"ARTICLE 1

AGING AND OLDER ADULT SERVICES

Section 1. Minnesota Statutes 2024, section 144A.071, subdivision 4a, is amended to read:

Subd. 4a. **Exceptions for replacement beds.** It is in the best interest of the state to ensure that nursing homes and boarding care homes continue to meet the physical plant licensing and certification requirements by permitting certain construction projects. Facilities should be maintained in condition to satisfy the physical and emotional needs of residents while allowing the state to maintain control over nursing home expenditure growth.

The commissioner of health in coordination with the commissioner of human services, may approve the renovation, replacement, upgrading, or relocation of a nursing home or boarding care home, under the following conditions:

(a) to license or certify beds in a new facility constructed to replace a facility or to make repairs in an existing facility that was destroyed or damaged after June 30, 1987, by fire, lightning, or other hazard provided:

(i) destruction was not caused by the intentional act of or at the direction of a controlling person of the facility;

(ii) at the time the facility was destroyed or damaged the controlling persons of the facility maintained insurance coverage for the type of hazard that occurred in an amount that a reasonable person would conclude was adequate;

(iii) the net proceeds from an insurance settlement for the damages caused by the hazard are applied to the cost of the new facility or repairs;

(iv) the number of licensed and certified beds in the new facility does not exceed the number of licensed and certified beds in the destroyed facility; and

(v) the commissioner determines that the replacement beds are needed to prevent an inadequate supply of beds.

Project construction costs incurred for repairs authorized under this clause shall not be considered in the dollar threshold amount defined in subdivision 2;

(b) to license or certify beds that are moved from one location to another within a nursing home facility, provided the total costs of remodeling performed in conjunction with the relocation of beds does not exceed $1,000,000;

(c) to license or certify beds in a project recommended for approval under section 144A.073;

(d) to license or certify beds that are moved from an existing state nursing home to a different state facility, provided there is no net increase in the number of state nursing home beds;

(e) to certify and license as nursing home beds boarding care beds in a certified boarding care facility if the beds meet the standards for nursing home licensure, or in a facility that was granted an exception to the moratorium under section 144A.073, and if the cost of any remodeling of the facility does not exceed $1,000,000. If boarding care beds are licensed as nursing home beds, the number of boarding care beds in the facility must not increase beyond the number remaining at the time of the upgrade in licensure. The provisions contained in section 144A.073 regarding the upgrading of the facilities do not apply to facilities that satisfy these requirements;

~~(f) to license and certify up to 40 beds transferred from an existing facility owned and operated by the Amherst H. Wilder Foundation in the city of St. Paul to a new unit at the same location as the existing facility that will serve persons with Alzheimer's disease and other related disorders. The transfer of beds may occur gradually or in stages, provided the total number of beds transferred does not exceed 40. At the time of licensure and certification of a bed or beds in the new unit, the commissioner of health shall delicense and decertify the same number of beds in the existing facility. As a condition of receiving a license or certification under this clause, the facility must make a written commitment to the commissioner of human services that it will not seek to receive an increase in its property-related payment rate as a result of the transfers allowed under this paragraph;~~

~~(g)~~ (f) to license and certify nursing home beds to replace currently licensed and certified boarding care beds which may be located either in a remodeled or renovated boarding care or nursing home facility or in a remodeled, renovated, newly constructed, or replacement nursing home facility within the identifiable complex of health care facilities in which the currently licensed boarding care beds are presently located, provided that the number of boarding care beds in the facility or complex are decreased by the number to be licensed as nursing home beds and further provided that, if the total costs of new construction, replacement, remodeling, or renovation exceed ten percent of the appraised value of the facility or $200,000, whichever is less, the facility makes a written commitment to the commissioner of human services that it will not seek to receive an increase in its property-related payment rate by reason of the new construction, replacement, remodeling, or renovation. The provisions contained in section 144A.073 regarding the upgrading of facilities do not apply to facilities that satisfy these requirements;

~~(h)~~ (g) to license as a nursing home and certify as a nursing facility a facility that is licensed as a boarding care facility but not certified under the medical assistance program, but only if the commissioner of human services certifies to the commissioner of health that licensing the facility

as a nursing home and certifying the facility as a nursing facility will result in a net annual savings to the state general fund of $200,000 or more;

~~(i) to certify, after September 30, 1992, and prior to July 1, 1993, existing nursing home beds in a facility that was licensed and in operation prior to January 1, 1992;~~

~~(j) to license and certify new nursing home beds to replace beds in a facility acquired by the Minneapolis Community Development Agency as part of redevelopment activities in a city of the first class, provided the new facility is located within three miles of the site of the old facility. ~~(k) to license and certify up to 20 new nursing home beds in a community-operated hospital and attached convalescent and nursing care facility with 40 beds on April 21, 1991, that suspended operation of the hospital in April 1986. The commissioner of human services shall provide the facility with the same per diem property-related payment rate for each additional licensed and certified bed as it will receive for its existing 40 beds;~~

~~(l)~~ (h) to license or certify beds in renovation, replacement, or upgrading projects as defined in section 144A.073, subdivision 1, so long as the cumulative total costs of the facility's remodeling projects do not exceed $1,000,000;

~~(m) to license and certify beds that are moved from one location to another for the purposes of converting up to five four-bed wards to single or double occupancy rooms in a nursing home that, as of January 1, 1993, was county-owned and had a licensed capacity of 115 beds;~~

~~(n) to allow a facility that on April 16, 1993, was a 106-bed licensed and certified nursing facility located in Minneapolis to layaway all of its licensed and certified nursing home beds. These beds may be relicensed and recertified in a newly constructed teaching nursing home facility affiliated with a teaching hospital upon approval by the legislature. The proposal must be developed in consultation with the interagency committee on long-term care planning. The beds on layaway status shall have the same status as voluntarily delicensed and decertified beds, except that beds on layaway status remain subject to the surcharge in section 256.9657. This layaway provision expires July 1, 1998;~~

~~(o) to allow a project which will be completed in conjunction with an approved moratorium exception project for a nursing home in southern Cass County and which is directly related to that portion of the facility that must be repaired, renovated, or replaced, to correct an emergency plumbing problem for which a state correction order has been issued and which must be corrected by August 31, 1993;~~

In addition, at any time within three years of the effective date of the layaway, the beds on layaway status may be:~~;

~~(1) relicensed and recertified upon relocation and reactivation of some or all of the beds to an existing licensed and certified facility or facilities located in Pine River, Brainerd, or International Falls; provided that the total project construction costs related to the relocation of beds from layaway status for any facility receiving relocated beds may not exceed the dollar threshold provided in subdivision 2 unless the construction project has been approved through the moratorium exception process under section 144A.073;~~

~~(2) relicensed and recertified, upon reactivation of some or all of the beds within the facility which placed the beds in layaway status, if the commissioner has determined a need for the reactivation of the beds on layaway status.~~

~~The property-related payment rate of a facility placing beds on layaway status must be adjusted by the incremental change in its rental per diem after recalculating the rental per diem as provided in section 256B.431, subdivision 3a, paragraph (c). The property-related payment rate for a facility relicensing and recertifying beds from layaway status must be adjusted by the incremental change in its rental per diem after recalculating its rental per diem using the number of beds after the relicensing to establish the facility's capacity day divisor, which shall be effective the first day of the month following the month in which the relicensing and recertification became effective. Any beds remaining on layaway status more than three years after the date the layaway status became effective must be removed from layaway status and immediately delicensed and decertified;~~

~~(r) to license and certify up to 117 beds that are relocated from a licensed and certified 138-bed nursing facility located in St. Paul to a hospital with 130 licensed hospital beds located in South St. Paul, provided that the nursing facility and hospital are owned by the same or a related organization and that prior to the date the relocation is completed the hospital ceases operation of its inpatient hospital services at that hospital. After relocation, the nursing facility's status shall be the same as it was prior to relocation. The nursing facility's property-related payment rate resulting from the project authorized in this paragraph shall become effective no earlier than April 1, 1996. For purposes of calculating the incremental change in the facility's rental per diem resulting from this project, the allowable appraised value of the nursing facility portion of the existing health care facility physical plant prior to the renovation and relocation may not exceed $2,490,000;~~

~~(s) to license and certify two beds in a facility to replace beds that were voluntarily delicensed and decertified on June 28, 1991;~~

~~(t)~~ (j) to allow 16 licensed and certified beds located on July 1, 1994, in a 142-bed nursing home and 21-bed boarding care home facility in Minneapolis, notwithstanding the licensure and certification after July 1, 1995, of the Minneapolis facility as a 147-bed nursing home facility after completion of a construction project approved in 1993 under section 144A.073, to be laid away upon 30 days' prior written notice to the commissioner. Beds on layaway status shall have the same status as

voluntarily delicensed or decertified beds except that they shall remain subject to the surcharge in section 256.9657. The 16 beds on layaway status may be relicensed as nursing home beds and recertified at any time within five years of the effective date of the layaway upon relocation of some or all of the beds to a licensed and certified facility located in Watertown, provided that the total project construction costs related to the relocation of beds from layaway status for the Watertown facility may not exceed the dollar threshold provided in subdivision 2 unless the construction project has been approved through the moratorium exception process under section 144A.073.;

The property-related payment rate of the facility placing beds on layaway status must be adjusted by the incremental change in its rental per diem after recalculating the rental per diem as provided in section 256B.431, subdivision 3a, paragraph (c). The property-related payment rate for the facility relicensing and recertifying beds from layaway status must be adjusted by the incremental change in its rental per diem after recalculating its rental per diem using the number of beds after the relicensing to establish the facility's capacity day divisor, which shall be effective the first day of the month following the month in which the relicensing and recertification became effective. Any beds remaining on layaway status more than five years after the date the layaway status became effective must be removed from layaway status and immediately delicensed and decertified;

(u) to license and certify beds that are moved within an existing area of a facility or to a newly constructed addition which is built for the purpose of eliminating three- and four-bed rooms and adding space for dining, lounge areas, bathing rooms, and ancillary service areas in a nursing home that, as of January 1, 1995, was located in Fridley and had a licensed capacity of 129 beds;

Property-related reimbursement rates shall be determined under section 256R.26, taking into account any federal or state flood-related loans or grants provided to the facility;

(x) to license and certify to the licensee of a nursing home in Polk County that was destroyed by flood in 1997 replacement projects with a total of up to 129 beds, with at least 25 beds to be located in Polk County and up to 104 beds distributed among up to three other counties. These beds may only be distributed to counties with fewer than the median number of age-intensity adjusted beds per thousand, as most recently published by the commissioner of human services. If the licensee chooses to distribute beds outside of Polk County under this paragraph, prior to distributing the beds, the commissioner of health must approve the location in which the licensee plans to distribute the beds. The commissioner of health shall consult with the commissioner of human services prior to approving the location of the proposed beds. The licensee may combine these beds with beds relocated from other nursing facilities as provided in section 144A.073, subdivision 3c. The operating payment rates for the new nursing facilities shall be determined based on the interim and settle-up payment provisions of Minnesota Rules, parts 9549.0010 to 9549.0080. Property-related reimbursement rates shall be determined under section 256R.26. ~~(y) to license and certify beds in a renovation and remodeling project to convert 13 three-bed wards into 13 two-bed rooms and 13 single-bed rooms, expand space, and add improvements in a nursing home that, as of January 1, 1994, met the following conditions: the nursing home was located in Ramsey County, was not owned by a hospital corporation, had a licensed capacity of 64 beds, and had been ranked among the top 15 applicants by the 1993 moratorium exceptions advisory review panel. ~~(z) to license and certify up to 150 nursing home beds to replace an existing 285 bed nursing facility located in St. Paul. The replacement project shall include both the renovation of existing buildings and the construction of new facilities at the existing site. The reduction in the licensed capacity of the existing facility shall occur during the construction project as beds are taken out of service due to the construction process. The relocation of residents shall be in accordance with the provisions of law and rule;~~

~~(aa) to allow the commissioner of human services to license an additional 36 beds to provide residential services for the physically disabled under Minnesota Rules, parts 9570.2000 to 9570.3400, in a 198-bed nursing home located in Red Wing, provided that the total number of licensed and certified beds at the facility does not increase;~~

~~(bb) to license and certify a new facility in St. Louis County with 44 beds constructed to replace an existing facility in St. Louis County with 31 beds, which has resident rooms on two separate floors and an antiquated elevator that creates safety concerns for residents and prevents nonambulatory residents from residing on the second floor. The project shall include the elimination of three- and four-bed rooms;~~

~~(cc)~~ (k) to license and certify four beds in a 16-bed certified boarding care home in Minneapolis to replace beds that were voluntarily delicensed and decertified on or before March 31, 1992. The licensure and certification is conditional upon the facility periodically assessing and adjusting its resident mix and other factors which may contribute to a potential institution for mental disease declaration. The commissioner of human services shall retain the authority to audit the facility at any time and shall require the facility to comply with any requirements necessary to prevent an institution for mental disease declaration, including delicensure and decertification of beds, if necessary; or

~~(dd) to license and certify 72 beds in an existing facility in Mille Lacs County with 80 beds as part of a renovation project. The renovation must include construction of an addition to accommodate ten residents with beginning and midstage dementia in a self-contained living unit; creation of three resident households where dining, activities, and support spaces are located near resident living quarters; designation of four beds for rehabilitation in a self-contained area; designation of 30 private rooms; and other improvements;~~

Operating and property rates shall be determined and allowed under chapter 256R and Minnesota Rules, parts 9549.0010 to 9549.0080; or~~

~~(ii) to transfer up to 98 beds of a 129-licensed bed facility located in Anoka County that, as of March 25, 2001, is in the active process of closing, to a 122-licensed bed nonprofit nursing facility located in the city of Columbia Heights or its affiliate. The transfer is effective when the receiving facility notifies the commissioner in writing of the number of beds accepted. The commissioner shall place all transferred beds on layaway status held in the name of the receiving facility. The layaway adjustment provisions of section 256B.431, subdivision 30, do not apply to this layaway. The receiving facility may only remove the beds from layaway for recertification and relicensure at the receiving facility's current site, or at a newly constructed facility located in Anoka County. The receiving facility must receive statutory authorization before removing these beds from layaway status, or may remove these beds from layaway status if removal from layaway status is part of a moratorium exception project approved by the commissioner under section 144A.073.~~

~~(1) to license and certify an 80-bed city-owned facility in Nicollet County to be constructed on the site of a new city-owned hospital to replace an existing 85-bed facility attached to a hospital that is also being replaced. The threshold allowed for this project under section 144A.073 shall be the maximum amount available to pay the additional medical assistance costs of the new facility;~~

~~(2) to license and certify 29 beds to be added to an existing 69-bed facility in St. Louis County, provided that the 29 beds must be transferred from active or layaway status at an existing facility in St. Louis County that had 235 beds on April 1, 2003.~~

~~The licensed capacity at the 235-bed facility must be reduced to 206 beds, but the payment rate at that facility shall not be adjusted as a result of this transfer. The operating payment rate of the facility adding beds after completion of this project shall be the same as it was on the day prior to the day the beds are licensed and certified. This project shall not proceed unless it is approved and financed under the provisions of section 144A.073;~~

~~(3) to license and certify a new 60-bed facility in Austin, provided that: (i) 45 of the new beds are transferred from a 45-bed facility in Austin under common ownership that is closed and 15 of the new beds are transferred from a 182-bed facility in Albert Lea under common ownership; (ii) the commissioner of human services is authorized by the 2004 legislature to negotiate budget-neutral planned nursing facility closures; and (iii) money is available from planned closures of facilities under common ownership to make implementation of this clause budget-neutral to the state. The bed capacity of the Albert Lea facility shall be reduced to 167 beds following the transfer. Of the 60 beds at the new facility, 20 beds shall be used for a special care unit for persons with Alzheimer's disease or related dementias;~~

~~(4) to license and certify up to 80 beds transferred from an existing state-owned nursing facility in Cass County to a new facility located on the grounds of the Ah-Gwah-Ching campus. The operating cost payment rates for the new facility shall be determined based on the interim and settle-up payment provisions of section 256R.27 and the reimbursement provisions of chapter 256R. The property payment rate for the first three years of operation shall be $35 per day. For subsequent years, the property payment rate of $35 per day shall be adjusted for inflation as provided in section 256B.434, subdivision 4, paragraph (c), as long as the facility has a contract under section 256B.434;~~

~~(5)~~ (1) to initiate a pilot program to license and certify up to 80 beds transferred from an existing county-owned nursing facility in Steele County relocated to the site of a new acute care facility as part of the county's Communities for a Lifetime comprehensive plan to create innovative responses to the aging of its population. Upon relocation to the new site, the nursing facility shall delicense 28 beds. The payment rate for external fixed costs for the new facility shall be increased by an amount as calculated according to items (i) to (v):

(i) compute the estimated decrease in medical assistance residents served by the nursing facility by multiplying the decrease in licensed beds by the historical percentage of medical assistance resident days;

(ii) compute the annual savings to the medical assistance program from the delicensure of 28 beds by multiplying the anticipated decrease in medical assistance residents, determined in item (i), by the existing facility's weighted average payment rate multiplied by 365;

(iii) compute the anticipated annual costs for community-based services by multiplying the anticipated decrease in medical assistance residents served by the nursing facility, determined in item (i), by the average monthly elderly waiver service costs for individuals in Steele County multiplied by 12;

(iv) subtract the amount in item (iii) from the amount in item (ii);

(v) divide the amount in item (iv) by an amount equal to the relocated nursing facility's occupancy factor under section 256B.431, subdivision 3f, paragraph (c), multiplied by the historical percentage of medical assistance resident days; and

~~(6)~~ (2) to consolidate and relocate nursing facility beds to a new site in Goodhue County and to integrate these services with other community-based programs and services under a communities for a lifetime pilot program and comprehensive plan to create innovative responses to the aging of its population. Two nursing facilities, one for 84 beds and one for 65 beds, in the city of Red Wing licensed on July 1, 2015, shall be consolidated into a newly renovated 64-bed nursing facility resulting in the delicensure of 85 beds. Notwithstanding the carryforward of the approval authority in section 144A.073, subdivision 11, the funding approved in April 2009 by the commissioner of health for a project in Goodhue County shall not carry forward. The closure of the 85 beds shall not be eligible for a planned closure rate adjustment under Minnesota Statutes 2024, section 256R.40. The construction project permitted in this clause shall not be eligible for a threshold project rate adjustment under section 256B.434, subdivision 4f. The payment rate for external fixed costs for the new facility shall be increased by an amount as calculated according to items (i) to (vi):

(i) compute the estimated decrease in medical assistance residents served by both nursing facilities by multiplying the difference between the occupied beds of the two nursing facilities for the reporting year ending September 30, 2009, and the projected occupancy of the facility at 95 percent occupancy by the historical percentage of medical assistance resident days;

(ii) compute the annual savings to the medical assistance program from the delicensure by multiplying the anticipated decrease in the medical assistance residents, determined in item (i), by the hospital-owned nursing facility weighted average payment rate multiplied by 365;

(iii) compute the anticipated annual costs for community-based services by multiplying the anticipated decrease in medical assistance residents served by the facilities, determined in item (i), by the average monthly elderly waiver service costs for individuals in Goodhue County multiplied by 12;

(iv) subtract the amount in item (iii) from the amount in item (ii);

(v) multiply the amount in item (iv) by 57.2 percent; and

(vi) divide the difference of the amount in item (iv) and the amount in item (v) by an amount equal to the relocated nursing facility's occupancy factor under section 256B.431, subdivision 3f, paragraph (c), multiplied by the historical percentage of medical assistance resident days.

(b) Projects approved under this subdivision shall be treated in a manner equivalent to projects approved under subdivision 4a.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 3. Minnesota Statutes 2024, section 144A.071, subdivision 4d, is amended to read:

Subd. 4d. **Consolidation of nursing facilities.** (a) The commissioner of health, in consultation with the commissioner of human services, may approve a request for consolidation of nursing facilities which includes the closure of one or more facilities and the upgrading of the physical plant

of the remaining nursing facility or facilities, the costs of which exceed the threshold project limit under subdivision 2, clause (a). The commissioners shall consider the criteria in this section, section 144A.073, and Minnesota Statutes 2024, section 256R.40, in approving or rejecting a consolidation proposal. In the event the commissioners approve the request, the commissioner of human services shall calculate an external fixed costs rate adjustment according to clauses (1) to (3):

(1) the closure of beds shall not be eligible for a planned closure rate adjustment under Minnesota Statutes 2024, section 256R.40, subdivision 5;

(2) the construction project permitted in this clause shall not be eligible for a threshold project rate adjustment under section 256B.434, subdivision 4f, or a moratorium exception adjustment under section 144A.073; and

(3) the payment rate for external fixed costs for a remaining facility or facilities shall be increased by an amount equal to 65 percent of the projected net cost savings to the state calculated in paragraph (b), divided by the state's medical assistance percentage of medical assistance dollars, and then divided by estimated medical assistance resident days, as determined in paragraph (c), of the remaining nursing facility or facilities in the request in this paragraph. The rate adjustment is effective on the first day of the month of January or July, whichever date occurs first following both the completion of the construction upgrades in the consolidation plan and the complete closure of the facility or facilities designated for closure in the consolidation plan. If more than one facility is receiving upgrades in the consolidation plan, each facility's date of construction completion must be evaluated separately.

(b) For purposes of calculating the net cost savings to the state, the commissioner shall consider clauses (1) to (7):

(1) the annual savings from estimated medical assistance payments from the net number of beds closed taking into consideration only beds that are in active service on the date of the request and that have been in active service for at least three years;

(2) the estimated annual cost of increased case load of individuals receiving services under the elderly waiver;

(3) the estimated annual cost of elderly waiver recipients receiving support under housing support under chapter 256I;

(4) the estimated annual cost of increased case load of individuals receiving services under the alternative care program;

(5) the annual loss of license surcharge payments on closed beds;

(6) the savings from not paying planned closure rate adjustments that the facilities would otherwise be eligible for under Minnesota Statutes 2024, section 256R.40; and

(7) the savings from not paying external fixed costs payment rate adjustments from submission of renovation costs that would otherwise be eligible as threshold projects under section 256B.434, subdivision 4f.

(c) For purposes of the calculation in paragraph (a), clause (3), the estimated medical assistance resident days of the remaining facility or facilities shall be computed assuming 95 percent occupancy multiplied by the historical percentage of medical assistance resident days of the remaining facility or facilities, as reported on the facility's or facilities' most recent nursing facility statistical and cost report filed before the plan of closure is submitted, multiplied by 365.

(d) For purposes of net cost of savings to the state in paragraph (b), the average occupancy percentages will be those reported on the facility's or facilities' most recent nursing facility statistical and cost report filed before the plan of closure is submitted, and the average payment rates shall be calculated based on the approved payment rates in effect at the time the consolidation request is submitted.

