Patrick D. Murphy, Chief Clerk, House of Representatives

Returned March 24, 2016

REPORTS OF COMMITTEES

Senator Bakk moved that the Committee Reports at the Desk be now adopted. The motion prevailed.

Senator Wiger from the Committee on Education, to which was referred

S.F. No. 2219: A bill for an act relating to privacy; establishing student user privacy in education rights; requiring online educational services to comply with security and privacy

standards; prohibiting use of student information for targeted marketing or creation of student profiles; amending Minnesota Statutes 2014, section 13.321, by adding a subdivision; proposing coding for new law in Minnesota Statutes, chapter 125B.

Reports the same back with the recommendation that the bill be amended as follows:

Delete everything after the enacting clause and insert:

"Section 1. **[125B.27] STUDENT-USER PRIVACY IN EDUCATION RIGHTS.**

Subdivision 1. **Definitions.** (a) The definitions in this subdivision and section 13.32, subdivision 1, apply to this section.

(b) "Online educational service" means a Web site, online service or application, or mobile application that a student or the student's parent or legal guardian can access via the Internet for school purposes. Online educational service includes a cloud computing service.

(c) "Operator" means, to the extent it is operating in this capacity, a person who operates an online educational service with actual knowledge that it is used primarily for school purposes and was designed and marketed for these purposes. Operator includes a vendor.

(d) "Protected information" means materials or information that is linked to personally identifiable information or materials, in any media or format that is not publicly available; and

(1) is created or provided by a student or the student's parent or legal guardian to an operator in the course of the use of the operator's site, service, or application for school purposes;

(2) is created or provided by an employee or agent of the school to an operator in the course of the use of the operator's site, service, or application for school purposes; or

(3) is gathered by an operator through the operation of an online educational service and personally identifies a student, including, but not limited to, information in the student's educational record or e-mail, first and last name, home address, telephone number, e-mail address, or other information that allows physical or online contact, discipline records, test results, special education data, juvenile records, grades, evaluations, criminal records, health records, Social Security number, biometric information, disabilities, socioeconomic information, food purchases, political affiliations, religious information, text messages, documents, student identifiers, search activity, photos, voice recordings, or geolocation information.

(e) "School purposes" means purposes that (1) are directed by or customarily take place at the direction of the school, teacher, or school district or aid in the administration of school activities, including instruction in the classroom or at home, administrative activities, and collaboration between students, school personnel, or parents or legal guardians, or (2) are for the use and benefit of the school.

(f) "Student" means a student in prekindergarten through grade 12.

(g) "Vendor" means a person who enters into a contract with a school to provide an online educational service.

(h) "Targeted advertising" means presenting advertisements to a student where the advertisement is selected based on information obtained or inferred over time from that student's online behavior, usage of applications, or covered information. It does not include advertising to a student at an online

location based upon that student's current visit to that location, or in response to that student's request for information or feedback, without the retention of that student's online activities or requests over time for the purpose of targeting subsequent ads.

Subd. 2. Prohibited activities; targeted advertising; creation of student profiles; sale or unauthorized disclosure of information. (a) An operator must not engage in any of the following activities:

(1)(i) targeted advertising on the operator's online educational service; or

(ii) targeted advertising on any other site, service, or application when the targeting of the advertising is based upon information, including protected information and unique identifiers, that the operator has acquired or created because of the use of that operator's online educational service;

(2) gather, use, or share information, including persistent unique identifiers, acquired or created by the operator's online educational service, to create a profile about a student, except in furtherance of school purposes. "Create a profile" does not include the collection and retention of account information that remains under the control of the student, the student's parent or guardian, or kindergarten through grade 12 school;

(3) sell a student's information, including protected information. This prohibition does not apply to the purchase, merger, or other type of acquisition of an operator by another person, provided that the operator or successor continues to be subject to this section with respect to previously acquired student information or to national assessment providers if the provider secures the express written consent of the parent or student, given in response to clear and conspicuous notice, solely to provide access to employment, educational scholarships or financial aid, or postsecondary educational opportunities; or

(4) disclose protected information, unless the disclosure:

(i) is made in furtherance of the educational purpose of the site, service, or application, provided the recipient of the protected information must not further disclose the information unless done to allow or improve operability and functionality of the operator's online educational service;

(ii) is legally required to comply with subdivision 3;

(iii) is made to ensure legal and regulatory compliance, to respond to or participate in judicial process, or to protect the safety of users or others or security of the site;

(iv) is for a school, educational, or employment purpose requested by the student or the student's parent or guardian, provided that the information is not used or further disclosed for any other purposes; or

(v) is made pursuant to a contract between the operator and a service provider. A contract must prohibit the service provider from using protected information for any purpose other than providing the contracted service to, or on behalf of, the operator; prohibit the service provider from disclosing protected information provided by the operator to third parties; and require the service provider to implement and maintain reasonable security procedures and practices as provided in subdivision 3.

