In the case of data stored in electronic form and made available in electronic form on a remote access basis to the public by the government entity, inspection includes remote access to the data by the public and the ability to print copies of or download the data on the public's own computer equipment. Nothing in this section prohibits a government entity from charging a reasonable fee for remote access to data under a specific statutory grant of authority. A government entity may charge a fee for remote access to data where either the data or the access is enhanced at the request of the person seeking access.

(c) The responsible authority or designee shall provide copies of public data upon request. If a person requests copies or electronic transmittal of the data to the person, the responsible authority may require the requesting person to pay the actual costs of searching for and retrieving government data, including the cost of employee time, and for making, certifying, and electronically transmitting the copies of the data or the data, but may not charge for separating public from not public data. However, if 100 or fewer pages of black and white, letter or legal size paper copies are requested, actual costs shall not be used, and instead, the responsible authority may charge no more than 25 cents for each page copied. If the responsible authority or designee is not able to provide copies at the time a request is made, copies shall be supplied as soon as reasonably possible.

(d) When a request under this subdivision involves any person's receipt of copies of public government data that has commercial value and is a substantial and discrete portion of or an entire formula, pattern, compilation, program, device, method, technique, process, database, or system developed with a significant expenditure of public funds by the government entity, the responsible authority may charge a reasonable fee for the information in addition to the costs of making and certifying the copies. Any fee charged must be clearly demonstrated by the government entity to relate to the actual development costs of the information. The responsible authority, upon the request of any person, shall provide sufficient documentation to explain and justify the fee being charged.

(e) The responsible authority of a government entity that maintains public government data in a computer storage medium shall provide to any person making a request under this section a copy of any public data contained in that medium, in electronic form, if the government entity can reasonably make the copy or have a copy made. This does not require a government entity to provide the data in an electronic format or program that is different from the format or program in which the data are maintained by the government entity. The entity may require the requesting person to pay the actual cost of providing the copy.

(f) If the responsible authority or designee determines that the requested data is classified so as to deny the requesting person access, the responsible authority or designee shall inform the requesting person of the determination either orally at the time of the request, or in writing as soon after that time as possible, and shall cite the specific statutory section, temporary classification, or specific provision of federal law on which the determination is based. Upon the request of any person denied access to data, the responsible authority or designee shall certify in writing that the request has been denied and cite the specific statutory section, temporary classification, or specific provision of federal law upon which the denial was based.

(g) If a responsible authority has notified the requesting person that responsive data or copies are available for inspection or collection, and the requesting person does not inspect the data or collect the copies within five days of the notification, the responsible authority may suspend any further response to the request until the requesting person inspects the data that has been made available or collects and pays for the copies that have been produced."

Subd. 2. **Plan implementation; components.** (a) The school board of each eligible district must formally develop and implement a long-term plan under this section. The plan must be incorporated into the district's comprehensive strategic plan under section 120B.11.

(b) The plan must contain goals for:

(1) reducing the disparities in academic achievement and in equitable access to effective and more diverse teachers among all students and specific categories of students under section 120B.35, subdivision 3, paragraph (b), excluding the student categories of gender, disability, and English learners; and

(2) increasing racial and economic diversity and integration in schools and districts.

(c) The plan must include strategies to validate, affirm, embrace, and integrate cultural and community strengths of all students, families, and employees in the district's curriculum as well as learning and work environments. The plan must address issues of institutional racism as defined in section 120B.11, subdivision 1, in schools that create opportunity and achievement gaps for students, families, and staff who are of color or who are American Indian. Examples of institutional racism

experienced by students who are of color or who are American Indian include policies and practices that intentionally or unintentionally result in disparate discipline referrals and suspension, inequitable access to advanced coursework, overrepresentation in lower-level coursework, inequitable participation in cocurricular activities, inequitable parent involvement, and lack of equitable access to racially and ethnically diverse teachers who reflect the racial or ethnic diversity of students because it has not been a priority to hire or retain such teachers.

(d) School districts must use local data, to the extent practicable, to develop plan components and strategies. Plans may include:

(1) innovative and integrated prekindergarten through grade 12 learning environments that offer students school enrollment choices;

(2) family engagement initiatives that involve families in their students' academic life and success and improve relations between home and school;

(3) opportunities for students, families, staff, and community members who are of color or American Indian to share their experiences in the school setting with school staff and administration and to inform the development of specific proposals for making school environments more validating, affirming, embracing, and integrating of their cultural and community strengths;

(4) professional development opportunities for teachers and administrators focused on improving the academic achievement of all students, including knowledge, skills, and dispositions needed to be antiracist and culturally sustaining as defined in section 120B.11, subdivision 1, for serving students who are from racially and ethnically diverse backgrounds;

(5) recruitment and retention of teachers, administrators, cultural and family liaisons, paraprofessionals, and other staff from racial, ethnic, and linguistic backgrounds represented in the student population to strengthen relationships with all students, families, and other members of the community;