(e) To qualify for the external fixed costs payment rate adjustment under this subdivision, the closing facilities shall:

(1) submit an application for closure according to Minnesota Statutes 2024, section 256R.40, subdivision 2; and

(2) follow the resident relocation provisions of section 144A.161.

(f) The county or counties in which a facility or facilities are closed under this subdivision shall not be eligible for designation as a hardship area under subdivision 3 for five years from the date of the approval of the proposed consolidation. The applicant shall notify the county of this limitation and the county shall acknowledge this in a letter of support.

(g) Projects approved on or after March 1, 2020, are not subject to paragraph (a), clauses (2) and (3), and paragraph (c). The 65 percent projected net cost savings to the state calculated in paragraph (b) must be applied to the moratorium cost of the project and the remainder must be added to the moratorium funding under section 144A.073, subdivision 11.

(h) Consolidation project applications not approved by the commissioner prior to March 1, 2020, are subject to the moratorium process under section 144A.073, subdivision 2. Upon request by the applicant, the commissioner may extend this deadline to August 1, 2020, so long as the facilities, bed numbers, and counties specified in the original application are not altered. Proposals from facilities seeking approval for a consolidation project prior to March 1, 2020, must be received by the commissioner no later than January 1, 2020. This paragraph expires August 1, 2020.

This rate increase is effective on the date the facility's occupancy decreases to 90 percent of capacity days after the written notice of closure is distributed under subdivision 5 and shall remain in effect for a period of up to 60 days. ~~The commissioner shall delay the implementation of rate adjustments under section 256R.40, subdivisions 5 and 6, to offset the cost of this rate adjustment.~~

If the number of licensed beds is reduced, the surcharge shall be based on the number of remaining licensed beds the second month following the receipt of timely notice by the commissioner of human services that beds have been delicensed. The nursing home must notify the commissioner of health in writing when beds are delicensed. The commissioner of health must notify the commissioner of human services within ten working days after receiving written notification. Subd. 2. **Reconsideration of correction orders.** (a) If the applicant or license holder believes that the contents of the commissioner's correction order are in error, the applicant or license holder may ask the Department of Human Services to reconsider the parts of the correction order that are alleged to be in error. The request for reconsideration must be made in writing and must be postmarked and sent to the commissioner within 20 calendar days after receipt of the correction order by the applicant or license holder or submitted in the provider licensing and reporting hub within 20 calendar days from the date the commissioner issued the order through the hub, and:

Upon implementation of the provider licensing and reporting hub, the provider must use the hub to request reconsideration. A request for reconsideration does not stay any provisions or requirements of the correction order. The commissioner's disposition of a request for reconsideration is final and not subject to appeal under chapter 14.

~~(b) This paragraph applies only to licensed family child care providers. A licensed family child care provider who requests reconsideration of a correction order under paragraph (a) may also request, on a form and in the manner prescribed by the commissioner, that the commissioner expedite the review if:~~

~~(1) the provider is challenging a violation and provides a description of how complying with the corrective action for that violation would require the substantial expenditure of funds or a significant change to their program; and~~

~~(2) describes what actions the provider will take in lieu of the corrective action ordered to ensure the health and safety of children in care pending the commissioner's review of the correction order.~~

(b) Notwithstanding paragraph (a), when a request for reconsideration is denied, the commissioner must offer the option of mediation for a license holder operating a program licensed under both this chapter and chapter 245D, if a license holder further disputes the commissioner's correction order. The costs of the mediation option under this paragraph must be paid by the license holder.

The grant shall be in an amount for the direct costs of the services or supports outlined in the service agreement.

(g) Reimbursable costs shall not include costs for resources already available, such as special education classes, day training and habilitation, case management, other services to which the person is entitled, medical costs covered by insurance or other health programs, or other resources usually available at no cost to the person or the person's legal representative or other authorized representative.

(c) The commissioner shall conduct revalidation as follows:

(1) provide 30-day notice of the revalidation due date including instructions for revalidation and a list of materials the provider must submit;

(2) if a provider fails to submit all required materials by the due date, notify the provider of the deficiency within 30 days after the due date and allow the provider an additional 30 days from the notification date to comply; and

(3) if a provider fails to remedy a deficiency within the 30-day time period, give 60-day notice of termination and immediately suspend the provider's ability to bill. The provider does not have the right to appeal suspension of ability to bill.

(d) If a provider fails to comply with any individual provider requirement or condition of participation, the commissioner may suspend the provider's ability to bill until the provider comes into compliance. The commissioner's decision to suspend the provider is not subject to an administrative appeal.

(e) Correspondence and notifications, including notifications of termination and other actions, may be delivered electronically to a provider's MN-ITS mailbox. This paragraph does not apply to correspondences and notifications related to background studies.

(f) If the commissioner or the Centers for Medicare and Medicaid Services determines that a provider is designated "high-risk," the commissioner may withhold payment from providers within that category upon initial enrollment for a 90-day period. The withholding for each provider must begin on the date of the first submission of a claim.

(g) An enrolled provider that is also licensed by the commissioner under chapter 245A, is licensed as a home care provider by the Department of Health under chapter 144A, or is licensed as an assisted living facility under chapter 144G and has a home and community-based services designation on the home care license under section 144A.484, must designate an individual as the entity's compliance officer. The compliance officer must:

(1) develop policies and procedures to assure adherence to medical assistance laws and regulations and to prevent inappropriate claims submissions;

(2) train the employees of the provider entity, and any agents or subcontractors of the provider entity including billers, on the policies and procedures under clause (1);

(3) respond to allegations of improper conduct related to the provision or billing of medical assistance services, and implement action to remediate any resulting problems;

(4) use evaluation techniques to monitor compliance with medical assistance laws and regulations;

(5) promptly report to the commissioner any identified violations of medical assistance laws or regulations; and

(6) within 60 days of discovery by the provider of a medical assistance reimbursement overpayment, report the overpayment to the commissioner and make arrangements with the commissioner for the commissioner's recovery of the overpayment.

The commissioner may require, as a condition of enrollment in medical assistance, that a provider within a particular industry sector or category establish a compliance program that contains the core elements established by the Centers for Medicare and Medicaid Services.

(h) The commissioner may revoke the enrollment of an ordering or rendering provider for a period of not more than one year, if the provider fails to maintain and, upon request from the commissioner, provide access to documentation relating to written orders or requests for payment for durable medical equipment, certifications for home health services, or referrals for other items or services written or ordered by such provider, when the commissioner has identified a pattern of a lack of documentation. A pattern means a failure to maintain documentation or provide access to documentation on more than one occasion. Nothing in this paragraph limits the authority of the commissioner to sanction a provider under the provisions of section 256B.064.

(i) The commissioner shall terminate or deny the enrollment of any individual or entity if the individual or entity has been terminated from participation in Medicare or under the Medicaid program or Children's Health Insurance Program of any other state. The commissioner may exempt a rehabilitation agency from termination or denial that would otherwise be required under this paragraph, if the agency:

(1) is unable to retain Medicare certification and enrollment solely due to a lack of billing to the Medicare program;

(2) meets all other applicable Medicare certification requirements based on an on-site review completed by the commissioner of health; and

(3) serves primarily a pediatric population.

(j) As a condition of enrollment in medical assistance, the commissioner shall require that a provider designated "moderate" or "high-risk" by the Centers for Medicare and Medicaid Services or the commissioner permit the Centers for Medicare and Medicaid Services, its agents, or its designated contractors and the state agency, its agents, or its designated contractors to conduct

unannounced on-site inspections of any provider location. The commissioner shall publish in the Minnesota Health Care Program Provider Manual a list of provider types designated "limited," "moderate," or "high-risk," based on the criteria and standards used to designate Medicare providers in Code of Federal Regulations, title 42, section 424.518. The list and criteria are not subject to the requirements of chapter 14. The commissioner's designations are not subject to administrative appeal.

(k) As a condition of enrollment in medical assistance, the commissioner shall require that a high-risk provider, or a person with a direct or indirect ownership interest in the provider of five percent or higher, consent to criminal background checks, including fingerprinting, when required to do so under state law or by a determination by the commissioner or the Centers for Medicare and Medicaid Services that a provider is designated high-risk for fraud, waste, or abuse.

(l)(1) Upon initial enrollment, reenrollment, and notification of revalidation, all durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) medical suppliers meeting the durable medical equipment provider and supplier definition in clause (3), operating in Minnesota and receiving Medicaid funds must purchase a surety bond that is annually renewed and designates the Minnesota Department of Human Services as the obligee, and must be submitted in a form approved by the commissioner. For purposes of this clause, the following medical suppliers are not required to obtain a surety bond: a federally qualified health center, a home health agency, the Indian Health Service, a pharmacy, and a rural health clinic.

(2) At the time of initial enrollment or reenrollment, durable medical equipment providers and suppliers defined in clause (3) must purchase a surety bond of $50,000. If a revalidating provider's Medicaid revenue in the previous calendar year is up to and including $300,000, the provider agency must purchase a surety bond of $50,000. If a revalidating provider's Medicaid revenue in the previous calendar year is over $300,000, the provider agency must purchase a surety bond of $100,000. The surety bond must allow for recovery of costs and fees in pursuing a claim on the bond.

(3) "Durable medical equipment provider or supplier" means a medical supplier that can purchase medical equipment or supplies for sale or rental to the general public and is able to perform or arrange for necessary repairs to and maintenance of equipment offered for sale or rental.

(m) The Department of Human Services may require a provider to purchase a surety bond as a condition of initial enrollment, reenrollment, reinstatement, or continued enrollment if: (1) the provider fails to demonstrate financial viability, (2) the department determines there is significant evidence of or potential for fraud and abuse by the provider, or (3) the provider or category of providers is designated high-risk pursuant to paragraph (f) and as per Code of Federal Regulations, title 42, section 455.450. The surety bond must be in an amount of $100,000 or ten percent of the provider's payments from Medicaid during the immediately preceding 12 months, whichever is greater. The surety bond must name the Department of Human Services as an obligee and must allow for recovery of costs and fees in pursuing a claim on the bond. This paragraph does not apply if the provider currently maintains a surety bond under the requirements in section 256B.0659 or 256B.85.

~~(c)~~ (d) Any change in the eligibility criteria for the enhanced rate for personal care assistance services as described in this subdivision and referenced in subdivision 11, paragraph (d), does not constitute a change in a term or condition for individual providers as defined in section 256B.0711, and is not subject to the state's obligation to meet and negotiate under chapter 179A.

(f) The person being reassessed, or the person's legal representative, may refuse a remote reassessment at any time.

(g) During a remote reassessment, if the certified assessor determines an in-person reassessment is necessary in order to complete the assessment, the lead agency shall schedule an in-person reassessment.

(h) All other requirements of an in-person reassessment apply to a remote reassessment, including updates to a person's support plan.

Lead agencies must document that informed choice was offered.

(b) The person or person's legal representative must attest, verbally or through alternative communications, that the information provided in the previous assessment or reassessment is still accurate and applicable and that no changes in the person's circumstances have occurred that would require changes from the most recent prior assessment or reassessment. The person or the person's legal representative may request a full reassessment at any time.

(c) The assessor must review the most recent prior assessment or reassessment as required in subdivision 22, paragraphs (a) and (b), clause (1), before conducting the interview. The certified assessor must confirm that the information from the previous assessment or reassessment is current.

EFFECTIVE DATE. This section is effective January 1, 2026, or upon federal approval, whichever is later. The commissioner of human services shall notify the revisor of statutes when federal approval is obtained.

Sec. 21. Minnesota Statutes 2024, section 256B.0911, subdivision 26, is amended to read:

Subd. 26. **Determination of institutional level of care.** (a) The determination of need for hospital and intermediate care facility levels of care must be made according to criteria developed by the commissioner, and in section 256B.092, using forms developed by the commissioner.

(b) Except as provided in paragraph (c), the determination of need for nursing facility level of care must be made based on criteria in section 144.0724, subdivision 11.

(c) Effective for determinations of need for nursing level of care made on or after January 1, 2027, for the purposes of waiver services provided under section 256B.49, the commissioner must make the determination of need for nursing facility level of care based on the criteria in section 144.0724, subdivision 11, paragraph (a), clauses (1) to (6). If a person is found ineligible for waiver services under this paragraph because of a determination that the person meets only the nursing facility level of care under section 144.0724, subdivision 11, paragraph (a), clause (7), the lead agency must review the person's latest assessment under section 256B.0911 to determine if the person meets any of the nursing facility level of care criteria under section 144.0724, subdivision 11, paragraph (a), clauses (1) to (6). The lead agency must also inform the person of other benefits options for which the person may be eligible. For existing waiver participants, the effective date of the termination of waiver services based on this paragraph must be no sooner than 90 days after the date of the assessment under section 256B.0911.

Sec. 22. Minnesota Statutes 2024, section 256B.0924, subdivision 6, is amended to read:

Subd. 6. **Payment for targeted case management.** (a) Medical assistance and MinnesotaCare payment for targeted case management shall be made on a monthly basis. In order to receive payment

for an eligible adult, the provider must document at least one contact per month and not more than two consecutive months without a face-to-face contact either in person or by interactive video that meets the requirements in section 256B.0625, subdivision 20b, with the adult or the adult's legal representative, family, primary caregiver, or other relevant persons identified as necessary to the development or implementation of the goals of the personal service plan.

(b) Except as provided under paragraph (m), payment for targeted case management provided by county staff under this subdivision shall be based on the monthly rate methodology under section 256B.094, subdivision 6, paragraph (b), calculated as one combined average rate together with adult mental health case management under section 256B.0625, subdivision 20, except for calendar year 2002. In calendar year 2002, the rate for case management under this section shall be the same as the rate for adult mental health case management in effect as of December 31, 2001. Billing and payment must identify the recipient's primary population group to allow tracking of revenues.

(c) Payment for targeted case management provided by county-contracted vendors shall be based on a monthly rate calculated in accordance with section 256B.076, subdivision 2. The rate must not exceed the rate charged by the vendor for the same service to other payers. If the service is provided by a team of contracted vendors, the team shall determine how to distribute the rate among its members. No reimbursement received by contracted vendors shall be returned to the county, except to reimburse the county for advance funding provided by the county to the vendor.

(d) If the service is provided by a team that includes contracted vendors and county staff, the costs for county staff participation on the team shall be included in the rate for county-provided services. In this case, the contracted vendor and the county may each receive separate payment for services provided by each entity in the same month. In order to prevent duplication of services, the county must document, in the recipient's file, the need for team targeted case management and a description of the different roles of the team members.

(e) Notwithstanding section 256B.19, subdivision 1, the nonfederal share of costs for targeted case management shall be provided by the recipient's county of responsibility, as defined in sections 256G.01 to 256G.12, from sources other than federal funds or funds used to match other federal funds.

(f) The commissioner may suspend, reduce, or terminate reimbursement to a provider that does not meet the reporting or other requirements of this section. The county of responsibility, as defined in sections 256G.01 to 256G.12, is responsible for any federal disallowances. The county may share this responsibility with its contracted vendors.

(g) The commissioner shall set aside five percent of the federal funds received under this section for use in reimbursing the state for costs of developing and implementing this section.

(h) Payments to counties for targeted case management expenditures under this section shall only be made from federal earnings from services provided under this section. Payments to contracted vendors shall include both the federal earnings and the county share.

(i) Notwithstanding section 256B.041, county payments for the cost of case management services provided by county staff shall not be made to the commissioner of management and budget. For the purposes of targeted case management services provided by county staff under this section, the

centralized disbursement of payments to counties under section 256B.041 consists only of federal earnings from services provided under this section.

(j) If the recipient is a resident of a nursing facility, intermediate care facility, or hospital, and the recipient's institutional care is paid by medical assistance, payment for targeted case management services under this subdivision is limited to the lesser of:

(1) the last 180 days of the recipient's residency in that facility; or

(2) the limits and conditions which apply to federal Medicaid funding for this service.

(k) Payment for targeted case management services under this subdivision shall not duplicate payments made under other program authorities for the same purpose.

(l) Any growth in targeted case management services and cost increases under this section shall be the responsibility of the counties.

(m) The commissioner may make payments for Tribes according to section 256B.0625, subdivision 34, or other relevant federally approved rate setting methodologies for vulnerable adult and developmental disability targeted case management provided by Indian health services and facilities operated by a Tribe or Tribal organization.

EFFECTIVE DATE. This section is effective July 1, 2025.

Subd. 8. **Determination of CFSS service authorization amount.** (a) All community first services and supports must be authorized by the commissioner or the commissioner's designee before services begin. The authorization for CFSS must be completed as soon as possible following an assessment but no later than 40 calendar days from the date of the assessment.

(b) The amount of CFSS authorized must be based on the participant's home care rating described in paragraphs (d) and (e) and any additional service units for which the participant qualifies as described in paragraph (f).

(c) The home care rating shall be determined by the commissioner or the commissioner's designee based on information submitted to the commissioner identifying the following for a participant:

(1) the total number of dependencies of activities of daily living;

(2) the presence of complex health-related needs; and

(3) the presence of Level I behavior.

(d) The methodology to determine the total service units for CFSS for each home care rating is based on the median paid units per day for each home care rating from fiscal year 2007 data for the PCA program.

(e) Each home care rating is designated by the letters P through Z and EN and has the following base number of service units assigned:

(1) P home care rating requires Level I behavior or one to three dependencies in ADLs and qualifies the person for five service units;

(2) Q home care rating requires Level I behavior and one to three dependencies in ADLs and qualifies the person for six service units;

(3) R home care rating requires a complex health-related need and one to three dependencies in ADLs and qualifies the person for seven service units;

(4) S home care rating requires four to six dependencies in ADLs and qualifies the person for ten service units;

(5) T home care rating requires four to six dependencies in ADLs and Level I behavior and qualifies the person for 11 service units;

(6) U home care rating requires four to six dependencies in ADLs and a complex health-related need and qualifies the person for 14 service units;

(8) W home care rating requires seven to eight dependencies in ADLs and Level I behavior and qualifies the person for 20 service units;

(9) Z home care rating requires seven to eight dependencies in ADLs and a complex health-related need and qualifies the person for 30 service units; and

(10) EN home care rating includes ventilator dependency as defined in section 256B.0651, subdivision 1, paragraph (g). A person who meets the definition of ventilator-dependent and the EN home care rating and utilize a combination of CFSS and home care nursing services is limited to a total of 96 service units per day for those services in combination. Additional units may be authorized when a person's assessment indicates a need for two staff to perform activities. Additional time is limited to 16 service units per day.

(f) Additional service units are provided through the assessment and identification of the following:

(1) 30 additional minutes per day for a dependency in each critical activity of daily living;

(2) 30 additional minutes per day for each complex health-related need; and

(3) 30 additional minutes per day for each behavior under this clause that requires assistance at least four times per week:

(i) level I behavior that requires the immediate response of another person;

(ii) increased vulnerability due to cognitive deficits or socially inappropriate behavior; or

(iii) increased need for assistance for participants who are verbally aggressive or resistive to care so that the time needed to perform activities of daily living is increased.

(g) The service budget for budget model participants shall be based on:

(1) the lead agency temporarily authorizes services in the agency-provider model as described in subdivision ~~5, paragraph (c)~~ 5a;

(2) CFSS services in the agency-provider model were required to treat an emergency medical condition that if not immediately treated could cause a participant serious physical or mental disability, continuation of severe pain, or death. The CFSS agency provider must request retroactive authorization from the lead agency no later than five working days after providing the initial emergency service. The CFSS agency provider must be able to substantiate the emergency through documentation such as reports, notes, and admission or discharge histories. A lead agency must follow the authorization process in subdivision 5 after the lead agency receives the request for authorization from the agency provider;

(3) the lead agency authorizes a temporary increase to the amount of services authorized in the agency or budget model to accommodate the participant's temporary higher need for services. Authorization for a temporary level of CFSS services is limited to the time specified by the commissioner, but shall not exceed 45 days. The level of services authorized under this clause shall have no bearing on a future authorization;

(4) a participant's medical assistance eligibility has lapsed, is then retroactively reinstated, and an authorization for CFSS services is completed based on the date of a current assessment, eligibility, and request for authorization;

(5) a third-party payer for CFSS services has denied or adjusted a payment. Authorization requests must be submitted by the provider within 20 working days of the notice of denial or adjustment. A copy of the notice must be included with the request;

(6) the commissioner has determined that a lead agency or state human services agency has made an error; or

(7) a participant enrolled in managed care experiences a temporary disenrollment from a health plan, in which case the commissioner shall accept the current health plan authorization for CFSS services for up to 60 days. The request must be received within the first 30 days of the disenrollment. If the recipient's reenrollment in managed care is after the 60 days and before 90 days, the provider shall request an additional 30-day extension of the current health plan authorization, for a total limit of 90 days from the time of disenrollment.

Sec. 51. Minnesota Statutes 2024, section 256B.85, subdivision 11, is amended to read:

The agency must make a reasonable effort to fulfill the participant's request for the participant's preferred support worker.

(c) A participant may use authorized units of CFSS services as needed within a service agreement that is not greater than 12 months. Using authorized units in a flexible manner in either the agency-provider model or the budget model does not increase the total amount of services and supports authorized for a participant or included in the participant's CFSS service delivery plan.

(d) A participant may share CFSS services. Two or three CFSS participants may share services at the same time provided by the same support worker.

(e) The agency-provider must use a minimum of 72.5 percent of the revenue generated by the medical assistance payment for CFSS for support worker wages and benefits, except all of the revenue generated by a medical assistance rate increase due to a collective bargaining agreement under section 179A.54 must be used for support worker wages and benefits. (h) The agency provider is responsible for ensuring that any worker driving a participant under subdivision 2, paragraph (o), has a valid driver's license and the vehicle used is registered and insured according to Minnesota law.

(i) The use of consultation services under the agency-provider model is optional. A participant may select the agency-provider model without using consultation services to make the selection, to complete orientation to CFSS, or to select the agency-provider model.

(j) If a participant selects the agency-provider model without optional consultation services, the agency-provider must provide an initial and annual orientation to CFSS information and policies and a copy of the participant protections under subdivision 20 at the start of services.

(2) when a participant exits the budget model during the participant's service plan year. Upon transfer, the participant shall not access the budget model for the remainder of that service plan year; or

(3) when the department determines that the participant or participant's representative or legal representative is unable to fulfill the responsibilities under the budget model, as specified in subdivision 14.

The commissioner shall include a quality incentive payment in the CCBHC daily bundled rate system as described in paragraph (e). There is no county share for medical assistance services when reimbursed through the CCBHC daily bundled rate system.