(b) This subdivision does not prohibit the operator's use of information for maintaining, developing, supporting, improving, or diagnosing the operator's site, service, or application.

Subd. 3. Security procedures and practices. An operator shall:

(1) implement and maintain reasonable security procedures and practices appropriate to the nature of the protected information in order to protect that information from unauthorized access, destruction, use, modification, or disclosure; and

(2) delete a student's protected information if the school requests deletion of data under the control of the school.

Subd. 4. **Permissible disclosures.** Notwithstanding subdivision 2, paragraph (a), clause (4), an operator may use or disclose protected information of a student under the following circumstances:

(1) if other provisions of federal or state law require the operator to disclose the information and the operator complies with the requirements of federal or state law in protecting and disclosing that information;

(2) as long as no covered information is used for advertising or to create a profile on the student for purposes other than educational purposes, for legitimate research purposes:

(i) as required by state or federal law and subject to the restrictions under applicable law; or

(ii) as allowed by state or federal law and in furtherance of educational purposes or postsecondary educational purposes; and

(3) to a state or local educational agency, including schools and school districts, for school purposes as permitted by state or federal law.

Subd. 5. **Use of information by operator.** This section does not prohibit an operator from doing any of the following:

(1) using protected information within the operator's site, service, or application or other sites, services, or applications owned by the operator to improve educational products;

(2) using protected information that is not associated with an identified student to demonstrate the effectiveness of the operator's products or services, including marketing;

(3) sharing aggregate information that does not directly, indirectly, or in combination with other information identify a student for the development and improvement of educational sites, services, or applications;

(4) using recommendation engines to recommend to a student either of the following:

(i) additional content relating to an educational, other learning, or employment opportunity purpose within an online site, service, or application if the recommendation is not determined in whole or in part by payment or other consideration from a third party; or

(ii) additional services relating to an educational, other learning, or employment opportunity purpose within an online site, service, or application if the recommendation is not determined in whole or in part by payment or other consideration from a third party; or

(5) responding to a student's request for information or for feedback without the information or response being determined in whole or in part by payment or other consideration from a third party.

Subd. 6. **Certain activities not affected.** (a) This section does not limit the authority of a law enforcement agency to obtain information from an operator as authorized by law or pursuant to a court order.

(b) This section does not limit the ability of an operator to use student information, including protected information, for adaptive learning or customized student learning purposes.

(c) This section does not apply to general audience Web sites, general audience online services, general audience online applications, or general audience mobile applications, even if log-in credentials created for an operator's online educational service may be used to access those general audience Web sites, services, or applications.

(d) This section does not limit Internet service providers from providing Internet connectivity to schools or students and their families.

(e) This section does not prohibit an operator of a Web site, online service, online application, or mobile application from the general marketing of educational products to parents or legal guardians so long as the marketing is not based on the use of protected information obtained by the operator through the provision of services governed by this section.

(f) This section does not impose a duty upon a provider of an electronic store, gateway, marketplace, or other means of purchasing or downloading software or applications to review or enforce compliance with this section on those applications or software.

(g) This section does not impose a duty on a provider of an interactive computer service, as defined in United States Code, title 47, section 230, to review or enforce compliance with this section by third-party content providers.

(h) This section does not impede the ability of students to download, export, or otherwise save or maintain their own data or documents."

Reports the same back with the recommendation that the bill be amended as follows:

Delete everything after the enacting clause and insert:

"Section 1. [136F.33] SUPPLEMENTAL AND DEVELOPMENTAL EDUCATION.

Subdivision 1. **Definitions.** (a) For purposes of this section, the following terms have the meanings given.

(b) "Academic weakness" means an academic skill determined to be below college ready according to a formalized assessment.

(c) "Corequisite" means a course or other requirement that is taken simultaneously with a credit-bearing course for the purpose of providing targeted support.

(d) "Credit-bearing course" means a college entry-level course that meets the requirements for a diploma, certificate, or degree.

(e) "Developmental education" means the building of foundational skills in noncredit courses or programs to promote academic success in college-level coursework.

(f) "Gateway course" means an initial credit-bearing course in a subject.

(g) "Supplemental instruction" means a targeted support model for students with academic weaknesses to promote academic success in credit-bearing courses.

(h) "Targeted support" means academic support, including but not limited to tutoring and directed group study time, related to increasing a student's understanding of a credit-bearing course.

Subd. 2. **Program requirements.** (a) The board shall develop and implement varied research-grounded tiered approaches to supplemental instruction and developmental education

based on student academic readiness. The tiered approach must minimize the placement of students in developmental education under subdivision 5 by providing a supplemental instruction course structure that results in earning the equivalent of credit in a credit-bearing course while providing targeted support to a student who:

- (1) did not meet the minimum course placement criteria for a credit-bearing course; and
- (2) using multiple measures of assessment, is identified as likely to succeed in a credit-bearing course if targeted support is provided.