(6) collection, examination, and evaluation of academic and discipline data for institutional racism as defined in section 120B.11, subdivision 1, in structures, policies, and practices that result in the education disparities, in order to propose antiracist changes as defined in section 120B.11, subdivision 1, that increase access, meaningful participation, representation, and positive outcomes for students of color and American Indian students;

(7) increased programmatic opportunities and effective and more diverse instructors focused on rigor and college and career readiness for students who are impacted by racial, gender, linguistic, and economic disparities, including students enrolled in area learning centers or alternative learning programs under section 123A.05, state-approved alternative programs under section 126C.05, subdivision 15, and contract alternative programs under section 124D.69, among other underserved students; or

~~(8) instruction in ethnic studies, as defined in section 120B.25, to provide all students with opportunities to learn about their own and others' cultures and historical experiences; or~~

(8) examination and revision of district curricula in all subjects to be inclusive of diverse racial and ethnic groups while meeting state academic standards and being culturally sustaining as

defined in section 120B.11, subdivision 1, ensuring content being studied about any group is accurate and based in knowledge from that group.

(e) Among other requirements, an eligible district must implement effective, research-based interventions that include multiple measures of assessment and engagement in order to eliminate academic disparities for students impacted by racial, gender, linguistic, and economic inequities as aligned with section 120B.11.

(f) Eligible districts must create efficiencies and eliminate duplicative programs and services under this section, which may include forming collaborations or a single, seven-county metropolitan areawide partnership of eligible districts for this purpose.

Page 32, after line 25, insert:

"Sec. 23. Minnesota Statutes 2024, section 122A.20, subdivision 2, is amended to read:

Subd. 2. **Mandatory reporting.** (a) A school board, superintendent, charter school board, charter school executive director, or charter school authorizer must report to the Professional Educator Licensing and Standards Board, the Board of School Administrators, or the Board of Trustees of the Minnesota State Colleges and Universities, whichever has jurisdiction over the teacher's or administrator's license, when its teacher or administrator is discharged or resigns from employment after a charge is filed with the school board under section 122A.41, subdivisions 6, paragraph (a), clauses (1), (2), and (3), and 7, or after charges are filed that are grounds for discharge under section 122A.40, subdivision 13, paragraph (a), clauses (1) to (5), or when a teacher or administrator is suspended or resigns while an investigation is pending under section 122A.40, subdivision 13, paragraph (a), clauses (1) to (5), or chapter 260E; or 122A.41, subdivisions 6, clauses (1), (2), and (3), and 7; or when a teacher or administrator is suspended without an investigation under section 122A.41, subdivisions 6, paragraph (a), clauses (1), (2), and (3), and 7, or chapter 260E. For the purposes of this subdivision, the term "discharge" includes a rescinded contract or a nonrenewed contract. A report must be filed if the teacher or administrator's contract is rescinded or nonrenewed in lieu of discharge under this subdivision. The report must be made to the appropriate licensing board within ten days after the discharge, suspension, or resignation has occurred. The licensing board to which the report is made must investigate the report for violation of subdivision 1 and the reporting board, administrator, or authorizer must cooperate in the investigation. Notwithstanding any provision in chapter 13 or any law to the contrary, upon written request from the licensing board having jurisdiction over the license, a board, charter school, authorizer, charter school executive director, or school superintendent shall provide the licensing board with information about the teacher or administrator from the district's files, any termination or disciplinary proceeding, any settlement or compromise, or any investigative file. Upon written request from the appropriate licensing board, a board or school superintendent may, at the discretion of the board or school superintendent, solicit the written consent of a student and the student's parent to provide the licensing board with information that may aid the licensing board in its investigation and license proceedings. The licensing board's request need not identify a student or parent by name. The consent of the student and the student's parent must meet the requirements of chapter 13 and Code of Federal Regulations, title 34, section 99.30. The licensing board may provide a consent form to the district. Any data transmitted to any board under this section is private data under section 13.02, subdivision 12, notwithstanding any other classification of the data when it was in the possession of any other agency.

(b) The licensing board to which a report is made must transmit to the Attorney General's Office any record or data it receives under this subdivision for the sole purpose of having the Attorney General's Office assist that board in its investigation. When the Attorney General's Office has informed an employee of the appropriate licensing board in writing that grounds exist to suspend or revoke a teacher's license to teach, that licensing board must consider suspending or revoking or

decline to suspend or revoke the teacher's or administrator's license within 45 days of receiving a stipulation executed by the teacher or administrator under investigation or a recommendation from an administrative law judge that disciplinary action be taken.

(c) The Professional Educator Licensing and Standards Board and Board of School Administrators must report to the appropriate law enforcement authorities a revocation, suspension, or agreement involving a loss of license, relating to a teacher or administrator's inappropriate sexual conduct with a minor. For purposes of this section, "law enforcement authority" means a police department, county sheriff, or Tribal police department. A report by the Professional Educator Licensing and Standards Board to appropriate law enforcement authorities does not diminish, modify, or otherwise affect the responsibilities of a school board or any person mandated to report abuse under chapter 260E.