(c) The commissioner shall ensure that the CCBHC daily bundled rate system for CCBHC payments under medical assistance meets the following requirements:

(1) the CCBHC daily bundled rate shall be a provider-specific rate calculated for each CCBHC, based on the daily cost of providing CCBHC services and the total annual allowable CCBHC costs divided by the total annual number of CCBHC visits. For calculating the payment rate, total annual visits include visits covered by medical assistance and visits not covered by medical assistance. Allowable costs include but are not limited to the salaries and benefits of medical assistance providers; the cost of CCBHC services provided under section 245.735, subdivision 3, paragraph (a), clauses (6) and (7); and other costs such as insurance or supplies needed to provide CCBHC services;

(2) payment shall be limited to one payment per day per medical assistance enrollee when an eligible CCBHC service is provided. A CCBHC visit is eligible for reimbursement if at least one of the CCBHC services listed under section 245.735, subdivision 3, paragraph (a), clause (6), is furnished to a medical assistance enrollee by a health care practitioner or licensed agency employed by or under contract with a CCBHC;

(3) initial CCBHC daily bundled rates for newly certified CCBHCs under section 245.735, subdivision 3, shall be established by the commissioner using a provider-specific rate based on the newly certified CCBHC's audited historical cost report data adjusted for the expected cost of delivering CCBHC services. (4) the commissioner shall rebase CCBHC rates once every two years following the last rebasing and no less than 12 months following an initial rate or a rate change due to a change in the scope of services. system in the Medicaid Management Information System (MMIS), for CCBHCs reimbursed under this chapter, with a final settlement of payments due made payable to CCBHCs no later than 18 months thereafter;

(8) the CCBHC daily bundled rate for each CCBHC shall be updated by trending each provider-specific rate by the Medicare Economic Index for primary care services. CCBHCs must provide data on costs and visits to the state annually using the CCBHC cost report established by the commissioner; and

(9) a CCBHC may request a rate adjustment for changes in the CCBHC's scope of services when such changes are expected to result in an adjustment to the CCBHC payment rate by 2.5 percent or more. The CCBHC must provide the commissioner with information regarding the changes in the scope of services, including the estimated cost of providing the new or modified services and any projected increase or decrease in the number of visits resulting from the change. Estimated costs are subject to review by the commissioner. Rate adjustments for changes in scope shall occur no more than once per year in between rebasing periods per CCBHC and are effective on the date of the annual CCBHC rate update.

(d) Managed care plans and county-based purchasing plans shall reimburse CCBHC providers at the CCBHC daily bundled rate. The commissioner shall monitor the effect of this requirement on the rate of access to the services delivered by CCBHC providers. If, for any contract year, federal approval is not received for this paragraph, the commissioner must adjust the capitation rates paid to managed care plans and county-based purchasing plans for that contract year to reflect the removal of this provision. Contracts between managed care plans and county-based purchasing plans and providers to whom this paragraph applies must allow recovery of payments from those providers if capitation rates are adjusted in accordance with this paragraph. Payment recoveries must not exceed the amount equal to any increase in rates that results from this provision. This paragraph expires if federal approval is not received for this paragraph at any time.

(e) The commissioner shall implement a quality incentive payment program for CCBHCs that meets the following requirements:

(4) a CCBHC must provide the commissioner with data needed to determine incentive payment eligibility within six months following the measurement year. The commissioner shall notify CCBHC providers of their performance on the required measures and the incentive payment amount within 12 months following the measurement year.

(f) All claims to managed care plans for CCBHC services as provided under this section shall be submitted directly to, and paid by, the commissioner on the dates specified no later than January 1 of the following calendar year, if:

(1) one or more managed care plans does not comply with the federal requirement for payment of clean claims to CCBHCs, as defined in Code of Federal Regulations, title 42, section 447.45(b), and the managed care plan does not resolve the payment issue within 30 days of noncompliance; and

(2) the total amount of clean claims not paid in accordance with federal requirements by one or more managed care plans is 50 percent of, or greater than, the total CCBHC claims eligible for payment by managed care plans.

If the conditions in this paragraph are met between January 1 and June 30 of a calendar year, claims shall be submitted to and paid by the commissioner beginning on January 1 of the following year. If the conditions in this paragraph are met between July 1 and December 31 of a calendar year, claims shall be submitted to and paid by the commissioner beginning on July 1 of the following year.

(g) Peer services provided by a CCBHC certified under section 245.735 are a covered service under medical assistance when a licensed mental health professional or alcohol and drug counselor determines that peer services are medically necessary. Sec. 40. Minnesota Statutes 2024, section 256B.761, is amended to read:

256B.761 REIMBURSEMENT FOR MENTAL HEALTH SERVICES.

(a) Effective for services rendered on or after July 1, 2001, payment for medication management provided to psychiatric patients, outpatient mental health services, day treatment services, home-based mental health services, and family community support services shall be paid at the lower of (1) submitted charges, or (2) 75.6 percent of the 50th percentile of 1999 charges.

(b) Effective July 1, 2001, the medical assistance rates for outpatient mental health services provided by an entity that operates: (1) a Medicare-certified comprehensive outpatient rehabilitation facility; and (2) a facility that was certified prior to January 1, 1993, with at least 33 percent of the clients receiving rehabilitation services in the most recent calendar year who are medical assistance recipients, will be increased by 38 percent, when those services are provided within the comprehensive outpatient rehabilitation facility and provided to residents of nursing facilities owned by the entity.

(c) In addition to rate increases otherwise provided, the commissioner may restructure coverage policy and rates to improve access to adult rehabilitative mental health services under section 256B.0623 and related mental health support services under section 256B.021, subdivision 4, paragraph (f), clause (2). For state fiscal years 2015 and 2016, the projected state share of increased costs due to this paragraph is transferred from adult mental health grants under sections 245.4661 and 256K.10. The transfer for fiscal year 2016 is a permanent base adjustment for subsequent fiscal years. Payments made to managed care plans and county-based purchasing plans under sections 256B.69, 256B.692, and 256L.12 shall reflect the rate changes described in this paragraph.

(d) Any ratables effective before July 1, 2015, do not apply to early intensive developmental and behavioral intervention (EIDBI) benefits described in section 256B.0949.

(e) Effective for services rendered on or after January 1, 2024, payment rates for behavioral health services included in the rate analysis required by Laws 2021, First Special Session chapter 7, article 17, section 18, except for adult day treatment services under section 256B.0671, subdivision 3; early intensive developmental and behavioral intervention services under section 256B.0949; and substance use disorder services under chapter 254B, must be increased by three percent from the rates in effect on December 31, 2023. Effective for services rendered on or after January 1, 2025, payment rates for behavioral health services included in the rate analysis required by Laws 2021, First Special Session chapter 7, article 17, section 18~~;~~, and early intensive developmental behavioral intervention services under section 256B.0949~~; and substance use disorder services under chapter 254B,~~ must be annually adjusted according to the change from the midpoint of the previous rate year to the midpoint of the rate year for which the rate is being determined using the Centers for Medicare and Medicaid Services Medicare Economic Index as forecasted in the fourth quarter of

the calendar year before the rate year. For payments made in accordance with this paragraph, if and to the extent that the commissioner identifies that the state has received federal financial participation for behavioral health services in excess of the amount allowed under United States Code, title 42, section 447.321, the state shall repay the excess amount to the Centers for Medicare and Medicaid Services with state money and maintain the full payment rate under this paragraph. This paragraph does not apply to federally qualified health centers, rural health centers, Indian health services, certified community behavioral health clinics, cost-based rates, and rates that are negotiated with the county. This paragraph expires upon legislative implementation of the new rate methodology resulting from the rate analysis required by Laws 2021, First Special Session chapter 7, article 17, section 18.

(f) Effective January 1, 2024, the commissioner shall increase capitation payments made to managed care plans and county-based purchasing plans to reflect the behavioral health service rate increase provided in paragraph (e). Managed care and county-based purchasing plans must use the capitation rate increase provided under this paragraph to increase payment rates to behavioral health services providers. The commissioner must monitor the effect of this rate increase on enrollee access to behavioral health services. If for any contract year federal approval is not received for this paragraph, the commissioner must adjust the capitation rates paid to managed care plans and county-based purchasing plans for that contract year to reflect the removal of this provision. Contracts between managed care plans and county-based purchasing plans and providers to whom this paragraph applies must allow recovery of payments from those providers if capitation rates are adjusted in accordance with this paragraph. Payment recoveries must not exceed the amount equal to any increase in rates that results from this provision.

Sec. 41. **DIRECTION TO COMMISSIONER; SUBSTANCE USE DISORDER TREATMENT STAFF REPORT AND RECOMMENDATIONS.**

The commissioner of human services must, in consultation with the Board of Nursing, Board of Behavioral Health and Therapy, and Board of Medical Practice, conduct a study and develop recommendations to the legislature for amendments to Minnesota Statutes, chapter 245G, that would eliminate any limitations on licensed health professionals' ability to provide substance use disorder treatment services while practicing within their licensed or statutory scopes of practice. The commissioner must submit a report on the study and recommendations to the chairs and ranking minority members of the legislative committees with jurisdiction over human services finance and policy by January 15, 2027.

Sec. 42. **DIRECTION TO THE COMMISSIONER; SUBSTANCE USE DISORDER TREATMENT BILLING UNITS.**

The commissioner of human services must establish six new billing codes for nonresidential substance use disorder individual and group counseling, individual and group psychoeducation, and individual and group recovery support services. The new billing codes must correspond to a 15-minute unit and become effective for services provided on or after July 1, 2026.

EFFECTIVE DATE. This section is effective July 1, 2026, or upon federal approval, whichever is later. The commissioner of human services must inform the revisor of statutes when federal approval is obtained.

Sec. 43. **REVISOR INSTRUCTION.**

The revisor may make technical and other necessary changes to sentence structure to preserve the meaning of the text. The revisor may alter the coding in this act to incorporate statutory changes made by other law in the 2025 regular legislative session or a special session. HEALTH CARE

Section 1. Minnesota Statutes 2024, section 256.01, subdivision 29, is amended to read:

Subd. 29. **State medical review team.** (a) To ensure the timely processing of determinations of disability by the commissioner's state medical review team under sections 256B.055, subdivisions 7, paragraph (b), and 12, and 256B.057, subdivision 9, the commissioner shall review all medical evidence and seek information from providers, applicants, and enrollees to support the determination of disability where necessary. Disability shall be determined according to the rules of title XVI and title XIX of the Social Security Act and pertinent rules and policies of the Social Security Administration.

(b) Medical assistance providers must grant the state medical review team access to electronic health records held by the medical assistance providers, when available, to support efficient and accurate disability determinations.

(c) Medicaid providers shall accept electronically signed authorizations to release medical records provided by the state medical review team.

~~(b)~~ (d) Prior to a denial or withdrawal of a requested determination of disability due to insufficient evidence, the commissioner shall (1) ensure that the missing evidence is necessary and appropriate to a determination of disability, and (2) assist applicants and enrollees to obtain the evidence, including, but not limited to, medical examinations and electronic medical records.

~~(c)~~ (e) Any appeal made under section 256.045, subdivision 3, of a disability determination made by the state medical review team must be decided according to the timelines under section 256.0451, subdivision 22, paragraph (a). EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 2. Minnesota Statutes 2024, section 256B.0625, subdivision 17, is amended to read:

Subd. 17. **Transportation costs.** (a) "Nonemergency medical transportation service" means motor vehicle transportation provided by a public or private person that serves Minnesota health care program beneficiaries who do not require emergency ambulance service, as defined in section 144E.001, subdivision 3, to obtain covered medical services.

(b) For purposes of this subdivision, "rural urban commuting area" or "RUCA" means a census-tract based classification system under which a geographical area is determined to be urban, rural, or super rural.

(c) Medical assistance covers medical transportation costs incurred solely for obtaining emergency medical care or transportation costs incurred by eligible persons in obtaining emergency or nonemergency medical care when paid directly to an ambulance company, nonemergency medical transportation company, or other recognized providers of transportation services. Medical transportation must be provided by:

(1) nonemergency medical transportation providers who meet the requirements of this subdivision;

(2) ambulances, as defined in section 144E.001, subdivision 2;

(3) taxicabs that meet the requirements of this subdivision;

(4) public transportation, within the meaning of "public transportation" as defined in section 174.22, subdivision 7; or

(5) not-for-hire vehicles, including volunteer drivers, as defined in section 65B.472, subdivision 1, paragraph (p).

(d) Medical assistance covers nonemergency medical transportation provided by nonemergency medical transportation providers enrolled in the Minnesota health care programs. All nonemergency medical transportation providers must comply with the operating standards for special transportation service as defined in sections 174.29 to 174.30 and Minnesota Rules, chapter 8840, and all drivers must be individually enrolled with the commissioner and reported on the claim as the individual who provided the service. All nonemergency medical transportation providers shall bill for nonemergency medical transportation services in accordance with Minnesota health care programs criteria. Publicly operated transit systems, volunteers, and not-for-hire vehicles are exempt from the requirements outlined in this paragraph.

(e) An organization may be terminated, denied, or suspended from enrollment if:

(1) the provider has not initiated background studies on the individuals specified in section 174.30, subdivision 10, paragraph (a), clauses (1) to (3); or

(2) the provider has initiated background studies on the individuals specified in section 174.30, subdivision 10, paragraph (a), clauses (1) to (3), and:

(i) the commissioner has sent the provider a notice that the individual has been disqualified under section 245C.14; and

(ii) the individual has not received a disqualification set-aside specific to the special transportation services provider under sections 245C.22 and 245C.23.

(f) The administrative agency of nonemergency medical transportation must:

(1) adhere to the policies defined by the commissioner;

(2) pay nonemergency medical transportation providers for services provided to Minnesota health care programs beneficiaries to obtain covered medical services;

(3) provide data monthly to the commissioner on appeals, complaints, no-shows, canceled trips, and number of trips by mode; and

(4) by July 1, 2016, in accordance with subdivision 18e, utilize a web-based single administrative structure assessment tool that meets the technical requirements established by the commissioner, reconciles trip information with claims being submitted by providers, and ensures prompt payment for nonemergency medical transportation services.

(g) Until the commissioner implements the single administrative structure and delivery system under subdivision 18e, clients shall obtain their level-of-service certificate from the commissioner or an entity approved by the commissioner that does not dispatch rides for clients using modes of transportation under paragraph (l), clauses (4), (5), (6), and (7).

(h) The commissioner may use an order by the recipient's attending physician, advanced practice registered nurse, physician assistant, or a medical or mental health professional to certify that the recipient requires nonemergency medical transportation services. Nonemergency medical transportation providers shall perform driver-assisted services for eligible individuals, when appropriate. Driver-assisted service includes passenger pickup at and return to the individual's residence or place of business, assistance with admittance of the individual to the medical facility, and assistance in passenger securement or in securing of wheelchairs, child seats, or stretchers in the vehicle.

(i) Nonemergency medical transportation providers must take clients to the health care provider using the most direct route, and must not exceed 30 miles for a trip to a primary care provider or 60 miles for a trip to a specialty care provider, unless the client receives authorization from the local agency.

(j) Nonemergency medical transportation providers may not bill for separate base rates for the continuation of a trip beyond the original destination. Nonemergency medical transportation providers must maintain trip logs, which include pickup and drop-off times, signed by the medical provider or client, whichever is deemed most appropriate, attesting to mileage traveled to obtain covered medical services. Clients requesting client mileage reimbursement must sign the trip log attesting mileage traveled to obtain covered medical services.

(k) The administrative agency shall use the level of service process established by the commissioner to determine the client's most appropriate mode of transportation. If public transit or a certified transportation provider is not available to provide the appropriate service mode for the client, the client may receive a onetime service upgrade.

(l) The covered modes of transportation are:

(1) client reimbursement, which includes client mileage reimbursement provided to clients who have their own transportation, or to family or an acquaintance who provides transportation to the client;

(2) volunteer transport, which includes transportation by volunteers using their own vehicle;

(3) unassisted transport, which includes transportation provided to a client by a taxicab or public transit. If a taxicab or public transit is not available, the client can receive transportation from another nonemergency medical transportation provider;

(4) assisted transport, which includes transport provided to clients who require assistance by a nonemergency medical transportation provider;

(5) lift-equipped/ramp transport, which includes transport provided to a client who is dependent on a device and requires a nonemergency medical transportation provider with a vehicle containing a lift or ramp;

(6) protected transport, which includes transport provided to a client who has received a prescreening that has deemed other forms of transportation inappropriate and who requires a provider: (i) with a protected vehicle that is not an ambulance or police car and has safety locks, a video recorder, and a transparent thermoplastic partition between the passenger and the vehicle driver; and (ii) who is certified as a protected transport provider; and

(7) stretcher transport, which includes transport for a client in a prone or supine position and requires a nonemergency medical transportation provider with a vehicle that can transport a client in a prone or supine position.

(m) The local agency shall be the single administrative agency and shall administer and reimburse for modes defined in paragraph (l) according to paragraphs (p) and (q) when the commissioner has developed, made available, and funded the web-based single administrative structure, assessment tool, and level of need assessment under subdivision 18e. The local agency's financial obligation is limited to funds provided by the state or federal government.

(n) The commissioner shall:

(1) verify that the mode and use of nonemergency medical transportation is appropriate;

(2) verify that the client is going to an approved medical appointment; and

(3) investigate all complaints and appeals.

(o) The administrative agency shall pay for the services provided in this subdivision and seek reimbursement from the commissioner, if appropriate. As vendors of medical care, local agencies are subject to the provisions in section 256B.041, the sanctions and monetary recovery actions in section 256B.064, and Minnesota Rules, parts 9505.2160 to 9505.2245.

(p) Payments for nonemergency medical transportation must be paid based on the client's assessed mode under paragraph (k), not the type of vehicle used to provide the service. The medical

assistance reimbursement rates for nonemergency medical transportation services that are payable by or on behalf of the commissioner for nonemergency medical transportation services are:

(1) $0.22 per mile for client reimbursement;

(2) up to 100 percent of the Internal Revenue Service business deduction rate for volunteer transport;

(3) equivalent to the standard fare for unassisted transport when provided by public transit, and $12.10 for the base rate and $1.43 per mile when provided by a nonemergency medical transportation provider;

(4) $14.30 for the base rate and $1.43 per mile for assisted transport;

(5) $19.80 for the base rate and $1.70 per mile for lift-equipped/ramp transport;

(6) $75 for the base rate for the first 100 miles and an additional $75 for trips over 100 miles and $2.40 per mile for protected transport; and

(7) $60 for the base rate and $2.40 per mile for stretcher transport, and $9 per trip for an additional attendant if deemed medically necessary.

(q) The base rate for nonemergency medical transportation services in areas defined under RUCA to be super rural is equal to 111.3 percent of the respective base rate in paragraph (p), clauses (1) to (7). The mileage rate for nonemergency medical transportation services in areas defined under RUCA to be rural or super rural areas is:

(1) for a trip equal to 17 miles or less, equal to 125 percent of the respective mileage rate in paragraph (p), clauses (1) to (7); and

(2) for a trip between 18 and 50 miles, equal to 112.5 percent of the respective mileage rate in paragraph (p), clauses (1) to (7).

(r) For purposes of reimbursement rates for nonemergency medical transportation services under paragraphs (p) and (q), the zip code of the recipient's place of residence shall determine whether the urban, rural, or super rural reimbursement rate applies.

(s) The commissioner, when determining reimbursement rates for nonemergency medical transportation under paragraphs (p) and (q), shall exempt all modes of transportation listed under paragraph (l) from Minnesota Rules, part 9505.0445, item R, subitem (2).

(t) Effective for the first day of each calendar quarter in which the price of gasoline as posted publicly by the United States Energy Information Administration exceeds $3.00 per gallon, the commissioner shall adjust the rate paid per mile in paragraph (p) by one percent up or down for every increase or decrease of ten cents for the price of gasoline. The increase or decrease must be calculated using a base gasoline price of $3.00. The percentage increase or decrease must be calculated using the average of the most recently available price of all grades of gasoline for Minnesota as posted publicly by the United States Energy Information Administration.

EFFECTIVE DATE. This section is effective January 1, 2026.

Increases in rates resulting from the 50th percentile payment method must not exceed 150 percent of the previous fiscal year's rate per code and product combination. Data are sufficient if: (1) the commissioner has at least 100 paid claim lines by at least ten different providers for a given product or supply; or (2) in the absence of the data in clause (1), the commissioner has at least 20 claim lines by at least five different providers for a product or supply that does not meet the requirements of clause (1). If sufficient data are not available to calculate the 50th percentile for enteral products or supplies, the payment rate must be the payment rate in effect on June 30, 2023.

(b) This subdivision expires June 30, 2027.

Subd. 14. **Rates for enteral nutrition and supplies.** ~~(n)~~ For dates of service on or after July 1, ~~2025~~ 2027, enteral nutrition and supplies must be paid according to this ~~paragraph~~ subdivision and updated annually each January 1. DIRECT CARE AND TREATMENT

Section 1. **[246.0142] FREE COMMUNICATION SERVICES FOR PATIENTS AND CLIENTS.**

Subdivision 1. **Free communication services.** The commissioner of human services and the Direct Care and Treatment executive board and all facilities, settings, and programs owned, operated, or under the programmatic or fiscal control of the commissioner of human services or the Direct Care and Treatment executive board are subject to section 241.252. The commissioner and executive board must not include the cost of voice or other communication services in the cost of care as defined under section 246.50 or 246B.01.

Subd. 2. **Communication service restrictions.** Notwithstanding section 241.252, subdivisions 2 and 4, nothing in this section entitles a civilly committed person to communication services restricted or limited under section 253B.03, subdivision 3, or 253D.19.

Sec. 2. Minnesota Statutes 2024, section 256G.08, subdivision 1, is amended to read:

Subdivision 1. **Commitment and competency proceedings.** In cases of voluntary admission, ~~or~~ commitment to state or other institutions, or criminal orders for inpatient examination or participation in a competency attainment program under chapter 611, the committing county or the county from which the first criminal order for inpatient examination or order for participation in a competency attainment program under chapter 611 is issued shall initially pay for all costs. This includes the expenses of the taking into custody, confinement, emergency holds under sections 253B.051, subdivisions 1 and 2, and 253B.07, examination, commitment, conveyance to the place of detention, rehearing, and hearings under ~~section~~ sections 253B.092 and 611.47, including hearings held under ~~that section which~~ those sections that are venued outside the county of commitment or the county of the chapter 611 competency proceedings order.

Sec. 3. Minnesota Statutes 2024, section 256G.08, subdivision 2, is amended to read:

Subd. 2. **Responsibility for nonresidents.** If a person committed, ~~or~~ voluntarily admitted to a state institution, or ordered for inpatient examination or participation in a competency attainment program under chapter 611 has no residence in this state, financial responsibility belongs to the county of commitment or the county from which the first criminal order for inpatient examination or order for participation in a competency attainment program under chapter 611 was issued.