(b) The board shall establish campus-specific tiered approaches including strategies under subdivision 3 that are:

(1) focused on the skills and competencies essential for success in the math and English college-level courses; and

(2) based on the nature of individual campus academic programming and the needs of specific campus student populations.

(c) To facilitate the transfer of credits, the transcript record for a supplemental instruction course must include a credit-bearing course or a designation of equivalency to a specific credit-bearing course.

(d) The board shall make available to students on its Web site, in course catalogs, and by other methods at the discretion of the board, the supplemental instruction, developmental education, and corequisite courses offered at a particular college or university.

Subd. 3. **Support strategies.** (a) The board shall continuously monitor and adopt strategies that have the potential or that have proven to increase the placement and success of students in credit-bearing courses. If the board finds that strategies are successful at one campus or program, the board must assess whether the strategies would be beneficial campuswide or systemwide and, if it determines that it would, must implement the strategy for all campus or system programs in which the strategy is predicted to be successful. The board may discontinue the strategy for those programs where it does not prove beneficial.

(b) Consistent with subdivision 2, strategies may include, but are not limited to:

(1) replacing developmental or remedial courses, when appropriate, with corequisite courses in which students with academic weaknesses are placed into introductory credit-bearing courses while receiving supplemental academic instruction on the same subject and during the same term;

(2) expanding proactive advising, including the use of early alert systems or requiring the approval of an adviser or counselor to register for certain classes;

(3) developing meta-majors in broad academic disciplines as an alternative to undecided majors;

(4) making available alternative mathematics curriculum, including curriculum most relevant to the student's chosen area of study;

(5) implementing "opt-out scheduling" by automatically enrolling students in a schedule of courses chosen by the student's department but allowing students to disenroll from those courses if they meet with an academic adviser and cosign a change of enrollment form; and

(6) facilitating the transfer of credits between state colleges and universities.

Subd. 4. **Assessments and advising.** (a) Common student placement assessments must provide information identifying academic weaknesses that must be provided to the student. A student assessed below college ready must be provided:

- (1) materials designed to address identified academic weaknesses;
- (2) support to prepare for and retake placement assessments;
- (3) postassessment advising to assist in making informed decisions on identifying academic weaknesses and targeting supplemental instruction options; and
- (4) additional targeted support while enrolled in college-level math and English courses.

(b) Intrusive advising must be provided to a student who participates in supplemental instruction programs but has been unsuccessful in achieving academic success. Advising must include career and employment options, alternative career pathways, and related educational opportunities.

Subd. 5. **Developmental education.** (a) The board shall create a framework to redesign developmental education to provide a student who does not meet the criteria for inclusion in a supplemental instruction course the opportunity to complete gateway math and English courses within one academic year. The board must provide developmental education to a student or advise the student to enroll in adult basic education.

(b) The board shall not require a student who has successfully taken a developmental course under section 124D.09, subdivision 10, to participate in a developmental education course in the same subject area.

Subd. 6. **Report.** Annually by January 15, the board shall report to the chairs and ranking minority members of the legislature with primary jurisdiction over higher education finance on the goal of increasing the placement and success of students in credit-bearing courses. The report must, at a minimum, include:

- (1) the following information on board activities:
 - (i) strategies the board has adopted at each campus under subdivision 2, paragraph (b);
 - (ii) strategies that have been discontinued at each campus; and
 - (iii) strategies being considered for systemwide implementation; and
- (2) the following information on students:
 - (i) the number and percent of students placed in developmental education;
 - (ii) the number and percent of students who complete developmental education within one academic year;
 - (iii) the number and percent of students that complete gateway courses in math and English in one academic year;
 - (iv) the student retention rate;
 - (v) time to complete a degree or certificate; and
 - (vi) credits earned by those completing a degree, certificate, or other program.

The report must disaggregate student data by race, ethnicity, Pell Grant eligibility, and age and provide aggregate data."

EFFECTIVE DATE. This section is effective March 1, 2017.

Sec. 2. [97A.408] ANATOMICAL GIFT OPTION; EDUCATION.

(a) Applications through the Department of Natural Resources' online sales system for a resident license to hunt or fish that is required under this chapter or chapter 97B must allow the applicant to indicate a desire to make an anatomical gift according to paragraph (b).

(b) The online sales system application must contain statements sufficient to comply with the requirements of the Darlene Luther Revised Uniform Anatomical Gift Act, chapter 525A, so that execution of the application makes the anatomical gift effective for those indicating a desire to make an anatomical gift. The department Web site must provide a link to a federally designated organ procurement organization Web site that contains information describing Minnesota laws regarding anatomical gifts, the need for and benefits of anatomical gifts, and the legal implications of making an anatomical gift, including the law governing revocation of anatomical gifts.

