, maintain, and install eligible projects the ability to participate in an on-bill repayment program under this subdivision on a nondiscriminatory basis.

(f) A public utility's contract with a lender may provide:

(1) for the public utility to purchase loans from the lender with a condition that the lender must purchase back loans in delinquency or default; or

(2) for the lender to retain ownership of loans with the public utility servicing the loans through on-bill repayment as long as payments are current.

The risk of default must remain with the lender. The lender shall not have recourse against the public utility except in the event of negligence or breach of contract by the utility.

(g) If a public utility customer makes a partial payment on a utility bill that includes a loan installment, the partial payment must be credited first to the amount owed for utility service, including taxes and fees. A public utility may not suspend or terminate a customer's utility service for delinquency or default on a loan that is being serviced through the public utility's on-bill repayment program.

(h) An outstanding balance on a loan being repaid under this subdivision is a financial obligation only of the customer who is signatory to the loan, and not to any subsequent customer occupying the property associated with the loan. If the public utility purchases loans from the lender as authorized under paragraph (f), clause (1), the public utility must return to the lender a loan not repaid when a customer borrower no longer occupies the property.

(i) Costs incurred by a public utility under this subdivision are recoverable as provided in section 216B.16, subdivision 6b, paragraph (c), including reasonable incremental costs for billing system modifications necessary to implement and operate an on-bill repayment program and for ongoing costs to operate the program. Costs in a plan approved by the commissioner may be counted toward a utility's conservation spending requirements under subdivisions 1a and 1b. Energy savings from energy conservation improvements resulting from this section may be counted toward satisfying a utility's energy-savings goals under subdivision 1c.

(j) This subdivision does not require a utility to terminate or modify an existing financing program and does not prohibit a utility from establishing an on-bill financing program in which the utility provides the financing capital.

(k) A municipal utility or cooperative electric association that implements an on-bill repayment program shall design the program to address the issues identified in paragraphs (d) through (h) as determined by the governing board of the utility or association."

"Sec. 11. Minnesota Statutes 2012, section 216B.2422, is amended by adding a subdivision to read:

Subd. 2c. **Long-range emission reduction planning.** Each utility required to file a resource plan under subdivision 2 shall include in the filing a narrative identifying and describing the costs,

opportunities, and technical barriers to the utility continuing to make progress on its system toward achieving the state greenhouse gas emission reduction goals established in section 216H.02, subdivision 1, and the technologies, alternatives, and steps the utility is considering to address those opportunities and barriers."

"Sec. 12. Minnesota Statutes 2012, section 216B.243, subdivision 8, is amended to read:

Subd. 8. **Exemptions.** This section does not apply to:

(1) cogeneration or small power production facilities as defined in the Federal Power Act, United States Code, title 16, section 796, paragraph (17), subparagraph (A), and paragraph (18), subparagraph (A), and having a combined capacity at a single site of less than 80,000 kilowatts; plants or facilities for the production of ethanol or fuel alcohol; or any case where the commission has determined after being advised by the attorney general that its application has been preempted by federal law;

(2) a high-voltage transmission line proposed primarily to distribute electricity to serve the demand of a single customer at a single location, unless the applicant opts to request that the commission determine need under this section or section 216B.2425;

(3) the upgrade to a higher voltage of an existing transmission line that serves the demand of a single customer that primarily uses existing rights-of-way, unless the applicant opts to request that the commission determine need under this section or section 216B.2425;

(4) a high-voltage transmission line of one mile or less required to connect a new or upgraded substation to an existing, new, or upgraded high-voltage transmission line;

(5) conversion of the fuel source of an existing electric generating plant to using natural gas; or

(6) the modification of an existing electric generating plant to increase efficiency, as long as the capacity of the plant is not increased more than ten percent or more than 100 megawatts, whichever is greater; or

(7) a wind energy conversion system or solar electric generation facility if the system or facility is owned and operated by an independent power producer and the electric output of the system or facility is not sold to an entity that provides retail service in Minnesota or wholesale electric service to another entity in Minnesota other than an entity that is a federally recognized regional transmission organization or independent system operator.