Sec. 4. Minnesota Statutes 2024, section 256G.09, subdivision 1, is amended to read:

Subdivision 1. **General procedures.** If upon investigation the local agency decides that the application, ~~or~~ commitment, or first criminal order under chapter 611 was not filed in the county of financial responsibility as defined by this chapter, but that the applicant is otherwise eligible for assistance, it shall send a copy of the application, ~~or~~ commitment claim, or chapter 611 claim together with the record of any investigation it has made, to the county it believes is financially responsible. The copy and record must be sent within 60 days of the date the application was approved or the claim was paid. The first local agency shall provide assistance to the applicant until financial responsibility is transferred under this section.

The county receiving the transmittal has 30 days to accept or reject financial responsibility. A failure to respond within 30 days establishes financial responsibility by the receiving county.

Sec. 5. Minnesota Statutes 2024, section 256G.09, subdivision 2, is amended to read:

Subd. 2. **Financial disputes.** (a) If the county receiving the transmittal does not believe it is financially responsible, it should provide to the commissioner of human services and the initially responsible county a statement of all facts and documents necessary for the commissioner to make the requested determination of financial responsibility. The submission must clearly state the program area in dispute and must state the specific basis upon which the submitting county is denying financial responsibility.

(b) The initially responsible county then has 15 calendar days to submit its position and any supporting evidence to the commissioner. The absence of a submission by the initially responsible county does not limit the right of the commissioner of human services or Direct Care and Treatment executive board to issue a binding opinion based on the evidence actually submitted.

(c) A case must not be submitted until the local agency taking the application, ~~or~~ making the commitment, or residing in the county from which the first criminal order under chapter 611 was issued has made an initial determination about eligibility and financial responsibility, and services have been initiated. This paragraph does not prohibit the submission of closed cases that otherwise meet the applicable statute of limitations.

Sec. 6. Minnesota Statutes 2024, section 611.43, is amended by adding a subdivision to read:

Subd. 5. **Costs related to confined treatment.** (a) When a defendant is ordered to participate in an examination in a treatment facility, a locked treatment facility, or a state-operated treatment facility under subdivision 1, paragraph (b), the facility shall bill the responsible health plan first. The county in which the criminal charges are filed is responsible to pay any charges not covered by the health plan, including co-pays and deductibles. If the defendant has health plan coverage and is confined in a hospital, but the hospitalization does not meet the criteria in section 62M.07, subdivision 2, clause (1); 62Q.53; 62Q.535, subdivision 1; or 253B.045, subdivision 6, the county in which criminal charges are filed is responsible for payment.

(b) The Direct Care and Treatment executive board shall determine the cost of confinement in a state-operated treatment facility based on the executive board's determination of cost of care pursuant to section 246.50, subdivision 5.

Sec. 7. Minnesota Statutes 2024, section 611.46, subdivision 1, is amended to read:

Subdivision 1. **Order to competency attainment program.** (a) If the court finds the defendant incompetent and the charges have not been dismissed, the court shall order the defendant to participate in a program to assist the defendant in attaining competency. The court may order participation in a competency attainment program provided outside of a jail, a jail-based competency attainment program, or an alternative program. The court must determine the least-restrictive program appropriate to meet the defendant's needs and public safety. In making this determination, the court must consult with the forensic navigator and consider any recommendations of the court examiner. The court shall not order a defendant to participate in a jail-based program or a state-operated treatment program if the highest criminal charge is a targeted misdemeanor.

(b) If the court orders the defendant to a locked treatment facility or jail-based program, the court must calculate the defendant's custody credit and cannot order the defendant to a locked treatment facility or jail-based program for a period that would cause the defendant's custody credit to exceed the maximum sentence for the underlying charge.

(c) The court may only order the defendant to participate in competency attainment at an inpatient or residential treatment program under this section if the head of the treatment program determines that admission to the program is clinically appropriate and consents to the defendant's admission. The court may only order the defendant to participate in competency attainment at a state-operated treatment facility under this section if the Direct Care and Treatment executive board or a designee determines that admission of the defendant is clinically appropriate and consents to the defendant's admission. The court may require a competency program that qualifies as a locked facility or a state-operated treatment program to notify the court in writing of the basis for refusing consent for admission of the defendant in order to ensure transparency and maintain an accurate record. The court may not require personal appearance of any representative of a competency program. The court shall send a written request for notification to the locked facility or state-operated treatment program and the locked facility or state-operated treatment program shall provide a written response to the court within ten days of receipt of the court's request.

(d) If the defendant is confined in jail and has not received competency attainment services within 30 days of the finding of incompetency, the court shall review the case with input from the prosecutor and defense counsel and may:

(1) order the defendant to participate in an appropriate competency attainment program that takes place outside of a jail;

(2) order a conditional release of the defendant with conditions that include but are not limited to a requirement that the defendant participate in a competency attainment program when one becomes available and accessible;

(3) make a determination as to whether the defendant is likely to attain competency in the reasonably foreseeable future and proceed under section 611.49; or

(4) upon a motion, dismiss the charges in the interest of justice.

(e) The court may order any hospital, treatment facility, or correctional facility that has provided care or supervision to a defendant in the previous two years to provide copies of the defendant's medical records to the competency attainment program or alternative program in which the defendant

was ordered to participate. This information shall be provided in a consistent and timely manner and pursuant to all applicable laws.

(f) If at any time the defendant refuses to participate in a competency attainment program or an alternative program, the head of the program shall notify the court and any entity responsible for supervision of the defendant.

(g) At any time, the head of the program may discharge the defendant from the program or facility. The head of the program must notify the court, prosecutor, defense counsel, and any entity responsible for the supervision of the defendant prior to any planned discharge. Absent emergency circumstances, this notification shall be made five days prior to the discharge if the defendant is not being discharged to jail or a correctional facility. Upon the receipt of notification of discharge or upon the request of either party in response to notification of discharge, the court may order that a defendant who is subject to bail or unmet conditions of release be returned to jail upon being discharged from the program or facility. If the court orders a defendant returned to jail, the court shall notify the parties and head of the program at least one day before the defendant's planned discharge, except in the event of an emergency discharge where one day notice is not possible. The court must hold a review hearing within seven days of the defendant's return to jail. The forensic navigator must be given notice of the hearing and be allowed to participate.

(h) If the defendant is discharged from the program or facility under emergency circumstances, notification of emergency discharge shall include a description of the emergency circumstances and may include a request for emergency transportation. The court shall make a determination on a request for emergency transportation within 24 hours. Nothing in this section prohibits a law enforcement agency from transporting a defendant pursuant to any other authority.

(i) If the defendant is ordered to participate in an inpatient or residential competency attainment or alternative program, the program or facility must notify the court, prosecutor, defense counsel, forensic navigator, and any entity responsible for the supervision of the defendant if the defendant is placed on a leave or elopement status from the program and if the defendant returns to the program from a leave or elopement status.

(j) Defense counsel, prosecutors, and forensic navigators must have access to information relevant to a defendant's participation and treatment in a competency attainment program or alternative program, including but not limited to discharge planning.

Sec. 8. Minnesota Statutes 2024, section 611.55, is amended by adding a subdivision to read:

Subd. 5. **Data access.** Forensic navigators must have access to all data collected, created, or maintained by a competency attainment program or an alternative program regarding a defendant in order for navigators to carry out their duties under this section. A competency attainment program or alternative program may request a copy of the court order appointing the forensic navigator before disclosing any private information about a defendant.

Sec. 34. Minnesota Statutes 2024, section 524.3-801, is amended to read:

524.3-801 NOTICE TO CREDITORS.

(a) Unless notice has already been given under this section, upon appointment of a general personal representative in informal proceedings or upon the filing of a petition for formal appointment of a general personal representative, notice thereof, in the form prescribed by court rule, shall be given under the direction of the court administrator by publication once a week for two successive weeks in a legal newspaper in the county wherein the proceedings are pending giving the name and address of the general personal representative and notifying creditors of the estate to present their claims within four months after the date of the court administrator's notice which is subsequently published or be forever barred, unless they are entitled to further service of notice under paragraph (b) or (c).

(b) The personal representative shall, within three months after the date of the first publication of the notice, serve a copy of the notice upon each then known and identified creditor in the manner provided in paragraph (c). If the decedent or a predeceased spouse of the decedent received assistance for which a claim could be filed under section 246.53, 256B.15, 256D.16, or 261.04, notice to the commissioner of human services or ~~Direct Care and Treatment executive board~~ the commissioner of direct care and treatment, as applicable, must be given under paragraph (d) instead of under this paragraph or paragraph (c). A creditor is "known" if: (i) the personal representative knows that the creditor has asserted a claim that arose during the decedent's life against either the decedent or the decedent's estate; (ii) the creditor has asserted a claim that arose during the decedent's life and the fact is clearly disclosed in accessible financial records known and available to the personal representative; or (iii) the claim of the creditor would be revealed by a reasonably diligent search for creditors of the decedent in accessible financial records known and available to the personal representative. Under this section, a creditor is "identified" if the personal representative's knowledge

of the name and address of the creditor will permit service of notice to be made under paragraph (c).

(c) Unless the claim has already been presented to the personal representative or paid, the personal representative shall serve a copy of the notice required by paragraph (b) upon each creditor of the decedent who is then known to the personal representative and identified either by delivery of a copy of the required notice to the creditor, or by mailing a copy of the notice to the creditor by certified, registered, or ordinary first class mail addressed to the creditor at the creditor's office or place of residence.

(d)(1) Effective for decedents dying on or after July 1, 1997, if the decedent or a predeceased spouse of the decedent received assistance for which a claim could be filed under section 246.53, 256B.15, 256D.16, or 261.04, the personal representative or the attorney for the personal representative shall serve the commissioner of human services or ~~executive board~~ the commissioner of direct care and treatment, as applicable, with notice in the manner prescribed in paragraph (c), or electronically in a manner prescribed by the applicable commissioner ~~or executive board~~, as soon as practicable after the appointment of the personal representative. The notice must state the decedent's full name, date of birth, and Social Security number and, to the extent then known after making a reasonably diligent inquiry, the full name, date of birth, and Social Security number for each of the decedent's predeceased spouses. The notice may also contain a statement that, after making a reasonably diligent inquiry, the personal representative has determined that the decedent did not have any predeceased spouses or that the personal representative has been unable to determine one or more of the previous items of information for a predeceased spouse of the decedent. A copy of the notice to creditors must be attached to and be a part of the notice to the applicable commissioner ~~or executive board~~.

(2) Notwithstanding a will or other instrument or law to the contrary, except as allowed in this paragraph, no property subject to administration by the estate may be distributed by the estate or the personal representative until 70 days after the date the notice is served on the commissioner of human services or ~~executive board~~ commissioner of direct care and treatment as provided in paragraph (c), unless the local agency consents as provided for in clause (6). This restriction on distribution does not apply to the personal representative's sale of real or personal property, but does apply to the net proceeds the estate receives from these sales. The personal representative, or any person with personal knowledge of the facts, may provide an affidavit containing the description of any real or personal property affected by this paragraph and stating facts showing compliance with this paragraph. If the affidavit describes real property, it may be filed or recorded in the office of the county recorder or registrar of titles for the county where the real property is located. This paragraph does not apply to proceedings under sections 524.3-1203 and 525.31, or when a duly authorized agent of a county is acting as the personal representative of the estate.

(3) At any time before an order or decree is entered under section 524.3-1001 or 524.3-1002, or a closing statement is filed under section 524.3-1003, the personal representative or the attorney for the personal representative may serve an amended notice on the commissioner of human services or ~~executive board~~ commissioner of direct care and treatment to add variations or other names of the decedent or a predeceased spouse named in the notice, the name of a predeceased spouse omitted from the notice, to add or correct the date of birth or Social Security number of a decedent or predeceased spouse named in the notice, or to correct any other deficiency in a prior notice. The amended notice must state the decedent's name, date of birth, and Social Security number, the case

name, case number, and district court in which the estate is pending, and the date the notice being amended was served on the applicable commissioner ~~or executive board~~. If the amendment adds the name of a predeceased spouse omitted from the notice, it must also state that spouse's full name, date of birth, and Social Security number. The amended notice must be served on the applicable commissioner ~~or executive board~~ in the same manner as the original notice. Upon service, the amended notice relates back to and is effective from the date the notice it amends was served, and the time for filing claims arising under section 246.53, 256B.15, 256D.16 or 261.04 is extended by 60 days from the date of service of the amended notice. Claims filed during the 60-day period are undischarged and unbarred claims, may be prosecuted by the entities entitled to file those claims in accordance with section 524.3-1004, and the limitations in section 524.3-1006 do not apply. The personal representative or any person with personal knowledge of the facts may provide and file or record an affidavit in the same manner as provided for in clause (1).

(4) Within one year after the date an order or decree is entered under section 524.3-1001 or 524.3-1002 or a closing statement is filed under section 524.3-1003, any person who has an interest in property that was subject to administration by the estate may serve an amended notice on the commissioner of human services or ~~executive board~~ commissioner of direct care and treatment to add variations or other names of the decedent or a predeceased spouse named in the notice, the name of a predeceased spouse omitted from the notice, to add or correct the date of birth or Social Security number of a decedent or predeceased spouse named in the notice, or to correct any other deficiency in a prior notice. The amended notice must be served on the applicable commissioner ~~or executive board~~ in the same manner as the original notice and must contain the information required for amendments under clause (3). If the amendment adds the name of a predeceased spouse omitted from the notice, it must also state that spouse's full name, date of birth, and Social Security number. Upon service, the amended notice relates back to and is effective from the date the notice it amends was served. If the amended notice adds the name of an omitted predeceased spouse or adds or corrects the Social Security number or date of birth of the decedent or a predeceased spouse already named in the notice, then, notwithstanding any other laws to the contrary, claims against the decedent's estate on account of those persons resulting from the amendment and arising under section 246.53, 256B.15, 256D.16, or 261.04 are undischarged and unbarred claims, may be prosecuted by the entities entitled to file those claims in accordance with section 524.3-1004, and the limitations in section 524.3-1006 do not apply. The person filing the amendment or any other person with personal knowledge of the facts may provide and file or record an affidavit describing affected real or personal property in the same manner as clause (1).

(5) After one year from the date an order or decree is entered under section 524.3-1001 or 524.3-1002, or a closing statement is filed under section 524.3-1003, no error, omission, or defect of any kind in the notice to the commissioner of human services or ~~executive board~~ commissioner of direct care and treatment required under this paragraph or in the process of service of the notice on the applicable commissioner ~~or executive board~~, or the failure to serve the applicable commissioner ~~or executive board~~ with notice as required by this paragraph, makes any distribution of property by a personal representative void or voidable. The distributee's title to the distributed property shall be free of any claims based upon a failure to comply with this paragraph.

(6) The local agency may consent to a personal representative's request to distribute property subject to administration by the estate to distributees during the 70-day period after service of notice on the applicable commissioner ~~or executive board~~. The local agency may grant or deny the request in whole or in part and may attach conditions to its consent as it deems appropriate. When the local

agency consents to a distribution, it shall give the estate a written certificate evidencing its consent to the early distribution of assets at no cost. The certificate must include the name, case number, and district court in which the estate is pending, the name of the local agency, describe the specific real or personal property to which the consent applies, state that the local agency consents to the distribution of the specific property described in the consent during the 70-day period following service of the notice on the applicable commissioner ~~or executive board~~, state that the consent is unconditional or list all of the terms and conditions of the consent, be dated, and may include other contents as may be appropriate. The certificate must be signed by the director of the local agency or the director's designees and is effective as of the date it is dated unless it provides otherwise. The signature of the director or the director's designee does not require any acknowledgment. The certificate shall be prima facie evidence of the facts it states, may be attached to or combined with a deed or any other instrument of conveyance and, when so attached or combined, shall constitute a single instrument. If the certificate describes real property, it shall be accepted for recording or filing by the county recorder or registrar of titles in the county in which the property is located. If the certificate describes real property and is not attached to or combined with a deed or other instrument of conveyance, it shall be accepted for recording or filing by the county recorder or registrar of titles in the county in which the property is located. The certificate constitutes a waiver of the 70-day period provided for in clause (2) with respect to the property it describes and is prima facie evidence of service of notice on the applicable commissioner ~~or executive board~~. The certificate is not a waiver or relinquishment of any claims arising under section 246.53, 256B.15, 256D.16, or 261.04, and does not otherwise constitute a waiver of any of the personal representative's duties under this paragraph. Distributees who receive property pursuant to a consent to an early distribution shall remain liable to creditors of the estate as provided for by law.

(7) All affidavits provided for under this paragraph:

(i) shall be provided by persons who have personal knowledge of the facts stated in the affidavit;

(ii) may be filed or recorded in the office of the county recorder or registrar of titles in the county in which the real property they describe is located for the purpose of establishing compliance with the requirements of this paragraph; and

(iii) are prima facie evidence of the facts stated in the affidavit.

(8) This paragraph applies to the estates of decedents dying on or after July 1, 1997. Clause (5) also applies with respect to all notices served on the commissioner of human services before July 1, 1997, under Laws 1996, chapter 451, article 2, section 55. All notices served on the commissioner of human services before July 1, 1997, pursuant to Laws 1996, chapter 451, article 2, section 55, shall be deemed to be legally sufficient for the purposes for which they were intended, notwithstanding any errors, omissions or other defects.

(c) If the commissioner finds that the applicant or a home care provider has not corrected violations by the date specified in the correction order or conditional license resulting from a survey or complaint investigation, the commissioner shall provide a notice of noncompliance with a correction order by email to the applicant's or provider's last known email address. The noncompliance notice must list the violations not corrected.

(d) For every violation identified by the commissioner, the commissioner shall issue an immediate fine pursuant to paragraph (a), clause (6). The license holder must still correct the violation in the time specified. The issuance of an immediate fine can occur in addition to any enforcement mechanism authorized under section 144A.475. The immediate fine may be appealed as allowed under this subdivision.

(e) The license holder must pay the fines assessed on or before the payment date specified. If the license holder fails to fully comply with the order, the commissioner may issue a second fine or suspend the license until the license holder complies by paying the fine. A timely appeal shall stay payment of the fine until the commissioner issues a final order.

(f) A license holder shall promptly notify the commissioner in writing when a violation specified in the order is corrected. If upon reinspection the commissioner determines that a violation has not been corrected as indicated by the order, the commissioner may issue a second fine. The commissioner shall notify the license holder by mail to the last known address in the licensing record that a second fine has been assessed. The license holder may appeal the second fine as provided under this subdivision.

(g) A home care provider that has been assessed a fine under this subdivision has a right to a reconsideration or a hearing under this section and chapter 14.

(h) When a fine has been assessed, the license holder may not avoid payment by closing, selling, or otherwise transferring the licensed program to a third party. In such an event, the license holder shall be liable for payment of the fine.

(i) In addition to any fine imposed under this section, the commissioner may assess a penalty amount based on costs related to an investigation that results in a final order assessing a fine or other enforcement action authorized by this chapter.

(j) Fines collected under paragraph (a), clauses (1) to (4), shall be deposited in a dedicated special revenue account. On an annual basis, the balance in the special revenue account shall be appropriated to the commissioner to implement the recommendations of the advisory council established in section 144A.4799. The commissioner must publish on the department's website an annual report on the fines assessed and collected, and how the appropriated money was allocated.

~~(k) Fines collected under paragraph (a), clause (5), shall be deposited in a dedicated special revenue account and appropriated to the commissioner to provide compensation according to~~

~~subdivision 14 to clients subject to maltreatment. A client may choose to receive compensation from this fund, not to exceed $5,000 for each substantiated finding of maltreatment, or take civil action. This paragraph expires July 31, 2021.~~

Sec. 4. Minnesota Statutes 2024, section 144G.52, subdivision 1, is amended to read:

Subdivision 1. **Definition.** For purposes of sections 144G.52 to 144G.55, "termination" means:

(1) a facility-initiated termination of ~~housing provided to the resident under the contract~~ an assisted living contract; or

(2) a facility-initiated termination ~~or nonrenewal~~ of all assisted living services the resident receives from the facility under the assisted living contract.

Sec. 5. Minnesota Statutes 2024, section 144G.52, subdivision 2, is amended to read:

Subd. 2. **Prerequisite to termination of a contract.** (a) Before issuing a notice of termination of an assisted living contract, a facility must schedule and participate in a meeting with the resident and the resident's legal representative and designated representative. The purposes of the meeting are to:

(1) explain in detail the reasons for the proposed termination; and

(2) identify and offer reasonable accommodations or modifications, interventions, or alternatives to avoid the termination or enable the resident to remain in the facility, including but not limited to securing services from another provider of the resident's choosing that may allow the resident to avoid the termination. A facility is not required to offer accommodations, modifications, interventions, or alternatives that fundamentally alter the nature of the operation of the facility.

(b) For a termination pursuant to subdivision 3 or 4, the meeting must be scheduled to take place at least seven days before a notice of termination is issued. The facility must make reasonable efforts to ensure that the resident, legal representative, and designated representative are able to attend the meeting.

(c) For a termination pursuant to subdivision 5, the meeting must be scheduled to take place at least 24 hours before a notice of termination is issued. The facility must make reasonable efforts to ensure that the resident, legal representative, and designated representative are able to attend the meeting. Notice of the meeting must be provided at least 24 hours prior to the meeting.

(d) The facility must notify the resident that the resident may invite family members, relevant health professionals, a representative of the Office of Ombudsman for Long-Term Care, a representative of the Office of Ombudsman for Mental Health and Developmental Disabilities, or other persons of the resident's choosing to participate in the meeting. For residents who receive home and community-based waiver services under chapter 256S and section 256B.49, the facility must notify the resident's case manager of the meeting.

~~(d)~~ (e) In the event of an emergency relocation under subdivision 9, where the facility intends to issue a notice of termination and an in-person meeting is impractical or impossible, the facility must use telephone, video, or other electronic means to conduct and participate in the meeting required under this subdivision and rules within Minnesota Rules, chapter 4659.

Sec. 6. Minnesota Statutes 2024, section 144G.52, subdivision 3, is amended to read:

Subd. 3. **Termination for nonpayment.** (a) A facility may initiate a termination of ~~housing~~ an assisted living contract because of nonpayment of rent or a termination of services because of nonpayment for services. Upon issuance of a notice of termination for nonpayment, the facility must inform the resident that public benefits may be available and must provide contact information for the Senior LinkAge Line under section 256.975, subdivision 7, or the Disability Hub under section 256.01, subdivision 24.

(b) An interruption to a resident's public benefits that lasts for no more than 60 days does not constitute nonpayment.

