(1) on the commission's own initiative; or

(2) in response to a request for agency action.

(b) Before acting under paragraph (a), the commission must:

**EFFECTIVE DATE.** This section is effective beginning with taxes payable in 2027.

Sec. 10. Minnesota Statutes 2024, section 276.04, subdivision 2, is amended to read:

Subd. 2. **Contents of tax statements.** (a) The treasurer shall provide for the printing of the tax statements. The commissioner of revenue shall prescribe the form of the property tax statement and its contents. The tax statement must not state or imply that property tax credits are paid by the state of Minnesota. The statement must contain a tabulated statement of the dollar amount due to each taxing authority and the amount of the state tax from the parcel of real property for which a particular tax statement is prepared. The dollar amounts attributable to the county, the state tax, the voter approved school tax, the other local school tax, the township or municipality, and the total of the metropolitan special taxing districts as defined in section 275.065, subdivision 3, paragraph (i), must be separately stated. The amounts due all other special taxing districts, if any, may be aggregated except that any levies made by the regional rail authorities in the county of Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, or Washington under chapter 398A shall be listed on a separate line directly under the appropriate county's levy. If the county levy under this paragraph includes an amount for a lake improvement district as defined under sections 103B.501 to 103B.581, the amount attributable for that purpose must be separately stated from the remaining county levy amount. In the case of Ramsey County, if the county levy under this paragraph includes an amount for public

library service under section 134.07, the amount attributable for that purpose may be separated from the remaining county levy amount. The amount of the tax on homesteads qualifying under the senior citizens' property tax deferral program under chapter 290B is the total amount of property tax before subtraction of the deferred property tax amount. The amount of the tax on contamination value imposed under sections 270.91 to 270.98, if any, must also be separately stated. The dollar amounts, including the dollar amount of any special assessments, may be rounded to the nearest even whole dollar. For purposes of this section whole odd-numbered dollars may be adjusted to the next higher even-numbered dollar.

(b) The property tax statements for manufactured homes and sectional structures taxed as personal property shall contain the same information that is required on the tax statements for real property.

(c) Real and personal property tax statements must contain the following information in the order given in this paragraph. The information must contain the current year tax information in the right column with the corresponding information for the previous year in a column on the left:

- (1) the property's estimated market value under section 273.11, subdivision 1;
- (2) the property's homestead market value exclusion under section 273.13, subdivision 35;
- (3) the property's taxable market value under section 272.03, subdivision 15;
- (4) the property's gross tax, before credits;
- (5) for agricultural properties, the credits under sections 273.1384 and 273.1387;

(6) any credits received under sections 273.119; 273.1234 or 273.1235; 273.135; 273.1361; 273.1391; 273.1398, subdivision 4; 469.171; and 473H.10, except that the amount of credit received under section 273.135 must be separately stated and identified as "taconite tax relief" and the amount of the credit received under section 273.1361 must be separately stated and identified as "helium tax relief"; and

- (7) the net tax payable in the manner required in paragraph (a).

(d) If the county uses envelopes for mailing property tax statements and if the county agrees, a taxing district may include a notice with the property tax statement notifying taxpayers when the taxing district will begin its budget deliberations for the current year, and encouraging taxpayers to attend the hearings. If the county allows notices to be included in the envelope containing the property tax statement, and if more than one taxing district relative to a given property decides to include a notice with the tax statement, the county treasurer or auditor must coordinate the process and may combine the information on a single announcement.

(1) except as provided under paragraph (b), five percent to the city or town within which the ores, metals, minerals, or energy resources are mined or extracted, or within which the concentrate was produced. If the mining and concentration, or different steps in either process, are carried on

in more than one taxing district, the commissioner shall apportion equitably the proceeds among the cities and towns by attributing 50 percent of the proceeds of the tax to the operation of mining or extraction, and the remainder to the concentrating plant and to the processes of concentration, and with respect to each thereof giving due consideration to the relative extent of the respective operations performed in each taxing district;

(2) ten percent to the taconite municipal aid account to be distributed as provided in section 298.282, subdivisions 1 and 2, on the dates provided under this section;

(3) ten percent to the school district within which the ores, metals, minerals, or energy resources are mined or extracted, or within which the concentrate was produced. If the mining and concentration, or different steps in either process, are carried on in more than one school district, distribution among the school districts must be based on the apportionment formula prescribed in clause (1);

(4) 20 percent to a group of school districts comprised of those school districts wherein the ore, metal, mineral, or energy resource was mined or extracted or in which there is a qualifying municipality as defined by section 273.134, paragraph (b), in direct proportion to school district indexes as follows: for each school district, its pupil units determined under section 126C.05 for the prior school year shall be multiplied by the ratio of the average adjusted net tax capacity per pupil unit for school districts receiving aid under this clause as calculated pursuant to chapters 122A, 126C, and 127A for the school year ending prior to distribution to the adjusted net tax capacity per pupil unit of the district. Each district shall receive that portion of the distribution which its index bears to the sum of the indices for all school districts that receive the distributions;

(5) ten percent to the county within which the ores, metals, minerals, or energy resources are mined or extracted, or within which the concentrate was produced. If the mining and concentration, or different steps in either process, are carried on in more than one county, distribution among the counties must be based on the apportionment formula prescribed in clause (1), provided that any county receiving distributions under this clause shall pay one percent of its proceeds to the Range Association of Municipalities and Schools;

(6) five percent to St. Louis County acting as the counties' fiscal agent to be distributed as provided in sections 273.134 to 273.136;