(c) The commissioner must provide education by distributing information about organ and tissue donation and how to register as a donor. The commissioner must distribute the information through Department of Natural Resources print and digital communications targeting those who hunt and fish. The commissioner must prepare the information in conjunction with a Minnesota organ procurement organization.

(d) The commissioner is not required to keep the physical record of the donor's application after issuing the license in order for the anatomical gift to be valid. When an individual indicates consent on an online sales system transaction to share private data for the record of registered donors, the commissioner must provide the private name and address of the individual to the organ procurement organization designated by the federal government. The names and addresses are classified as private data under section 84.0874 and remain private once provided to the organ procurement organization.

(e) Chapter 525A applies to anatomical gifts made on an application for a license under this section.

(f) The department must be reimbursed under section 171.075, subdivision 1, for the reasonable costs of administering an anatomical gift program.

EFFECTIVE DATE. This session is effective March 1, 2017.

Subd. 2. **Walleye; ~~northern pike.~~** (a) Except as provided in paragraph (b), a person may have no more than one walleye larger than 20 inches ~~and one northern pike larger than 30 inches~~ in possession.

(b) ~~The restrictions in Paragraph (a) do~~ does not apply to boundary waters.

Sec. 14. RULEMAKING; NORTHERN PIKE.

(a) The commissioner of natural resources shall amend Minnesota Rules, part 6262.0200, subpart 1, item G, to establish the daily and possession limits for northern pike in management zones according to paragraphs (b) to (e).

(b) The northeastern management zone includes all inland waters lying east and north of U.S. Highway 53 from International Falls to Duluth. In the northeastern management zone, the daily and possession limit for northern pike is two. When taking northern pike by angling in the northeastern management zone, only one over 40 inches in length may be in possession, and all northern pike from 30 to 40 inches in length must be immediately returned to the water. When taking northern pike by dark house spearing, only one over 26 inches in length may be in possession.

(c) The north central management zone includes all inland waters lying west and south of U.S. Highway 53 from International Falls to Duluth and north of a line described as follows: from the South Dakota border, along State Highway 7 to State Highway 22, thence south on State Highway 22 to U.S. Highway 212, thence east on U.S. Highway 212 to State Highway 41, thence south on State Highway 41 to the near or north bank of the Minnesota River, thence along the near banks of the Minnesota and Mississippi Rivers to the Wisconsin border. The north central management zone does not include waters of the Minnesota or Mississippi Rivers where those waters create the southern boundary of the zone. In the north central management zone, the daily and possession limit for northern pike is ten.

(1) When taking northern pike by angling in the north central management zone, only two over 26 inches in length may be in possession, and all northern pike from 22 to 26 inches must be immediately returned to the water.

(2) When taking northern pike by dark house spearing in the north central management zone:

(i) only two northern pike over 26 inches in length and no northern pike from 22 to 26 inches in length may be in possession; or

(ii) only one northern pike from 22 to 26 inches in length and one northern pike over 26 inches in length may be in possession.

(d) The southern management zone includes all inland waters lying south of a line described as follows: from the South Dakota border, along State Highway 7 to State Highway 22, thence south on State Highway 22 to U.S. Highway 212, thence east on U.S. Highway 212 to State Highway 41, thence south on State Highway 41 to and including the waters of the Minnesota River, thence along the Minnesota River to and including the waters of the Mississippi River to the Wisconsin border. In the southern management zone, the daily and possession limit for northern pike is two. The minimum size for northern pike taken by angling or dark house spearing in the southern management zone is 24 inches in length.

(e) The restrictions in paragraphs (b) to (d) do not apply in boundary waters.

(f) The commissioner may use the good cause exempt rulemaking procedure under Minnesota Statutes, section 14.388, subdivision 1, clause (3), to adopt rules under this section, and Minnesota Statutes, section 14.386, does not apply, except as provided under Minnesota Statutes, section 14.388.

(g) No later than January 15, 2027, the commissioner must report on the success of the northern pike regulations, together with recommendations on whether to keep or change the regulations. The report must be submitted to the chairs and ranking minority members of the senate and house of representatives committees having jurisdiction over environment and natural resources policy and finance.

Sec. 15. **FISH HOOKING MORTALITY REPORT.**

By January 15, 2018, the commissioner of natural resources shall report to the legislative committees with jurisdiction over natural resource policy on catch-and-release fish hooking mortality. The report shall include an explanation of the methodology used to determine hooking mortality. As a part of the explanation, the commissioner shall re-examine the current methodology for determining hooking mortality and include recommendations for changes in the methodology, based on updated information and studies."