Sec. 7. Minnesota Statutes 2024, section 144G.52, subdivision 5, is amended to read:

Subd. 5. **Expedited termination.** ~~(a)~~ A facility may initiate an expedited termination of ~~housing or services~~ an assisted living contract, including both the housing and assisted living services provided thereunder, or of assisted living services if:

(1) the resident has engaged in conduct that substantially interferes with the rights, health, or safety of other residents;

(2) the resident has engaged in conduct that substantially and intentionally interferes with the safety or physical health of facility staff; ~~or~~

(3) the resident has committed an act listed in section 504B.171 that substantially interferes with the rights, health, or safety of other residents~~.~~;

~~(2)~~ (4) the resident's assessed needs exceed the scope of services agreed upon in the assisted living contract and are not included in the services the facility disclosed in the uniform checklist; or

~~(3)~~ (5) extraordinary circumstances exist, causing the facility to be unable to provide the resident with the services disclosed in the uniform checklist that are necessary to meet the resident's needs.

Sec. 8. Minnesota Statutes 2024, section 144G.52, subdivision 7, is amended to read:

Subd. 7. **Notice of contract termination required.** (a) A facility terminating a contract must issue a written notice of termination according to this section. The facility must also send a copy of the termination notice to the Office of Ombudsman for Long-Term Care and, for residents who receive home and community-based waiver services under chapter 256S and section 256B.49, to the resident's case manager, as soon as practicable after providing notice to the resident. A facility may terminate an assisted living contract only as permitted under subdivisions 3, 4, and 5.

(b) A facility terminating a contract under subdivision 3 or 4 must provide a written termination notice at least 30 days before the effective date of the termination to the resident, legal representative, and designated representative.

(c) A facility terminating a contract under subdivision 5 must provide a written termination notice at least ~~15~~ seven days before the effective date of the termination to the resident, legal representative, and designated representative.

(d) If a resident moves out of a facility or cancels services received from the facility, nothing in this section prohibits a facility from enforcing against the resident any notice periods with which the resident must comply under the assisted living contract.

Sec. 9. Minnesota Statutes 2024, section 144G.52, subdivision 8, is amended to read:

Subd. 8. **Content of notice of termination.** (a) The notice required under subdivision 7 must contain, at a minimum:

(1) the effective date of the termination of the assisted living contract;

(2) a detailed explanation of the basis for the termination, including the clinical or other supporting rationale;

(3) a detailed explanation of the conditions under which a new or amended contract may be executed;

(4) a statement that the resident has the right to appeal the termination by requesting a hearing, and information concerning the time frame within which the request must be submitted and the contact information for the agency to which the request must be submitted;

(5) a statement that the facility must participate in a coordinated move to another provider or caregiver, as required under section 144G.55;

(6) the name and contact information of the person employed by the facility with whom the resident may discuss the notice of termination;

(7) information on how to contact the Office of Ombudsman for Long-Term Care and the Office of Ombudsman for Mental Health and Developmental Disabilities to request an advocate to assist regarding the termination;

(8) information on how to contact the Senior LinkAge Line under section 256.975, subdivision 7, or the Disability Hub under section 256.01, subdivision 24, and an explanation that the Senior LinkAge Line and the Disability Hub may provide information about other available housing or service options; and

(9) if the termination is only for services, a statement that the resident may remain in the facility and may secure any necessary services from another provider of the resident's choosing.

(b) When a facility used good faith efforts to substantially comply with the content or timing requirements of this subdivision or corresponding rules, and the noncompliance did not prejudice the resident, a failure to comply does not invalidate the termination process and is not permissible grounds for appeal of a termination under section 144G.54, subdivision 2.

Sec. 10. Minnesota Statutes 2024, section 144G.52, subdivision 9, is amended to read:

Subd. 9. **Emergency relocation.** (a) A facility may remove a resident from the facility in an emergency if necessary due to a resident's urgent medical needs or an imminent risk the resident poses to the health or safety of another facility resident or facility staff member. An emergency relocation is not a termination. An emergency relocation does not occur when a resident or the resident's representative requests or consents to be transported to the emergency room or hospital regardless of whether the facility initiates communications regarding the need to relocate the resident.

(b) In the event of an emergency relocation, the facility must provide a written notice that contains, at a minimum:

(1) the reason for the relocation;

(2) the name and contact information for the location to which the resident has been relocated and any new service provider;

(3) contact information for the Office of Ombudsman for Long-Term Care and the Office of Ombudsman for Mental Health and Developmental Disabilities;

(4) if known and applicable, the approximate date or range of dates within which the resident is expected to return to the facility, or a statement that a return date is not currently known; and

(5) a statement that, if the facility refuses to provide housing or services after a relocation, the resident has the right to appeal under section 144G.54. The facility must provide contact information for the agency to which the resident may submit an appeal.

(c) The notice required under paragraph (b) must be delivered as soon as practicable to:

(1) the resident, legal representative, and designated representative;

(2) for residents who receive home and community-based waiver services under chapter 256S and section 256B.49, the resident's case manager; and

(3) the Office of Ombudsman for Long-Term Care if the resident has been relocated and has not returned to the facility within four days.

(d) Following an emergency relocation, a facility's refusal to provide housing or services constitutes a termination and triggers the termination process in this section.

(e) In the event of an emergency relocation during which a resident is removed by law enforcement, ambulance personnel, or other first responders, the notice required under paragraph (b) may be provided retroactively but in no event no more than 72 hours after the emergency relocation.

Sec. 11. Minnesota Statutes 2024, section 144G.52, subdivision 10, is amended to read:

Subd. 10. **Right to return.** (a) If a resident is absent from a facility for any reason, including an emergency relocation, the facility shall not refuse to allow a resident to return if a termination of ~~housing~~ the assisted living contract has not been effectuated.

(b) Notwithstanding paragraph (a), a facility may refuse to allow a resident to return if:

(1) another resident or employee of the facility has obtained a harassment restraining order, order for protection, or similar court order seeking to protect them from the resident; or

(2) the resident has been charged with a crime where the alleged victim is another resident or employee of the facility.

Sec. 12. Minnesota Statutes 2024, section 144G.53, is amended to read:

144G.53 ~~NONRENEWAL OF HOUSING~~ ASSISTED LIVING CONTRACT NONRENEWAL.

(a) If a facility decides to not renew a resident's ~~housing under a contract~~ assisted living contract, including both the housing and assisted living services provided thereunder, the facility must either (1) provide the resident with 60 calendar days' notice of the nonrenewal and assistance with relocation planning, or (2) follow the termination procedure under section 144G.52. A facility may not decline to renew only the assisted living services provided to a resident under the resident's assisted living contract.

(b) The notice must include the reason for the nonrenewal and contact information of the Office of Ombudsman for Long-Term Care and the Office of Ombudsman for Mental Health and Developmental Disabilities.

(c) A facility must:

(1) provide notice of the nonrenewal to the Office of Ombudsman for Long-Term Care;

(2) for residents who receive home and community-based waiver services under chapter 256S and section 256B.49, provide notice to the resident's case manager;

(3) ensure a coordinated move to a safe location, as defined in section 144G.55, subdivision 2, that is appropriate for the resident;

(4) ensure a coordinated move to an appropriate service provider identified by the facility, if services are still needed and desired by the resident;

(5) consult and cooperate with the resident, legal representative, designated representative, case manager for a resident who receives home and community-based waiver services under chapter 256S and section 256B.49, relevant health professionals, and any other persons of the resident's choosing to make arrangements to move the resident, including consideration of the resident's goals; and

(6) prepare a written plan to prepare for the move.

(d) A resident may decline to move to the location the facility identifies or to accept services from a service provider the facility identifies, and may instead choose to move to a location of the resident's choosing or receive services from a service provider of the resident's choosing within the timeline prescribed in the nonrenewal notice.

Sec. 13. Minnesota Statutes 2024, section 144G.54, subdivision 2, is amended to read:

Subd. 2. **Permissible grounds to appeal termination.** (a) A resident may appeal a termination initiated under section 144G.52, subdivision 3, 4, or 5, on the ground that:

(1) there is a factual dispute as to whether the facility had a permissible basis to initiate the termination;

(2) the termination would result in great harm or the potential for great harm to the resident as determined by the totality of the circumstances, except in circumstances where there is a greater risk of harm to other residents or staff at the facility;

(3) the resident has cured or demonstrated the ability to cure the reasons for the termination, or has identified a reasonable accommodation or modification, intervention, or alternative to the termination; or

(4) the facility has terminated the contract in violation of state or federal law.

(b) When submitting an appeal, a resident must specify which permissible grounds under paragraph (a) are grounds for the appeal.

(c) The resident or resident's representative must provide the facility a copy of all appeals within three calendar days of filing them.

Sec. 14. Minnesota Statutes 2024, section 144G.54, subdivision 3, is amended to read:

Subd. 3. **Appeals process.** (a) The Office of Administrative Hearings must conduct an expedited hearing as soon as practicable under this section, but in no event later than 14 calendar days after the office receives the request, unless the parties agree otherwise or the chief administrative law judge deems the timing to be unreasonable, given the complexity of the issues presented. For terminations initiated pursuant to section 144G.52, subdivision 5, the Office of Administrative Hearings must conduct an expedited hearing as soon as practicable but in no event later than seven calendar days after the office receives the request.

(b) The hearing must be held at the facility where the resident lives, unless holding the hearing at that location is impractical, the parties agree to hold the hearing at a different location, or the chief administrative law judge grants a party's request to appear at another location or by telephone or interactive video.

(c) The hearing is not a formal contested case proceeding, except when determined necessary by the chief administrative law judge.

(d) Parties may but are not required to be represented by counsel. The appearance of a party without counsel does not constitute the unauthorized practice of law.

(e) Parties may provide the administrative law judge relevant evidence in the form of in-person or sworn written testimony, including that of other residents of the facility, representatives of other residents of the facility, facility staff, or individuals representing the interests of other residents of the facility.

(f) The hearing shall be limited to the amount of time necessary for the participants to expeditiously present the facts about the proposed termination. The administrative law judge shall issue a recommendation to the commissioner as soon as practicable, but in no event later than ten business days after the hearing related to a termination issued under section 144G.52, subdivision 3 or 4, or five business days for a hearing related to a termination issued under section 144G.52, subdivision 5.

Sec. 15. Minnesota Statutes 2024, section 144G.54, subdivision 7, is amended to read:

Subd. 7. **Application of chapter 504B to appeals of terminations.** A resident may not bring an action under chapter 504B to challenge a termination that has occurred and ~~been upheld under this section~~ for which an appeal under this section was not requested or for which an appeal under this section was requested, but the termination was upheld in accordance with this section. If a facility prevails in a challenged termination under this section, the facility is entitled to a writ of recovery and order to vacate pursuant to section 504B.361.

Sec. 16. Minnesota Statutes 2024, section 144G.55, subdivision 1, is amended to read:

Subdivision 1. **Duties of facility.** (a) If a facility terminates an assisted living contract, reduces services to the extent that a resident needs to move or obtain a new service provider or the facility has its license restricted under section 144G.20, or the facility conducts a planned closure under section 144G.57, the facility:

(1) must ensure, subject to paragraph (c), a coordinated move to a safe location that is appropriate for the resident and that is identified by the facility prior to any hearing under section 144G.54;

(2) must ensure a coordinated move of the resident to an appropriate service provider identified by the facility prior to any hearing under section 144G.54, provided services are still needed and desired by the resident; and

(3) must consult and cooperate with the resident, legal representative, designated representative, case manager for a resident who receives home and community-based waiver services under chapter 256S and section 256B.49, relevant health professionals, and any other persons of the resident's choosing to make arrangements to move the resident, including consideration of the resident's goals.

(b) A facility may satisfy the requirements of paragraph (a), clauses (1) and (2), by moving the resident to a different location within the same facility, if appropriate for the resident.

(c) A resident may decline to move to the location the facility identifies or to accept services from a service provider the facility identifies, and may choose instead to move to a location of the resident's choosing or receive services from a service provider of the resident's choosing within the timeline prescribed in the termination notice.

(d) A facility has met its obligations under this section, following a termination completed in accordance with section 144G.52 if:

(1) for residents receiving services under the home and community-based waiver services for the elderly under chapter 256S, waivered services under community access for disability inclusion waiver under section 256B.49, or the brain injury waivered services under section 256B.49, the resident or the resident's designated representative reject two or more options presented by the lead agency or the resident's waiver case manager; or

(2) for all other residents, the resident or the resident's designated representative reject two or more other facilities that are able to meet the individual's service needs, have an immediate opening, and are located within a reasonable geographic proximity. The absence of nearby facilities able to meet the individual's service needs and with immediate openings may increase what may be considered a reasonable geographic proximity.

(e) Sixty days before the facility plans to reduce or eliminate one or more services for a particular resident, the facility must provide written notice of the reduction that includes:

(1) a detailed explanation of the reasons for the reduction and the date of the reduction;

(2) the contact information for the Office of Ombudsman for Long-Term Care, the Office of Ombudsman for Mental Health and Developmental Disabilities, and the name and contact information of the person employed by the facility with whom the resident may discuss the reduction of services;

(3) a statement that if the services being reduced are still needed by the resident, the resident may remain in the facility and seek services from another provider; and

(4) a statement that if the reduction makes the resident need to move, the facility must participate in a coordinated move of the resident to another provider or caregiver, as required under this section.

~~(e)~~ (f) In the event of an unanticipated reduction in services caused by extraordinary circumstances, the facility must provide the notice required under paragraph ~~(d)~~ (e) as soon as possible.

~~(f)~~ (g) If the facility, a resident, a legal representative, or a designated representative determines that a reduction in services will make a resident need to move to a new location, the facility must ensure a coordinated move in accordance with this section, and must provide notice to the Office of Ombudsman for Long-Term Care.

~~(g)~~ (h) Nothing in this section affects a resident's right to remain in the facility and seek services from another provider.

Sec. 17. Minnesota Statutes 2024, section 144G.55, subdivision 2, is amended to read:

Subd. 2. **Safe location.** A safe location is not a private home where the occupant is unwilling or unable to care for the resident, a homeless shelter, a hotel, or a motel. A facility may not terminate a resident's housing or services if the resident will, as the result of the termination, become homeless, as that term is defined in section 116L.361, subdivision 5, or if an adequate and safe discharge location or adequate and needed service provider has not been identified, unless the resident declines to move to the identified safe location or needed service provider or chooses to become homeless. This subdivision does not preclude a resident from declining to move to the location the facility identifies.

Sec. 18. **DIRECTION TO COMMISSIONER; PROVISIONAL OR TRANSITIONAL LICENSURE.**

(a) The commissioner of human services and the commissioner of health must convene a group of interested parties to examine the relationship between the costs incurred to comply with the licensing requirements under Minnesota Statutes, chapter 144G, and reimbursement rates for providing customized living services under Minnesota Statutes, chapter 256S, and section 256B.4914, subdivision 6d. The commissioners must include among the interested parties the Long-Term Care Imperative, the Residential Providers Association of Minnesota, the Minnesota Association of County Social Service Administrators, and people with disabilities currently receiving customized living services under the federally approved brain injury, community access for disability inclusion, and elderly waiver plans.

(b) The commissioners of human services and health must develop draft legislative language to better align the licensing requirements and reimbursement framework so that the costs incurred to comply with licensing requirements and fees are adequately reimbursed through the rates paid for providing customized living services.

(c) The commissioners must submit the draft legislation to the chairs and ranking minority members of the legislative committees with jurisdiction over health and human services policy and finance by January 1, 2026.

Sec. 19. **DIRECTION TO THE COMMISSIONER OF HEALTH; COMMUNITY CARE HUB GRANT.**

"ARTICLE 1

GENERAL EDUCATION

Section 1. Minnesota Statutes 2024, section 123A.485, subdivision 2, is amended to read:

Subd. 2. **Aid.** (a) Consolidation transition aid is equal to ~~$200~~ $424 times the number of resident pupil units in the newly created district in the year of consolidation and ~~$100~~ $212 times the number of resident pupil units in the first year following the year of consolidation. The number of pupil units used to calculate aid in either year shall not exceed ~~1,000 for districts consolidating July 1, 1994, and~~ 1,500 ~~for districts consolidating July 1, 1995, and thereafter~~.

(b) If the total appropriation for consolidation transition aid for any fiscal year, plus any amount transferred under section 127A.41, subdivision 8, is insufficient to pay all districts the full amount of aid earned, the department must first pay the districts in the first year following the year of

consolidation the full amount of aid earned and distribute any remaining funds to the newly created districts in the first year of consolidation.

Sec. 2. Minnesota Statutes 2024, section 123A.73, subdivision 4, is amended to read:

Subd. 4. **Consolidation; maximum authorized referendum revenues.** (a) As of the effective date of a consolidation pursuant to section 123A.48, if the plan for consolidation so provides, or if the plan for consolidation makes no provision concerning referendum revenues, the authorization for all referendum revenues previously approved by the voters of all affected districts for those districts pursuant to section 126C.17, subdivision 9, or its predecessor provision shall be recalculated as provided in this subdivision. The referendum revenue authorization for the newly created district shall be the revenue per adjusted pupil unit that would raise an amount equal to the combined dollar amount of the referendum revenues authorized by each of the component districts for the year preceding the consolidation, unless the referendum revenue authorization of the newly created district is subsequently modified pursuant to section 126C.17, subdivision 9.

(b) The referendum allowance for a consolidated district in the years following consolidation equals the average of the consolidating districts' existing authorities for those years, weighted by the districts' adjusted pupil units in the year preceding consolidation. For purposes of this calculation, the referendum authorities used for individual districts shall not decrease from year to year until such time as all existing authorities for all the consolidating districts have fully expired, but shall increase if they were originally approved with consumer price index-based or other annual increases.

(c) The referendum revenue authorization for the newly created district shall continue for a period of time equal to the longest period authorized for any component district. The referendum revenue authorization for the newly created district may be renewed by the school board of the newly created district pursuant to section 126C.17, subdivision 9b, for a term not to exceed the longest period authorized for any component district.

EFFECTIVE DATE. This section is effective retroactively from June 16, 2024, and applies to school board resolutions adopted on or after that date.

Sec. 3. Minnesota Statutes 2024, section 123A.73, subdivision 5, is amended to read:

Subd. 5. **Alternative method.** (a) As of the effective date of a consolidation pursuant to section 123A.48, if the plan for consolidation so provides, the authorization for all referendum revenues previously approved by the voters of all affected districts for those districts pursuant to section 126C.17, subdivision 9, or its predecessor provision shall be combined as provided in this subdivision. The referendum revenue authorization for the newly created district may be any allowance per adjusted pupil unit provided in the plan for consolidation, but may not exceed the allowance per adjusted pupil unit that would raise an amount equal to the combined dollar amount of the referendum revenues authorized by each of the component districts for the year preceding the consolidation.

(b) The referendum allowance for a consolidated district in the years following consolidation equals the average of the consolidating districts' existing authorities for those years, weighted by the districts' adjusted pupil units in the year preceding consolidation. For purposes of this calculation, the referendum authorities used for individual districts shall not decrease from year to year until such time as all existing authorities for all the consolidating districts have fully expired, but shall increase if they were originally approved with consumer price index-based or other annual increases.

(c) The referendum revenue authorization for the newly created district shall continue for a period of time equal to the longest period authorized for any component district. The referendum revenue authorization for the newly created district may be modified pursuant to section 126C.17, subdivision 9. The referendum revenue authorization for the newly created district may be renewed by the school board of the newly created district pursuant to section 126C.17, subdivision 9b, for a term not to exceed the longest period authorized for any component district.

EFFECTIVE DATE. This section is effective retroactively from June 16, 2024, and applies to school board resolutions adopted on or after that date.

Sec. 4. Minnesota Statutes 2024, section 123B.84, is amended to read:

Subd. 4. **Reporting.** The ~~Professional Educator Licensing and Standards Board~~ Department of Education must collaborate with the ~~Department of Education~~ Professional Educator Licensing and Standards Board and the Office of Higher Education to publish a summary report of each of the programs they administer and any other programs receiving state appropriations that have or include an explicit purpose of increasing the racial and ethnic diversity of the state's teacher workforce to more closely reflect the diversity of students. The report must include programs under sections 122A.59, 122A.63, 122A.635, 122A.70, 122A.73, 124D.09, 124D.861, 136A.1274, 136A.1276, and 136A.1791, along with any other programs or initiatives that receive state appropriations to address the shortage of teachers of color and American Indian teachers. The ~~board~~ commissioner must, in coordination with the Professional Educator Licensing and Standards Board and the Office of Higher Education ~~and Department of Education~~, provide policy and funding recommendations related to state-funded programs to increase the recruitment, preparation, licensing, hiring, and retention of racially and ethnically diverse teachers and the state's progress toward meeting or exceeding the goals of this section. The report must include recommendations for state policy and funding needed to achieve the goals of this section, plans for sharing the report and activities of grant recipients, and opportunities among grant recipients of various programs to share effective

practices with each other. The initial report must also include a recommendation of whether a state advisory council should be established to address the shortage of racially and ethnically diverse teachers and what the composition and charge of such an advisory council would be if established. The ~~board~~ commissioner must consult with the Indian Affairs Council and other ethnic councils along with other community partners, including students of color and American Indian students, in developing the report. The ~~board~~ commissioner must submit the report to the chairs and ranking minority members of the legislative committees with jurisdiction over education and higher education policy and finance by November 3, 2025, for the initial report, and by November 3 each even-numbered year thereafter. Subd. 6. **Expiration.** This section expires June 30, 2029, and any balance remaining in the account is canceled to the general fund.

Sec. 3. Minnesota Statutes 2024, section 122A.635, is amended to read:

122A.635 COLLABORATIVE URBAN AND GREATER MINNESOTA EDUCATORS OF COLOR GRANT PROGRAM.

Subdivision 1. **Establishment.** The ~~Professional Educator Licensing and Standards Board~~ Department of Education must award competitive grants to increase the number of teacher candidates who are of color or who are American Indian, complete teacher preparation programs, and meet the requirements for a Tier 3 license under section 122A.183. Eligibility for a grant under this section is limited to public or private higher education institutions that offer a teacher preparation program approved by the Professional Educator Licensing and Standards Board.

Subd. 2. **Competitive grants.** (a) The ~~Professional Educator Licensing and Standards Board~~ commissioner must award competitive grants to a variety of higher education institution types under this section. The ~~board~~ commissioner must require an applicant institution to submit a plan describing how it would use grant funds to increase the number of teachers who are of color or who are American Indian~~, and must award grants based on the following criteria, listed in descending order of priority~~. To the extent practicable, the commissioner must award grants based on the following criteria:

(1) program outcomes, including graduation or program completion rates and licensure recommendation rates for candidates who are of color or who are American Indian compared to all candidates enrolled in a teacher preparation program at the institution and, for each outcome measure, the number of teacher candidates who are of color or who are American Indian;

(2) the extent to which an institution's plan is clear in describing how the institution would use grant funds for implementing explicit research-based practices to provide programmatic support to teacher candidates who are of color or who are American Indian. Plans for grant funds may include:

(i) recruiting more racially and ethnically diverse candidates for admission to teacher preparation programs;

(ii) providing differentiated advising, mentoring, or other supportive community-building activities in addition to what the institution provides to all candidates enrolled in the institution;

(iii) providing academic tutoring or support to help teacher candidates pass required assessments; and

(iv) providing for program staffing expenses;

(3) an institution's plan to provide direct financial assistance as scholarships or stipends ~~within the allowable dollar range determined by the board under subdivision 3, paragraph (b),~~ to teacher candidates who are of color or who are American Indian, not to exceed $5,000 per academic year for each candidate. The purpose of direct financial assistance is to provide cost of attendance financial assistance to candidates matriculating through the licensure program if they demonstrate financial need;

(4) whether the institution has previously received a competitive grant under this section and has demonstrated positive outcomes from the use of grant funds for efforts helping teacher candidates who are of color or who are American Indian to enroll in and successfully complete teacher preparation programs and be recommended for licensure;

(5) geographic diversity among the applicant institutions. ~~In order to expand the number of grant recipients throughout the state, whenever there is at least a 20 percent increase in the base appropriation for this grant program, the board must prioritize awarding grants to institutions outside of the Twin Cities metropolitan area. If the board awards a grant based on the criteria in paragraph (a) to a program that has not previously received funding, the board must thereafter give priority to the program equivalent to other programs that have received grants and demonstrated positive outcomes~~ To the extent there are sufficient applications, and to the extent practicable, the commissioner must award an equal number of grants between applicants in greater Minnesota and those in the seven-county metropolitan area; and

(6) the percentage of racially and ethnically diverse teacher candidates enrolled in the ~~institution~~ teacher preparation program compared to~~:~~ the aggregate percentage of students of color and American Indian students enrolled in the institution, regardless of major.

~~(i) the aggregate percentage of students of color and American Indian students enrolled in the institution, regardless of major; and~~

~~(ii) the percentage of underrepresented racially and ethnically diverse teachers in the economic development region of the state where the institution is located and where a shortage of diverse teachers exists, as reported under section 122A.091, subdivision 5.~~

(b) The ~~board~~ commissioner must not penalize an applicant institution in the grant review process for using grant funds only to provide direct financial support to teacher candidates if that is the institution's priority and the institution uses other resources to provide programmatic support to candidates.

(c) The ~~board~~ commissioner must determine award amounts for development, maintenance, or expansion of programs based only on the degree to which applicants meet the criteria in this subdivision, the number of candidates who are of color or who are American Indian supported by an applicant program, and funds available.

(d) ~~The board must determine grant awards in part by multiplying the number of teacher candidates to be provided direct financial assistance by the average amount the institution proposes per candidate that is within the allowable dollar range. After assessing an institution's adherence to grant criteria and funds available, the board may grant an institution a lower average amount per candidate and the institution may decide to award less per candidate or provide financial assistance to fewer candidates within the allowable range. Additionally, an institution may use up to 25 percent of the awarded grant funds to provide programmatic support as described in paragraph (a), clause (3). If the board does not award an applicant institution's full request, the board must allow the institution to modify how it uses grant funds to maximize program outcomes consistent with the requirements of this section.~~ The commissioner must allow an institution to use up to 25 percent of the awarded grant funds to provide programmatic support for the teacher candidates receiving financial support.

Subd. 3. **Grant program administration.** (a) ~~The Professional Educator Licensing and Standards Board may enter into an interagency agreement with the Office of Higher Education. The agreement may include a transfer of funds to the Office of Higher Education to help establish and administer the competitive grant process. The board must award grants to institutions located in various economic development regions throughout the state, but~~ The department must not predetermine the number of institutions to be awarded grants under this section or set a limit for the amount that any one institution may receive as part of the competitive grant application process.

~~(b) The board must establish a standard allowable dollar range for the amount of direct financial assistance an applicant institution may provide to each candidate. To determine the range, the board may collect de-identified data from institutions that received a grant during the previous grant period and calculate the average scholarship amount awarded to all candidates across all institutions using the most recent fiscal year data available. The calculation may be used to determine a scholarship range that is no more than 25 percent of this amount and no less than half the average of this amount. The purpose of direct financial assistance is to assist candidates matriculating through completing licensure programs if they demonstrate financial need after considering other grants and scholarships provided.~~

~~(c)~~ (b) All grants must be awarded by August 15 of the fiscal year in which the grants are to be used. The deadline must be extended if changes to the grant program or appropriation impact the timeline for grant awards. An institution that receives a grant under this section may use the grant funds ~~over a two-~~ up to a four-year period to sustain support for teacher candidates at any stage from recruitment and program admission to graduation and licensure application. For grantees who receive multiple awards that overlap in the same academic years, the maximum combined total of direct financial assistance that an institution may provide to the same teacher candidate in the same academic year is $10,000.

Subd. 4. **Report.** (a) By August 15 of each year, an institution awarded a grant under this section must prepare for the ~~board~~ commissioner a detailed report regarding the expenditure of grant funds, including the amounts used to recruit, retain, and support teacher candidates of color or American Indian teacher candidates to complete programs and be recommended for licensure. (3) a brief narrative describing the successes and challenges of efforts proposed in the grant application to support candidates with grant funds, and lessons learned for future efforts.

(b) By November 1 of each year, the ~~board~~ commissioner must post a report on its website summarizing the activities and outcomes of grant recipients and results that promote sharing of effective practices and lessons learned among grant recipients.

Subd. 5. **Positions transferred.** All classified and unclassified positions associated with the administration of grant programs being transferred to the Department of Education under this section are transferred with their incumbents in accordance with section 15.039, subdivision 7, except as otherwise provided in section 122A.07.

Subdivision 1. **Cardiac emergency response plan.** (a) For the purposes of this section, a "cardiac emergency response plan" means a written document that establishes specific steps to reduce death from cardiac arrest in a specific setting.

(b) Beginning in the 2026-2027 school year, a school district or charter school must develop a cardiac emergency response plan established by the American Heart Association or other cardiovascular care organization or the model plan developed by the commissioner under section 121A.035, subdivision 1, for cardiac emergencies that occur on school property. At a minimum, the plan must:

(1) establish a school cardiac emergency response team and plan of activation during the event of sudden cardiac arrest;

(2) provide for placement of automated external defibrillators (AEDs) on school grounds following American Heart Association or other nationally recognized cardiovascular care organization guidelines;

(3) provide for routine maintenance of AEDs;

(4) provide for distribution of the plan on school grounds and in coordination with local emergency medical services providers;

(5) provide for annual cardiac emergency response plan drills for school staff and students; and

(4) require AEDs to be tested and maintained according to the manufacturer's operational guidelines; and

(5) require appropriate first aid, ambulance, rescue squad, or other appropriate emergency medical services providers notice of the AED, the type of AED, and its location.

Sec. 2. Minnesota Statutes 2024, section 123B.595, subdivision 1, is amended to read:

Subdivision 1. **Long-term facilities maintenance revenue.** (a) Long-term facilities maintenance revenue equals the greater of (1) the sum of (i) $380 times the district's adjusted pupil units times the lesser of one or the ratio of the district's average building age to 35 years, plus (ii) the cost approved by the commissioner for indoor air quality, fire alarm and suppression, and asbestos abatement projects under section 123B.57, subdivision 6, and roof repair and replacement with an

estimated cost of $100,000 or more per site, plus (iii) for a school district with an approved voluntary prekindergarten program under section 142D.08, the cost approved by the commissioner for remodeling existing instructional space to accommodate prekindergarten instruction, or (2) the sum of (i) the amount the district would have qualified for under Minnesota Statutes 2014, section 123B.57, Minnesota Statutes 2014, section 123B.59, and Minnesota Statutes 2014, section 123B.591, and (ii) for a school district with an approved voluntary prekindergarten program under section 142D.08, the cost approved by the commissioner for remodeling existing instructional space to accommodate prekindergarten instruction.

(b) Notwithstanding paragraph (a), a school district that qualified for eligibility under Minnesota Statutes 2014, section 123B.59, subdivision 1, paragraph (a), for fiscal year 2010 remains eligible for funding under this section as a district that would have qualified for eligibility under Minnesota Statutes 2014, section 123B.59, subdivision 1, paragraph (a), for fiscal year 2017 and later.

The plan must include provisions for implementing a health and safety program that complies with health, safety, and environmental regulations and best practices, including indoor air quality management and remediation of lead hazards. For fiscal year 2027 and later, the plan must address the maintenance and repair schedule for each school's roof for which funding is requested. For planning purposes, the plan must also address provisions for providing a gender-neutral single-user restroom at each school site.

(b) The district must annually update the plan, submit the plan to the commissioner for approval by July 31, and indicate whether the district will issue bonds to finance the plan or levy for the costs.

(c) For school districts issuing bonds to finance the plan, the plan must include a debt service schedule demonstrating that the debt service revenue required to pay the principal and interest on the bonds each year will not exceed the projected long-term facilities revenue for that year.

Sec. 4. Minnesota Statutes 2024, section 123B.595, subdivision 8, is amended to read:

Subd. 8. **Long-term facilities maintenance equalized levy.** (a) A district's long-term facilities maintenance equalized levy equals the district's long-term facilities maintenance equalization revenue minus the greater of:

(2) the district's long-term facilities maintenance equalization revenue times the greater of (i) zero, or (ii) one minus the ratio of its adjusted net tax capacity per adjusted pupil unit in the year preceding the year the levy is certified to ~~123 percent of~~ the product of the equalizing factor times the state average adjusted net tax capacity per adjusted pupil unit for all school districts in the year

preceding the year the levy is certified. The equalizing factor equals 123 percent for fiscal year 2026, 125.5 percent for fiscal year 2027, and 127 percent for fiscal year 2028 and later.

(b) For purposes of this subdivision, "adjusted net tax capacity" means the value described in section 126C.01, subdivision 2, paragraph (b).

(b) A charter school may use revenue under this section for any purpose related to the school.

Sec. 6. Minnesota Statutes 2024, section 123B.63, subdivision 3, is amended to read:

Subd. 3. **Capital project levy referendum.** (a) A district may levy the local tax rate approved by a majority of the electors voting on the question to provide funds for an approved project. The election must take place no more than five years before the estimated date of commencement of the project. The referendum must be held on a date authorized by section 205A.05, subdivision 1a. A district must meet the requirements of section 123B.71 for projects funded under this section. If a review and comment is required under section 123B.71, subdivision 8, a referendum for a project not receiving a positive review and comment by the commissioner must be approved by at least 60 percent of the voters at the election.

(b) The referendum may be called by the school board and may be held:

(1) separately, before an election for the issuance of obligations for the project under chapter 475; or

(2) in conjunction with an election for the issuance of obligations for the project under chapter 475; or

(3) notwithstanding section 475.59, as a conjunctive question authorizing both the capital project levy and the issuance of obligations for the project under chapter 475. Any obligations authorized for a project may be issued within five years of the date of the election.

(c) The ballot must provide a general description of the proposed project, state the estimated total cost of the project, state whether the project has received a positive or negative review and comment from the commissioner, state the maximum amount of the capital project levy as a percentage of net tax capacity, state the amount that will be raised by that local tax rate in the first year it is to be levied, ~~and~~ state the maximum number of years that the levy authorization will apply, and state that the levy authorization approved by the voters may be renewed once by the school board after holding a meeting and allowing public testimony on the proposed renewal.

The ballot must contain a textual portion with the information required in this section and a question stating substantially the following:

"Shall the capital project levy proposed by the board of ..... School District No. ..... be approved?"

If approved, the amount provided by the approved local tax rate applied to the net tax capacity for the year preceding the year the levy is certified may be certified for the number of years, not to exceed ten, approved.

(d) If the district proposes a new capital project to begin at the time the existing capital project expires and at the same maximum tax rate, the general description on the ballot may state that the capital project levy is being renewed and that the tax rate is not being increased from the previous year's rate. An election to renew authority under this paragraph may be called at any time that is otherwise authorized by this subdivision. The ballot notice required under section 275.60 may be modified to read:

"BY VOTING YES ON THIS BALLOT QUESTION, YOU ARE VOTING TO RENEW AN EXISTING CAPITAL PROJECTS REFERENDUM THAT IS SCHEDULED TO EXPIRE."

(e) In the event a conjunctive question proposes to authorize both the capital project levy and the issuance of obligations for the project, appropriate language authorizing the issuance of obligations must also be included in the question.

(f) Notwithstanding the election requirements of this subdivision, a school board may renew an expiring capital projects referendum by board action if:

(1) the annual amount of the referendum is the same as the amount expiring;

(2) the term of the renewed capital projects referendum is no longer than the initial term approved by the voters;

(3) the ballot for the election in which the expiring capital projects referendum was approved by the voters stated that the levy authorization approved by the voters may be renewed once by the school board, consistent with the requirements of paragraph (c), except that the requirement under this clause does not apply to an expiring capital projects referendum that was approved by the voters in an election occurring before November 4, 2025;

(4) the school board, having taken a recorded vote, has adopted a written resolution authorizing the renewal after holding a meeting and allowing public testimony on the proposed renewal; and

(5) the expiring capital projects referendum has not been previously renewed by board action.

(g) A resolution authorized in paragraph (f) must be adopted by the school board no later than June 15 of the year the renewed capital levy is first certified, and becomes effective 60 days after its adoption. A referendum expires in the last fiscal year in which the referendum generates revenue for the school district. A school board may renew an expiring capital projects referendum under this subdivision not more than two fiscal years before the referendum expires. A district renewing an expiring capital projects referendum under this subdivision must submit a copy of the adopted resolution to the commissioner and to the county auditor no later than August 15 of the fiscal year in which the referendum expires.

~~(f)~~ (h) The district must notify the commissioner of the results of the referendum.

EFFECTIVE DATE. This section is effective the day following final enactment and applies to elections occurring on or after November 4, 2025.

Sec. 7. Minnesota Statutes 2024, section 123B.71, subdivision 8, is amended to read:

Subd. 8. **Review and comment.** A school district, a special education cooperative, or a cooperative unit of government, as defined in section 123A.24, subdivision 2, must not enter into an installment contract for purchase or a lease agreement, hold a referendum for bonds, nor solicit bids for new construction, expansion, or remodeling of an educational facility that requires an expenditure in excess of $500,000 per school site if it has a capital loan outstanding, or $2,000,000 per school site if it does not have a capital loan outstanding, prior to review and comment by the commissioner. New construction, expansion, or remodeling of an educational facility funded only with general education revenue, ~~lease levy proceeds from an additional capital expenditure levy under section 126C.40, subdivision 1,~~ capital facilities bond proceeds, or long-term facilities maintenance revenue is exempt from this provision. A capital project under section 123B.63 addressing only technology is exempt from this provision if the district submits a school board resolution stating that funds approved by the voters will be used only as authorized in section 126C.10, subdivision 14. A school board shall not separate portions of a single project into components to avoid the requirements of this subdivision.

EFFECTIVE DATE. This section is effective for taxes payable in 2026 and later.

Sec. 8. Minnesota Statutes 2024, section 126C.40, subdivision 1, is amended to read:

Subdivision 1. **To lease building or land.** (a) When an independent or a special school district or a group of independent or special school districts finds it economically advantageous to rent or lease a building or land for any instructional purposes or for school storage or furniture repair, ~~and it determines that the operating capital revenue authorized under section 126C.10, subdivision 13, is insufficient for this purpose,~~ it may apply to the commissioner for permission to make an additional capital expenditure levy for this purpose. An application for permission to levy under this subdivision must contain ~~financial justification for the proposed levy,~~ the terms and conditions of the proposed lease, and a description of the space to be leased and its proposed use. Projects funded under this subdivision that require an expenditure in excess of $500,000 per school site if the school district has a capital loan outstanding, or $2,000,000 per school site if the school district does not have a capital loan outstanding, are subject to review and comment under section 123B.71, subdivision 8, in the form and manner prescribed by the commissioner.

(b) The criteria for approval of applications to levy under this subdivision must be annually prescribed by the commissioner, and must include but are not limited to: the reasonableness of the price, the appropriateness of the space to the proposed activity, the feasibility of transporting pupils to the leased building or land, conformity of the lease to the laws and rules of the state of Minnesota, ~~and~~ the appropriateness of the proposed lease to the space needs ~~and~~ of the district, the financial condition of the district, and a review of the statutory operating debt percentage applicable to the district. The commissioner must not authorize a levy under this subdivision in an amount greater than the cost to the district of renting or leasing a building or land for approved purposes. The proceeds of this levy must not be used for ~~custodial or other maintenance services~~ operating costs. A district may not levy under this subdivision for the purpose of leasing or renting a district-owned building or site to itself.

(c) For agreements finalized after July 1, 1997, a district may not levy under this subdivision for the purpose of leasing: (1) a newly constructed building used primarily for regular kindergarten, elementary, or secondary instruction; or (2) a newly constructed building addition or additions used primarily for regular kindergarten, elementary, or secondary instruction that contains more than 20 percent of the square footage of the previously existing building.

(d) Notwithstanding paragraph (b), a district may levy under this subdivision for the purpose of leasing or renting a district-owned building or site to itself only if the amount is needed by the district to make payments required by a lease purchase agreement, installment purchase agreement, or other deferred payments agreement authorized by law, and the levy meets the requirements of paragraph (c). A levy authorized for a district by the commissioner under this paragraph may be in the amount needed by the district to make payments required by a lease purchase agreement, installment purchase agreement, or other deferred payments agreement authorized by law, provided that any agreement include a provision giving the school districts the right to terminate the agreement annually without penalty.

(e) The total levy under this subdivision for a district for any year must not exceed $212 times the adjusted pupil units for the fiscal year to which the levy is attributable.

(f) For agreements for which a review and comment under section 123B.71, subdivision 8, have been submitted to the Department of Education after April 1, 1998, the term "instructional purpose" as used in this subdivision excludes expenditures on stadiums.

(g) The commissioner of education may authorize a school district to exceed the limit in paragraph (e) if the school district petitions the commissioner for approval. The commissioner shall grant approval to a school district to exceed the limit in paragraph (e) for not more than five years if the district meets the following criteria:

(1) the school district has been experiencing pupil enrollment growth in the preceding five years;

(2) the purpose of the increased levy is in the long-term public interest;

(3) the purpose of the increased levy promotes colocation of government services; and

(h) A school district that is a member of an intermediate school district or other cooperative unit under section 123A.24, subdivision 2, or a joint powers district under section 471.59 may include in its authority under this section the costs associated with leases of administrative and classroom space for programs of the intermediate school district or other cooperative unit under section 123A.24, subdivision 2, or joint powers district under section 471.59. This authority must not exceed $65 times the adjusted pupil units of the member districts. This authority is in addition to any other authority authorized under this section. The intermediate school district, other cooperative unit, or joint powers district may specify which member districts will levy for lease costs under this paragraph.

(i) Notwithstanding paragraph (a), a district may levy under this subdivision for the purpose of leasing administrative space if the district can demonstrate to the satisfaction of the commissioner that the lease cost for the administrative space is no greater than the lease cost for instructional space that the district would otherwise lease. The commissioner must deny this levy authority unless the district passes a resolution stating its intent to lease instructional space under this section if the commissioner does not grant authority under this paragraph. The resolution must also certify that the lease cost for administrative space under this paragraph is no greater than the lease cost for the district's proposed instructional lease.

(j) Notwithstanding paragraph (a), a district may levy under this subdivision for the district's proportionate share of deferred maintenance expenditures for a district-owned building or site leased to a cooperative unit under section 123A.24, subdivision 2, or a joint powers district under section 471.59 for any instructional purposes or for school storage.

EFFECTIVE DATE. This section is effective for taxes payable in 2026 and later.

(e) The commissioner must post annually on the department's website the approved salary range for the positions of executive director, financial director, monitoring staff, administrative staff, and officer-level positions for multisite sponsoring organizations under the federal child and adult care food program and federal summer food service program. Sec. 2. Minnesota Statutes 2024, section 124D.111, subdivision 3, is amended to read:

Subd. 3. **School food service fund.** (a) The expenses described in this subdivision must be recorded as provided in this subdivision.

(b) In each district, the expenses for a school food service program for pupils must be attributed to a school food service fund. Under a food service program, the school food service may prepare or serve milk, meals, or snacks in connection with school or community service activities.

(c) Revenues and expenditures for food service activities must be recorded in the food service fund. The costs of processing applications, accounting for meals, preparing and serving food, providing kitchen custodial services, waste management, and other expenses involving the preparing of meals or the kitchen ~~section~~ or serving area sections of the lunchroom may be charged to the food service fund or to the general fund of the district. For the purposes of this paragraph, the costs of serving food include the costs of technology and systems related to serving line automation and meal tracking. The costs of ~~lunchroom supervision,~~ lunchroom custodial services, lunchroom utilities, lunchroom furniture, and other administrative costs of the food service program must be charged to the general fund. Staff whose primary responsibility is financial or program management of food service operations may charge time spent managing the program to the food service fund.

~~That portion of superintendent and fiscal manager costs that can be documented as attributable to the food service program may be charged to the food service fund provided that the school district does not employ or contract with a food service director or other individual who manages the food service program, or food service management company. If the cost of the superintendent or fiscal manager is charged to the food service fund, the charge must be at a wage rate not to exceed the statewide average for food service directors as determined by the department.~~

(d) Capital expenditures for the purchase of food service equipment must be made from the general fund and not the food service fund, unless the restricted balance in the food service fund at the end of the last fiscal year is greater than the cost of the equipment to be purchased.

(e) If the condition set out in paragraph (d) applies, the equipment may be purchased from the food service fund.

(f) If a deficit in the food service fund exists at the end of a fiscal year, and the deficit is not eliminated by revenues from food service operations in the next fiscal year, then the deficit must be eliminated by a permanent fund transfer from the general fund at the end of that second fiscal year. ~~However, if a district contracts with a food service management company during the period in which the deficit has accrued, the deficit must be eliminated by a payment from the food service management company.~~

(g) Notwithstanding paragraph (f), a district may incur a deficit in the food service fund for up to three years without making the permanent transfer if the district submits to the commissioner by January 1 of the second fiscal year a plan for eliminating that deficit at the end of the third fiscal year.

(h) If a surplus in the food service fund exists at the end of a fiscal year for three successive years, a district may recode for ~~that fiscal year~~ the documented costs of ~~lunchroom supervision,~~ lunchroom custodial services, lunchroom utilities, lunchroom furniture, and other administrative costs of the food service program charged to the general fund according to paragraph (c), or costs under paragraph (j), and charge those costs to the food service fund identified by the commissioner in a total amount not to exceed the amount of surplus ~~in the food service fund~~.

(i) For purposes of this subdivision, "lunchroom furniture" means tables and chairs regularly used by pupils in a lunchroom from which they may consume milk, meals, or snacks in connection with school or community service activities.

(j) The costs of kitchen, serving area, lunchroom, and food storage remodeling or reconfiguration, including facility expansion, may not be charged to the food service fund, except as provided under paragraph (h). The costs of plumbing, electrical, air handling, ventilation, or other building utility work necessary to operate equipment essential for food service activities or to remediate food service-related health and safety hazards may not be charged to the food service fund, except as provided under paragraph (h).

In making the determination that there are more than sufficient funds, the office shall balance the need for sufficient resources to meet the projected demand for grants with the goal of fully allocating the appropriation for state grants. An increase in the living and miscellaneous expense allowance or a modified assessment of assigned family responsibility under this subdivision does not carry forward into a subsequent biennium.

The secretary of state must deposit payments received from parties for amounts billed under this paragraph in the general fund.

Sec. 4. Minnesota Statutes 2024, section 201.061, subdivision 1, is amended to read:

Subdivision 1. **Prior to election day.** (a) At any time except during the 20 days immediately preceding any regularly scheduled election, an eligible voter or any individual who will be an eligible voter at the time of the next election may register or update a registration to vote in the precinct in which the voter maintains residence by completing a voter registration application as described in section 201.071, subdivision 1. A completed application may be submitted:

(1) in person or by mail to the county auditor of that county or to the Secretary of State's Office; or

A state or local agency or an individual that accepts completed voter registration applications from a voter must submit the completed applications to the secretary of state or the appropriate county auditor within ten calendar days after the applications are dated by the voter.

(c) An application submitted electronically under paragraph (a), clause (2), may only be transmitted to the county auditor for processing if the secretary of state has verified the application information matches the information in a government database associated with the applicant's driver's license number, state identification card number, or Social Security number. The secretary of state must review all unverifiable voter registration applications submitted electronically for evidence of suspicious activity and must forward any such application to an appropriate law enforcement agency for investigation.

(d) An individual may not electronically submit a voter registration application on behalf of any other individual, except that the secretary of state may provide features on the secure website established under paragraph (a), clause (2), that allow third parties to connect application programming interfaces that facilitate an individual's submission of voter registration information while interacting with the third party.

(e) For purposes of this section, mail registration is defined as a voter registration application delivered to the secretary of state, county auditor, or municipal clerk by the United States Postal Service or a commercial carrier.

If the ~~person's~~ individual's name appears on the list, the election judge must not allow the individual to register, to update the individual's registration, or to vote in the polling place. The election judge who registers an individual or updates an individual's registration at the polling place on election day ~~shall~~ must not handle that voter's ballots at any time prior to the opening of the ballot box after the voting ends. Voter registration applications completed before election day must be entered into the statewide registration system within ten days after they have been submitted to the county auditor. Voter registration applications completed on election day must be entered into the statewide registration system within 42 days after the election, unless the county auditor notifies the secretary of state before the deadline has expired that the deadline will not be met. Upon receipt of a notification under this paragraph, the secretary of state must extend the deadline for that county auditor by an additional 28 days. The secretary of state may waive a county's obligations under this paragraph if, on good cause shown, the county demonstrates its permanent inability to comply.

The secretary of state must post data on each county's compliance with this paragraph on the secretary of state's website including, as applicable, the date each county fully complied or the deadline by which a county's compliance must be complete.

(b) Upon receiving a completed voter registration application, the secretary of state may electronically transmit the information on the application to the appropriate county auditor as soon as possible for review by the county auditor before final entry ~~into~~ or update in the statewide registration system. (c) Within ten days after the county auditor has entered or updated information from a voter registration application ~~into~~ in the statewide registration system, the secretary of state ~~shall~~ must compare the voter's name, date of birth, and driver's license number, state identification number, or the last four digits of the Social Security number with the same information contained in the Department of Public Safety database.

(d) The secretary of state ~~shall~~ must provide a report to the county auditor on a weekly basis that includes a list of voters whose name, date of birth, or identification number have been compared with the same information in the Department of Public Safety database and cannot be verified as provided in this subdivision. The report must list separately those voters who have submitted a voter registration application by mail and have not voted in a federal election in this state.

(e) The county auditor ~~shall~~ must compile a list of voters for whom the county auditor and the secretary of state are unable to conclude that information on the voter registration application and the corresponding information in the Department of Public Safety database relate to the same person.

(f) The county auditor ~~shall~~ must send a notice of incomplete registration to any voter whose name appears on the list and change the voter's status to "challenged." A voter who receives a notice of incomplete registration from the county auditor may either provide the information required to clear the challenge at least 21 days before the next election or at the polling place on election day.

Sec. 15. Minnesota Statutes 2024, section 201.121, subdivision 3, is amended to read:

Subd. 3. **Postelection sampling.** (a) Within ten days after an election, the county auditor ~~shall~~ must send the notice required by subdivision 2 to a random sampling of the individuals who registered or updated voter registration information on election day. The random sampling ~~shall~~ must be determined in accordance with the rules of the secretary of state. As soon as practicable after the election, the county auditor ~~shall~~ must mail the notice required by subdivision 2 to all other individuals who registered or updated voter registration information on election day. If a notice is returned as

not deliverable, the county auditor ~~shall~~ must attempt to determine the reason for the return. A county auditor who does not receive or obtain satisfactory proof of an individual's eligibility to vote ~~shall~~ must immediately notify the county attorney of all of the relevant information. By February 15 of each year, the county auditor must notify the secretary of state of the following information for each election held in the previous year by each precinct:

The secretary of state may also periodically obtain a list of individuals with driver's licenses or state identification cards to identify those who are registered to vote who have applied to the Department of Public Safety for a replacement driver's license or state identification card with a different address, and a list of individuals for whom the Department of Public Safety received notification of a driver's license or state identification card cancellation due to a change of residency out of state. However, the secretary of state ~~shall~~ must not load data derived from these lists into the statewide voter registration system within the 47 days before the state primary or 47 days before a November general election.

(b) If the address is changed to another address in this state, the secretary of state ~~shall~~ must locate the precinct in which the voter maintains residence, if possible. If the secretary of state is able to locate the precinct in which the voter maintains residence, the secretary must transmit the information about the changed address by electronic means to the county auditor of the county in which the new address is located. For addresses for which the secretary of state is unable to determine the precinct, the secretary may forward information to the appropriate county auditors for individual review. If the voter has not voted or submitted a voter registration application since the address change, upon receipt of the information, the county auditor ~~shall~~ must update the voter's address in the statewide voter registration system. The county auditor ~~shall~~ must mail to the voter a notice stating the voter's name, address, precinct, and polling place, unless the voter's record is challenged

due to a felony conviction, noncitizenship, name change, incompetence, or a court's revocation of voting rights of individuals under guardianship, in which case the auditor must not mail the notice. The notice must advise the voter that the voter's voting address has been ~~changed~~ updated and that the voter must notify the county auditor within 21 days if the new address is not the voter's address of residence. The notice must state that it must be returned if it is not deliverable to the voter at the named address.

(c) If the change of permanent address is to an address outside this state, the secretary of state ~~shall~~ must notify by electronic means the auditor of the county where the voter formerly maintained residence that the voter has moved to another state. If the voter has not voted or submitted a voter registration application since the address change, the county auditor ~~shall~~ must promptly mail to the voter at the voter's new address a notice advising the voter that the voter's status in the statewide voter registration system will be changed to "inactive" unless the voter notifies the county auditor within 21 days that the voter is retaining the former address as the voter's address of residence, except that if the voter's record is challenged due to a felony conviction, noncitizenship, name change, incompetence, or a court's revocation of voting rights of individuals under guardianship, the auditor must not mail the notice. If the notice is not received by the deadline, the county auditor ~~shall~~ must change the voter's status to "inactive" in the statewide voter registration system.

(d) If, in order to maintain voter registration records, the secretary of state enters an agreement to share information or data with an organization governed exclusively by a group of states, the secretary must first determine that the data security protocols are sufficient to safeguard the information or data shared. If required by such an agreement, the secretary of state may share the following data from the statewide voter registration system and data released to the secretary of state under section 171.12, subdivision 7a:

(1) name;

(2) date of birth;

(3) address;

(4) driver's license or state identification card number;

(5) the last four digits of an individual's Social Security number; and

(6) the date that an individual's record was last updated.

If the secretary of state enters into such an agreement, the secretary and county auditors must process ~~changes~~ updates to voter records based upon that data in accordance with this section. Except as otherwise provided in this subdivision, when data is shared with the secretary of state by another state, the secretary of state must maintain the same data classification that the data had while it was in the possession of the state providing the data.

Sec. 17. Minnesota Statutes 2024, section 201.14, is amended to read:

Upon receipt of the list, the county auditor ~~shall make the change in~~ must update the voter's record with this information and mail to the voter the notice of registration required by section 201.121, subdivision 2. A notice must not be mailed if the voter's record is challenged due to a felony conviction, lack of United States citizenship, legal incompetence, or court-ordered revocation of voting rights of persons under guardianship.

Sec. 18. Minnesota Statutes 2024, section 201.161, subdivision 4, is amended to read:

Subd. 4. **Department of Human Services.** (a) If permitted by the federal government, the commissioner of human services, in consultation with the secretary of state, must ensure the applications described in subdivision 1, paragraph (a), clause (2), also serve as voter registration applications for applicants 18 years of age or older whose United States citizenship has been verified as part of the application. The commissioner must transmit information required to register to vote, as prescribed by the secretary of state, daily by electronic means to the secretary of state for an individual whose United States citizenship has been verified. The commissioner must submit data to the secretary of state identifying the total number of individuals who completed qualifying transactions under this section and the total number of individuals whose records were ultimately transferred for registration or updates to registrations. At a minimum, the commissioner must submit the data to the secretary of state on the same day each month.

(b) No applicant may be registered to vote or have a registration updated under this subdivision until (1) the commissioner of human services has certified that the department's systems have been tested and can accurately provide the required data and accurately exclude from transmission data on individuals who have not provided documentary evidence of United States citizenship, and (2) the secretary of state has certified that the system for automatic registration of those applicants has been tested and is capable of properly determining whether an applicant is eligible to vote. The department's systems must be tested and accurately provide the necessary data no later than September 30 of the year following the year in which federal approval or permission is given, contingent on appropriations being available for this purpose.

Sec. 19. Minnesota Statutes 2024, section 201.161, subdivision 5, is amended to read:

Subd. 5. **Other agencies and units of government.** (a) The commissioner of management and budget must, in consultation with the secretary of state, identify any other state agency that is eligible to implement automatic voter registration. The commissioner must consider a state agency eligible if the agency collects, processes, or stores the following information as part of providing assistance or services: name, residential address, date of birth, and citizenship verification. An eligible agency must submit a report to the governor and secretary of state no later than December 1, 2024, describing steps needed to implement automatic voter registration, barriers to implementation and ways to mitigate them, and applicable federal and state privacy protections for the data under consideration. By June 1, 2025, the governor, at the governor's sole discretion, must make final decisions, as to which agencies will implement automatic voter registration by December 31, 2025, and which agencies could implement automatic voter registration if provided with additional resources or if

the legislature changed the law to allow data to be used for automatic voter registration. The governor must notify the commissioner of management and budget of the governor's decisions related to automatic voter registration. By October 1, 2025, the commissioner of management and budget must report to the chairs and ranking minority members of the legislative committees with jurisdiction over election policy and finance. The report must include:

(b) An agency may not begin verifying citizenship as part of an agency transaction for the sole purpose of providing automatic voter registration. Once an agency has implemented automatic voter registration, it must continue to provide automatic voter registration unless otherwise expressly required by law. For each individual whose United States citizenship has been verified, the commissioner or agency head must transmit information required to register to vote, as prescribed by the secretary of state, to the secretary of state by electronic means. The governor must determine the frequency of the transmissions for each agency.

(c) No applicant may be registered to vote or have a registration updated under this subdivision until (1) the agency's commissioner or agency head has certified that the necessary systems have been tested and can accurately provide the required data and accurately exclude from transmission data on individuals whose United States citizenship has not been verified, and (2) the secretary of state has certified that the system for automatic registration of those applicants has been tested and is capable of properly determining whether an applicant is eligible to vote.

Sec. 20. Minnesota Statutes 2024, section 201.161, subdivision 8, is amended to read:

Subd. 8. **Effective date of registration.** Unless the applicant declines registration, the effective date for the voter registration or update to a voter registration is the date that the county auditor processes the application. This subdivision does not limit the ability of a person to register to vote or update their registration on election day as provided in section 201.061, subdivision 3. Any person who submits a qualifying application under subdivision 1 that is dated during the 20 days before an election must be provided, at the time of application, with a notice advising the applicant of the procedures to register to vote or update a voter registration on election day.

The county auditor must notify the secretary of state of any municipal clerk who will be administering the provisions of this section and the duties that the clerk will administer.

Sec. 28. Minnesota Statutes 2024, section 203B.06, subdivision 4, is amended to read:

Subd. 4. **Registration check.** Upon receipt of an application for ballots, the county auditor, municipal clerk, or election judge acting pursuant to section 203B.11, who receives the application ~~shall~~ must determine whether the applicant is a registered voter. The ~~return~~ signature envelope containing marked ballots may be mailed as provided in the directions for casting the absentee ballots, may be left with the county auditor or municipal clerk who transmitted the absentee ballots to the voter, or may be left in a drop box as provided in section 203B.082. If delivered in person, the ~~return~~ signature envelope must be submitted to the county auditor or municipal clerk by 8:00 p.m. on election day.

Subd. 3. **Procedures on receipt of ballots.** When absentee ballots are returned to a county auditor or municipal clerk, that official shall stamp or initial and date the ~~return~~ signature envelope and place it in a locked ballot container or other secured and locked space with other ~~return~~ signature envelopes received by that office. Sec. 33. Minnesota Statutes 2024, section 203B.081, subdivision 4, is amended to read:

Subd. 4. **Temporary locations.** (a) A county auditor or municipal clerk authorized under section 203B.05 to administer voting before election day may designate additional polling places with days and hours that differ from those required by section 203B.085. A designation authorized by this subdivision must be made at least 47 days before the election. As soon as practicable and no later than five business days after designating an additional polling place under this subdivision, the county auditor or municipal clerk must post on the county's or municipality's website the address of the polling place and the dates and times the polling place will be available for voting. The county auditor or municipal clerk must provide notice to the secretary of state at the time that the designations are made. (c) At the request of a postsecondary institution or the student government organization of a postsecondary institution in the county or municipality, the county auditor or a municipal clerk authorized to administer absentee voting under section 203B.05 must establish an additional temporary polling place for the state general election or the odd-year city general election for at least one day at a location agreed upon by the institution and the county auditor or municipal clerk that:

(1) is accessible to the public;

(2) satisfies the requirements of state and federal law; and

(3) is on the institution's campus or is within one-half mile of the institution's campus and is reasonably accessible to the institution's students.

A request must be made no later than May 31 before an election and the request is valid only for that election. This paragraph only applies to a postsecondary institution that provides on-campus

student housing to 100 or more students. Nothing in this paragraph prevents the county auditor or municipal clerk from engaging in a dialogue with the entity that made the request regarding potential alternative locations for a temporary polling place that does not meet the requirements of clause (3). An entity that made a request for a temporary polling place may withdraw its request by notifying the county auditor or municipal clerk.

EFFECTIVE DATE. This section is effective September 1, 2025.

Sec. 34. Minnesota Statutes 2024, section 203B.11, subdivision 1, is amended to read:

Subdivision 1. **Generally.** (a) Each full-time municipal clerk or school district clerk who has authority under section 203B.05 to administer absentee voting laws must designate election judges to deliver absentee ballots in accordance with this section. The county auditor must also designate election judges to perform the duties in this section. A ballot may be delivered only to an eligible voter who is a temporary or permanent resident or patient in one of the following facilities located in the municipality in which the voter maintains residence: a health care facility, hospital, or veterans home operated by the board of directors of the Minnesota veterans homes under chapter 198. The ballots must be delivered by two election judges, each of whom is affiliated with a different major political party. When the election judges deliver or return ballots as provided in this section, they must travel together in the same vehicle. Both election judges must be present when an applicant completes the certificate of eligibility and marks the absentee ballots, and may assist an applicant as provided in section 204C.15. The election judges must deposit the return envelopes containing the marked absentee ballots in a sealed container and return them to the clerk on the same day that they are delivered and marked.

(b) If a health care professional at the facility or hospital determines it is necessary to ensure the health and safety of election judges, the voter, or others at the facility or hospital, two employees of the facility or hospital may receive a ballot from the election judges and deliver the ballot to an individual voter in place of election judges, notwithstanding other requirements of this section. The employees must not in any manner request, persuade, induce, or attempt to persuade or induce the voter to vote for any particular political party or candidate. Both employees must be present when an applicant completes the certificate of eligibility and marks the absentee ballots, and may assist an applicant as provided in section 204C.15. The employees must return the ballot to the election judges immediately after the voter has finished voting.

~~(b)~~ (c) At the discretion of a full-time municipal clerk, school district clerk, or county auditor, absentee ballots may be delivered in the same manner as prescribed in paragraph (a) to a shelter for battered women as defined in section 611A.37, subdivision 4, or to an assisted living facility licensed under chapter 144G.

EFFECTIVE DATE. This section is effective September 1, 2025.

Sec. 35. Minnesota Statutes 2024, section 203B.121, subdivision 2, is amended to read:

Subd. 2. **Duties of ballot board; absentee ballots.** (a) The members of the ballot board shall take possession of all signature envelopes delivered to them in accordance with section 203B.08. Upon receipt from the county auditor, municipal clerk, or school district clerk, two or more members of the ballot board shall examine each signature envelope and shall mark it accepted or rejected in the manner provided in this subdivision. Election judges performing the duties in this section must

be of different major political parties, unless they are exempt from that requirement under section 204B.21, subdivision 2a; section 205.07, subdivision 4; section 205.075, subdivision 4~~,~~; or section 205A.10, subdivision 2.

(b) The members of the ballot board shall mark the signature envelope "Accepted" and initial or sign the signature envelope below the word "Accepted" if a majority of the members of the ballot board examining the envelope are satisfied that:

(1) the voter's name and address on the signature envelope are the same as the information provided on the absentee ballot application or voter record;

(2) the voter signed the certification on the envelope;

(3) the voter's Minnesota driver's license, state identification number, or the last four digits of the voter's Social Security number are the same as a number on the voter's absentee ballot application or voter record. If the number does not match, the election judges must compare the signature provided by the applicant to determine whether the ballots were returned by the same person to whom they were transmitted;

(4) the voter is registered and eligible to vote in the precinct or has included a properly completed voter registration application in the signature envelope;

(5) the certificate has been completed as prescribed in the directions for casting an absentee ballot; and

(6) the voter has not already voted at that election, either in person or, if it is after the close of business on the 19th day before the election, as provided by section 203B.081.

The signature envelope from accepted ballots must be preserved and returned to the county auditor.

(c)(1) If a majority of the members of the ballot board examining a signature envelope find that an absentee voter has failed to meet one of the requirements provided in paragraph (b), they shall mark the signature envelope "Rejected," initial or sign it below the word "Rejected," list the reason for the rejection on the envelope, and return it to the county auditor. There is no other reason for rejecting an absentee ballot beyond those permitted by this section. Failure to place the ballot within the ballot envelope before placing it in the outer white envelope is not a reason to reject an absentee ballot.

(2) If an envelope has been rejected at least five days before the election, the envelope must remain sealed and the official in charge of the ballot board shall provide the voter with a replacement absentee ballot and signature envelope in place of the rejected ballot.

(3) If an envelope is rejected within five days of the election, the envelope must remain sealed and the official in charge of the ballot board must attempt to contact the voter to notify the voter that the voter's ballot has been rejected by the method or methods of communication provided by the voter on the voter's application for an absentee ballot or voter registration. The official must document the attempts made to contact the voter.

(d) The official in charge of the absentee ballot board must mail the voter a written notice of absentee ballot rejection between six and ten weeks following the election. If the official determines that the voter has otherwise cast a ballot in the election, no notice is required. If an absentee ballot arrives after the deadline for submission provided by this chapter, the notice must be provided between six to ten weeks after receipt of the ballot. A notice of absentee ballot rejection must contain the following information:

(1) the date on which the absentee ballot was rejected or, if the ballot was received after the required deadline for submission, the date on which the ballot was received;

(2) the reason for rejection; and

(3) the name of the appropriate election official to whom the voter may direct further questions, along with appropriate contact information.

(e) An absentee ballot signature envelope marked "Rejected" may not be opened or subject to further review except in an election contest filed pursuant to chapter 209.

Sec. 36. Minnesota Statutes 2024, section 203B.121, subdivision 4, is amended to read:

Subd. 4. **Opening of envelopes.** (a) After the close of business on the 19th day before the election, the ballots from ~~secrecy~~ ballot envelopes within the signature envelopes marked "Accepted" may be opened, duplicated as needed in the manner provided in section 206.86, subdivision 5, initialed by the members of the ballot board, and deposited in the appropriate ballot box. If more than one voted ballot is enclosed in the ballot envelope, the ballots must be returned in the manner provided by section 204C.25 for return of spoiled ballots, and may not be counted.

(b) Accepted signature envelopes must be segregated by precinct and processed in accordance with this subdivision on a precinct-by-precinct basis. Precincts within a combined polling place established in section 205A.11, subdivision 2, may be processed together. At each step, members of the ballot board must notify the official responsible for the ballot board if there is a discrepancy in any count required by paragraphs (c) to (e) and note it in the ballot board incident log.

(c) Before opening accepted signature envelopes, two members of the ballot board must count and record the number of envelopes and ensure that the count matches either the number of accepted signature envelopes provided by the official responsible for the ballot board or the number of signature envelopes accepted by the ballot board that day.

(d) Two members of the ballot board must remove the ballots from the ballot envelopes. The governing body responsible for the ballot board must retain all ballot envelopes through the contest period of that election.

(e) After ballots have been removed from the ballot envelopes, two members of the ballot board must count and record the number of ballots to ensure the count matches the number of accepted signature envelopes, accounting for any empty envelopes or spoiled ballots, which must be noted on the ballot board incident log.

Sec. 37. Minnesota Statutes 2024, section 203B.121, subdivision 5, is amended to read:

Subd. 5. **Storage and counting of absentee ballots.** (a) On a day on which absentee ballots are inserted into a ballot box, two members of the ballot board must:

(1) remove the ballots from the ballot box at the end of the day;

(2) without inspecting the ballots, ensure that the number of ballots removed from the ballot box is equal to the number of ~~voters whose~~ absentee ballots ~~were accepted~~ from the tally in subdivision 4 that were to be inserted into the ballot box that day; and

(3) seal and secure all voted and unvoted ballots present in that location at the end of the day.

(b) After the polls have closed on election day, two members of the ballot board must count the ballots, tabulating the vote in a manner that indicates each vote of the voter and the total votes cast for each candidate or question. In state primary and state general elections, the results must indicate the total votes cast for each candidate or question in each precinct and report the vote totals tabulated for each precinct. The count must be recorded on a summary statement in substantially the same format as provided in section 204C.26. The ballot board ~~shall~~ must submit at least one completed summary statement to the county auditor or municipal clerk. The county auditor or municipal clerk may require the ballot board to submit a sufficient number of completed summary statements to comply with the provisions of section 204C.27, or the county auditor or municipal clerk may certify reports containing the details of the ballot board summary statement to the recipients of the summary statements designated in section 204C.27.

~~In state primary and state general elections,~~ These vote totals ~~shall~~ must be added to the vote totals on the summary statements of the returns for the appropriate precinct. ~~In other elections, these vote totals may be added to the vote totals on the summary statement of returns for the appropriate precinct or may be reported as a separate total.~~

The count ~~shall~~ must be public. No vote totals from ballots may be made public before the close of voting on election day.

(c) In addition to the requirements of paragraphs (a) and (b), if the task has not been completed previously, the members of the ballot board must verify as soon as possible, but no later than 24 hours after the end of the hours for voting, that voters whose absentee ballots arrived after the rosters were marked or supplemental reports were generated and whose ballots were accepted did not vote in person on election day. An absentee ballot submitted by a voter who has voted in person on election day must be rejected. All other accepted absentee ballots must be opened in accordance with the procedures outlined in subdivision 4, except for the absentee ballots cast using the alternative procedure in section 203B.081, subdivision 3, duplicated if necessary, and counted by members of the ballot board. Sec. 62. Minnesota Statutes 2024, section 204B.44, is amended to read:

204B.44 ERRORS AND OMISSIONS; REMEDY.

(a) Any individual may file a petition in the manner provided in this section for the correction of any of the following errors, omissions, or wrongful acts which have occurred or are about to occur:

(1) an error or omission in the placement or printing of the name or description of any candidate or any question on any official ballot, including the placement of a candidate on the official ballot who is not eligible to hold the office for which the candidate has filed;

(2) any other error in preparing or printing any official ballot;

(3) failure of the chair or secretary of the proper committee of a major political party to execute or file a certificate of nomination;

(4) any wrongful act, omission, or error of any election judge, municipal clerk, county auditor, canvassing board or any of its members, the secretary of state, or any other individual charged with any duty concerning an election.

(b) The petition shall describe the error, omission, or wrongful act and the correction sought by the petitioner. The petition shall be filed with any judge of the supreme court in the case of an election for state or federal office or any judge of the district court in that county in the case of an election for county, municipal, or school district office. The petitioner shall serve a copy of the petition on the officer, board or individual charged with the error, omission, or wrongful act, on all candidates for the office in the case of an election for state, federal, county, municipal, or school district office, and on any other party as required by the court. Upon receipt of the petition the court shall immediately set a time for a hearing on the matter and order the officer, board or individual charged with the error, omission or wrongful act to correct the error or wrongful act or perform the duty or show cause for not doing so. In the case of a review of a candidate's eligibility to hold office, the court may order the candidate to appear and present sufficient evidence of the candidate's

eligibility. The court shall issue its findings and a final order for appropriate relief as soon as possible after the hearing. Failure to obey the order is contempt of court.

(c) Any service required by this section on a candidate may be accomplished by electronic mail sent to the address the candidate provided on their affidavit of candidacy pursuant to section 204B.06, subdivision 1b, or by any other means permitted by law.

(d) If all candidates for an office and the officer, board, or individual charged with the error, omission, or wrongful act unanimously agree in writing:

(1) that an error, omission, or wrongful act occurred; and

(2) on the appropriate correction for the error, omission, or wrongful act,

then the officer, board, or individual charged with the error, omission, or wrongful act must correct the error in the manner agreed to without an order from the court. Such agreement must address, at a minimum, how the correction will take place and, if the correction involves a change to a ballot, how voters who have received or returned an incomplete ballot will be notified of the change and what, if any, steps voters who have returned an incorrect ballot can take to receive a corrected replacement ballot.

The officer, board, or individual must notify the secretary of state in writing of the error and proposed correction within one business day of receiving notification of the candidate's written agreement and must not distribute any ballots reflecting the proposed correction for two business days unless the secretary of state waives this notice period. Nothing in this paragraph shall be construed to preclude any person from filing a petition under this section alleging that the written agreement constitutes an error, omission, or wrongful act that requires correction by the court.

(e) Any candidate for an office who does not enter into an agreement under paragraph (d) and who does not prevail at any subsequent proceeding involving a petition filed under this section must pay the costs and disbursements of the prevailing party or parties unless the court determines that the candidate's position was substantially justified or such costs and disbursements would impose undue hardship or otherwise be inequitable.

(f) Notwithstanding any other provision of this section, an official may correct any official ballot without order from the court if the ballot is not in compliance with sections 204B.35 to 204B.37 or any rules promulgated under sections 204B.35 to 204B.37.

The official must document the attempts made to contact the voter.

If the ballot is accepted, the county auditor or municipal clerk must mark the roster to indicate that the voter has already cast a ballot in that election. After the close of business on the 19th day before the election, the ballots from return envelopes marked "Accepted" may be opened, duplicated as needed in the manner provided by section 206.86, subdivision 5, initialed by the members of the ballot board, and deposited in the ballot box.

In all other respects, the provisions of the Minnesota Election Law governing deposit and counting of ballots apply.

The mail and absentee ballots for a precinct must be counted together and reported as one vote total. No vote totals from mail or absentee ballots may be made public before the close of voting on election day.

The costs of the mailing shall be paid by the election jurisdiction in which the voter maintains residence. Any ballot received by 8:00 p.m. on the day of the election must be counted.

~~(6)~~ (5) an employee of the joint underwriting association pursuant to section 62I.121 or Minnesota FAIR plan pursuant to section 65A.35, subdivision 5, unless the commissioner determines that making these employees eligible to purchase this coverage would cause the state employee group insurance program to lose its status as a governmental plan or would cause the program to be treated as a multiemployer welfare arrangement.

If the arbitrator finds that there exists sufficient grounds for institution of the appointing authority's action but the hearing record establishes extenuating circumstances, the arbitrator may reinstate the employee, with full, partial, or no pay, or may modify the appointing authority's action. Sec. 11. **[161.1611] PURPOSE AND NEED STATEMENT CONTEXTUAL DEVELOPMENT REQUIREMENTS; SCOPING PROCESS REQUIRED.**

Subdivision 1. **Definitions.** For purposes of this section, the following terms have the meanings given:

(1) "planning worksheet scoping guide" means a checklist of considerations developed by the commissioner to consider with stakeholders for determining a project's scope in the scoping document;

(2) "project" means the scoping, assessment, study, or other analysis activity designed to identify or provide for development of a trunk highway project;

(3) "purpose and need" is a statement by the department to explain why a proposed action is being undertaken and its objectives by:

(i) identifying the need as a transportation problem or deficiency; and

(ii) identifying the purpose as a broad statement of the intended transportation result and other related objectives to be achieved by a proposed transportation improvement; and

(4) "scoping document" means a document that identifies a statement of what will be built as part of the project.

Subd. 2. **Application.** (a) The requirements in this section apply to a project that:

(1) involves construction, reconstruction, bridge replacement, increases or reductions in highway traffic capacity, alteration of access, or acquisitions of permanent right-of-way; or

(2) requires an environmental impact statement under chapter 116D for the project.

(b) Except for a project under paragraph (a), clause (1), the requirements in this section do not apply to reconditioning, resurfacing, milling, overlays, preventive maintenance, other routine roadway maintenance activities or projects, and associated set-asides.

Subd. 3. **Purpose and need.** (a) A purpose and need statement developed for a project must not identify a specific improvement as the need to avoid premature determination of investment approaches available for the project. Purpose and need statements must consider all possible approaches for a project and address the safety and access of all users of the transportation system.

(b) The commissioner must ensure that a purpose and need statement for a project can assess whether the need for a project is substantial enough to warrant investment inclusion in the state transportation improvement program, including relaxing expectations around the use of level-of-service metrics as the primary need for a project's development.

(c) The commissioner must incorporate multidisciplinary review processes under section 174.742 into the development of a context-specific purpose and need statement.

Subd. 4. **Scope; required before inclusion.** (a) The commissioner must require the use of a context-specific scoping document to identify the needs for a project before the project's inclusion in the state highway investment program. The scope document must conform with any adopted guidance by the commissioner and must:

(1) include a checklist of interested stakeholders to engage in the planning, design, and development of projects;

(2) recognize the degrees of variability and complexity across different project types; and

(3) require a context and modal accommodation analysis to:

(i) determine what modes of transportation are appropriate for the project corridor;

(ii) structure and document discussions around tradeoffs during early project development;

(iii) establish a suggested baseline for which modes should be prioritized based on the roadway type and land use context; and

(iv) provide a series of factors and questions to consider that would raise or lower the priority of each mode.

(b) Before finalization of any scoping document or draft scoping document for a project, the commissioner must require a coordination field visit and walking audit of the project corridor. To implement the requirements of this paragraph, the commissioner must develop guidance on coordinated field visits to:

(1) begin the initial engagement process with stakeholders for projects;

(2) provide guidance on what staff should identify in observing current conditions for all modes of travel and the surrounding land use; and

(3) coordinate across different jurisdictions to ensure collaboration and field visits at similar times in the project timeline.

Subd. 5. **Implementation.** The commissioner must implement the requirements of this section in a manner that does not conflict with the requirements under chapter 116D and the National Environmental Policy Act under United States Code, title 42, section 4331, et seq.

EFFECTIVE DATE. Subdivisions 1, 2, 3, and 5 are effective March 1, 2027, for projects on or after that date. Subdivision 4 is effective July 1, 2025, for projects scoped on or after that date.

Sec. 33. Minnesota Statutes 2024, section 169.06, subdivision 5, is amended to read:

Subd. 5. **Traffic-control signal.** (a) Whenever traffic is controlled by traffic-control signals exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination, only the colors Green, Red, and Yellow ~~shall~~ are permitted to be used, except for special pedestrian signals carrying a word or ~~legend~~ symbol. The traffic-control signal lights or colored lighted arrows indicate and apply to drivers of vehicles and pedestrians as follows:

(1) Green indication:

(i) Vehicular traffic facing a circular green signal may proceed straight through or turn right or left unless a sign prohibits either turn. But vehicular traffic, including vehicles turning right or left, ~~shall~~ must yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or adjacent crosswalk at the time this signal is exhibited. Vehicular traffic turning left or making a U-turn to the left ~~shall~~ must yield the right-of-way to other vehicles approaching from the opposite direction so closely as to constitute an immediate hazard.

(ii) Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by the arrow, or other movement as permitted by other indications shown at the same time. Vehicular traffic ~~shall~~ must yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(iii) Unless otherwise directed by a pedestrian-control signal as provided in subdivision 6, pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk. Every driver of a vehicle ~~shall~~ must yield the right-of-way to such pedestrian, except that the pedestrian ~~shall~~ must yield the right-of-way to vehicles lawfully within the intersection at the time that the green signal indication is first shown.

(2) Steady yellow indication:

(i) Vehicular traffic facing a steady circular yellow or yellow arrow signal is thereby warned that the related green movement or flashing yellow movement is being terminated or that a red indication will be exhibited immediately thereafter when vehicular traffic must not enter the intersection, except for the continued movement allowed by any green arrow indication simultaneously exhibited.

(ii) Pedestrians facing a circular yellow signal, unless otherwise directed by a pedestrian-control signal as provided in subdivision 6, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown and ~~no~~ a pedestrian ~~shall~~ must not then start to cross the roadway.

(3) Steady red indication:

(i) Vehicular traffic facing a circular red signal alone must stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and ~~shall~~ must remain standing until a green indication is shown, except as follows:

(A) the driver of a vehicle stopped as close as practicable at the entrance to the crosswalk on the near side of the intersection or, if none, then at the entrance to the intersection in obedience to a red or stop signal, and with the intention of making a right turn may make the right turn, after stopping, unless an official sign has been erected prohibiting such movement, but ~~shall~~ must yield the right-of-way to pedestrians and other traffic lawfully proceeding as directed by the signal at that intersection; or

(B) the driver of a vehicle on a one-way street intersecting another one-way street on which traffic moves to the left ~~shall~~ must stop in obedience to a red or stop signal and may then make a left turn into the one-way street, unless an official sign has been erected prohibiting the movement,

but ~~shall~~ must yield the right-of-way to pedestrians and other traffic lawfully proceeding as directed by the signal at that intersection.

(ii) Unless otherwise directed by a pedestrian-control signal as provided in subdivision 6, pedestrians facing a steady red signal alone ~~shall~~ must not enter the roadway.

(iii) Vehicular traffic facing a steady red arrow signal, with the intention of making a movement indicated by the arrow, must stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and must remain standing until a permissive signal indication permitting the movement indicated by the red arrow is displayed, except as follows: when an official sign has been erected permitting a turn on a red arrow signal, the vehicular traffic facing a red arrow signal indication is permitted to enter the intersection to turn right, or to turn left from a one-way street into a one-way street on which traffic moves to the left, after stopping, but must yield the right-of-way to pedestrians and other traffic lawfully proceeding as directed by the signal at that intersection.

(b) In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section are applicable except those which can have no application. Any stop required must be made at a sign or marking on the pavement indicating where the stop must be made, but in the absence of any such sign or marking the stop must be made at the signal.

(c) When a traffic-control signal indication or indications placed to control a certain movement or lane are so identified by placing a sign near the indication or indications, no other traffic-control signal indication or indications within the intersection controls vehicular traffic for that movement or lane.

(d) A peace officer is prohibited from stopping, detaining, or issuing a citation to a pedestrian for a violation of paragraph (a), clause (2), item (ii), or (3), item (ii), unless:

(1) the officer lawfully stops or detains the pedestrian for an unrelated violation or offense; or

(1) A steady "Walk" signal or the symbol of a "walking person" indicates that a pedestrian facing either of these signals may proceed across the roadway in the direction of the signal, possibly in conflict with turning vehicles. Every driver of a vehicle ~~shall~~ must yield the right-of-way to such pedestrian except that the pedestrian ~~shall~~ must yield the right-of-way to vehicles lawfully within the intersection at the time that either signal indication is first shown.

(2) A "Don't Walk" signal or the symbol of an "upraised hand," flashing or steady, indicates that a pedestrian ~~shall~~ must not start to cross the roadway in the direction of either signal, but any pedestrian who has partially crossed on the "Walk" or "walking person" signal indication ~~shall~~ must proceed to a sidewalk or safety island while the signal is showing.

(b) A pedestrian crossing a roadway in conformity with this section is lawfully within the intersection and, when in a crosswalk, is lawfully within the crosswalk.

(c) A peace officer is prohibited from stopping, detaining, or issuing a citation to a pedestrian for a violation of paragraph (a), clause (2), unless:

(e) The research must analyze whether an autonomous mower can operate safely in varied terrain, including ditches, and navigate obstacles such as culvert ends, guardrails, signposts, other barriers, and unexpected debris that may be found on or alongside a highway right-of-way. The research must examine the potential impact of autonomous mowing technology on worker safety and maintenance staffing needs.

(f) The commissioner must propose an autonomous mower pilot project to further study and examine the challenges to implementing autonomous mower technology into roadside vegetation management activities. The proposed pilot project must include the proposed location for the pilot project, the autonomous mower activities examined, and the anticipated timeline for implementation of the proposed pilot project.

(5) a statement as to whether the person filed a direct appeal from the conviction, a petition for postconviction relief, or both;

(6) a brief statement, not to exceed 3,000 words, explaining why the applicant is entitled to relief under this section from a conviction for the death of a human being caused by another; and

(7) the name and address of any attorney representing the applicant.

(b) The preliminary application may contain:

(c) In making the determination under paragraph (b), the reviewing judge shall consider the preliminary application and any materials submitted with the preliminary application and may consider relevant records in the possession of the judicial branch.

(d) The court may summarily deny an application when:

(4) the issues raised in the application are not relevant to the relief available under this section or have previously been decided by the court of appeals or the supreme court in the same case.

(e) The court may also summarily deny an application if the applicant has filed a second or successive preliminary application, any prior application was denied for a reason other than that it did not contain the information required under subdivision 3, paragraph (a), and:

(1) the reviewing judge previously determined that there was a reasonable probability that the applicant was entitled to relief, but a court determined that the petitioner did not qualify for relief under subdivision 6;

(2) a previous application was submitted by an attorney representing the applicant; or

(3) the reviewing judge previously determined that there was not a reasonable probability that the applicant is entitled to relief, the second or successive preliminary application does not contain any additional information described in subdivision 3, paragraph (b), and the second or successive preliminary application was submitted by someone other than an attorney representing the applicant.

(f) If the reviewing judge determines that there is a reasonable probability that the applicant is entitled to relief, the judge shall send notice to the applicant and the applicant's attorney, if any, and the prosecutorial office responsible for prosecuting the applicant. In the event the applicant is without counsel, the reviewing judge shall send notice to the state public defender and shall advise the applicant of the referral.

(g) If the reviewing judge determines that there is not a reasonable probability that the applicant is entitled to relief, the judge shall send notice to the applicant and the applicant's attorney, if any. The notice must contain a brief statement explaining the reasons the reviewing judge concluded that there is not a reasonable probability that the applicant is entitled to relief.

Subd. 5. **Petition for relief; hearing.** (a) Unless extended for good cause, within 60 days of filing of the notice sent pursuant to subdivision 4, paragraph (f), the individual seeking relief shall file and serve a petition to vacate the conviction. The petition must be filed in the district court of the judicial district in the county where the conviction took place and must contain the information identified in subdivision 3, paragraph (a), and a statement of why the petitioner is entitled to relief.

The petition may contain any other relevant information, including police reports, trial transcripts, and plea transcripts involving the petitioner or any other person investigated for, charged with, or convicted of a crime arising out of the same set of circumstances for which the petitioner was convicted. The filing of the petition and any document subsequent thereto and all proceedings thereon shall be without costs or any fees charged to the petitioner.

(b) Upon filing of the petition, the prosecutor shall make a good faith and reasonable effort to notify any person determined to be a victim of the underlying offense that a petition has been filed.

(c) A county attorney representing the prosecutorial office shall respond to the petition by answer or motion within 45 days after the filing of the petition pursuant to paragraph (a) unless extended for good cause. The response shall be filed with the court administrator of the district court and served on the petitioner if unrepresented or on the petitioner's attorney. The response may serve notice of the intent to support the petition or include a statement explaining why the petitioner is not entitled to relief along with any supporting documents. The filing of the response and any document subsequent thereto and all proceedings thereon shall be without costs or any fees charged to the county attorney.

(d) The petitioner may file a reply to the response filed by the county attorney within 15 days after the response is filed, unless extended for good cause.

(e) Within 30 days of the filing of the reply from the petitioner or, if no reply is filed, within 30 days of the filing of the response from the county attorney, the court shall:

(1) issue an order and schedule the matter for sentencing or resentencing pursuant to subdivision 6 if the county attorney indicates an intent to support the petition;

(2) issue an order denying the petition if additional information or submissions establish that there is not a reasonable probability that the applicant is entitled to relief under this section and include a memorandum identifying the additional information or submissions and explaining the reasons why the court concluded that there is not a reasonable probability that the applicant is entitled to relief; or

(3) schedule the matter for a hearing and issue any appropriate order regarding submission of evidence or identification of witnesses.

(f) The hearing shall be held in open court and conducted pursuant to Minnesota Statutes, section 590.04, except that the petitioner must be present at the hearing, unless excused under Rules of Criminal Procedure, rule 26.03, subdivision 1, clause (3). The prosecutor shall make a good faith and reasonable effort to notify any person determined to be a victim of the hearing.

Subd. 6. **Determination; order; resentencing.** (a) A petitioner who was convicted of a violation of Minnesota Statutes, section 609.185, paragraph (a), clause (1), is entitled to relief if the petitioner shows by a preponderance of the evidence that the petitioner:

(1) did not cause the death of a human being; and

(2) did not intentionally aid, advise, hire, counsel, or conspire with or otherwise procure another with premeditation or the intent to cause the death of a human being.

(b) If the court determines that the petitioner does not qualify for relief, the court shall issue an order denying the petition. If the court determines that the petitioner is entitled to relief, the court shall issue an order vacating the conviction for a violation of Minnesota Statutes, section 609.185, paragraph (a), clause (1), and:

(1) resentence the petitioner for a remaining offense for which the petitioner was convicted; or

(2) enter a conviction and impose a sentence for any lesser included offenses as described in Minnesota Statutes, section 631.14.

(c) If the court intends to enter a conviction and impose a sentence for a lesser included offense, the court must hold a hearing to determine the appropriate offense.

(d) If, pursuant to paragraph (b), the court either resentences a petitioner or imposes a sentence, the court shall also resentence the petitioner for any other offense if the sentence was announced by a district court of the same county, the sentence was either ordered to be served consecutively to the vacated conviction or the criminal history calculation for that sentence included the vacated sentence, and the changes made pursuant to paragraph (b) would have resulted in a different criminal history score being used at the time of sentencing.

(e) The court shall state in writing or on the record the reasons for its decision on the petition.

(f) If the court intends to resentence a petitioner or impose a sentence on a petitioner, the court must hold the hearing at a time that allows any victim an opportunity to submit a statement consistent with Minnesota Statutes, section 611A.038. The prosecutor shall make a good faith and reasonable effort to notify any person determined to be a victim of the hearing and the right to submit or make a statement. A sentence imposed under this subdivision shall not increase the petitioner's total period of confinement or, if the petitioner was serving a stayed sentence, increase the period of supervision. The court may increase the period of confinement for a sentence that was ordered to be served consecutively to the vacated conviction based on a change in the appropriate criminal history score, provided the court does not increase the petitioner's total period of confinement. A person resentenced under this paragraph is entitled to credit for time served in connection with the vacated offense.

(g) Relief granted under this section shall not be treated as an exoneration for purposes of the Incarceration and Exoneration Remedies Act.

(h) If the court enters a conviction under this subdivision, the court shall ensure that the date of the conviction being entered is the same as that of the original conviction.

EFFECTIVE DATE. This section is effective August 1, 2025.
